PART I DUE FRIDAY, DECEMBER 28, 2007
PART II DUE FRIDAY, FEBRUARY 22, 2008

U.S. DEPARTMENT OF EDUCATION
WASHINGTON, DC 20202

INTRODUCTION

Sections 9302 and 9303 of the *Elementary and Secondary Education Act* (*ESEA*), as amended by the *No Child Left Behind Act* of 2001 (*NCLB*) provide to States the option of applying for and reporting on multiple *ESEA* programs through a single consolidated application and report. Although a central, practical purpose of the Consolidated State Application and Report is to reduce "red tape" and burden on States, the Consolidated State Application and Report are also intended to have the important purpose of encouraging the integration of State, local, and *ESEA* programs in comprehensive planning and service delivery and enhancing the likelihood that the State will coordinate planning and service delivery across multiple State and local programs. The combined goal of all educational agencies–State, local, and Federal–is a more coherent, well-integrated educational plan that will result in improved teaching and learning.

The Consolidated State Application and Report includes the following *ESEA* programs:

- Title I, Part A – *Improving Basic Programs Operated by Local Educational Agencies*
- Title I, Part B, Subpart 3 – *William F. Goodling Even Start Family Literacy Programs*
- Title I, Part C – *Education of Migratory Children*
- Title I, Part D – *Prevention and Intervention Programs for Children and Youth Who Are Neglected, Delinquent, or At-Risk*
- Title I, Part F – *Comprehensive School Reform*
- Title II, Part A – *Improving Teacher Quality State Grants (Teacher and Principal Training and Recruiting Fund)*
- Title II, Part D – *Enhancing Education through Technology*
- Title III, Part A – *English Language Acquisition, Language Enhancement, and Academic Achievement Act*
- Title IV, Part A, Subpart 1 – *Safe and Drug-Free Schools and Communities State Grants*
- Title IV, Part A, Subpart 2 – *Safe and Drug-Free Schools and Communities National Activities (Community Service Grant Program)*
- Title IV, Part B – *21st Century Community Learning Centers.*
- Title V, Part A – *Innovative Programs*
- Title VI, Section 6111 – *Grants for State Assessments and Related Activities*
- Title VI, Part B – *Rural Education Achievement Program*
- Title X, Part C – *Education for Homeless Children and Youths*

The *NCLB* Consolidated State Performance Report (CSPR) for school year (SY) 2006-07 consists of two information collections.

PART I

Part I of the CSPR requests information related to the five *ESEA* Goals, established in the June 2002 Consolidated State Application, and information required for the Annual State Report to the Secretary, as described in Section 1111(h)(4) of the *ESEA*. The five *ESEA* Goals established in the June 2002 Consolidated State Application are:

- **Performance Goal 1:** By SY 2013-14, all students will reach high standards, at a minimum attaining proficiency or better in reading/language arts and mathematics.
- **Performance Goal 2:** All limited English proficient students will become proficient in English and reach high academic standards, at a minimum attaining proficiency or better in reading/language arts and mathematics.
- **Performance Goal 3:** By SY 2005-06, all students will be taught by highly qualified teachers.
- **Performance Goal 4:** All students will be educated in learning environments that are safe, drug free, and conducive to learning.
- **Performance Goal 5:** All students will graduate from high school.

Starting with SY 2005-06, collection of data for the Education of Homeless Children and Youths was added to Part I in order to provide timely data for the program's performance measures. This change allowed ED to retire OMB collection 1810-0650. For SY 2006-07, Migrant Education Program child count information that is used for funding purposes is now collected via Part I. This change allowed ED to retire OMB collection 1810-0519

PART II

Part II of the CSPR consists of information related to State activities and outcomes of specific *ESEA* programs. While the information requested varies from program to program, the specific information requested for this report meets the following criteria:

1. The information is needed for Department program performance plans or for other program needs.
2. The information is not available from another source, including program evaluations.
3. The information will provide valid evidence of program outcomes or results.
4. The CSPR is the best vehicle for collection of the data.

GENERAL INSTRUCTIONS AND TIMELINES

All States that received funding on the basis of the Consolidated State Application for the SY 2006-07 must respond to this Consolidated State Performance Report (CSPR). Part I of the Report is due to the Department by **Friday, December 28, 2007**. Part II of the Report is due to the Department by **Friday, February 22, 2008**. Both Part I and Part II should reflect data from the SY 2006-07, unless otherwise noted.

The format states will use to submit the Consolidated State Performance Report has changed to an online submission starting with SY 2004-05. This online submission system is being developed through the Education Data Exchange Network (EDEN) and will make the submission process less burdensome. Please see the following section on transmittal instructions for more information on how to submit this year's Consolidated State Performance Report.

TRANSMITTAL INSTRUCTIONS

The Consolidated State Performance Report (CSPR) data will be collected online from the SEAs, using the EDEN web site. The EDEN web site will be modified to include a separate area (sub-domain) for CSPR data entry. This area will utilize EDEN formatting to the extent possible and the data will be entered in the order of the current CSPR forms. The data entry screens will include or provide access to all instructions and notes on the current CSPR forms; additionally, an effort will be made to design the screens to balance efficient data collection and reduction of visual clutter.

Initially, a state user will log onto EDEN and be provided with an option that takes him or her to the "SY 2006-07 CSPR". The main CSPR screen will allow the user to select the section of the CSPR that he or she needs to either view or enter data. After selecting a section of the CSPR, the user will be presented with a screen or set of screens where the user can input the data for that section of the CSPR. A user can only select one section of the CSPR at a time. After a state has included all available data in the designated sections of a particular CSPR Part, a lead state user will certify that Part and transmit it to the Department. Once a Part has been transmitted, ED will have access to the data. States may still make changes or additions to the transmitted data, by creating an updated version of the CSPR. Detailed instructions for transmitting the SY 2006-07 CSPR will be found on the main CSPR page of the EDEN web site (https://EDEN.ED.GOV/EDENPortal/).

According to the Paperwork Reduction Act of 1965, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 1810-0614. The time required to complete this information collection is estimated to average 111 hours per response, including the time to review instructions, search existing data resources, gather the data needed, and complete and review the information collection. If you have any comments concerning the accuracy of the time estimates(s) contact School Support and Technology Programs, 400 Maryland Avenue, SW, Washington DC 20202-6140. Questions about the new electronic CSPR submission process, should be directed to the EDEN Partner Support Center at 1-877-HLP-EDEN (1-877-457-3336).

CONSOLIDATED STATE PERFORMANCE REPORT: PART I

For reporting on

School Year 2006-07

PART I DUE DECEMBER 28, 2007

1.1 STANDARDS AND ASSESSMENT DEVELOPMENT

This section requests descriptions of the State's implementation of the *NCLB* academic content standards, academic achievement standards and assessments to meet the requirements of Section 1111(b)(1) of *ESEA*.

1.1.1 Academic Content Standards

In the space below, provide a description and timeline of any actions the State has taken or is planning to take to make revisions to or change the State's academic content standards in mathematics, reading/language arts or science. Indicate specifically in what year your state expects the changes to be implemented.

If the State has not made or is not planning to make revisions or changes, respond "No revisions or changes to content standards taken or planned."

The response is limited to 8,000 characters.

The Mississippi Board of Education approved revised academic content standards for language arts and mathematics in May 2007. These standards are being implemented in 2007-08.

The science content standards are in the process of being reviewed and revised. The anticipated implementation is the 2010-2011 school year.

Source – Manual input by the SEA using the online collection tool.

Note: Mathematics and Reading/Language Arts has been added to this data collection for the SY 2006-07 CSPR.

1.1.2 Assessments in Mathematics and Reading/Language Arts

In the space below, provide a description and timeline of any actions the State has taken or is planning to take to make revisions to or change the State's assessments in mathematics or reading/language arts required under Section 1111(b)(3) of *ESEA*. As applicable, include any assessment (e.g., alternate assessments based on alternate achievement standards, alternate assessments based on modified achievement standards, native language assessments, or others) implemented to meet the assessment requirements under Section 1111(b)(3) of *ESEA*. Indicate specifically in what year your state expects the changes to be implemented.

If the State has not made or is not planning to make revisions or changes, respond "No revisions or changes to assessments made or planned."

The response is limited to 8,000 characters.

