2006 HIGHLIGHTS

During 2006, OTS-regulated thrifts reported strong annual results. During the fourth quarter, however, earnings, profitability, and asset quality measures decreased. The decrease reflected the slowdown in housing markets and the changing cycle for residential mortgage lending.

At year-end, 845 thrifts reported assets of \$1.41 trillion, a four percent decrease over the year.¹

OTS supervised 475 holding company enterprises with U. S. domiciled consolidated assets of approximately \$8.0 trillion at year-end. Holding company enterprises owned 448 thrifts with total assets of \$1.3 trillion, or 91 percent of total thrift industry assets.²

Net income was \$15.89 billion in 2006, down three percent from the record \$16.40 billion earned in 2005. Industry profitability, measured by return on average assets (ROA), stood at 1.06 percent for the year, down from 1.19 in 2005. Lower net interest margin and fee income combined with higher loan loss provisions and noninterest expense drove the ROA decline for 2006 compared to 2005. Return on average equity (ROE) was 11.21 percent for the year, down from 12.83 percent one year ago.³

The industry's capital position remained strong, stable, and well in excess of minimum requirements. At year-end, the equity capital ratio was a record 10.71 percent of total assets, up from 9.45 percent one year ago.⁴

Total mortgage originations in 2006 were \$642.2 billion, down 14 percent from \$744.1 billion in 2005, the industry's second best volume.⁵ In 2006, 1-4 family originations were \$553 billion, down 19 percent from \$656 billion in 2005.⁶

Asset quality remained strong for all loan types over the year, but delinquencies were up from recent lows. Noncurrent loan rates (Loans over 89 days past due or in nonaccrual status), excluding repurchased GNMA loans, climbed 15 basis points as a percent of total assets over the year.⁷ Since thrift loan portfolios contain significant proportion of recently originated or unseasoned loans, OTS is closely monitoring thrift loan performance and asset quality.

