SECTION V. USSGL Crosswalks to Standard External Reports

This section includes crosswalks for use in fiscal 2009. These crosswalks map USSGL accounts to external reports in accordance with current reporting guidance from the Office of Management and Budget (OMB), the Federal Accounting Standards Advisory Board (FASAB), and the Financial Management Service (FMS).

Each report crosswalk lists the proper USSGL accounts and applicable attributes for each line and/or column on the reports. Attributes identify information subsidiary to the basic 4-digit USSGL accounts. This subsidiary information is necessary to meet external reporting requirements. See Section IV for additional information on attributes.

All crosswalks require preclosing USSGL account balances.

The following are crosswalks from the USSGL Chart of Accounts to standard external reports required by OMB and FMS:

¹ OMB Circular No. A-136, "Financial Reporting Requirements" (Form and Content), dated June 29, 2007, states that the Statement of Financing is no longer a basic statement but rather a schedule, "Reconciliation of Net Cost of Operations to the Budget," in the notes to the financial statements. Preparers of financial statements may refer to OMB Circular No. A-136, revised July 24, 2006, for Statement of Financing guidance by accessing the OMB Web site at http://www.whitehouse.gov/omb/circulars/a136/a136_revised_2006.pdf. The USSGL TFM T/L S2 06-02, Statement of Financing crosswalk, provides guidance in preparing the OMB schedule, "Reconciliation of Net Cost of Operations to the Budget."
