

Table of Contents

Volume B - FEIS

Chapter 1 – Purpose and Need.....	1-1
Introduction.....	1-1
Description of the Project Area	1-2
Purpose and Need.....	1-4
Proposed Action.....	1-4
Decisions to be Made.....	1-5
Relationship to the Forest Plan.....	1-6
Forest Plan Amendment (2008 Forest Plan).....	1-7
Forest Plan Land Use Designation.....	1-7
Non-National Forest System Lands.....	1-10
Tongass National Forest Five-year Timber Sale Plan.....	1-11
Public Involvement.....	1-12
Significant Issues	1-16
Other Issues and Concerns.....	1-17
Federal and State Permits, Licenses, and Certifications	1-21
Applicable Laws and Executive Orders.....	1-22
Availability of the Project Record.....	1-24
Chapter 2 – Alternatives.....	2-1
Introduction.....	2-1
Alternative Development Process.....	2-1
Alternatives Considered but Eliminated from Detailed Study.....	2-4
Alternatives Considered in Detail.....	2-7
Activities and Design Elements Common to All Action Alternatives.....	2-13
Project-specific Mitigation.....	2-19
Monitoring.....	2-19
Comparison of Alternatives.....	2-20
Chapter 3 – Affected Environment and Environmental Effects....	3-1
Introduction.....	3-1
Issue #1 – Habitat Connectivity and Old Growth.....	3-7
Issue #2 – Roadless Area Resources.....	3-24
Issue #3 – Timber Economics.....	3-37
Other Resources Considered:	
Botany.....	3-49
Geology and Karst.....	3-58
Heritage.....	3-65
Management Indicator Species (MIS) and Other Wildlife Species.....	3-70

Table of Contents

Recreation.....	3-98
Scenery.....	3-108
Silviculture and Vegetation.....	3-113
Soil.....	3-128
Subsistence.....	3-136
Threatened, Endangered, Petitioned, and Sensitive Wildlife Species.....	3-143
Transportation System.....	3-150
Watershed and Fish.....	3-160
Essential Fish Habitat.....	3-177
Wetlands.....	3-182
Findings and Disclosures.....	3-188
Chapter 4 –Lists.....	4-1
List of Preparers.....	4-1
List of FEIS Recipients.....	4-3
List of FEIS Notifications.....	4-5
Glossary.....	4-7
Literature Cited.....	4-30
Index.....	4-41

List of Tables

Table 1-1: Project Area LUDs and non-National Forest Acreages	1-8
Table 2-1: Comparison of Alternatives - Harvest and Road Activities.....	2-21
Table 2-2: Comparison of Alternatives by Significant Issue.....	2-22
Table 2-3: Comparison of Alternatives by Resource.....	2-23
Table 2-3: Comparison of Alternatives by Resource (cont.).....	2-24
Table 3CO-1: Acres of National Forest System lands, old-growth habitat land use designation (OG LUD) and productive old-growth forest (POG) in OG LUDs for value comparison units (VCU) in Wildlife Analysis Area (WAA) 3551.	3-11
Table 3CO-2: Acres of productive old growth (POG) by volume strata.....	3-12
Table 3CO-3: Acres of productive old growth (POG) by elevation range...	3-15
Table 3CO-4: Percent reduction of productive old growth (POG) compared to the 2007 and 1984 condition for all lands in WAA 3551.	3-19
Table 3CO-5: Percent reduction in productive old growth (POG) from the 2007 condition by elevation range by alternative for all lands in WAA 3551.....	3-19

Table of Contents

Table 3CO-6: Percent reduction in coarse canopy forest (volume class 6 and 7) on all lands compared to 2007 acres.....	3-19
Table 3RO-1: Acres of Harvest and Miles of Road Proposed in Inventoried Roadless Areas and Acres of Indirect Effects.....	3-32
Table 3RO-2: Acres and Percentage of IRAs Areas Retaining Roadless Characteristics in the Project Area.....	3-33
Table 3RO-3: Degree of Influence on High Value Wildlife & Fish Habitat..	3-33
Table 3TE-1 Forest Products Industry Employment in Southeast Alaska, 2000 through 2005.	3-39
Table 3TE-2: Yarding System and Harvest Method (Acres).....	3-41
Table 3TE-3: Timber Financial Efficiency Analysis.....	3-42
Table 3TE-4: Estimated Volume (MMBF).....	3-43
Table 3TE-5: Estimated Forest service Financial Costs and Revenues.....	3-44
Table 3TE-6: Estimated Project Employment and Income in Alaska	3-46
Table 3BO-1: Determinations for Sensitive Plant Species by Alternative...	3-42
Table 3BO-2: Percentage of observed rare plant populations potentially impacted by timber harvest and/or road construction within the project area.	3-55
Table 3BO-3: Invasive Plants on the Hoonah Road System	3-56
Table 3GK-1: Acres of Karst in Past Harvest.....	3-60
Table 3GK-2: Existing Road on Karst.....	3-60
Table 3GK-3: Cumulative Activities on Karst	3-64
Table 3HE-1: Historic Properties in the Project Area.	3-66
Table 3MI-1: Percent reduction in marten habitat capability from the 2007 (existing) and 2036 (future) condition compared to the 1984 (pre harvest) condition for WAA 3551 by harvest system.....	3-74
Table 3MI-2: Percent reduction in high value marten habitat for WAA 3551.....	3-77
Table 3MI-3: Percent reduction in the 1984 level of productive old growth (POG) on National Forest System lands for VCU in the project area (PA) and WAA 3551..	3-77
Table 3MI-4: Miles per square mile of open road densities for WAA 3551.	3-78
Table 3MI-5: Change in miles of open road from the existing condition (51.38 miles) on all lands in WAA 3551 during and after project completion and after completion of cumulative activities by alternative.	3-82

