Subject: Attention: No. 2002-27 - Follow-up to 9/5/02 Comment Letter

Webster Bank forwarded a comment letter regarding No. 2002-27 on September 5, 2002.

Among other comments, Webster Bank recommended that a six-month extension beyond the proposed October 25, 2002 compliance date be incorporated into the final rules.

Following a review of a corporation-wide Gap Analysis, Webster Bank now believes it would not be possible to comply with the proposed rules within a six-month extension period.

Therefore, Webster Bank wishes to amend its comment letter to recommend a one-year extension beyond the proposed 10/25/02 compliance date.

Thank you for your consideration.
