My Name is Leo Meyer, we are a family of four my wife Pircella and my son Ricky and daughter Amy. I'm a Assistant General Manager for a Hotel my wife is a Room Division Manager for a Hotel as well.

I have been living in my house for around 2 1/2 years we are a Hispanic family. I lived in apartments ever since I moved to Dallas, and when I got married I also lived in apartments. It is very hard to live in apartments for one reason, you don't have to much liberty to do anything pretty much every thing you want to do, you have to do inside the apartment. Your kids don't have the space to run around and play or make noise and you don't have to much privacy.

You also know that living in a apartment you pay a lease but the apartment will never be yours. So you end up throwing your money away. My brother had talked to me about UHF and when I fill out my application and the application was processed pretty fast. UHF helped us get in the house very fast. They helped us with the paperwork and within six months we were in our new house. My family was very happy my kids and myself. We were very excited. I believe UHF does alot for the families in assisting them and helping them get a house. There's alot of families that we don't have the resources or money to start out buying a new home. The assistance that UHF

others is excellent and besides they don't charge
for any services they offered. A lot of families
won't be able to get into a home without their
assistance. UHP has given us the opportunity to
start a new life, they helped our community
with assistance. UHP has helped us and the
community become close we volunteer to do
Christmas parties we try to help others
to get into houses, and helped our community
be stronger and appreciate what UHP can
do for us and all the people that needs
help. I believe UHP is an excellent program
that is going to help a lot of families
get into new homes and make their dreams
come true and be a happy family like ours.
