

Hi! I saw on the Fox31 news site that your taking noise complaints from Centennial Airport.

Here are my complaints, or lack there of. I love aviation and moved specifically to the approach end of runway 35R at Centennial to see more planes, and hear the wonderful noise they make. I thought I would hear a lot more than I do. I laugh every time I hear people complain about noise from an airport. I don't think they really understand life to much, I mean, if one lives by an airport, one should expect to hear noise from it.

I want more noise!!!! and thanks for listening.