New general assessments for language arts and mathematics are being implemented in 2007-08 for grades 3-8, Algebra I, and English II. The alternate assessments for for students with significant cognitive disabilities in language arts and mathematics are being revised based on peer review feedback.

Source – Manual input by the SEA using the online collection tool.

Note: The subject of science has been removed from this data element.

1.1.3 Academic Achievement Standards in Mathematics and Reading/Language Arts

In the space below, provide a description and timeline of any actions the State has taken or is planning to take to make revisions to or change the State's academic achievement standards in mathematics or reading/language arts implemented to meet the requirements under Section 1111(b)(3) of *ESEA*. As applicable, include alternate achievement standards for students with significant cognitive disabilities and modified academic achievement standards implemented to meet the requirements of Section 1111(b)(3) of *ESEA*. Indicate specifically in what year your state expects the changes to be implemented.

If the State has not made or is not planning to make revisions or changes, respond "No revisions or changes to content standards taken or planned."

The response is limited to 8,000 characters.

The Mississippi Board of Education approved revised academic achievement standard descriptors in May 2007. The cut scores for the academic achievement standards will be set in July/August 2008. The cut scores for the alternate assessments will also be revised through a standard setting conducted in July 2008.

Source – Manual input by the SEA using the online collection tool.

Note: The subject of science has been removed from this data element.

1.1.4 Assessments in Science

In the space below, provide a description of the State's progress in developing and implementing assessments in science that meet the requirements of Section 1111(b)(3) of ESEA in the required grade levels, including remaining major milestones (e.g., field testing) and a timeline for them. As applicable, include any assessment (e.g., alternate assessments based on alternate achievement standards, alternate assessments based on modified achievement standards, native language assessments, or others) implemented to meet the assessment requirements under Section 1111(b)(3) of *ESEA*.

The response is limited to 8,000 characters.

The general assessment for science was implemented in 2006-07 in grade 5, grade 8, and high school (Biology end-of-course). Academic achievement standards were set in August 2007. The alternate assessment for students with significant cognitive disabilities was field tested in 2006-07. This assessment will be implemented in 2007-08.

Source – Manual input by the SEA using the online collection tool.

Note: This table was formerly part of Section 1.1.2 of the SY 2005-06 CSPR.

1.1.5 Academic Achievement Standards in Science

In the space below, provide a description of the State's progress in developing and implementing academic achievement standards in science that meet the requirements of Section 1111(b)(3) in the required grade levels, including remaining major milestones and a timeline for them. As applicable, include alternate achievement standards for students with significant cognitive disabilities implemented to meet the requirements of Section 1111(b)(3) of *ESEA*.

The response is limited to 8,000 characters.

Academic achievement standards descriptors were approved in May 2007 and cut scores were set in August 2007. The academic achievement standards for alternate assessment for students with significant cognitive disabilities will be set in July/August 2008.

Source – Manual input by the SEA using the online collection tool.

Note: This table was formerly part of Section 1.1.3 of the SY 2005-06 CSPR.

1.2 PARTICIPATION IN STATE ASSESSMENTS

This section collects data on the participation of students in the State *NCLB* assessments.

1.2.1 Participation of All Students in Mathematics Assessment

In the table below, provide the number of students enrolled during the State's testing window for *NCLB* mathematics assessments required under Section 1111(b)(3) of ESEA (regardless of whether the students were present for a full academic year) and the number of students who were tested in mathematics. The percentage of students who were tested for mathematics will be calculated automatically.

The student group "children with disabilities (*IDEA*)" includes children who were tested using regular assessments with or without accommodations and alternate assessments.

The student group "limited English proficient students (LEP)" includes recently arrived students who have attended schools in the United States for fewer than 12 months; and it does not include former LEP students.

Student Group	# Students Enrolled	# Students Tested	Percent of Students Tested
All students	252821	252821	100.0
American Indian or Alaska Native	451	451	100.0
Asian or Pacific Islander	2035	2035	100.0
Black, non-Hispanic	128390	128390	100.0
Hispanic	3726	3726	100.0
White, non-Hispanic	118219	118219	100.0
Children with disabilities (*IDEA*)	23576	23576	100.0
Limited English proficient (LEP) students	1767	1767	100.0
Economically disadvantaged students	145174	145174	100.0
Migratory students	548	548	100.0
Male	127417	127417	100.0
Female	125404	125404	100.0
Comments: The pre-populated enrollment and automatically-calculated percent of students tested values in this table are incorrect. Accurate participation data cannot be computed using only the data reported by the state in EDEN files N081 and N075.			

Source – The table above is produced through EDFacts. The SEA submits the data in file N/X081 that includes data group 588, category sets A, B, C, D, E, and F. If the SEA has additional racial/ethnic groups or combinations of racial/ethnic groups in its accountability plan under *NCLB*, the SEA will report the above data for those groups through the online collection tool.

Note: This table was formerly Section 1.2.1.1 of the SY 2005-06 CSPR. For the SY 2006-07 CSPR, the total number of students enrolled has been added to this data collection.

1.2.2 Participation of Students with Disabilities in Mathematics Assessment

In the table below, provide the number of children with disabilities (IDEA) tested during the State's testing window for mathematics assessments required under Section 1111(b)(3) of ESEA (regardless of whether the children were present for a full academic year) by the type of assessment. The percentage of children with disabilities (IDEA) who were tested in mathematics for each type of assessment will be calculated automatically. The total number of children with disabilities (IDEA) tested will also be calculated automatically.

The data provided below should include mathematics participation results from all students with disabilities as defined under the Individuals with Disabilities Education Act. Do not include results from students covered under Section 504 of the Rehabilitation Act of 1973.

Type of Assessment	# Children with Disabilities (IDEA) Tested	Percentage of Children with Disabilities (IDEA) Tested, Who Took the Specified Assessment
Regular Assessment without Accommodations	9923	38.0
Regular Assessment with Accommodations	13473	51.6
Alternate Assessment Based on Grade-Level Achievement Standards	0	0.0
Alternate Assessment Based on Modified Achievement Standards	0	0.0
Alternate Assessment Based on Alternate Achievement Standards	2715	10.4
Total	26111	
Comments: Differences in the counts in this table and those in Tables 1.2.1 and 1.3.1 reflect differences in testing mode.		

Source – Manual input by the SEA using the online collection tool.

Note: This table was formerly Section 1.2.2.1 of the SY 2005-06 CSPR.

1.2.3 Participation of All Students in the Reading/Language Arts Assessment

This section is similar to 1.2.1 and collects data on the State's *NCLB* reading/language arts assessment.

Student Group	# Students Enrolled	# Students Tested	Percent of Students Tested
All students	254385	254385	100.0
American Indian or Alaska Native	467	467	100.0
Asian or Pacific Islander	2005	2005	100.0
Black, non-Hispanic	129339	129339	100.0
Hispanic	3744	3744	100.0
White, non-Hispanic	118830	118830	100.0
Children with disabilities (*IDEA*)	23640	23640	100.0
Limited English proficient (LEP) students	1779	1779	100.0
Economically disadvantaged students	146077	146077	100.0
Migratory students	561	561	100.0
Male	128188	128188	100.0
Female	126197	126197	100.0
Comments: The pre-populated enrollment and automatically-calculated percent of students tested values in this table are incorrect. Accurate participation data cannot be computed using only the data reported by the state in EDEN files N081 and N077.			

Source – The same file specification as 1.2.1 is used, but with data group 589 instead of 588.

Note: This table was formerly Section 1.2.1.2 of the SY 2005-06 CSPR. For the SY 2006-07 CSPR, the total number of students enrolled has been added to this data collection.

1.2.4 Participation of Students with Disabilities in Reading/Language Arts Assessment

This section is similar to 1.2.2 and collects data on the State's *NCLB* reading/language arts assessment.

The data provided should include reading/language arts participation results from all students with disabilities as defined under the Individuals with Disabilities Education Act and do not include results from students covered under Section 504 of the Rehabilitation Act of 1973.

