Blessing

Dear Mr. Dred Scott.

I would like to thank you for trying to help every slave become free and to also become citizens of the United States. I know your life must have been very vigorous and troubling. I'm very proud of you for trying to pursue your dreams of becoming a free man. Even though you did not succeed, you are still a memorable person in everyone's lives. I also know that you did everything in your power because in the end you actually became a free man. Your case also helped people to decide the nomination of Abraham Lincoln to the Republican Party and his election. Abraham later then continued to pursue your dreams. Now every black man or woman has the right to become a rightful citizen in the United States. So all in all I would like to give you my gratitude for trying your best.

Thank you
