Subject: TFR Revisions - March 2007, OMB No. 1550-0023; Docket No 06081

This email is in response to the request for comment on TFR Revisions - March 2007, OMB No. 1550-0023 proposal in section D of the Federal Register, Eliminating Confidential Treatment of Schedule HC Data, to be effective March 31, 2007. We strongly urge the OTS to pursue the option of permitting holding companies filing these data to opt to maintain the confidentiality on a case-by-case basis. As a private closely-held company, we would like the option for our Schedule HC information to remain confidential for competitive concerns and shareholder privacy issues.