Type of Assessment	# Children with Disabilities (IDEA) Tested	Percentage of Children with Disabilities (IDEA) Tested, Who Took the Specified Assessment
Regular Assessment without Accommodations	8524	32.4
Regular Assessment with Accommodations	14956	56.9
Alternate Assessment Based on Grade-Level Achievement Standards	0	0.0
Alternate Assessment Based on Modified Achievement Standards	0	0.0
Alternate Assessment Based on Alternate Achievement Standards	2798	10.6
Total	26278	
Comments: Differences in the counts in this table and those in Tables 1.2.1 and 1.3.1 reflect differences in testing mode.		

Source – Manual input by the SEA using the online collection tool.

Note: This table was formerly Section 1.2.2.2 of the SY 2005-06 CSPR.

1.3 STUDENT ACADEMIC ACHIEVEMENT

This section collects data on student academic achievement on the State *NCLB* assessments.

1.3.1 Student Academic Achievement in Mathematics

In the format of the table below, provide the number of students who completed the State *NCLB* assessment(s) in mathematics implemented to meet the requirements of Section 1111(b)(3) of ESEA (regardless of whether the students were present for a full academic year) and for whom a proficiency level was assigned, and the number of these students who scored at or above proficient, in grades 3 through 8 and high school. The percentage of students who scored at or above proficient is calculated automatically.

The student group "children with disabilities (*IDEA*)" includes children who were tested using regular assessments with or without accommodations and alternate assessments.

The student group "limited English proficient students (LEP)" does not include recently arrived students who have attended schools in the United States for fewer than 12 months; and does not include monitored former LEP (MFLEP) students.

1.3.2 Student Academic Achievement in Reading/Language Arts

This section is similar to 1.3.1. The only difference is that this section collects data on the State's *NCLB* reading/language arts assessment.

1.3.1 Student Academic Achievement in Mathematics - Grade 3

Grade 3	# Students Who Completed the Assessment and for Whom a Proficiency Level Was Assigned	# Students Scoring at or Above Proficient	Percentage of Students Scoring at or Above Proficient
All students	36910	33630	91.1
American Indian or Alaska Native	75	67	89.3
Asian or Pacific Islander	294	284	96.6
Black, non-Hispanic	18469	16182	87.6
Hispanic	645	586	90.9
White, non-Hispanic	17427	16511	94.7
Children with disabilities (*IDEA*)	3938	2853	72.5
Limited English proficient (LEP) students	426	384	90.1
Economically disadvantaged students	22101	19454	88.0
Migratory students	67	62	92.5
Male	18778	16968	90.4
Female	18132	16662	91.9
Comments: Reported data are correct. Represents a completely different group of students compared to same grade previous year.			

Source – Initially prepopulated by ED*Facts* in file N/X075 that is data group 583, category sets A, B, C, D, E, and F. If the SEA has additional racial/ethnic groups or combinations of racial/ethnic groups in its accountability plan under *NCLB*, the SEA will report the above data for those groups through the online collection tool.

Note: The addition of the total number of students with an assigned proficiency level is a new data collection for the SY 2006-07 CSPR.

1.3.2 Student Academic Achievement in Reading/Language Arts - Grade 3

Grade 3	# Students Who Completed the Assessment and for Whom a Proficiency Level Was Assigned	# Students Scoring at or Above Proficient	Percentage of Students Scoring at or Above Proficient
All students	36930	30909	83.7

1.4 SCHOOL AND DISTRICT ACCOUNTABILITY

This section collects data on the Adequate Yearly Progress (AYP) status of schools and districts.

1.4.1 All Schools and Districts Accountability

In the table below, provide the total number of public elementary and secondary schools and districts in the State and the total number of those schools and districts that made AYP based on data for the SY 2006-07 school year. The percentage that made AYP will be calculated automatically.

Entity	Total #	# That Made AYP in SY 2006-07	Percentage That Made AYP in SY 2006-07
Schools	887	703	79.3
Districts	152	47	30.9
Comments:			

Source – The table above is produced through ED*Facts*. The SEA submits the data in N/X103 for data group 32.

1.4.2 Title I School Accountability

In the table below, provide the total number of public Title I schools by type and the total number of those schools that made AYP based on data for the SY 2006-07 school year. Include only public Title I schools. Do not include Title I programs operated by local educational agencies in private schools. The percentage that made AYP will be calculated automatically.

Title I School	# Title I Schools	# Title I Schools That Made AYP in SY 2006-07	Percentage of Title I Schools That Made AYP in SY 2006-07
All Title I schools	685	552	80.6
Schoolwide (SWP) Title I schools	653	523	80.1
Targeted assistance (TAS) Title I schools	32	29	90.6
Comments:			

Source – The table above is produced through ED*Facts*. The SEA submits the data in N/X101 for data group 22 and N/X103 for data group 32.

Note: New for the SY 2006-07 CSPR is the data collection requirement to report for public schools and to include data for schoolwide (SWP) and targeted assistance (TAS) Title I Schools.

1.4.3 Accountability of Districts That Received Title I Funds

In the table below, provide the total number of districts that received Title I funds and the total number of those districts that made AYP based on data for SY 2006-07. The percentage that made AYP will be calculated automatically.

# Districts That Received Title I Funds	# Districts That Received Title I Funds and Made AYP in SY 2006-07	Percentage of Districts That Received Title I Funds and Made AYP in SY 2006-07
152	47	30.9
Comments: Why do you believe that the number of districts making AYP in 2007 should be within 10% of the number making AYP in 2007?		

Source – Initially, pre-populated by EDFacts file N/X103 that is data group 32 and 582. If necessary, it is updated through manual entry by the SEA into the online collection tool.

1.4.4 Title I Schools Identified for Improvement

1.4.4.1 List of Title I Schools Identified for Improvement

In the following table, provide a list of Title I schools identified for improvement, corrective action, or restructuring under Section 1116 for the SY 2007-08 based on the data from SY 2006-07. For each school on the list, provide the following:

- District Name and NCES ID Code
- School Name and NCES ID Code
- Whether the school missed the proficiency target in reading/language arts as outlined in the State's Accountability Plan
- Whether the school met the participation rate target for the reading/language arts assessment
- Whether the school missed the proficiency target in mathematics as outlined in the State's Accountability Plan
- Whether the school met the participation rate target for the mathematics assessment
- Whether the school missed the other academic indicator for elementary/middle schools (if applicable) as outlined in the State's Accountability Plan
- Whether the school missed the graduation rate for high schools (if applicable) as outlined in the State's Accountability Plan
- Improvement status for SY 2007-08 (Use one of the following improvement status designations: School Improvement – Year 1, School Improvement – Year 2, Corrective Action, Restructuring Year 1 (planning), or Restructuring Year 2 (implementing))[1]
- Whether the school is a Title I school (This column is optional and is used only by States that choose to list all schools in improvement.)

1.4.4.2 Actions Taken for Title I Schools Identified for Improvement

In the space below, describe the measures being taken to address the achievement problems of schools identified for improvement, corrective action, and restructuring. Include a discussion of the technical assistance provided by and supported by the State, including a description of the statewide systems of support under *NCLB* (e.g., the number of schools served, the nature and duration of assistance provided, etc.).

The response is limited to 8,000 characters.

Technical Assistance

In compliance with the No Child Left Behind Act of 2001 (NCLB), the Mississippi Department of Education (MDE) Office of Innovative Support (OIS) developed during the 2006-07 school year, a Statewide System of Support designed to provide "intensive and sustained" technical assistance for improving local educational agencies (LEAs) and schools identified as in need of improvement. In order to achieve this goal, OIS established School Support Teams (SST), consisting of highly qualified retired educators and administrators, to offer onsite expert assistance through the school support program to help schools build capacity in the areas of curriculum, instruction, school management, and leadership.

SST members will assist schools identified for corrective action and restructuring in researching data-driven improvement models, scientifically research-based instructional strategies, highly-effective staff development trainings, as well as assist with the reallocation of resources, in an effort to effectively promote student achievement. In addition, SST members will analyze district/school accountability results using the Mississippi Statewide Accountability Model and help targeted schools use this data in developing, modifying, and implementing their school improvement plans

In 2006-07, the Office of Innovative Support hosted a School Improvement Technical Assistance Training for 58 schools identified for improvement. The purpose of the meeting was to provide training and technical assistance on the requirements of the No Child Left Behind Act of 2001 regarding schools identified for School Improvement.

1.4.4.3 Corrective Action

In the table below, for schools in corrective action, provide the number of schools for which the listed corrective actions under *NCLB* are being implemented.