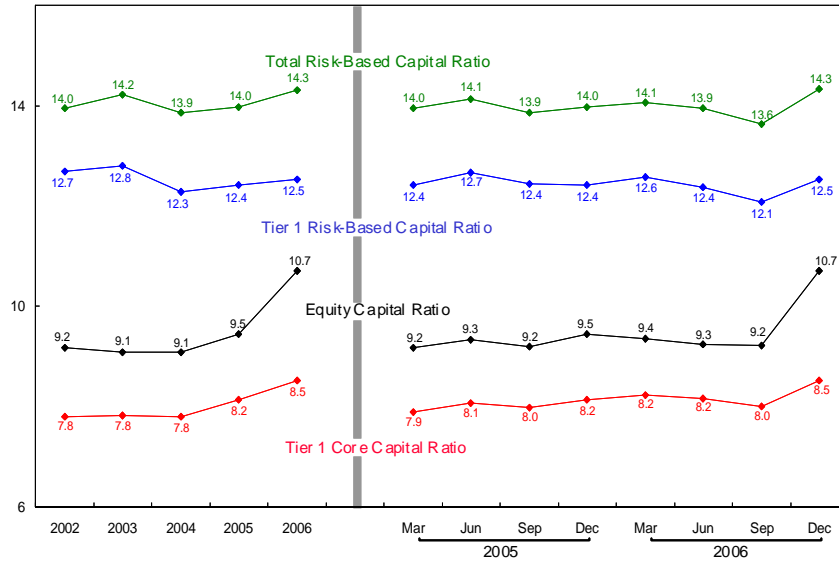

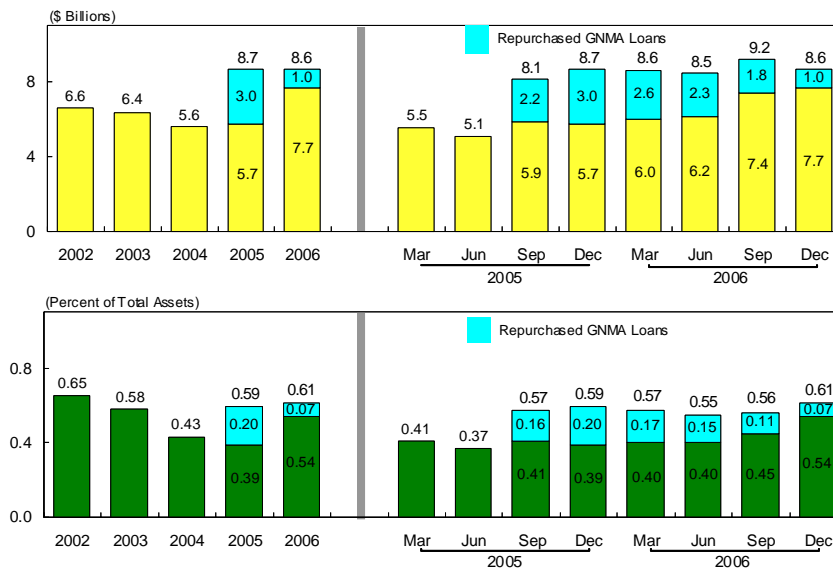

CHART 1.6 NONCURRENT LOANS

Bank and thrift regulatory reporting changes now require loans repurchased, or eligible for repurchase, from Government National Mortgage Association (GNMA) mortgage pools to be included as past due loans. Loans from GNMA pools are guaranteed by agencies of the U. S. Government.

TECHNICAL NOTES 2006 FACT BOOK

THRIFT INDUSTRY FINANCIAL DATA COVERAGE

Data are for thrift institutions supervised by the Office of Thrift Supervision (OTS), and its predecessor, the Federal Home Loan Bank Board (FHLBB), unless otherwise indicated. The OTS was created upon enactment on August 8, 1989, of the Financial Institutions Reform, Recovery, and Enforcement Act.

At that time, the FHLBB and the Federal Savings and Loan Insurance Corporation (FSLIC) were abolished. The Savings Association Insurance Fund (SAIF) was established to primarily insure thrift deposits and the Bank Insurance Fund (BIF) to insure commercial bank deposits. Certain thrift institutions, however, were BIF-insured. The Federal Deposit Insurance Corporation (FDIC) had supervisory authority over both the SAIF and the BIF.

The Deposit Insurance Reform Act of 2005 authorized a merger of BIF and SAIF by creating the Deposit Insurance Fund (DIF). The President signed the Act into law on February 8, 2006. The FDIC made the merger effective March 31, 2006.

Data for the period 1956 -1977 are for all FSLIC-insured thrifts. OTS data for the period 1978 through 2006 are for private sector institutions and exclude institutions that were in conservatorship, receivership, or were self liquidating. Both OTS and FDIC financial data are preliminary for the fourth quarter 2006.

Sources used to compile this publication for periods prior to 1978 are the Federal Home Loan Bank Board / Office of Thrift Supervision *Savings & Home Financing Source Book* and the Federal Deposit Insurance Corporation *Statistics on Banking*. Sources used to compile this publication for periods after 1978 are the OTS Thrift Financial Report (TFR) system data and the FDIC *Statistics on Depository Institutions (SDI)* found on the FDIC web site. Beginning with June 1996, the TFR was converted to a fully consolidated report, replacing the separate reporting of the thrift, its subsidiaries, and the consolidated entity.

Individual Federal and State Charter Group table information are not adjusted for parent thrift and subsidiary thrift charter differences, where the parent thrift and subsidiary are in different or the same charter types, asset groups, or are located in different states.

Note: Discussion of individual data elements can be found in the 2006 *Thrift Financial Report (TFR) Instruction Manuals* which are available on the OTS website at www.ots.treas.gov. Additional information may be obtained by visiting the OTS website, transmitting a FOIA request to public.infro@ots.treas.gov, calling (202) 906-7965, faxing (202) 906-7755, or writing to: OTS, Information Services, 1700 G Street, N.W. Washington, D.C. 20552.

