#### <u>GLOSSARY</u>

<u>Actual parole eligibility date</u> is the date that an adult inmate is actually eligible for consideration for parole. Such date is calculated, except as otherwise provided by statute, by the application of the following credits: jail credit, commutation credit, and earned work and minimum credit as of a specified date.

<u>Book parole eligibility date</u> is the parole eligibility date established pursuant to <u>N.J.S.A.</u> 30:4-123.51 and <u>N.J.S.A.</u> 30:4-123.64. Such date is calculated by the application of jail credit and, except as otherwise provided for by statute, commutation credit.

<u>Flat parole eligibility</u> is the parole eligibility date established on an individual term pursuant to <u>N.J.S.A.</u> 30:4-123.51 and <u>N.J.S.A.</u> 30:4-123.64 prior to aggregation for the purposes of the calculation of a single parole eligibility date. Such date is calculated by the application of jail credit.

<u>Commutation credit or "good time"</u> is credit awarded to an inmate pursuant to <u>N.J.S.A.</u> 30:4-140. It is not an earned credit but is a credit automatically applied in the computation of a parole eligibility date. Commutation credit awarded in the calculation of parole eligibility is based on the balance of one-third (1/3) of the term imposed less jail credit.

Jail credit is credit awarded by the court for days spent in custody prior to the date of sentence.

<u>Work credit</u> is credit earned pursuant to <u>N.J.S.A.</u> 30:4-92 at the rate of one (1) day for every five (5) days the inmate works in the institution.

<u>Minimum custody credit</u> is credit earned pursuant to <u>N.J.S.A.</u> 30:4-92 at the rate of three (3) days per month during the first year that an inmate is classified into minimum custody, and at a rate of five (5) days per month after the first year of minimum custody status.

<u>Gap time credit</u> is credit awarded pursuant to <u>N.J.S.A.</u> 2C:44-5(b)2. It is the time served from the first date of sentence to a subsequent date of sentence. The sentence imposed on the subsequent date of sentence must constitute the disposition on an offense which was committed prior to the first date of sentence.

1

<u>Rosado credit</u> is credit awarded, pursuant to <u>State</u> v. <u>Rosado</u>, 131 <u>N.J.</u> 423 (1993), on a sentence being imposed for violation of probation. It is credit for time served under parole supervision on a county jail term imposed as a special condition of the original probationary term.

### Parole Eligibility

The computation of an offender's parole eligibility date is based on the following basic calculation:

Parole Eligibility Term – Application Credit = Actual Parole Eligibility Date

(a) Specific Term of Years (No mandatory-minimum term)

Parole Eligibility Term: One-third of sentence

Applicable Credit: Jail Credit Commutation Credit Earned Work Credit Earned Minimum Custody Credit

(b) Specific Term of Years (mandatory-minimum term)

Parole Eligibility Term: Mandatory-minimum term

Applicable Credit: Jail Credit

(c) Indeterminate Term (Young Adult)

Parole Eligibility Term: Time Goal (established pursuant to State Parole Board Schedule)

Applicable Credit: Jail Credit Program Participation Credit

This example illustrates the method of calculating parole eligibility when a specific term of years is imposed which does not contain a mandatory minimum term.

Date of Sentence:	6/10/02
Term:	10 years
Jail Credit:	61 days (4/11/02 to 6/10/02)

- 1. Add 1/3 of 10 year term (3 years, 4 months) to the date of sentence (6/10/02) thereby yielding a date of 10/10/05.
- 2. Subtract sixty-one (61) days of jail credit from 10/10/05. This gives a <u>flat</u> eligibility date of 8/10/05.
- 3. Subtract commutation credit. To determine appropriate commutation credit calculate the time period between the date of sentence (6/10/02) and the flat eligibility date of 8/10/05. This time period is 3 years, 2 months. Locate this time period on the commutation chart (Appendix A). In this example, the commutation credit is 268 days. Subtract the 268 days of commutation credit from the <u>flat</u> eligibility date of 8/10/05. This gives a <u>book</u> eligibility date of 11/15/04.
- 4. Subtract work/minimum credit. In this example, assume that the inmate has earned a total of 35 days of credit as of 2/1/03. Subtract 35 days from the book eligibility date of 11/15/04. This gives an <u>actual</u> eligibility date of 10/11/04 as of 2/1/03.