Corrective Action	# of Schools in Corrective Action in Which the Corrective Action Is Being Implemented
Required implementation of a new research-based curriculum or instructional program	7
Extension of the school year or school day	13
Replacement of staff members relevant to the school's low performance	5
Significant decrease in management authority at the school level	1
Replacement of the principal	2
Restructuring the internal organization of the school	3
Appointment of an outside expert to advise the school	5

1.4.4.4 Restructuring – Year 2

In the table below, for schools in restructuring – year 2 (implementation year), provide the number of schools for which the listed restructuring actions under *NCLB* are being implemented.

Restructuring Action	# of Schools in Restructuring in Which Restructuring Action Is Being Implemented
Replacement of all or most of the school staff (which may include the principal)	0
Reopening the school as a public charter school	0
Entering into a contract with a private entity to operate the school	0
Take over the school by the State	0
Other major restructuring of the school governance	0

1.4.5 Districts That Received Title I Funds Identified for Improvement

1.4.5.1 List of Districts That Received Title I Funds and Were Identified for Improvement

In the following table, provide a list of districts that received Title I funds and were identified for improvement or corrective action under Section 1116 for the SY 2007-08 based on the data from SY 2006-07. For each district on the list, provide the following:

- District Name and NCES ID Code
- Whether the district missed the proficiency target in reading/language arts as outlined in the State's Accountability Plan
- Whether the district met the participation rate target for the reading/language arts assessment
- Whether the district missed the proficiency target in mathematics as outlined in the State's Accountability Plan
- Whether the school met the participation rate target for the mathematics assessment
- Whether the district met the other academic indicator for elementary/middle schools (if applicable) as outlined in the State's Accountability Plan
- Whether the district met the graduation rate for high schools (if applicable) as outlined in the State's Accountability Plan
- Improvement status for SY 2007-08 (Use one of the following improvement status designations: Improvement or Corrective Action[2])
- Whether the district is a district that received Title I funds (This column is optional and is used only by States that choose to list all districts in improvement.)

1.4.5.2 Actions Taken for Districts That Received Title I Funds Identified for Improvement

In the space below, describe the measures being taken to address the achievement problems of districts identified for improvement or corrective action. Include a discussion of the technical assistance provided by the State (e.g., the number of districts served, the nature and duration of assistance provided, etc.).

The response is limited to 8,000 characters.

The Mississippi Department of Education provides technical assistance to LEAs identified for improvement, and requires that each identified LEA submit for approval an improvement plan written to address the target area(s) attributing to the identification. In addition, the SEA provides individualized technical assistance visits to LEAs based on need.

Note: The inclusion of the discussion of technical assistance provided by the State is a new data collection for the SY 2006-07 CSPR.

1.4.5.3 Corrective Action

In the table below, for districts in corrective action, provide the number of districts in corrective action in which the listed corrective actions under *NCLB* are being implemented.

Corrective Action	# of Districts in Corrective Action in Which Corrective Action Is Being Implemented
Implementing a new curriculum based on State standards	0
Authorized students to transfer from district schools to higher performing schools in a neighboring district	0
Deferred programmatic funds or reduced administrative funds	0
Replaced district personnel who are relevant to the failure to make AYP	0
Removed one or more schools from the jurisdiction of the district	0
Appointed a receiver or trustee to administer the affairs of the district	0
Restructured the district	0
Abolished the district (list the number or districts abolished between the SYs 2005-06 and 2006-07 as a corrective action)	0
Comments: There were no districts identified for corrective action during the 2006-07 school year.

1.4.6 Dates of AYP and Identification Determinations

In the table below, provide the dates (MM/DD/YY) when your State provided final school and district AYP and identification for improvement, corrective action, or restructuring to schools and districts based on SY 2006-07 assessments. If applicable, also provide the dates for preliminary determinations provided to schools and districts.

	Districts	Schools
Final AYP and identification determinations	08/31/07	08/31/07
Preliminary school AYP and identification determinations (if applicable)	08/03/07	08/03/07

1.4.8 Section 1003(a) Funds

In the space below, describe your State's use of Section 1003(a) of ESEA funds. Specifically, address the following:

- Describe briefly any priorities the State uses in allocating these funds to schools.
- Describe briefly the State's methods for distributing these funds (e.g., formula, competitive, etc.).
- Describe briefly the types of activities supported by the Section 1003(a) funds.

The response is limited to 8,000 characters.

Section 1003(a) funds are allocated to LEAs identified for improvement according an approved formula based methodology. As funds are allocated, priority is given to schools that are the lowest performing, and have exhibited the greatest need. All schools identified for improvement are required to develop school improvement plans to address how funds will be used by LEAs to develop and implement reform strategies that provide opportunities for all children to meet the State's proficient and advanced levels of achievement, address the needs of all children in the school, particularly low-achieving and those at risk of not meeting Mississippi Standards. Additionally, funds will be utilized for the purpose of providing teachers and principals with high-quality professional development, and parental involvement activities.

1.4.9.1.2 Public School Choice – Students

In the table below, provide the number of students who were eligible for public school choice, the number of eligible students who applied for public school choice, and the number who transferred under the provisions for public school choice in Section 1116 of ESEA.

Students who are eligible for public school choice includes:
(1) Students currently enrolled in a school identified for improvement
(2) Students who transferred in the current school year under the public school choice provisions of section 1116, and
(3) Students who previously transferred under section 1116 and are continuing to transfer for the current school year under section 1116.

	# Students
Eligible for public school choice	31785
Who applied to transfer	97
Who transferred to another school under Title I public school choice provisions	71

Indicate in the table below the categories of students that are included in the count of eligible students.

	Yes/No
1. Enrolled in a school identified for improvement	Yes
2. Transferred in the current school year, only	No Response
3. Transferred in a prior year and in the current year	No Response
Comments: MDE does not have the data to reflect the year in which students transferred.

1.4.9.1.4 Availability of Public School Choice Options

In the table below provide the number of LEAs in your State that are unable to provide public school choice options to eligible students due to any of the following reasons:

1. All schools at a grade level are in school improvement, corrective action, or restructuring.
2. LEA only has a single school at the grade level of the school at which students are eligible for public school choice
3. LEA's schools are so remote from one another that choice is impracticable.

FAQs about public school choice:

a. *How should States report data on Title I public school choice for those LEAs that have open enrollment and other choice programs?* An LEA may consider a student as eligible for and participating in Title I public school choice, and may consider costs for transporting that student towards its funds spent on transportation for public school choice, if the student meets the following conditions:

- Has a "home" or "neighborhood" school (to which the student would have been assigned, in the absence of a choice program) that receives Title I funds and has been identified, under the statute, as in need of improvement, corrective action, or restructuring; and
- Has elected to enroll, at some point since July 1, 2002 (the effective date of the Title I choice provisions), and after the home school has been identified as in need of improvement, in a school that has not been so identified and is attending that school; and
- Is using district transportation services to attend such a school.[3]

b. *How do States report on public school choice for those LEAs that are not able to offer public school choice (e.g., LEAs in which all schools in a grade level are in school improvement, LEAs that have only a single school at that grade level, or LEAs whose schools are so remote from one another that choice is impracticable)?* For those LEAs, States should count as eligible all students who attend identified Title I schools. States should report that no eligible schools or students were provided the option to transfer and should provide an explanation why choice is not possible within the LEA in the Comment Section.

FAQ about supplemental education services

How should a State define the phrase "students who received supplemental educational services"? States should consider students who "received" supplemental educational services as those students who enrolled and participated in some hours of services. States have the discretion to determine the minimum number of hours of participation necessary for a student to have "received" services.

1.5 TEACHER QUALITY

This section collects data on "highly qualified" teachers as the term is defined in Section 9101(23) of the *ESEA*.

1.5.1 Core Academic Classes Taught by Teachers Who Are Highly Qualified

In the table below, provide the number of core academic classes for each of the school types listed and the number of those core academic classes taught by teachers who are highly qualified (as the term is defined in section 9101(23) of the *ESEA*) and the number taught by teachers who are not highly qualified. The percentage of core academic classes taught by teachers who are highly qualified and the percentage taught by teachers who are not highly qualified will be calculated automatically. Below the table are FAQs about these data. The percentages used for high- and low-poverty schools and the poverty metric used to determine those percentages are reported in 1.5.3.