I. SPECIFIC FOOTNOTES

All Tables

1. a. Data for the period 1956 -1977 are for FSLIC-insured thrift institutions.
- b. Data between 1988 and March 31, 2006 are for SAIF- and BIF-insured private sector thrift institutions.
- c. Data after March 2006 are for DIF-insured private sector thrift institutions.
- d. Numbers may not sum due to rounding.

Tables 2.1, 2.5, 2.6, and 2.7

2. Data for OTS-regulated state-chartered stock and mutual savings banks are estimated for the period 1987 - 1991. Some institutions were erroneously classified in the OTS system after they changed their names to savings bank but continued to function as a savings and loan association without authority to sell stock. Data for Total Thrifts and Non-OTS Regulated Thrifts for the period 1991 through 2006 was obtained from the *FDIC- Statistics on Depository Institutions*. Data for OTS-Regulated thrifts for the same period represent private sector institutions. The data for **Table 2.1** may not sum for certain years due to the two different data sources: Columns 2 and 3 come from FDIC data and columns 4 through 10 come from OTS data. Individual Federal and State Charter Group table information are not adjusted for parent thrift and subsidiary thrift charter differences, where the parent thrift and subsidiary are different charter types or are located in different states.

Tables 2.2, 2.3, and 2.4

3. On September 30, 1996, President Clinton signed the Economic Growth and Regulatory Paperwork Reduction Act of 1996, which included the Deposit Insurance Funds Act of 1996 (DIFA). The major element of the DIFA was to capitalize the Savings Association Insurance Fund (SAIF) through a one-time special assessment on institutions that have deposits insured by the SAIF. The special assessment was reflected as an expense in institutions' third quarter 1996 financial statements. Information presented herein show profitability data with and estimated values without the SAIF assessment expense, which amounted to an aggregate \$2.1 billion net of taxes.

Table 2.8

4. Conversion applications include mutual-to-stock conversions, merger conversions, and second step stock conversions of companies formerly in Mutual Holding Company ("MHC") form. Of the 1,623 conversion applications filed since 1972, 150 applications were withdrawn, 14 failed to complete the process but were never withdrawn, and six filed in 2006 were still in process or had not closed by December 31, 2006. Of the 1,451 approved conversion applications, 68 did not complete the sale of stock. Of the 117 MHC stock issuance applications filed since 1991, seven filings in 2006 were still in process or had not closed by December 31, 2006. Applicants file Stock Conversion applications and mutual holding company stock issuances pursuant to 12 CFR Parts 563b and 575 (2006).

Tables 4.1, 4.2

5. *Return on Assets (ROA)* is net income divided by average total assets.
6. *Return on Equity (ROE)* is net income divided by average total equity capital.

Table 4.3

7. OTS-Regulated Thrift Industry *Income Statement Detail*
 - a. *Loss provisions* for noninterest-bearing assets are included in noninterest expense.
 - b. *Net Gain (Loss) on Sale of Assets* is reported in noninterest Income.
 - c. In September 2000, the Financial Accounting Standards Board, Norwalk, Connecticut, issued *Statement of Financial Accounting Standards No. 140 (FAS 140)*. FAS 140 states that penalty fees associated with the early extinguishment of debt, such as Federal Home Loan Bank advances, shall be treated as a noninterest expense rather than as an extraordinary item.

Table 4.4

8. OTS-Regulated Thrift Industry *Amortization of Goodwill and Other Intangible Assets*

In June 2001, the Financial Accounting Standards Board, Norwalk, Connecticut, issued *Statement of Financial Accounting Standards No. 142* (FAS 142). FAS 142 states that goodwill created during an acquisition accounted for under the purchase method shall not be amortized after June 30, 2001. Business entities had to comply with FAS 142 in fiscal years beginning after December 15, 2001. Table 3.4 reflects the effects of FAS 142 in calendar years 2002 through 2006.

