

We recently learned that Centennial is planning on diverting airport noise from Highlands Ranch/Lone Tree to Castle Pines North. This plan is patently unfair and outrageous. Residents of Castle Pines North chose to drive the extra distance in order to avoid such noise - we have rights too, as I am sure you know.

Please reconsider this misguided plan. If there is anything further I need to do to have my voice heard, please let me know. Thank you for your time, courtesy and consideration.

Very truly yours,
