

EXECUTIVE OFFICE OF THE PRESIDENT OFFICE OF MANAGEMENT AND BUDGET WASHINGTON, D.C. 20503

May 3, 2005

The Honorable Richard B. Cheney President of the Senate Washington, D.C. 20515

Dear Mr. President:

Enclosed are appropriations reports containing OMB discretionary cost estimates and detail on estimating differences with CBO for each of the following enacted appropriations bills:

- P.L. 108-287, the Department of Defense Appropriations Act, 2005;
- P.L. 108-303, the Emergency Supplemental for Disaster Assistance Appropriations Act, 2004;
- P.L. 108-324, the Military Construction Appropriations and Emergency Hurricane Supplemental Appropriations Act, 2005;
- P.L. 108-334, the Department of Homeland Security Appropriations Act, 2005;
- P.L. 108-335, the District of Columbia Appropriations Act, 2005; and
- P.L. 108-447, the Consolidated Appropriations Act, 2005.

Within P.L. 108-447, there are separate reports for:

- the Agriculture, Rural Development, Food and Drug Administration, and Related Agencies Programs Appropriations Act, 2005 (Division A);
- the Departments of Commerce, Justice, and State, the Judiciary, and Related Agencies Appropriations Act, 2005 (Division B);
- the Energy and Water Development Appropriations Act, 2005 (Division C); and
- the Foreign Operations, Export Financing, and Related Programs Appropriations Act, 2005 (Division D);
- the Department of the Interior and Related Agencies Appropriations Act, 2005 (Division E);
- the Departments of Labor, Health and Human Services, and Education, and Related Agencies Appropriations Act, 2005 (Division F);
- the Legislative Branch Appropriations Act, 2005 (Division G);
- the Transportation, Treasury, Independent Agencies, and General Government Appropriations Act, 2005 (Division H);
- the Departments of Veterans Affairs and Housing and Urban Development, and Independent Agencies Appropriations Act, 2005 (Division I); and
- Other Matters (Division H).

The OMB estimates were calculated in a manner consistent with scoring guidance provided in the Omnibus Budget Reconciliation Act of 1990. Although the reporting requirement for OMB scoring of appropriations acts expired along with the Budget Enforcement Act of 1990, as amended, on September 30, 2002, OMB is continuing to provide these reports as official and public notification of OMB scoring of enacted appropriations.

Sincerely,

Joshua B. Bolten

Director

Enclosure

Identical Letter Sent to The Honorable J. Dennis Hastert

Notes:

¹ The previously enacted amounts for 2004 are those from the OMB discretionary cost estimates report for FY 2004 released on March 25, 2004. Therefore, the levels reflect the scoring of 2004 appropriations with the same transfers and technical estimates assumed in the FY 2004 Budget, as amended, transmitted to the Congress on February 3, 2003. The 2005 estimates reflect the snapshot OMB scoring of appropriations bills using the same transfers and technical reestimates assumed in the FY 2005 Budget, as amended, transmitted to the Congress on February 2, 2004. As a result of this difference in assumptions, the 2004 and 2005 levels differ from the actual and reestimated levels reported in the Presiden't FY 2006 Budget, transmitted to the Congress on February 7, 2005.

² Discretionary spending limits no longer exist for comparison with enacted appropriations, therefore, unlike previous final appropriations reports, no such comparisons are included in this report. The Administration supports a separate BEA category for the budget authority enacted for Project BioShield and new authorization for Highway and Transit programs, therefore, these categories of spending are displayed for informational purposes in this report. In addition, the Administration separates appropriations provided in supplemental acts from regular appropriations bills.

³ Under previous BEA scoring conventions, the budget authority for mass transit programs was not included in the discretionary spending limits, and, therefore, it was not included in any of the discretionary totals. Since this is not a report on enacted spending versus statutory caps, but a summary of all enacted discretionary appropriations, that previous BEA rule no longer applies. Therefore, the mass transit budget authority is no longer excluded from these totals. As a result, the 2004 enacted level has been increased by the appropriate amount to reflect this change in convention.

⁴ In a letter transmitted to the Congress on November 19, 2004, the Administration concurred with the designation of \$400 million appropriated for the Low Income Home Energy Assistance Program, the African Union security force in Darfur, and mail mediation facility construction in Washington, D.C. as emergency requirements. These amounts are broken out in this special presentation for information purposes.

² Both OMB and CBO estimated \$2.9 billion in savings generated by reducing out-year spending over the next 10-year period. OMB and CBO estimates for the offset are the same and are scored in the Commodity Credit Corporation. The savings, however, do not begin until FY 2006 and, therefore, are not displayed in this table.

(in millions of dollars)

FY 2005	Enacted
ВА	OL

The Department of the Interior and Related Agencies Appropriations Act, 2005 contained an across-the-board reduction of 0.594% to each account. In scoring the bill, OMB calculated the reduction to each account, while CBO estimated the reduction to the entire bill. In this bridge table, budget authority differences are adjusted to take into account the differing methods of scoring the reduction; outlay differences are not adjusted and reflect, in part, OMB's estimate of the change in outlays due to this across-the-board reduction. Neither OMB's nor CBO's estimates, however, include the effects of the 0.80% across-the-board reduction in Division J of the Consolidated Appropriations Act, 2005.

BA OL OMB and CBO scoring of the miscellaneous discretionary provisions, including estimates of the 0.8 percent across-the-board reduction, in the Consolidated Appropriations Act are summarized in this table. PROJECT BIOSHIELD APPROPRIATIONS CBO ESTIMATE, PROJECT BIOSHIELD BUDGET AUTHORITY -20 Estimate of 0.8 percent rescission of BioShield budget authority -- no differences OMB ESTIMATE, PROJECT BIOSHIELD BUDGET AUTHORITY..... -20 **OTHER DISCRETIONARY APPROPRIATIONS** CBO ESTIMATE, OTHER DISCRETIONARY APPROPRIATIONS -3,099 -1,868 **Scorekeeping Differences:** Government-wide: Multiple Discretionary accounts, 0.80 percent across-the-board rescission estimate. -33 -16 OMB and CBO use similar conventions to estimate the 0.80 percent across-the-board rescission in Division J of the Act. However, a number of differences occur due to rounding errors and to OMB and CBO scoring differences (aside from the rescission) that are large enough to affect rescission estimates. Approximately \$3 million is due to these kinds of differences. An additional difference of -\$30 million is due to OMB scoring larger savings from the rescission of Transportation contract authority than CBO. The outlay difference is due to OMB assuming a slightly faster first-year, aggregate outlay rate of government programs affected by the rescission than CBO. Legislative Branch: Payments to copyright owners..... -38 -38 OMB and CBO agree the Satellite Home Viewer Extension and Reauthorization included in Division J of the Consolidated Act has a scoring impact. OMB scores both the budget authority and the revenue effect (equal to \$38 million). CBO scores the budget authority but does not score governmental receipts as discretionary offsets, which leads to the differences in budget authority and outlays. **Homeland Security:** L-1 Visa and H-1B Visa Reform Act..... 152 OMB and CBO agree the L-1 Visa and H-1B Visa Reform Act Reauthorization included in Division J of the Consolidated Act has a scoring impact. However, OMB scores \$450 million in both budget authority and outlays offset by offsetting collections of an equivalent amount. CBO scores \$178 million in budget authority and offsetting collections from the reauthorization, but only \$26 million in outlays, which results in a net outlay differences of \$152 million. Other technical outlay estimating differences..... -43 TOTAL DIFFERENCES..... -71 55 OMB ESTIMATE, OTHER DISCRETIONARY APPROPRIATIONS...... -3,170-1,813
