Instructions

Section references are to the Internal Revenue Code unless otherwise noted.

Purpose of Schedule.—Use Schedule P to show the computation of taxable income used in computing (1) the transfer price from a related supplier to an IC-DISC or (2) the IC-DISC commission from a related supplier.

Complete and attach a separate Schedule P to Form 1120-IC-DISC for each transaction or group of transactions to which the intercompany pricing rules of sections 994(a)(1) and (2) are applied.

IC-DISC Taxable Income.—Generally, the intercompany pricing determinations are to be made on a transaction-by-transaction basis. However, the IC-DISC may make an annual election to determine intercompany pricing on the basis of groups consisting of products or product lines. If the group basis is elected, then all transactions for that product or product line must be grouped. Each group is limited to one type of transaction (i.e., sales, leases, or commissions).

A product or product line determination will be accepted if it conforms to either of the following standards: a recognized industry or trade usage or major groups (or any subclassifications within a major group) (see **Schedule P (Form 1120-IC-DISC) Principal Business Activity** on page 15 of the **Instructions for Form 1120-IC-DISC**). The corporation may choose a product grouping for one product and use the transaction-by-transaction method for another product within the same tax year.

Generally, the computation of taxable income under the intercompany pricing rules will not be permitted to the extent that their application would result in a loss to the related supplier.

Each of the following methods may be applied for sales, leases, and services. See the regulations under section 994.

50-50 combined taxable income method.—The transfer price the related supplier charges the IC-DISC, or the related supplier's IC-DISC commission, is the amount that lowers the taxable income the IC-DISC derives from the transaction to an amount that is no more than the sum of (1) 50% of the IC-DISC's and

related supplier's combined taxable income attributable to the qualified export receipts from the transaction plus (2) 10% of the IC-DISC's export promotion expenses (as defined in section 994(c)) attributable to the qualified export receipts. Do not include in combined taxable income (line 13) the discount amount reflected in receivables (on the sale of export property) that a related supplier transferred to the IC-DISC. See Regulations sections 1.994-1(c)(3) and (6)(v).

See Part I, Section A instructions below if marginal costing rules apply.

4% gross receipts method.—The transfer price charged by the related supplier to the IC-DISC or IC-DISC commission from the related supplier is the amount that the taxable income derived by the IC-DISC from the transaction will not exceed the sum of 4% of the qualified export receipts of the IC-DISC derived from the transaction plus 10% of the export promotion expenses (as defined in section 994(c)) of the IC-DISC attributable to the qualified export receipts.

Section 482 method.—The transfer price the related supplier charged the IC-DISC, or IC-DISC commission from the related supplier, is the amount actually charged, but subject to the arm's length standard of section 482. **Do not complete Schedule P if the section 482 method is used.**

Incomplete transactions.—For the 50-50 and 4% methods, if the related supplier sells property to the IC-DISC during the year but the IC-DISC does not resell it during the year, the related supplier's transfer price to the IC-DISC must at least equal (but need not exceed) the related supplier's cost of goods sold. **Do not** complete Schedule P for incomplete transactions. The related supplier's transfer price to the IC-DISC must be recomputed for the year in which the IC-DISC resells the property and the transaction must then be reported on Schedule P for that year.

Part I, Section A—Combined Taxable Income.—Complete Section A-1 only if the marginal costing rules do not apply.

For purposes of line 2d, be sure to include the appropriate apportionment of deductions that are not directly allocable such as interest expenses and stewardship expenses.

See Temporary Regulations sections 1.861-11T(a) and 1.861-14T(e) for an explanation of appropriate apportionment.

Complete Section A-2 if the marginal costing rules apply. Marginal costing rules apply only for sales, or commissions on sales, of property if the 50-50 method is used.

Marginal costing cannot be used for (1) leasing of property, (2) performance of services, or (3) sales of export property that (in the hands of a purchaser related under section 954(d)(3) to the seller) give rise to foreign base company sales income as described in section 954(d) unless, for the purchaser's year in which it resells the property, section 954(b)(3)(A) applies or the income is under the exceptions in section 954(b)(4).

Line 10.—The overall profit percentage may be computed under an optional method. See Regulations section 1.994-2(c)(2) for details.

Part I, Section B—50-50 Combined Taxable Income Method.—Complete this section if the 4% gross receipts method (Part I, Section C) is not used, whether or not marginal costing (Section A-2) is used.

Part I, Section C—4% Gross Receipts Method.—Do not complete this section if the 50-50 method (Part I, Section B) is used.

Line 22.—If IC-DISC taxable income on a sale is computed under the 4% method and the IC-DISC chooses to apply the special rule for transfer prices or commissions, check the box in line 22 and attach a separate computation of the limitation on IC-DISC taxable income determined under the special rule and enter the amount on line 22. Under the special rule, a transfer price or commission will not be considered to cause a loss for a related supplier if the IC-DISC's net profit on the sale does not exceed the IC-DISC's and related supplier's net profit percentage on all their sales of the product or product line. See Regulations section 1.994-1(e)(1)(ii) for details.

Reporting Part II and Part III Amounts on Form 1120-IC-DISC.—If the computed transfer price for sales, leases, or services (Part II) or IC-DISC commission (Part III) is entered on more than one line of Form 1120-IC-DISC, attach an explanation indicating the portion of the total that is applied to each line.
