Sample Completed Planning Questions
Module 1: School Policies and Environment

The Module 1 Planning Questions will help your school use its *School Health Index* results to identify and prioritize changes that will improve policies and programs to improve students' health and safety.

Planning Question 1

Look back at the scores you assigned to each question. According to these scores, what are the **strengths** and the **weaknesses** of your school's policies and environment related to students' health and safety?

Strengths

Excellent communication of policies with parents, visitors, and staff.

Offer a wide variety of enrichment experiences.

Our physical environment is safe, and we do not tolerate bullying.

Have a written crisis response plan, and it is practiced regularly.

Do not use physical activity as punishment or unhealthy foods as rewards.

Smoking is prohibited all over campus, as is advertising of cigarettes.

Planning Question 2

For each of the weaknesses identified above, list several recommended actions to improve the school's scores (e.g., create and maintain a school health committee).

- 1. Form a school health committee.*
- 2. Conduct staff development on active supervision techniques.*
- 3. Make indoor and outdoor facilities for physical activity available outside school hours.*
- 4. Find alternatives for fundraising.*
- 5. Strengthen enforcement of tobacco-use policies.*
- 6. More staff development on preventing unintentional injuries and violence.*

Weaknesses

Do not have a committee to oversee our health programs (CC.1).

Not all our students are actively supervised (I.4).

Indoor and outdoor facilities for physical activity are not often available outside of school hours (PA.1).

Fundraising efforts do not support healthy eating (N.2).

Could enforce our tobacco-use policies better (T.2).

Staff development on unintentional injuries, violence, and suicide are inadequate (I.6).

Planning Question 3. List each of the actions identified in Planning Question 2 on the table below. Use the five-point scales defined below to score each action on five dimensions (importance, cost, time, commitment, feasibility). Add the points for each action to get the total points. Use the total points to help you choose one, two, or three top priority actions that you will recommend to the *School Health Index* team for implementation this year.

Importance	How important is the action? 5 = Very important 3 = Moderately important 1 = Not important
Cost	How expensive would it be to plan and implement the action? 5 = Not expensive 3 = Moderately expensive 1 = Very expensive
Time	How much time and effort would it take to implement the action? 5 = Little or no time and effort 3 = Moderate time and effort 1 = Very great time and effort
Commitment	How enthusiastic would the school community be about implementing the action? 5 = Very enthusiastic 3 = Moderately enthusiastic 1 = Not enthusiastic
Feasibility	How difficult would it be to attain the action? 5 = Not difficult 3 = Moderately difficult 1 = Very difficult
