Subject: TFR Revisions, OMB No. 1550-0023

39

Regarding the proposed revisions, I am very much opposed to the shorter deadlines for the TFR & CMR reporting. We are a small institution with a limited staff. We rely on outside sources for some of the more intricate details and do not receive this info sometimes until the 15th of the month. Our staff responsible for the reporting have other end of month commitments that must be finished before being able to start preparing the TFR/CMR and usually need all the time available to complete the schedules with the current deadlines.
