

Comment Info: =====

General Comment:I, as well as our CFO, are in support of the conversion to the Call Report.

IronStone Bank is a subsidiary of a Financial Holding Company which also owns a commercial bank and thus has been filing Call Reports for that commercial bank for years. The conversion of the TFR to the structure and content of the Call Report would be welcomed by our company as it would simplify our regulatory processes. We do not foresee at this time significant issues that would impact us in such conversion.

Respectfully,
Hope Connell
President, IronStone Bank
