Paperwork Reduction Act Statement: The information collected on this form is necessary to record and publish pavement weights at airports. The information is the permanent record of the pavement section and pavement strength. This information is published for use by airports and pilots as well as emergency readiness preparation. The information is available each time a pavement is overlaid or reconstructed and takes approximately 30 minutes to update. The benefit is to insure that pavements are not overloaded and damaged in order to protect the public interest. The information is published in airport directories and is available to the public. Please note that an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control number associated with this collection is 2120-0569. Comments concerning the accuracy of this burden and suggestions for reducing the burden should be directed to the FAA at: 800 Independence Ave. SW, Washington, DC 20591, Attn: Information Collection Clearance Officer, ABA-20.
