To Whom It May Concern:

My name is Bea Smith. I am a single parent and was able to purchase a home with the assistance of a program called United Housing program. Without this program, I can honestly say that it would have been impossible for me to move into a new house. The program made every step very easy to understand and motivate everyone to get into homeownership.

All the families in the program are very happy because their dream of owning a home has become a reality. At the time that I got into the program, my two boys were teenagers and they were very excited about being able to move into a house since they had ~~gotten~~ grown up in an apartment most of their lives.

P. 1

They planned on decorating their rooms that they did not have to share a room anymore. They were also excited to have a back yard to play football.

Home ownership has changed my life completely. I finally feel that I can provide a better way of living for my self & my children. At the end of the day when I come home after a long day at work, I feel as though everything is worth working for when I see my new house and my children happier. I pray that this program continues for a long time & so that other families can feel the joy that I have.

God Bless

Bea Smith
