Dr. Linda Bauer named President, BWXT Savannah River Company

Aiken, SC, April 20, Washington Savannah River Company has named Dr. Linda R. Bauer president of BWXT Savannah River Company. Dr. Bauer's most recent position was Manager of the Savannah River Site (SRS) Tritium Extraction Facility. As president, Dr. Bauer is responsible for overseeing the nuclear materials management and Tritium Extraction Facility operational services provided by BWXT as a WSRC partner, which manages and operates SRS for the Department of Energy (DOE).

As president of BWXT Savannah River Company, she will report to WSRC President Leo Sain.

With 20 years experience in the nuclear industry, Dr. Bauer has served as the General Manager, Oak Ridge Operations Office for BWXT Services, Inc.; General Manager for the Parks Environmental Restoration Project in Pennsylvania; and managed nuclear safety, environmental monitoring and compliance and analytical laboratory functions for the DOE Mound Plant in Ohio.

"Dr. Bauer brings the technical experience and exemplary leadership necessary to perform the vital national security work performed at the Savannah River Site," said Bob Cochran, president of BWXT Services, Inc.

Dr. Bauer earned a Bachelor of Science degree in chemistry from the University of Memphis and a Master of Science and Ph.D. in Radioactive Waste Management from Purdue University.

WSRC, a Washington Group International Company, operates SRS for the DOE. The WSRC team includes Bechtel Savannah River Inc., BNG America Savannah River Company, BWXT Savannah River Company and CH2 Savannah River Company.

WSRC07-09
