Order No. 607 (64 FR 51222, September 22, 1999) requires Commission decisional employees, who make or receive an exempt or prohibited off-the-record communication relevant to the merit's of a contested on-the-record proceeding, to deliver a copy of the communication, if written, or a summary of the substance of any oral communication, to the Secretary.

SUPPLEMENTARY INFORMATION: On March 4, 2003, Western published the proposed procedures and call for applications in the **Federal Register**.

Western held public information and comment forums on April 8-10, 2003, to accept oral and written comments on the proposed procedures and call for applications. Applications for power were accepted at Western's Upper Great Plains Customer Service Region until close of business on June 2, 2003. On December 2, 2003, Western published the final procedures in the **Federal Register**. The proposed allocations of power published here are the result of those applications received during the call for applications. Applications received were subjected to the Final Post-2005 Resource Pool Allocation Procedures.

I. Proposed Allocation of Power

Western received 14 applications for the Post-2005 Resource Pool. Review of

the applications indicated that 11 of the 14 applicants did not qualify under the Final Post-2005 Resource Pool Allocation Procedures. The proposed allocations of power for new customers were calculated using the Final Post-2005 Resource Pool Allocation Procedures. The proposed summer allocations are 24.84413 percent of total summer load; the proposed winter allocations are 35.98853 percent of total winter load as defined in the Post-1985 Marketing Plan criteria, under the Final Post-2005 Resource Pool Allocation Procedures. The proposed allocations of power for new eligible customers and the loads these allocations are based upon are as follows:

New customers	2002 Summer season load kilowatts	2002 Winter season load kilowatts	Proposed post-2005 power allocation	
			Summer kilowatts	Winter kilowatts
City of Auburn, IA	515	409	128	147
City of Pocatowas, IA	4,236	2,980	1,052	1,072
Montana State University—Bozeman, MT	8,506	8,536	2,113	3,072

The proposed allocations of power for new customers listed in the table above are based on the P-SMBP—ED marketable resource available at this time. If the P-SMBP—ED marketable resource is adjusted in the future, the proposed allocations of power may be adjusted accordingly. Entities interested in commenting on the proposed allocations of power must submit comments to Western's Upper Great Plains Customer Service Regional Office as described earlier. Western will respond to the comments received on the proposed allocations of power and publish its final allocations after the end of the public comment period. Western will then begin negotiating new customer contracts.

II. Review Under the Regulatory Flexibility Act

The Regulatory Flexibility Act of 1980, 5 U.S.C. 601, *et seq.*, requires Federal agencies to perform a regulatory flexibility analysis if a final rule is likely to have a significant economic impact on a substantial number of small entities and there is a legal requirement to issue a general notice of proposed rulemaking. Western has determined this action does not require a regulatory flexibility analysis since it is a rulemaking of particular applicability relating to rates or services.

III. Small Business Regulatory Enforcement Fairness Act

Western determined this rule is exempt from congressional notification requirements under 5 U.S.C. 801 because the action is a rulemaking to approve or prescribe rates or services and involves matters of agency procedure.

IV. Determination Under Executive Order 12866

Western has an exemption from centralized regulatory review under Executive Order 12866; so this notice requires no clearance by the Office of Management and Budget.

Dated: March 17, 2004.

Administrator.