Table 5.1

9. OTS-Regulated Thrift Industry *Capital Ratios*:

- a. **Equity Capital ratio:** Generally Accepted Accounting Principles
Numerator: Equity Capital.
Denominator: Total Assets

- b. **Tangible Equity Capital ratio:** 12 CFR 565.2(f) and 12 CFR 567.9 (2006).
Numerator: Tier 1 (Core) Capital less Qualifying Intangible Assets.
Denominator: Adjusted Total Assets less Qualifying Intangible Assets.

- c. **Tier 1 Risk-based Capital ratio:** 12 CFR 565.2(g) and 12 CFR 567.5(a) (2006).
Numerator: Tier 1 (Core) Capital
Denominator: Total Risk-weighted Assets.

- d. **Total Risk-based Capital Ratio:** 12 CFR 565.2(j) (2006).
Numerator: Total Risked-Based Capital
Denominator: Total Risk-weighted assets

Table 5.2, 5.2.1

10. Prompt Corrective Action ("PCA") Capital Categories

Pursuant to the Federal Deposit Insurance Corporation Improvement Act (FDICIA)

a. **Prompt Corrective Action (PCA) definitions:**

- i. A **well-capitalized** thrift has Total Risk-Based Capital greater than or equal to 10% and Tier 1 Risk-Based Capital (core capital) greater than or equal to 6% and Tier 1 Leverage Ratio greater than or equal to 5%.
 - ii. An **adequately capitalized** thrift has Total Risk-Based Capital greater than or equal to 8% and Tier 1 Risk-Based Capital (core capital) greater than or equal to 4% and Tier 1 Leverage Ratio greater than or equal to 4% (3% if the thrift received a composite examination rating of 1).
 - iii. An **undercapitalized** thrift has Total Risk-Based Capital less than 8% or Tier 1 Risk-Based Capital (core capital) less than 4% or Tier 1 Leverage Ratio less than 4% (3% if the thrift received a composite examination rating of 1).
 - iv. A **significantly undercapitalized** thrift has Total Risk-Based Capital less than 6% of risk-weighted assets or Tier 1 Risk-Based Capital (core capital) less than 3% or Tier 1 Leverage Ratio less than 3%.
 - v. A **critically undercapitalized** thrift has a Tangible Capital ratio less than 2%.
- b. PCA data exclude information on thrifts that failed to file their TFRs in a timely fashion.
 - c. Subsidiary thrifts are reported individually; therefore, total industry assets may be overstated due to consolidated reporting by the parent thrifts. In addition, total category assets may not sum to total industry assets due to rounding.

Tables 6.1 through 6.7

11. *Asset Quality Summary*

- a. Foreclosures are reported as of judgment date, even if subject to a redemption period. Prior to 1980, foreclosure rates are calculated as a percent of month-end mortgage holdings.
- b. Mortgage delinquencies prior to 1987 include all mortgage loans 60 or more days delinquent. During the years 1987-1989, data include construction and land loans past due, permanent loans secured by 1-4 dwelling unit properties 60 or more days delinquent, and all other permanent loans past due. Starting in 1990 data include mortgage loans 30 to 89 days past due.
- c. Noncurrent loans are defined as loans 90 or more days past due or in nonaccrual status. Beginning in 1996, delinquent and noncurrent loans are reported net of specific valuation allowances.
- d. Net Charge-offs are for OTS-regulated private sector thrifts and exclude data for thrifts that are not regulated by OTS, OTS-regulated thrifts that are in conservatorship or receivership, or are self-liquidating. Net Charge-offs for 1996 and prior years are the amount of loss on assets charged off to general valuation allowances plus the amount of specific valuation allowances eliminated on sale of related assets. For 1997 and subsequent years, charge-offs are the amount of loss on assets charged off to general valuation allowances plus the amount of loss on assets charged to earnings and provided to specific valuation allowances.
- e. Starting September 30, 2005, loans repurchased, or eligible for repurchase, from mortgage pools guaranteed by Government National Mortgage Association must be included in past due loans.