\* Please note that the State Parole Board's parole eligibility table (Appendix B) illustrates the earliest to the latest parole eligibility dates for specific terms and lists applicable commutation credits, as well as the estimated maximum amount possible of work and minimum custody credits.

## Example 1

\* NOTE: A nine (9) month "parole restriction" applies in prison cases.

NOTE: Any credit earned after 2/1/03 would further reduce the parole eligibility date of 10/11/04

This example illustrates the method of calculating parole eligibility when a specific term of years is imposed which includes a mandatory minimum term.

Date of Sentence:	6/10/02
Term:	10 years (5 years mandatory minimum)
Jail Credit:	61 days (4/11/02 to 6/10/02)

- 1. Add mandatory minimum term (5 years) to the date of sentence (6/10/02) thereby yielding a date of 6/10/07.
- 2. Subtract 61 days jail credit from 6/10/07. This gives an <u>actual</u> eligibility date of 4/10/07.
- \* Mandatory minimum terms cannot be reduced by commutation, work or minimum custody credits.

	Date of Sentence: Term: Jail Credit:		6/10/02 10 years (5 years mandatory minimum) 61 days (4/11/02 to 6/10/02)

\* NOTE: Mandatory minimum terms cannot be reduced by commutation, work or minimum custody credits.

This example illustrates the method of calculating parole eligibility when an additional specific term containing a mandatory minimum term is imposed consecutively to a specific term of years not containing a mandatory minimum term.

Date of Sentence:	06/10/02
Term:	(a) 5 years
	(b) 10 years (5 years mandatory minimum) C/S
Jail Credit:	61 days (04/11/02 to 06/10/02)

- 1. Add 1/3 of 5 year term (1 year, 8 months) to the date of sentence (06/10/02) thereby yielding a date of 02/10/04.
- 2. Subtract 128 days commutation credit based on 1 year, 8 months (time period from 06/10/02 to 02/10/04), from 02/10/04 thereby yielding a date of 10/05/03.
- 3. Subtract work/minimum custody credits. In this example assume that the inmate has earned a total of 66 days of credit as of 07/31/03. Subtract 65 days from the date of 10/05/03 thereby yielding a date of 07/31/03.
- 4. Add mandatory minimum term (5 years ) to 07/31/03 thereby yielding a date of 07/31/08.
- 5. Subtract 61 days jail credit from 07/31/08. The resulting date of 05/31/08 is the <u>actual</u> parole eligibility date and mandatory minimum expiration date.

\* NOTE: The above method of calculating parole eligibility would be the same if the five year term (without jail credit) was imposed on 06/10/02 and the consecutive ten year term (five years mandatory-minimum) with 61 days jail credit) was imposed on a subsequent date.

This example illustrates the method of calculating parole eligibility when an additional specific term of years is imposed consecutively to a specific term which contains a mandatory minimum term.

Date of Sentence:	06/10/02
Term:	(a) 10 years (5 years mandatory minimum)
	(b) 5 years C/S
Jail Credit:	61 days (04/11/02 to 06/10/02)

- 1. Add mandatory minimum term (5 years) to date of sentence (06/10/02) thereby yielding a date of 06/10/07.
- 2. Subtract sixty-one (61) days jail credit from 06/10/97. The resulting date of 04/10/07 is the mandatory minimum expiration date.
- 3. Add 1/3 of the 5 year term (1 year, 8 months) to 04/10/07 thereby yielding a flat eligibility date of 12/10/08.
- 4. Subtract 588 days commutation credit, based on 6 years, 6 months (time period from 06/10/02 to 12/10/08, from 12/10/08 thereby yielding a <u>book</u> eligibility date of 05/02/07.
- 5. Apply accrued work and minimum custody credits upon expiration of the mandatory minimum term.

\* Please note that applied commutation, work and minimum credits cannot reduce the actual parole eligibility date below the mandatory minimum expiration date of 04/10/07.

