

I hope you are the right person to contact about this. I live at 6905 E. Spur Lane in Parker (Sierra Vista). I'm a nurse practitioner employed downtown at the VA Hospital. I work lots of long hours every week. Recently I've been awakened multiple times by aircraft during the night, which I think has become frequent in recent months. I am recovering from a military related head injury and find this very disruptive to my sleep, which in turn increases my symptoms and ability to get to work. I've actually had to take days off because of this. I was in the Air Force for 24 years and am not really bothered a lot by daytime flight noise, and actually still enjoy Buckley's jets. Do you know why there is so much night noise coming from Centennial? It's not a major airport, so it's kind of ridiculous. If I need to contact someone else, please let me know. Thanks.