Table 7.1

12. *OTS-Regulated Thrift Industry Mortgage Originations*

- a. Prior to 2004, **Mortgage Refinancing** included only those loans refinanced with the original lender. Beginning In 2004, **Mortgage Refinancing** includes both refinanced loans with the original lender and refinanced loans where another financial institution held the original mortgage.
- b. For 1996, data for multifamily construction loans, nonresidential permanent loans, nonresidential construction loans, and permanent land loans are estimated.
- c. **Mortgage Originations Total** includes all mortgage categories. Mortgage refinancing data are distributed among the mortgage categories as appropriate.

Table 7.2

13. *OTS-Regulated Thrift Industry Mortgage Lending Activity and Portfolio*

- a. **Mortgage Loans Outstanding** includes mortgages originated in the year, including mortgage refinancing, and net mortgage loan purchases, minus any principal repayments.
- b. **Mortgage-Backed Securities (MBS) Outstanding** includes MBS purchases, minus MBS sales (net MBS purchases), minus any principal repayments.
- c. Principal repayments are not listed separately.
- d. Data on MBS purchases and sales before 1990 are inconsistent and are not published here.
- e. **Mortgage Portfolio Total** equals mortgages outstanding plus MBS outstanding.

Table 7.3

14. *OTS-Regulated 1-4 Family Fixed- and Adjustable-Rate Mortgage Portfolio Share*

- a. Balloon mortgage products are included in adjustable-rate mortgages.
- b. Total 1-4 family mortgages are for thrifts filing a TFR Schedule MR (maturity and rate data) and starting in 1993, TFR Schedule CMR (consolidated maturity and rate data). Not all institutions are required to file TFR Schedule CMR. Thrifts with assets less than \$300 million and risk-based capital in excess of 12 percent are exempt from filing, TFR Schedule CMR, but many file voluntarily.

Table 8.1

15. *OTS-Regulated Thrift Industry Structural Data, Number and Assets*

- a. Structural data are counted in the year of consummation.
- b. External Acquisitions include OTS-regulated thrift institutions acquired by a bank or bank holding company, non-OTS-regulated thrift, or thrift holding company where the charter changes to a non-OTS-regulated type.

Table 9.1

16. *Selected Financial Data for OTS-Regulated Thrift Industry, Private Sector by State and Territory*

Total liabilities include redeemable preferred stock and minority investment. Starting in 2001, the Fact Book does not include the territory of the United States Virgin Islands or the Republic of Puerto Rico because no OTS-Regulated thrifts exist therein.

Tables 10.1 and 10.2

17. *Savings and Loan Holding Company Ownership of OTS-Regulated Thrifts*

A savings and loan holding company ("holding company") is a company that directly or indirectly controls a savings association ("thrift"). 12 C.F.R. 583.20 (2006). Since some thrifts are held by more than one holding company, the number of holding companies exceed the number of thrifts held.

A company that owns one thrift is a unitary holding company while a company that controls two or more thrifts is a multiple holding company. A HOLA 10(l) holding company controls a state savings bank or cooperative bank that has elected to be treated as a savings association for purposes of regulating its holding company. FRB-regulated holding companies are registered as both thrift holding companies and bank holding companies. Further information on this topic is available in the OTS Regulatory Handbook on Holding Companies dated July 13, 2004 and available on the OTS website under Supervision / Handbooks. <http://www.ots.treas.gov/pagehtml.cfm?catNumber=111&an=10>

II. SELECTED BALANCE-SHEET ITEMS

Total Assets:

Beginning in 1982, balances reflect a regulatory change adopted in July 1982, which provided that certain balances previously reported as liability items be reported as contra-asset items (deductions from asset accounts).

Mortgage Loans Outstanding:

Balances exclude mortgage-backed securities, which are reported separately. Beginning in 1982, balances reflect a regulatory change adopted in July 1982, which provided that certain balances previously reported as liability items be reported as contra-asset items (deductions from asset accounts).

Mortgage-Backed Securities:

Includes mortgage-backed pass-through securities (holders have an undivided equity interest in the underlying mortgage loans).

