

Weekly Monster Seminar JAM

LIVE, at the Old Fisheries Center Auditorium 201 (UW)

Winter 2007

Thursday, March 1st - 11:00 A.M.

There's No Place Like Home? Spatial Patterns of Homing and Spawning Site Selection in Supplemented and Wild Spring Chinook Salmon

Dr. Andrew Dittman

Resource Enhancement and Utilization Technologies Division
Northwest Fisheries Science Center

Win 2007 Monster JAM Seminar Schedule

Jan 4	Something About Lampreys: Conservation of an Oft Maligned Fish	M. MOSER
Jan 11	60 Years of Environmental Monitoring in the World's Largest Lake: the Paradox of Successful Monitoring Without Agencies	S. KATZ
Jan 18	Evaluating the Potential Health Impacts of Polybrominated Diphenyl Ether (PBDE) Flame Retardants using Teleost Fish Models	S. LEMA
Jan 25	From Chemical Warfare, Spies, & Drugs; & the Tropics to the Cold North Pacific: A History of Marine Biotxin Research at the NW Fisheries Science Center	J. WEKELL
Feb 1	Remote, in situ Detection of Marine Plankton using the Environmental Sample Processor: Field and Laboratory Analyses	D. GREENFIELD
Feb 8	Smart Prevention of Invasive Species in Aquatic Ecosystems	J. OLDEN
Feb 15	Winter Ecology of Pacific Salmon During their Marine Life	M. TRUDEL
Feb 22	Ontogeny of Swimming in Dolphins: Implications for Interactions with the ETP Tuna-purse Seine Fishery	S. NOREN
Mar 1	There's No Place Like Home? Spatial Patterns of Homing and Spawning Site Selection in Supplemented and Wild Spring Chinook Salmon	A. DITTMAN
Mar 8	What are the past, present and future dynamics of hypoxia on the Oregon shelf?	F. CHAN
