

OTS-2007-0015-DRAFT-0004[1].txt

Comment Info: =====

General Comment: I am opposed to the practice of mountain top removal in coal mining. This is an environmentally devastating technique. The clean water that makes for human habitability is put at risk by mountaintop removal. I beg you to stand up for the environment and for an inhabitable planet.
Thank you.
Sincerely,
Cynthia Lawton- Singer