Nonmortgage Loans:

Includes all loans that do not qualify to be classified as mortgage loans.

Cash and Investments:

Includes cash, deposits, U.S. government and agency securities, equity securities, and certain other investments, except as noted below. Before 1972, balances exclude U.S. government obligations, time deposits, and miscellaneous investment securities. Beginning in 1973, balances exclude stock in the Federal Home Loan Banks, and GNMA-guaranteed mortgage-backed pass-through securities.

Total Deposits:

Includes all deposits (e.g., passbook accounts, transaction accounts, and certificates of deposit). Balances exclude government investments that had been retired by 1951. In addition, effective June 1996, outstanding checks drawn against a Federal Home Loan Bank are no longer reported in deposits but reported as a memo item in Supplemental Information.

Federal Home Loan Bank (FHLBank) Advances:

Includes all borrowings from Federal Home Loan Banks.

Other Borrowed Money:

Includes all borrowings other than FHLBank advances, principally reverse repurchase agreements, mortgage-backed bonds issued, commercial bank loans, commercial paper issued, overdrafts in transaction accounts, and all other borrowings.

Regulatory Capital:

From 1966 to 1977, balances exclude paid-in surplus of stock institutions and specific reserves of all institutions according to the 1989 FHLBB *Savings & Home Financing Source Book*.

Insurance Coverage:

Historical maximum insured deposits are as follows:

1934 - 1949	\$ 5,000	
1950 - 1965	\$ 10,000	
1966 - 1968	\$ 15,000	
1969 - 1973	\$ 20,000	
1974 - 1979	\$ 40,000	nongovernment accounts
.....	\$ 100,000	government accounts
1980 - 2006	\$ 100,000	
April 1, 2006.....	\$ 250,000	retirement accounts

III. SELECTED ACTIVITY ITEMS

Mortgage Loans Originated:

Lending is reported on a gross basis (i.e., without deducting contra-assets), and includes refinancing. Data before 1984 are partially estimated to reflect the gross amount of refinancing loans closed. Amounts are reported by the type of loan and the type of property securing the loan.

Construction Loans:

Construction loans finance the erection of a structure and include combination land/construction loans, combination construction/permanent loans until construction has been completed, and bridge loans to developers.

Permanent Loans:

Permanent loans are loans or contracts to finance the acquisition of property where construction has been completed, farmland, developed building lots, and vacant land.

Refinancing Loans:

Refinancing loans are new loans made on real estate in which ownership of the property is not transferred, and the refinancing loan replaces the outstanding mortgage or mortgages on the same property.

Residential: 1-4 Dwelling Units:

Includes 1-4 family dwellings in detached or semidetached structures consisting of 2-4 dwelling units. Permanently financed units in a condominium, cooperative, or timesharing arrangement are also included if the owner of each unit has an undivided proportional interest in the underlying real estate and common elements of the structure.

Multifamily Residential: 5 or More Dwelling Units:

Includes construction financing of condominium or cooperative apartments until the construction phase is complete (see multifamily).

Land Loans:

Land Loans are loans secured by real estate upon which there is not a structure, including unimproved land, developed building lots, and loans to acquire and develop land.

Nonresidential Property (Non-Res.):

Includes all properties not covered in the definitions for Residential 1-4, Residential 5 or more, and Land Loans.

Mortgage Loans Purchased/Sold:

Data for 1963 - 1966 exclude purchases and sales of participations; thereafter includes activity for both whole loans and participations.

Noncurrent Loans:

Includes loans that are past due 90 days or more and are still accruing interest and loans reported as nonaccrual.

Reposessed Real Estate:

The outstanding balance, net of loans in process, of mortgage loans foreclosed.

IV. SELECTED OPERATING RATIOS

Quarterly ratios (reported as an annualized percent) are calculated beginning in 1984.

Return on Assets:

Net income divided by average total assets. (See Specific Footnote 5.)

