If financial organizations are going to share or otherwise sell information about me, I should get a piece of the action. If not offered a chance to participate in the financial benefits derived from such transfers, all such transfers should be strictly prohibited.

Please note, that there are a zillion laws concerning all of this stuff, but kn one ever goes to jail. If you pass a bunch of regulations, but don't back them up with jail time, your the regulators are worse crooks than the people who need the regulation.

"Laws that forbid the carrying of arms, disarm only those who are neither inclined, nor determined to commit crimes. Such laws make things worse for the assaulted and better for the assailants. They serve rather to encourage than to prevent homicides, for an unarmed man may be attacked with greater confidence than an armed man." Thomas Jefferson, 1764