School Type	# of Core Academic Classes (Total)	# of Core Academic Classes Taught by Teachers Who Are Highly Qualified	Percentage of Core Academic Classes Taught by Teachers Who Are Highly Qualified	# of Core Academic Classes Taught by Teachers Who Are NOT Highly Qualified	Percentage of Core Academic Classes Taught by Teachers Who Are NOT Highly Qualified
All schools	130100	123505	94.9	6595	5.1
Elementary level					
High-poverty schools	19164	17479	91.2	1685	8.8
Low-poverty schools	24035	23432	97.5	603	2.5
All elementary schools	93895	90017	95.9	3878	4.1
Secondary level					
High-poverty schools	7447	6489	87.1	958	12.9
Low-poverty schools	10593	10121	95.5	472	4.5
All secondary schools	36205	33488	92.5	2717	7.5
Comments: Total # core academic classes includes some classes (e.g. in alternative programs) which are not taught at schools that can be classified as either elemantary or secondary.					

Do the data in Table 1.5.1 above include classes taught by special education teachers who provide direct instruction core academic subjects?

Data table includes classes taught by special education teachers who provide direct instruction core academic subjects.	Yes

If the answer above is no, please explain:

Does the State count elementary classes so that a full-day self-contained classroom equals one class, or does the State use a departmentalized approach where a classroom is counted multiple times, once for each subject taught?

The response is limited to 8,000 characters.

All course/class counts are based on course codes NCLB core area flags and instructional periods appearing on teachers' daily schedules.

Source – Manual entry by SEA into the online collection tool.

Note: The data collection requirement to submit data for core classes taught by teachers who are NOT highly qualified has been added for the SY 2006-07 CSPR.

FAQs about highly qualified teachers and core academic subjects:

a. *What are the core academic subjects?* English, reading/language arts, mathematics, science, foreign languages, civics and government, economics, arts, history, and geography [Title IX, Section 9101(11)]. While the statute includes the arts in the core academic subjects, it does not specify which of the arts are core academic subjects; therefore, States must make this determination.

b. *How is a teacher defined?* An individual who provides instruction in the core academic areas to kindergarten, grades 1 through 12, or ungraded classes, or individuals who teach in an environment other than a classroom setting (and who maintain daily student attendance records) [from NCES, CCD, 2001-02]

c. *How is a class defined?* A class is a setting in which organized instruction of core academic course content is provided to one or more students (including cross-age groupings) for a given period of time. (A course may be offered to more than one class.) Instruction, provided by one or more teachers or other staff members, may be delivered in person or via a different medium. Classes that share space should be considered as separate classes if they function as separate units for more than 50 percent of the time [from NCES Non-fiscal Data Handbook for Early Childhood, Elementary, and Secondary Education, 2003].

d. *Should 6th-, 7th-, and 8th-grade classes be reported in the elementary or the secondary category?* States are responsible for determining whether the content taught at the middle school level meets the competency requirements for elementary or secondary instruction. See Question A-14 in the August 3, 2006, Non-Regulatory Guidance for additional information. Report classes in grade 6 though 8 consistent with how teachers have been classified to determine their highly qualified status, regardless of whether their schools are configured as elementary or middle schools.

e. *How should States count teachers (including specialists or resource teachers) in elementary classes?* States that count self-contained classrooms as one class should, to avoid over-representation, also count subject-area specialists (e.g., mathematics or music teachers) or resource teachers as teaching one class. On the other hand, States using a departmentalized approach to instruction where a self-contained classroom is counted multiple times (once for each subject taught) should also count subject-area specialists or resource teachers as teaching multiple classes.

f. *How should States count teachers in self-contained multiple-subject secondary classes?* Each core academic subject taught for which students are receiving credit toward graduation should be counted in the numerator and the denominator. For example, if the same teacher teaches English, calculus, history, and science in a self-contained classroom, count these as four classes in the denominator. If the teacher were Highly Qualified to teach English and history, he/she would be counted as Highly Qualified in two of the four subjects in the numerator.

g. *What is a "high-poverty school"?* Section 1111(h)(1)(C)(viii) defines "high-poverty" schools as schools in the top quartile of poverty in the State. The poverty quartile breaks are reported later in this section.

h. *What is a "low-poverty school"?* Section 1111(h)(1)(C)(viii) defines "low-poverty" schools as schools in the bottom quartile of poverty in the State. The poverty quartile breaks are reported later in this section.

1.5.2 Reasons Core Academic Classes Are Taught by Teachers Who Are Not Highly Qualified

In the table below, estimate the percentages for each of the reasons why teachers who are not highly qualified teach core academic classes. For example, if 900 elementary classes were taught by teachers who are not highly qualified, what percentage of those 900 classes falls into each of the categories listed below? If the three reasons provided at each grade level are not sufficient to explain why core academic classes at a particular grade level are taught by teachers who are not highly qualified, use the row labeled "other" and explain the additional reasons. The total of the reasons is calculated automatically for each grade level and must equal 100% at the elementary level and 100% at the secondary level.

Note: Use the numbers of core academic classes taught by teachers who are **NOT** highly qualified from 1.5.1 for both elementary school classes (1.5.2.1) and for secondary school classes (1.5.2.2) as your starting point.

	Percentage
Elementary School Classes	
Elementary school classes taught by certified general education teachers who did not pass a subject-knowledge test or (if eligible) have not demonstrated subject-matter competency through HOUSSE	11.0
Elementary school classes taught by certified special education teachers who did not pass a subject-knowledge test or have not demonstrated subject-matter competency through HOUSSE	15.0
Elementary school classes taught by teachers who are not fully certified (and are not in an approved alternative route program)	48.1
Other (please explain)	25.9
Total	100.0

Source – Manual entry by SEA into the online collection tool.

	Percentage
Secondary School Classes	
Secondary school classes taught by certified general education teachers who have not demonstrated subject-matter knowledge in those subjects (e.g., out-of-field teachers)	26.0
Secondary school classes taught by certified special education teachers who have not demonstrated subject-matter competency in those subjects	0.7
Secondary school classes taught by teachers who are not fully certified (and are not in an approved alternative route program)	71.3
Other (please explain)	2.0
Total	100.0
Comments: Currently, Mississippi has a shortage of teachers in geographical areas and certain subject areas. Many of our districts in rural areas have trouble finding and keeping highly qualified core subject teachers. The state is not producing enough teachers to keep up with the demand. The Mississippi Teacher Center is working with those districts to shore up their recruitment efforts and to provide resources and technical assistance as needed.

1.5.3 Poverty Quartiles and Metrics Used

In the table below, provide the poverty quartiles breaks used in determining high- and low-poverty schools and the poverty metric used to determine the poverty quartiles. Below the table are FAQs about the data collected in this table.

	High-Poverty Schools (more than what %)	**Low-Poverty Schools** (less than what %)
Elementary schools	87.0	43.0
Poverty metric used	Percentage of students eligible for free lunch	
Secondary schools	81.0	38.0
Poverty metric used	Percentage of students eligible for free lunch	
Comments:

FAQs on poverty quartiles and metrics used to determine poverty

a. *How are the poverty quartiles determined?* Separately rank order elementary and secondary schools from highest to lowest on your percentage poverty measure. Divide the list into four equal groups. Schools in the first (highest group) are high-poverty schools. Schools in the last group (lowest group) are the low-poverty schools. Generally, States use the percentage of students who qualify for the free or reduced-price lunch program for this calculation.

b. *Since the poverty data are collected at the school and not classroom level, how do we classify schools as either elementary or secondary for this purpose?* States may include as elementary schools all schools that serve children in grades K through 5 (including K through 8 or K through 12 schools) and would therefore include as secondary schools those that exclusively serve children in grades 6 and higher.

1.6 TITLE III AND LANGUAGE INSTRUCTIONAL PROGRAMS

This section collects annual performance and accountability data on the implementation of Title III programs.

Throughout this section:

- "AYP grades" is sometimes used to reference grades used for accountability determinations (grades 3 through 8 and one year of high school)
- "Non-AYP grades" is used to reference grades not used for accountability determinations.