	Date of Sentence: Term: Jail Credit: Commutation Cred	it:	06/10/02 (a) 10 years (5 years mandatory minimum) (b) 5 years c/s 61 days (04/11/02 to 06/10/02) 588 days (based on 6 years 6 months time period from 06/10/02 to 12/10/08)

Commutatio	n Credit	-	12 – 10 – 08 <u>588</u> dys.
			05 - 02 - 07

- \* NOTE: The application of commutation credit and the application of accrued work/minimum custody credits upon the expiration of the mandatory minimum term cannot reduce the actual parole eligibility date below 04/10/07, the expiration date of the mandatory minimum term.
- \* NOTE: The above method of calculating parole eligibility would be the same if the ten year term (five years mandatory-minimum) (with 61 days jail credit) was imposed on 06/10/02 and the consecutive five year term (without jail credit) was imposed on a subsequent date. However, the application of "gap time" (see Example #5) would impact on determining the parole eligibility term derived from the consecutive flat sentence.

This example illustrates the method of calculating parole eligibility when a specific term of years which does not contain a mandatory-minimum term is imposed concurrent to a specific term of years which does not contain a mandatory-minimum term and "gap time" credit is awarded.

 Date of Sentence: (a) 06/10/02
 (b) 09/09/02

 Term:
 (a) 5 years

 Jail Credit:
 (a) 61 days (04/11/02 to 06/10/02)

 Gap Time Credit:
 92 days (06/10/02 to 09/09/02)

- 1. Add 1/3 of a 5 year term (1 year, 8 months) to the date of sentence (06/10/02) thereby yielding a date of 02/10/04.
- 2. Subtract sixty-one (61) days of jail credit from 02/10/04. This gives a <u>flat</u> eligibility date of 12/11/03 on the base 5 year term.
- 3. Subtract the 92 days (or three months for the purpose of this illustration) of "gap time" credit from the 5 year term imposed on 09/09/02. The reduced term is 4 years, 9 months (5 years minus 3 months).
- 4. 1/3 of the 4 years 9 months term (1 year, 7 months) commences on the date of sentence (09/09/02) thereby yielding a date of 04/08/04.
- 5. Subtract the 30 days of jail credit from 04/08/04. This gives a <u>flat</u> eligibility date of 03/09/04 on the additional 5 year term.
- 6. Subtract commutation credit. To determine the appropriate commutation credit calculate the time period from the first date of sentence (06/10/02) to the latest flat eligibility date (03/09/04). This time period is 1 year 9 months and is deemed to be the aggregate parole eligibility term. Identify the applicable amount of commutation credit (see Appendix A). In this example, the commutation credit is 135 days. Subtract the 135 days of commutation credit from the latest flat eligibility date of 03/09/04. This gives a <u>book</u> eligibility date of 10/26/03.
- Subtract work/minimum custody credit. In this example, assume that the inmate has earned 35 days of credit as of 02/01/03. Subtract 35 days from the book eligibility date of 10/26/03. This gives an <u>actual</u> eligibility date of 09/21/03 as of 02/01/03.
- **NOTE:** Regardless of whether a subsequent sentence is imposed concurrently or consecutively to the base sentence, "gap time" must be applied to reduce the sentence prior to determining the parole eligibility term (one-third of the reduced sentence when no mandatory-minimum term is imposed) derived from said sentence. However, in no case does "gap time" impact on a statutorily or judicially imposed mandatory-minimum term.

<u>Actual</u> Parole Eligibility Da (as of 02/01/03)	ate				09 – 21 – 03

\* NOTE: Any credit earned after 02/01/03 would further reduce the parole eligibility date of 09/21/03.

This example illustrates the method of calculating parole eligibility when an Indeterminate term is imposed.

