Wright Patman Lake announces primitive campsite permit system

*FORT WORTH, Texas* – The U.S. Army Corps of Engineers at Wright Patman Lake will begin a permit system for campsites at the Primitive Campground at Flatwoods Wildlife Management Area. All campers must obtain a permit beginning on Sept. 15, 2005. The area will close on Jan. 15, 2006. There will be no charge for the camping permits. Camping will also be limited to designated sites.

Permits may be obtained in person or by fax at (903) 832-6396 from the Wright Patman Project Office. Sites may be reserved up to six weeks in advance. The permit system will reduce conflicts over campsites, assist the Natural Resources Management staff in properly managing the area, and enhance enforcement of Corps of Engineers Title 36 Rules and Regulations.

For additional information, please visit the Wright Patman Project Office or call (903) 838-8781 and ask to speak to a member of the Natural Resources staff.