1.6.1 Language Instruction Educational Programs (formerly 1.1. of the Title III Biennial Collection)

In the table below, provide the number of Title III subgrantees that use each type of language instruction educational program, as defined in Section 3301(8).

Note: Numbers reflected in 1.6.1 can be duplicative due to subgrantees' use of more than one type of program. The number for each type of program should be equal to or less than the total number of subgrantees in 1.6.4.1.

Table 1.6.1 Definitions:

1. **# Using Program =** Number of subgrantees that reported using a specific type of language instruction educational program. Subgrantees may use multiple programs. **(a.)** If multiple programs are used, count one for each program type used. **(b.)** Consortium is always counted as **one if all members used the same type of program**. If consortium members used different types of programs, count all members using the same type of program as one for each type. Do not count the members of the consortium individually as one, unless each member used a different type of program (e.g., use the same method of counting as one subgrantee using multiple types of programs in **(a.)**)
2. **Type of Program =** Type of programs described in the subgrantee's local plan (as submitted to the State or as implemented) that is closest to the descriptions in http://www.ncela.gwu.edu/expert/glossary.html.
3. **Other Language =** Name of the language of instruction, other than English, used in the program.
4. **% Language of Instruction =** Average percentages of English and the other language used as a language of instruction in the program or use the percentage of the most common practice in the State (applies **only** to the first five bilingual program types).
5. **OLOI =** Other Language of Instruction used in the bilingual language instruction educational program.

1.6.3.4.3 Status of Monitored Former LEP Students (MFLEP) (formerly 3.1 of the Title III Biennial Collection, modified)

In the table below, report the unduplicated count of MFLEP students in K-12 for each of the two years monitored during the SY 2006-07, which includes both MFLEP students in AYP grades and in non-AYP grades in row 1 and MFLEP students only in AYP grades in row 2.

Table 1.6.3.4.3 Definitions:

1. **Monitored Former LEP (MFLEP) includes:**
   - Students that have transitioned into classrooms that are not designed for LEP students;
   - Students that are no longer receiving LEP services; and who are being monitored for academic content achievement for 2 years after transition.
2. **Total MFLEP =** State aggregated number of all MFLEP students in grades K through 12.
3. **MFLEP/AYP Grades =** State aggregated number of MFLEP students in grades used for accountability determinations (3 through 8 and once in high school). These students may be included in the LEP subgroup AYP calculations.

1.6.3.4.4 LEP Students in Non-AYP Grades (formerly 2.3 of the Title III Biennial Collection)

In the table below, report the total number of LEP students in grade ranges that were not tested for AYP in SY 2006-07.

Table 1.6.3.4.4 Definitions:

1. **LEP K-2 =** All LEP students in these grades. Do not include pre-K students.
2. **LEP HS/Non-AYP =** High school students (grades 9 through 12 or 10 through 12 [State specific]) who are in the high school grades that are not tested for AYP in the State (e.g., if the State tested grade 10 for AYP, then the State should provide the aggregated number of LEP students in grades 9, 11 and 12).
3. **LEP Other Grades =** Number of LEP students enrolled in public schools but not in grades K through 12. Students in non-graded grades or grade spans. Do not report LEP students in grades used for NCLB accountability determinations (3 through 8 and once in high school) in this row.

1.6.3.6 Title III Served Monitored Former LEP Students

This section collects data on the performance of former LEP students.

1.6.3.6.1 Title III Served MFLEP Students by Year Monitored (formerly 3.1 of the Title III Biennial Collection)

In the table below, report the unduplicated count of monitored former LEP students during the two consecutive years of monitoring, which includes both MFLEP students in AYP grades and in non-AYP grades.

Table 1.6.3.6.1 Definitions:

1. **# Year One =** Number of former LEP students in their first year of being monitored.
2. **# Year Two =** Number of former LEP students in their second year of being monitored.

1.6.4 Title III Subgrantees

This section collects data on the performance of Title III subgrantees.

1.6.4.1 Title III Subgrantee Performance (formerly 4.1 of the Title III Biennial Collection)

In the table below, report the number of Title III subgrantees meeting the criteria described in the table. Use the same method of counting consortia as in 1.6.1 (consortia regardless of number of members is only counted as one). Do not leave items blank. If there are zero subgrantees, who met the condition described, put a zero in the number (#) column. Do not double count subgrantees by category. The total of the # met all three AMAOs + # met 2 AMAOs only + # Met one AMAO + # Met zero AMAOs=total # of subgrantees for the year.

Note: Do not include number of subgrants made under Section 3114(d)(1) reserved funds for education programs and activities for immigrant children and youth. (Report Section 3114(d)(1) subgrants in 1.6.5.1 ONLY.)

1.6.5 Education Programs and Activities for Immigrant Students (formerly 5.1 of the Title III Biennial Collection)

This section collects data on education programs and activities for immigrant students.

1.6.5.1 Immigrant Students

In the table below, report the unduplicated number of immigrant students enrolled in the State and in qualifying educational programs under Section 3114(d)(1).

Table 1.6.5.1 Definitions:

1. **Immigrant Students Enrolled =** Number of students who meet the definition of immigrant children and youth in Section 3301 (6) and enrolled in the elementary or secondary schools in the State.
2. **Students in 3114(d)(1) Program =** Number of immigrant students who participated in programs for immigrant children and youth funded under Section 3114(d)(1), using the funds reserved for immigrant education programs/activities. This number should not include immigrant students who receive services in Title III LIEPs under Sections 3114(a) & 3115(a) ONLY.
3. **3114(d)(1) Subgrants =** Number of subgrants made in the State under Section 3114(d)(1), with the funds reserved for immigrant education programs/activities. Do not include Title III LIEP subgrants made under Sections 3114(a) & 3115(a) that have immigrant students enrolled in them.

# Immigrant Students Enrolled	# Students in 3114(d)(1) Program	# of 3114(d)(1) Subgrants

1.6.6 Teacher Information and Professional Development

This section collects data on teachers in Title III language instruction education programs.

1.6.6.1 Teacher Information (formerly 7.1 of the Title III Biennial Collection, modified)

In the table below, report the number of teachers who are working in the Title III language instruction educational programs as defined in Section 3301(8) and reported in table 1.6.1 (Types of language instruction educational programs).

Note: Section 3301(8) – The term 'Language instruction educational program' means an instruction course – (A) in which a limited English proficient child is placed for the purpose of developing and attaining English proficiency, while meeting challenging State academic content and student academic achievement standards, as required by Section 1111(b)(1); and (B) that may make instructional use of both English and a child's native language to enable the child to develop and attain English proficiency and may include the participation of English proficient children if such course is designed to enable all participating children to become proficient in English and a second language.

1.6.6.2 Professional Development (PD) Activities of Subgrantees Related to the Teaching and Learning of LEP Students
(formerly 7.4 of the Title III Biennial Collection)

In the table below, provide the number of professional development activities that specifically address only the teaching of LEP students or are related to the learning of LEP students. These professional development activities must meet the requirements of the Title III subgrantee required activities.

Table 1.6.6.2 Definitions:

1. **Types of Professional Development Activity =** Subgrantee activities for professional development required under Title III.
2. **#Subgrantees =** Number of subgrantees who conducted each type of professional development activity. A subgrantee may conduct more than one professional development activity. (Use the same method of counting subgrantees, including consortia, as in 1.6.1.1 and 1.6.4.1.)
3. **Total Number of Participants =** Number of teachers, administrators and other personnel who participated in each type of the professional development (PD) activities reported.
4. **Total =** Number of all participants in PD activities.

Type of Professional Development Activity	# Subgrantees	
Instructional strategies for LEP students	24	
Understanding and implementation of assessment of LEP students	23	
Understanding and implementation of ELP standards and academic content standards for LEP students	18

1.6.7 State Subgrant Activities

This section collects data on State grant activities.

1.6.7.1 State Subgrant Process

In the table below, report the time between when the State receives the Title III allocation from ED, normally on July 1 of each year for the upcoming school year, and the time when the State distributes these funds to subgrantees for the intended school year. Dates must be in the format MM/DD/YY.

Table 1.6.7.1 Definitions:

1. **Date State Received Allocation =** Annual date the State receives the Title III allocation from US Department of Education (ED).
2. **Date Funds Available to Subgrantees =** Annual date that Title III funds are available to approved subgrantees.
3. **# of Days/$$ Distribution =** Average number of days for States receiving Title III funds to make subgrants to subgrantees beginning from July 1 of each year, except under conditions where funds are being withheld.