Table of Contents

Table 3MI-6: Acres of productive old growth (POG) harvest and percent of existing POG forest by harvest system for each alternative.	3-85
Table 3MI-7: Habitat Suitability Index (HSI) for WAA 3551 based on habitat conditions in 1984.....	3-87
Table 3MI-8: Percent reduction in deer habitat capability from the 2007 (existing) and 2036 (future) condition compared to the 1984 (pre harvest) condition for WAA 3551 by harvest system.....	3-92
Table 3MI-9: Percent reduction in high value deer habitat from the 2007 and 1984 (pre harvest) levels for WAA 3551 by harvest system.	3-92
Table 3MI-10: Percent reduction in prime deer habitat from the 2007 and 1984 (pre harvest) levels for WAA 3551 by harvest system.	3-93
Table 3RE-1: Changes in Recreation Experience (ROS) in acres in the Old-growth Habitat LUD	3-100
Table 3RE-2: Alternative Comparison of Changes to the ROS Inventory..	3-100
Table 3SC-1: Adopted Visual Quality Objectives by Land Use Designation in the Three Distance Zones	3-109
Table 3SC-2: Existing Project Area Acres by Adopted Visual Quality Objective	3-109
Table 3SV-1: Species Composition in the Iyouktug Project Area Unit Pool.	3-114
Table 3SV-2: Silvicultural System and Harvest Method Acres by Alternative and Yarding System.....	3-118
Table 3SV-3: Wind Risk Rating by Silvicultural System and Alternative.	3-121
Table 3SV-4: Percent Species Harvest by Alternative.	3-123
Table 3SV-5: Acres of Proposed Harvest by Volume Strata by Alternative.	3-125
Table 3SV-6: Percentage of suitable productive forest in even-aged and uneven-aged Managed Condition	3-126
Table 3SO-1: Slopes over 72 percent gradient in harvest units.....	3-132
Table 3SO-2: Summary of cumulative disturbances from the Iyouktug project area.....	3-133
Table 3SU-1: Estimated deer harvest by all hunters in WAA 3551 as a percent of current (Alternative 1) and projected deer habitat capability	3-140
Table 3TR-1: Summary of Existing, Proposed, Unauthorized, and Reconstructed Road Miles by Alternative	3-155
Table 3TR-2: Projected Road Costs by Alternative	3-156
Table 3WF-1: Miles of Stream by AHMU Class in each Watershed.....	3-163
Table 3WF-2: Fish Species in the Iyouktug Project Area	3-163

Table of Contents

Table 3WF-3: Acres of RMA Harvested in each Watershed	3-164
Table 3WF-4: Existing Roads in the Project Area.....	3-166
Table 3WF-5: Existing Young-growth Stands in Iyoutug Watersheds and Percent Canopy Removal.....	3-167
Table 3WF-6: Cumulative percent canopy removal by subwatershed including past roads and harvest and ongoing small sales.....	3-170
Table 3WF-7: Total New Stream Crossings by Alternative in Each Watershed. Numbers in parentheses indicate crossings that will remain open.....	3-173
Table 3WF-8: Total Miles of New Road Construction per Watershed. Numbers in parentheses indicate miles of road that would remain open. ...	3-173
Table 3WF-9: Cumulative Stream Crossings by Alternative within Affected Watersheds.....	3-174
Table 3WE-1: Wetland Types and Acres in Iyoutug Project Area.....	3-183
Table 3WE-2: Cumulative Effects to Wetland by Roads in Acres.....	3-185
Table 3WE-3: Cumulative Timber Harvest on Wetlands.....	3-186

List of Figures

Figure 1-1: Iyoutug Timber Sales Project Area – Vicinity Map	1-3
Figure 1-2: Project Area Land Use Designations (LUDs).....	1-9
Figure 2-1: Alternative 1, Existing Condition	2-29
Figure 2-2: Alternatives 2, 3, 4, and 5 Overview Maps.....	2-31
Figure 2-3A: Alternative 2, Map A, Proposed Action.....	2-33
Figure 2-3B: Alternative 2, Map B, Proposed Action	2-35
Figure 2-4A: Alternative 3, Map A.....	2-37
Figure 2-4B: Alternative 3, Map B.....	2-39
Figure 2-5A: Alternative 4, Map A.....	2-41
Figure 2-5B: Alternative 4, Map B.....	2-43
Figure 2-6A: Alternative 5, Map A.....	2-45
Figure 2-6B: Alternative 5, Map B.....	2-47
Figure 3-1: Iyoutug Timber Sale Area Old Growth Reserves and Connectivity	3-9

Table of Contents

Figure 3-2: Iyouktug Timber Sale Area Productive Old Growth	3-13
Figure 3-3: Inventoried Roadless Areas in or near the Iyouktug Project Area.	3-25
Figure 3-4: Iyouktug Timber Sale Area Karst Vulnerability	3-61
Figure 3-5: Iyouktug Timber Sale Area Marten Habitat Suitability Index....	3-69
Figure 3-6: Iyouktug Timber Sale Area Deer Habitat Suitability Index	3-89
Figure 3-7: Iyouktug Timber Sale Area Watersheds	3-161

List of Charts

Chart 3MI-1: Mean deer pellet group trend for VCU 2090.....	3-88
Chart 3SV-1: Current National Forest System Land Classification in the Iyouktug Project Area.....	3-115

Volume C - Appendices

Appendices

Appendix A – Reasons for Scheduling the Environmental Analysis of the Iyouktug Timber Sales.....	A-1
Appendix B – Responses to Comments.....	B-1
Appendix C – Road Cards Additions.....	C-1
Appendix D – Cumulative Effects.....	D-1
