Be Smart About Desal – Learning the Facts of Desalination on the Central Coast is intended to provide information about the use of desalination as an existing technology and convey information about desalination issues in the Monterey Bay Region, including regulatory, environmental, technical, regional and case studies.

Hear from community, political, technical and environmental leaders as they discuss the science and realities of desalination projects.

This workshop is free and open to the public. For more information, or to register, call AMBAG at 831/883-3750 or visit the website at www.ambag.org.
