

Appendix I

AAPCC-Certified Regional Poison Control Centers

AAPCC-Certified Regional Poison Control Centers

Poison Control Centers were established around 1953 to help physicians deal with poisoning of adults and children in the United States. In 1983, the American Association of Poison Control Centers (AAPCC) was established as the professional organization for Poison Control Centers. The Regional Poison Control Centers can act as a valuable resource in providing information about the toxicity and health effects of hazardous exposures involved in poisonings.