Return on Equity:

Net income divided by average total equity capital. (See Specific Footnote 6.)

V. GENERAL DEFINITIONS

Note: These definitions are intended to help readers understand the accompanying tables. For purposes of regulatory interpretations, readers should refer to the definitions found in OTS regulations as published in the Code of Federal Regulations.

Cash Dividend:

Cash dividends paid on Preferred and Common Stock. (See Preferred and Common Stock.)

Charge-off:

The amount (value) deducted from the loan portfolio and reserve account if a loan or other asset is deemed uncollectible and/or worthless. (See specific footnote 11. d.)

Commercial Loan:

A loan to a company to meet business operating expenses or to finance the purchase of inventory.

Consumer Loans:

Any loan or extension of credit to an individual for personal, family, or household use.

Construction and Land Loans:

An interim loan for financing the cost of construction as well as to develop and/or purchase the property to which the construction is to take place.

Deposit:

(1) The placement of funds into an account at an institution in order to increase the credit balance of the account, or (2) that which is deposited.

Earnings:

(1) Net income, or (2) income minus expenses.

Equity Capital:

Investment in the ownership of a business where the investor's return depends on the profit of the underlying investment and/or the business and management's dividend policy. Among the items included in equity capital are perpetual preferred stock, common stock, and paid-in capital.

Federal Deposit Insurance Corporation (FDIC):

A government corporation that insures deposits in thrift institutions and commercial banks. FDIC administers the Savings Association Insurance Fund (SAIF) providing deposit insurance primarily to thrift institutions, and the Bank Insurance Fund (BIF) providing deposit insurance to commercial banks and thrift institutions.

Federal Savings and Loan Insurance Corporation (FSLIC):

A former government corporation under the direction of the former Federal Home Loan Bank Board that insured deposits at savings institutions. Congress authorized FSLIC in the National Housing Act of 1934. The Financial Institutions Reform, Recovery, and Enforcement Act of 1989 abolished FSLIC. The FSLIC deposit insurance function was assumed by a new insurance fund, the Savings Association Insurance Fund (SAIF), administered by the Federal Deposit Insurance Corporation (FDIC).

Federally Chartered Savings Association:

A savings association chartered by the Office of Thrift Supervision (OTS) (or its predecessor agency, the Federal Home Loan Bank Board) under the provisions of the Home Owners' Loan Act of 1933, and subject to the supervision of OTS. Federal savings associations are required by law to have their savings accounts insured by the Savings Association Insurance Fund (SAIF) or Bank Insurance Fund (BIF). The recently enacted Gramm-Leach-Bliley Act removed the requirement that federal savings associations belong to a Federal Home Loan Bank. Federal Home Loan Bank membership is now voluntary.

Goodwill:

The difference between the market value of the institution's assets and the higher amount paid at the time the institution is purchased or merged into another institution.

Net Income Profitable Thrifts:

Profits of institutions whose net income is greater than zero.

Net Losses Unprofitable Thrifts:

Losses of institutions whose net income is less than or equal to zero.

Holding Company:

A holding company is any company that directly or indirectly controls a savings association.

Interest Expense:

Money paid as a finance charge to lenders and depositors. Interest expenses include, but are not limited to; interest paid for deposits, advances from Federal Home Loan Banks, and subordinated debentures.

Interest Income:

Money received as a finance charge from borrowers. Interest income includes, but is not limited to, interest or dividends earned on deposits at financial institutions and investment securities, interest earned on mortgage loans or mortgage-backed securities, and interest earned on consumer or commercial loans.

Mortgage-Backed Bonds:

Bonds that are secured by mortgages. Unlike mortgage-backed pass-through securities, mortgage-backed bonds do not convey ownership of any portion of the underlying pool of mortgages.

Mortgage Loan:

An advance of funds from a lender, called the mortgagee, to a borrower, called the mortgagor, secured by real property and evidenced by a document called a mortgage. The mortgage sets forth the conditions of the loan, the manner and duration of repayment, and reserves to the mortgagee the right to possess the pledged property if the mortgagor fails to repay any portion of principal and interest.