Example: State received SY 2006-07 funds July 1, 2006, and then made these funds available to subgrantees on August 1, 2006, for SY 2006-07 programs. Then the "# of days/$$ Distribution" is 30 days.

1.6.7.2 Steps To Shorten the Distribution of Title III Funds to Subgrantees

In the comment box below, describe how your State can shorten the process of distributing Title III funds to subgrantees.

The Mississippi Department of Education to the LEA went out in October with a 30 day turnaround. The review process takes about 30 days. Funds are made available December 1. The whole process takes about 90 days. The Mississippi Department of Education can issue applications earlier and that would not shorten the process but money would be available earlier to the LEA.

Timeline for implementation of proposed change:

May 1 - May 31 - Application to LEA

June 1 - Applications due back to MDE

June 1 - 30 - Application approval process

July 1 - Funds available to LEAs

1.8 GRADUATION RATES AND DROPOUT RATES

This section collects graduation and dropout rates.

1.8.1 Graduation Rates

In the table below, provide the graduation rates calculated using the methodology that was approved as part of the State's accountability plan for the **previous school year** (SY 2005-06). Below the table are FAQs about the data collected in this table.

Student Group	Graduation Rate
All Students	87.0
American Indian or Alaska Native	
Asian or Pacific Islander	
Black, non-Hispanic	
Hispanic	
White, non-Hispanic	
Children with disabilities (*IDEA*)	
Limited English proficient	
Economically disadvantaged	
Migratory students

Female	
Comments: Graduation data cannot currently be disaggregated.	

Source – Initially, pre-populated by EDFacts file N/X041 that is data group 563, category sets A, B, C, D, E, and F. If necessary, it is updated through manual entry by the SEA into the online collection tool. If the SEA has additional racial/ethnic groups or combinations of racial/ethnic groups in its accountability plan under *NCLB*, the SEA will report the above data for those groups through the online CSPR collection tool.

FAQs on graduation rates:

a. *What is the graduation rate?* Section 200.19 of the Title I regulations issued under the *No Child Left Behind Act* on December 2, 2002, defines graduation rate to mean:
   - The percentage of students, measured from the beginning of high school, who graduate from public high school with a regular diploma (not including a GED or any other diploma not fully aligned with the State's academic standards) in the standard number of years; or,
   - Another more accurate definition developed by the State and approved by the Secretary in the State plan that more accurately measures the rate of students who graduate from high school with a regular diploma; and
   - Avoids counting a dropout as a transfer.

b. *What if the data collection system is not in place for the collection of graduate rates?* For those States that are reporting transitional graduation rate data and are working to put into place data collection systems that will allow the State to calculate the graduation rate in accordance with Section 200.19 for all the required subgroups, please provide a detailed progress report on the status of those efforts.

1.8.2 Dropout Rates

In the table below, provide the dropout rates calculated using the annual event school dropout rate for students leaving a school in a single year determined in accordance with the National Center for Education Statistic's (NCES) Common Core of Data (CCD) for the **previous school year** (SY 2005-06). Below the table is an FAQ about the data collected in this table.

Student Group	Dropout Rate
All Students	1.1
American Indian or Alaska Native	2.0
Asian or Pacific Islander	0.8
Black, non-Hispanic	1.4
Hispanic	0.8
White, non-Hispanic	0.9
Children with disabilities (*IDEA*)	
Limited English proficient	
Economically disadvantaged	
Migratory students	
Male	1.3
Female	0.9
Comments: Dropout data not available for students with disabilities limited English proficient economically disadvantaged and migrant.

FAQ on dropout rates:

What is a dropout? A dropout is an individual who: 1) was enrolled in school at some time during the previous school year; and 2) was not enrolled at the beginning of the current school year; and 3) has not graduated from high school or completed a State- or district-approved educational program; and 4) does not meet any of the following exclusionary conditions: a) transfer to another public school district, private school, or State- or district-approved educational program (including correctional or health facility programs); b) temporary absence due to suspension or school-excused illness; or c) death.

1.9 EDUCATION FOR HOMELESS CHILDREN AND YOUTHS PROGRAM

1.10 MIGRANT CHILD COUNTS

This section collects the Title I, Part C, Migrant Education Program (MEP) child counts which States are required to provide and may be used to determine the annual State allocations under Title I, Part C. The child counts should reflect the reporting period of September 1, 2006 through August 31, 2007. This section also collects a report on the procedures used by States to produce true, accurate, and valid child counts.

To provide the child counts, each SEA should have sufficient procedures in place to ensure that it is counting only those children who are eligible for the MEP. Such procedures are important to protecting the integrity of the State's MEP because they permit the early discovery and correction of eligibility problems and thus help to ensure that only eligible migrant children are counted for funding purposes and are served. If an SEA has reservations about the accuracy of its child counts, it must inform the Department of its concerns and explain how and when it will resolve them in Section 1.10.3.4 *Quality Control Processes.*

Please note that in submitting this information, the Authorizing State Official must certify that, to the best of his/her knowledge, the child counts and information contained in the report are true, reliable, and valid and that any false statement provided is subject to fine or imprisonment pursuant to 18 U.S.C. 1001.

FAQs on Child Count:

How is "out-of-school" defined? Out-of-school means youth up through age 21 who are entitled to a free public education in the State but are not currently enrolled in a K-12 institution. This could include students who have dropped out of school, youth who are working on a GED outside of a K-12 institution, and youth who are "here-to-work" only. It does not include preschoolers, who are counted by age grouping.

How is "ungraded" defined? Ungraded means the children are served in an educational unit that has no separate grades. For example, some schools have primary grade groupings that are not traditionally graded, or ungraded groupings for children with learning disabilities. In some cases, ungraded students may also include special education children, transitional bilingual students, students working on a GED through a K-12 institution, or those in a correctional setting. (Students working on a GED outside of a K-12 institution are counted as out-of-school youth.)

1.10.1 Category 1 Child Count

In the table below, enter the unduplicated statewide number by age/grade of **eligible** migrant children age 3 through 21 who, within 3 years of making a qualifying move, resided in your State for one or more days during the reporting period of September 1, 2006 through August 31, 2007. This figure includes all eligible migrant children who may or may not have participated in MEP services. Count a child who moved from one age/grade level to another during the reporting period only once in the highest age/grade that he/she attained during the reporting period. The unduplicated statewide total count is calculated automatically.

Do not include:

- Children age birth through 2 years
- Children served by the MEP (under the continuation of services authority) after their period of eligibility has expired when other services are not available to meet their needs
- Previously eligible secondary-school children who are receiving credit accrual services (under the continuation of services authority).

1.10.2 Category 2 Child Count

In the table below, enter by age/grade the unduplicated statewide number of **eligible** migrant children age 3 through 21 who, within 3 years of making a qualifying move, were served for one or more days in a MEP-funded project conducted during either the summer term or during intersession periods that occurred within the reporting period of September 1, 2006 through August 31, 2007. Count a child who moved from one age/grade level to another during the reporting period only once in the highest age/grade that he/she attained during the reporting period. Count a child who moved to different schools within the State and who was served in both traditional summer and year-round school intersession programs only once. The unduplicated statewide total count is calculated automatically.

Do not include:

- Children age birth through 2 years
- Children served by the MEP (under the continuation of services authority) after their period of eligibility has expired when other services are not available to meet their needs
- Previously eligible secondary-school children who are receiving credit accrual services (under the continuation of services authority).

1.10.3 Child Count Calculation and Validation Procedures

The following question requests information on the State's MEP child count calculation and validation procedures.

1.10.3.1 Student Information System

In the space below, respond to the following questions: What system(s) did your State use to compile and generate the Category 1 and Category 2 child count for this reporting period (e.g., NGS, MIS 2000, COEStar, manual system)? Were child counts for the last reporting period generated using the same system(s)? If the State's category 2 count was generated using a different system from the category 1 count, please identify each system.

The response is limited to 8,000 characters.

The SEA used MIS2000 to generate this report and child counts from the last reporting period. The SEA's category 1 and category 2 child counts were generated using the same system, MIS2000.

