Attention: Ms. Linda Bruce

RE: Federal Register Notice No. 73 FR 9847

Ms. Bruce,

We are 28 year residents of the Village East neighborhood in Aurora, Colorado. We would like to voice our opposition to the proposed flight patterns for Centennial Airport. Although we understand that this proposal is to diminish noise in certain areas it will increase the noise levels in our neighborhood.

We had no airplane noise when we purchased our home 28 years ago and we do not want airplane noise now. This will devalue our property and as you can imagine, our home is one of our greatest assets. Another factor to consider is our quality of life. We enjoy our outdoor space and would be terribly upset if that were to change.

Please reconsider your proposal to change the flight patterns of Centennial Airport. As long term residents of Aurora and the Village East neighborhood we deserve better.

Thank you for your attention to this matter.
