Worktable 250R. Death rates from 113 selected causes, alcohol-induced causes, drug-induced causes, and injury by firearms, by 10-year age groups, race, and sex: United States, 2004

[Rates per 100,000 population in specified group. Rates based on populations estimated as of July 1, 2004. Race categories are consistent with the 1977 Office of Management and Budget standards. California, Hawaii, Idaho, Maine, Michigan, Minnesota, Montana, New Hampshire, New Jersey, New York, Oklahoma, South Dakota, Washington, Wisconsin, and Wyoming reported multiple-race data in 2004. The multiple-race data for these States were bridged to the single-race categories of the 1977 Office of Management and Budget standards for comparability with other States; see http://www.cdc.gov/nchs and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2004." For explanation of asterisks preceding cause-of-death codes, see http://www.cdc.gov/nchs and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2004."]

Worktable 250R. Death rates from 113 selected causes, alcohol-induced causes, drug-induced causes, and injury by firearms, by 10-year age groups, race, and sex: United States, 2004

[Rates per 100,000 population in specified group. Rates based on populations estimated as of July 1, 2004. Race categories are consistent with the 1977 Office of Management and Budget standards. California, Hawaii, Idaho, Maine, Michigan, Minnesota, Montana, New Hampshire, New Jersey, New York, Oklahoma, South Dakota, Washington, Wisconsin, and Wyoming reported multiple-race data in 2004. The multiple-race data for these States were bridged to the single-race categories of the 1977 Office of Management and Budget standards for comparability with other States; see http://www.cdc.gov/nchs and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2004." For explanation of asterisks preceding cause-of-death codes, see http://www.cdc.gov/nchs and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2004."]