Source – Manual entry by SEA into the online collection tool.

Note: New data collection for the SY 2006-07 CSPR.

1.10.3.2 Data Collection and Management Procedures

In the space below, respond to the following questions: How was the child count data collected? What data were collected? What activities were conducted to collect the data? When were the data collected for use in the student information system? If the data for the State's category 2 count were collected and maintained differently from the category 1 count, please describe each set of procedures.

The response is limited to 8,000 characters.

The child count data was collected using information from COEs, and school records and/or data. The data elements collected were: names, ages, dates of birth, grades, family information, and addresses. Additional information included family history of migrancy, and the kind(s) of worked performed. In order to collect the data families, school personnel, and other stakeholders were interviewed. The data is collected upon identification and recruitment of the students and their families.

Source – Manual entry by SEA into the online collection tool.

Note: New data collection for the SY 2006-07 CSPR.

In the space below, describe how the child count data are inputted, updated, and then organized by the student information system for child count purposes at the State level

The response is limited to 8,000 characters.

There are three regional locations within the state, and each site is assigned data entry personnel who input and update student data in the MIS 2000 system. The information from these three regional sites is uploaded to the central state MIS 2000 system, and the state maintains MIS 2000 for all students.

If the data for the State's category 2 count were collected and maintained differently from the category 1 count, please describe each set of procedures.

The response is limited to 8,000 characters.

The data in the SEA's category 2 child count was generated using the MIS2000, which is the same system that was used to generate the data for the category 1 child count. The data for both categories is collected and maintained using the same system, MIS2000.

1.10.3.3 Methods Used To Count Children

In the space below, respond to the following question: How was each child count calculated? Please describe the compilation process and edit functions that are built into your student information system(s) specifically to produce an accurate child count. In particular, describe how your system includes and counts only:

- children who were between age 3 through 21;
- children who met the program eligibility criteria (e.g., were within 3 years of a last qualifying move, had a qualifying activity);
- children who were resident in your State for at least 1 day during the eligibility period (September 1 through August 31);
- children who–in the case of Category 2–received a MEP-funded service during the summer or intersession term; and
- children once per age/grade level for each child count category.

The response is limited to 8,000 characters.

Information for the child count is input into MIS2000 at our three regional sites, the sites input demographics from the COEs of those students/families that are determined to be eligible for the MEP by regional recruiters. Below are the criteria used for our Category 1 Report and Category 2 Report. Each report counts the student in the grade assigned to the most recent enrollment meeting the report criteria. The StartDate and EndDate represent the beginning and end of the reporting period, respectively.

Category 1 Report

a.. EnrollDate, FundingDate, LQMDate, ResDate, or WithdrawDate is between StartDate and EndDate (This verifies that the student had activity during the reporting period.)

b.. LQM3Date >= StartDate (This verifies that the student is within 3 years of their LQM at the beginning of the reporting period.)

c.. DomID = MS (This verifies that the school history line is a MS enrollment.)

d.. TwentySecondBDay >= StartDate and ThirdBDay <= EndDate (This verifies that the student is between the ages of 3 and 21 during the reporting period.)

Category 2 Report

a.. EnrollDate, FundingDate, LQMDate, ResDate, or WithdrawDate is between StartDate and EndDate (This verifies that the student had activity during the reporting period.)

b.. DomID = MS (This verifies that the school history line is a MS enrollment.)

c.. Type = S or Type = I (This verifies that the enrollment type is Summer or Intersession.)

d.. Twentysecondbday >= StartDate and Thirdbday <= EndDate (This verifies that the student is between the ages of 3 and 21 during the reporting period.)

e.. Twentysecondbday >= FundingDate (This verifies that the student turns 22 after their FundingDate.)

f.. LQM3Date >= StartDate (This verifies that the student is within 3 years of their LQM at the beginning of the reporting period.)

If your State's category 2 count was generated using a different system from the category 1 count, please describe each system separately.

The response is limited to 8,000 characters.

The SEA's category 1 and 2 child counts are generated using the same data criteria which is part of the MIS2000 system.

1.10.3.4 Quality Control Processes

In the space below, respond to the following question: What steps are taken to ensure your State properly determines and verifies the eligibility of each child included in the child counts for the reporting period of September 1 through August 31 before that child's data are included in the student information system(s)?

The response is limited to 8,000 characters.

All children are determined to be migrant and eligible for services via the Migrant Education program before information is input into MIS 2000. The information that is input into MIS2000 comes from COEs that are completed on each migrant family. The SEA's COE is standard and contains the following documentation: father/mother's legal name, current male/female guardian's name, current address, all children's names, grades, birthdates, gender, birthplace, date of school enrollment, student number, school district of origin, current school district, qualifying arrival date, residency date, type of move and with whom, type of employment (seasonal/temporary), qualifying activity/employment and person verifying information, i.e., parent, guardian, etc. The COE's information is verified by trained recruiters. All COEs contain the signature of the interviewee, the interviewer/recruiter, the program coordinator (who verifies the content and eligibility of the family). If there is a question regarding eligibility the COE is forwarded to the state for a final determination. All migrant recruiters are trained and certified by the SEA, ESCORT and national ID & R experts. Recruiters attend formal trainings, workshops and conferences at least three times per year they are required to maintain copies of ID & R guidelines/eligibility standards and the non-regulatory guidance along with other relative educational/reference material. Recruiters are required to visit schools, attend parent meetings and community activities in order to identify and recruit migrant families, they also do home visits on a regular basis. The SEA meets with regional personnel monthly at statewide meetings, technical assistance visits and monitoring/audit visits.

Note: New data collection for the SY 2006-07 CSPR.

In the space below, describe specifically the procedures used and the results of any re-interview processes used by the SEA during the reporting period to test the accuracy of the State's MEP eligibility determinations. In this description, please include the number of eligibility determinations sampled, the number for which a test was completed, and the number found eligible.

The response is limited to 8,000 characters.

The SEA did not conduct re-interviews for the reporting period of September 1, 2006 to August 31, 2007; therefore, we have no re-interview data to report for the specified time referenced in this question.

Note: New data collection for the SY 2006-07 CSPR.

In the space below, respond to the following question: Throughout the year, what steps are taken by staff to check that child count data are inputted and updated accurately (and–for systems that merge data–consolidated accurately)?

The response is limited to 8,000 characters.

The SEA and regional site representatives meet at least three times per year to discuss, data, data input and using the MIS2000 system; training of data personnel is conducted by MSEDD during these meetings, also new employees are trained as a part of their orientation and on-the-job training. The LEAs have full time data personnel who constantly update information, check for errors and input COE's. They work with the ID & R specialists and school districts to ensure accuracy of information, via the SEA's data system MSIS. All data personnel and state personnel have been trained on the use of MSIX, MIS2000 and the SEA's MSIS. The SEA checks data in MIS2000 on a regular basis for accuracy and coordinates with MSEDD to ensure efficiency and accuracy of data as a part of the overall quality control. The SEA in conjunction with outside ID & R specialists, ESCORT conducts random audits of files annually at each regional site; this includes a review of COEs, student records and other relative documentation.

In the space below, respond to the following question: What final steps are taken by State staff to verify the child counts produced by your student information system(s) are accurate counts of children in Category 1 and Category 2 prior to their submission to ED?

The response is limited to 8,000 characters.

State staff runs reports at the state level and checks the state report against information that has been input at the three regional levels. Counts are also checked by MIS2000 personnel for accuracy and to ensure that the proper counts are documented and reported as requested by the USDE in the required format.

Describe those corrective actions or improvements that will be made by the SEA to improve the accuracy of its MEP eligibility determinations in light of the prospective re-interviewing results.

The response is limited to 8,000 characters.

The SEA did not conduct re-interviews for the period of September 1, 2006 to August 31, 2007; therefore, we have no corrective actions or improvements that will have to be made by the SEA to improve the accuracy of our eligibility determinations.

In the space below, discuss any concerns about the accuracy of the reported child counts or the underlying eligibility determinations on which the counts are based.

The response is limited to 8,000 characters.

The SEA has no questions or concerns about the accuracy of the child counts, or underlying eligibility determinations; all information has been validated by regional and state personnel using the MIS2000 system, MSIS, COEs, parental/guardian interviews, school records and other relative documentation.
