

OTS-2007-0023-DRAFT-0021[1].txt

Comment Info: =====

General Comment: Hello

I have read over the proposal to convert the TFR report to the Call report. I believe converting to the Call report will be beneficial as it may reduce the time to prepare the report and will make information more readily available from an operations view.

Typically, if you revise your TFR report after the filing deadline, some changes made will affect the CMR. If the conversion took place, there would have to be a link to the CMR, to ensure that we are making the necessary changes on both reports.
