

(31)

I am a minority African American because you I always take care of my wife and children of two. Also I gave my time in energy to the community, plus made copies for paper work to be fill out, for lost of family thru the U.H.P program. Our family donated food for different chertys. The U.H.P. family organise events for a blood drive. And we gave out children toys and accessories to events. My family gave a subscie amount of 17,600. Without the help of U.H.P program we could not get a home. And the money went for closing costs. While we going thru the program U.H.P they did not charge for any fee. My wife and children love there home plenty of playing space and bike riding. A home is very peaceful when raise up your family Thank God for the U.H.P program and Our home.

Sincerely,  
The Johnson family