Mortgage loans outstanding:

The total amount of money that is owed by mortgagors.

Multifamily Structure:

A residential structure containing more than four dwelling units. An apartment building, a residence hall for students or employees, a retirement complex, etc.

Mutual Holding Company:

A corporate structure that combines elements of a mutual savings and loan, which is technically owned by its depositors and, in some cases, by its borrowers, with elements of a stock savings and loan, which is owned by its shareholders. In a mutual holding company, depositors own the mutual holding company, which in turn holds a majority of the voting stock of its subsidiary savings association. The balance of the thrift's stock can be sold to outside investors to raise capital. Mutual holding companies were first authorized by the Competitive Equality Banking Act of 1987 (CEBA). Those provisions were clarified by Congress in the Financial Institutions Reform, Recovery, and Enforcement Act of 1989 (FIRREA). Further information on this topic is available from the OTS Business Transactions Division.

Mutual Savings Association or Savings Bank:

A thrift that issues no capital stock, but is owned and controlled by its savings depositors, and in some cases, by its borrowers. These owners, who are called members, do not normally share in profits, but exercise other ownership rights such as electing the board of directors.

Net Worth:

The value in dollars of all assets less all liabilities. Net worth may be expressed as a dollar amount, or as a percentage of either assets or liabilities, calculated by subtracting liabilities from assets and dividing the remainder by assets or liabilities

Net Interest Income:

Interest income minus interest expense.

Noninterest Expense:

The sum of personnel compensation, legal expense, office occupancy and equipment expense, other non-interest and loan loss provisions.

Noninterest Income:

The sum of mortgage loan servicing fees and other fees and charges, profit (loss) from asset sales, leasing income, and other noninterest income.

Nonmortgage Loan:

An advance of funds not secured by a real estate mortgage.

Nonoperating Expenses:

The outlays and losses of a savings association that are nonrecurring in nature and that do not result from the ordinary savings and lending operations of the institution. These include the expense of a maintaining real estate owned or a loss taken on the sale of a nonmortgage investment; also called nonrecurring expense.

1-4 Family Dwelling:

A detached unit on a single lot providing primary shelter for one family, a townhouse (row house), an apartment condominium, or a residence that shares common walls with contiguous units.

Preferred and Common Stock:

Preferred Stock is defined as capital stock to which preferences or special rights are attached.

Common Stock is defined as securities that are evidence of proportionate equity or ownership of a corporation and that give the holder an unlimited proportionate interest in the corporation's earnings and assets after claims from creditors and the holders of preferred stock have been met.

Provision for Losses:

Provision for Losses is defined as a charge to expense for credit losses on loans.

Savings Bank:

A financial intermediary that accepts savings deposits and invests these funds in loans primarily for commercial and residential real estate, plus investments in government and high quality corporate bonds and blue chip common stocks. Savings banks may be state-or federally chartered and insured by the SAIF or the FDIC. In 1982, Congress removed all differences between federally chartered savings banks and federally chartered savings and loan associations as to the kinds of loans and investments they can make.

State-Chartered Savings Association:

A savings institution that has received its operational charter as a savings association from a state regulatory authority. State savings associations have OTS as their primary federal regulator. In contrast, state savings banks, which are also chartered by state regulatory authority, have FDIC as their primary regulator.

Stock Association:

A savings and loan association that sells stock to raise capital. Those who buy its stock, called shareholders own the institution. The shareholders share in profits earned by the association through the payment of dividends. See mutual association.

Stock:

(1) Shares of ownership in a corporation, (2) the capital raised by the sale of shares, or (3) a certificate that shows ownership of a stated number of shares.

Taxes:

A charge imposed by government upon persons, companies, or property for public purposes. Federal, state, and/or local government usually imposes the charge.

Thrift Industry:

All of the operating financial institutions that primarily accept deposits from individual savers and loan funds primarily for home mortgages. These include savings and loan associations and savings banks.