Date of Sentence:	06/10/02
Offense:	Robbery, second degree
Term:	Indeterminate (5 years)
Jail Credit:	120 days (02/11/02 to 06/10/02)

- 1. A 5 year indeterminate sentence for Robbery, second degree, has a presumptive time goal of twenty (20) months **(Appendix C)**. Assuming no aggravating or mitigating circumstances in this case, the Young Adult Panel would establish a twenty (20) month time goal.
- 2. The tentative parole eligibility date is calculated by adding the time goal (20 months) to the date of sentence (06/10/02), and reducing this by 120 days jail credit (02/11/02 to 06/10/02). The resulting date of 10/13/03 would be the tentative parole eligibility date.
- 3. A young adult inmate's actual parole eligibility date is computed by reducing the tentative parole eligibility date by program participation credits. These program credits are determined by the Board panel during the hearing process.
- 4. Program credits are assigned based on the inmate's time goal less jail credit. In this example, program credits would be allowed on the basis of 20 months (the time goal) less 120 days (the jail credit) or 16 months.
- 5. Program participation credits are awarded on the following schedule:

ASSESSMENT	CREDIT (per month of correctional time
Above Average	15 days
Average	10 days
Below Average	5 days
Poor	0 days

- 6. Assuming "above average" credits were awarded for program participation to the inmate in this example, the tentative eligibility date would be reduced by 240 days (15 days credit multiplied by 16 months). The new tentative release date would be reduced from 10/13/03 to 02/15/03.
- 7. The decision to grant reductions for program participation is a separate decision from whether parole release is approved. Although both of these decisions may be made during the mid-goal review, it is important to understand this difference.

# \* Please note the Primary Parole Eligibility Charge for Young Adult Offenders (Appendix D), which illustrates the earliest to latest dates based on program reduction credits.

## **APPENDIX C**

#### TIME GOAL SCHEDULE FOR YOUNG ADULTS

(Applies to Offenses committed on or after May 6, 1985)

The schedule of presumptive parole eligibility terms shown below is used as a guide by the Board panel when time goals are set. In order to determine the presumptive eligibility term for an offense and sentence, you should follow the steps shown below.

#### PRESUMPTIVE PRIMARY ELIGIBILITY DATES (MONTHS)

#### LENGTH OF INDETERMINATE TERM (Years)

CRIME CATEGORY	0-4	5-9	10-14	15-19	20-24	25-29	30-Life
Category A		40	56	74	90	106	120
Category B	16	32	40	48	56	56	56
Category C	16	28	36	44	52		
Category D	14	20	28	36	44		
Category E	12	14	18	22	22		
Category F	10	10					
Category G	8						

A. Find the category of your crime in the chart below. If the sentence is for more than one crime, use the highest category.

Category A Category B	<ul> <li>Murder</li> <li>Aggravated Manslaughter, Kidnapping first degree, Aggravated Sexual Assault, or any other first degree</li> </ul>
Ostanan ( O	crime
Category C	- Robbery first degree
Category D	<ul> <li>Manslaughter, Robbery second degree, Aggravated Assault second degree, Sexual Assault or any other second degree crime</li> </ul>
Category E	<ul> <li>Sale or Distribution of Controlled Dangerous Substance and Possession of Controlled Dangerous Substance with Intent to Distribute</li> </ul>
Category F	<ul> <li>Burglary third degree, Possession of a Weapon for an Unlawful Purpose third degree, Unlawful Possession of a Weapon third degree, Terroristic Threats, Aggravated Assault third degree, Death by Auto, Endangering the Welfare of a Child third degree, any other third degree crime, or Possession of Controlled Dangerous Substance</li> </ul>
Category G	<ul> <li>Criminal Sexual Contact, Forgery fourth degree, Possession of a Weapon fourth degree, or any other fourth degree crime.</li> </ul>

- B. Identify the length of the indeterminate sentence on the top line of the schedule. Follow this column down to the appropriate category to determine the presumptive term for the crime and sentence.
- C. It is important to remember that the actual time goal which a person received may be set above or below the presumptive term because of aggravating or mitigating factors of the case.

NOTE: A young adult offender's actual parole eligibility date is computed by reducing the tentative parole eligibility date (based on the eligibility term/time goal minus jail credit) by program participation credits. These program credits are determined by the Board panel at each Annual Review Hearing and at the Mid-Goal Review Hearing.

All computations are based on zero jail credits.
