

### **Attributes Used To Prepare the Financial Report of the United States Government**

USSGL attributes are one component of detailed data in agencies' financial systems related to the external reporting of financial statements. The FACTS I data table shows the USSGL account balances and the related attribute information captured at the transaction level that support production of the *Financial Report of the United States Government*. The USSGL crosswalks for the financial statements reference these attributes as a requirement for proper reporting on the particular financial statement line items.

### **Office of Management and Budget (OMB) Form and Content Agency Financial Reports**

The FACTS I data table does not show all the USSGL account attributes necessary to produce agency financial statements required by OMB. Refer to Section V: Crosswalks to Standard External Reports.

### **Attribute Definition Report**

This report provides definitions for the attributes associated with each proprietary USSGL account for FACTS I reporting. Agencies are required to report their adjusted trial balances and selected NOTES amounts in FACTS I with attributes described in the detailed financial information.

### **FACTS I USSGL Accounts and Attributes**

The USSGL account and related attribute tables show USSGL accounts, account titles, and normal balance indicators for USSGL accounts that agencies will use for FACTS I reporting. The tables also show the related attributes agencies must provide for each USSGL account reported in FACTS I; these columns contain one of three values:

Space	This attribute is <b>not reported</b> in FACTS I for the USSGL account.
Y	The attribute domain value is required in FACTS I when this USSGL account is submitted. A list of the valid values for each attribute is on the last page of the attribute table.
Other	In some cases, attributes are filled in with a value other than "Y" or space. For example, Federal/non-Federal attribute domain values often appear with an "F" (Federal) in a shaded cell. Shaded attributes indicate the domain value that FACTS I defines as appropriate for a specific USSGL accounts. The FACTS I system will supply shaded attribute values for the designated USSGL accounts.

The FACTS I team may update the table periodically between USSGL TFM releases. For the latest information, access the GFRS/FACTS I Web site at [www.fms.treas.gov/factsi/index.html](http://www.fms.treas.gov/factsi/index.html).
