Loveland, CO 80539-3003

June 2, 2005

To Whom It May Concern:

This is to inform you that RMC, Inc. of Lakewood, Colorado, is in the process of doing environmental surveys for Western Area Power Administration's (Western) Granby Pumping Plant-Windy Gap Transmission Line. The surveys are in preparation for rebuilding and upgrading the transmission line.

Precautions including the use of existing trails or roads, closing gates, and avoiding wet areas will be exercised. Western will be responsible for any damages that may occur as a result of this activity. The survey work is expected to begin the week of June 13th, 2005.

If you have any questions or concerns, please contact Western's Lands Division at 1-800-472-2306.

Thank you for your cooperation in this matter.

Sincerely,

A handwritten signature in cursive script that reads "Carey Ashton".

Carey Ashton  
Realty Officer
