1. INTRODUCTION

The following list of publications and reports by Northeast Fisheries Center employees is the 11th issue in an annual series of such lists. The lists for 1977-83 were issued as the "Collected Reprints of the Northeast Fisheries Center" (CRNFC). Each issue of the CRNFC included a copy of each peer-reviewed publication by Center employees. The lists for 1984-86 were issued as the "Northeast Fisheries Center Publications and Reports" (NFCPR). The 1984 issue of the NFCPR included a list of the peer-reviewed publications by Center employees. The 1985 and 1986 issues of the NFCPR included a list of both peer-reviewed publications and some of the non-peer-reviewed reports by Center employees. Primary purpose of the CRNFC and NFCPR was documentation of Center publications and reports.

This document, "An Indexed Bibliography of Northeast Fisheries Center Publications and Reports for 1987," expands the purpose of the series to include not only documentation, but also reference. The reference role of this document is accomplished through subject and author indices. The subject index is composed of three subindices--"Organisms," "Areas," and "Topics"--and has been so customized to facilitate its use by those in the fisheries research and management fields.

Some of the publications and reports by Center employees deal more with administrative than scientific matters. Consequently, not all publications and reports are appropriate for this document. Only those publications and reports are included that were specifically identified and provided by the Center's Executive Staff. Several publications and reports which were issued in 1985 and 1986, but which were inadvertently omitted by those preparing the 1985 and 1986 issues of the NFCPR, have been included in this 1987 list. They are noted by a "*". For several of the publications and reports that were identified by the Executive Staff for inclusion in this 1987 list, the reprints or copies were not available for indexing purposes. Consequently, the key words for those publications and reports were developed in telephone conversation with the senior authors. They are noted by a "§". Authors who were Center employees for all or part of 1987 are denoted in the list by all capital letters.

Evaluation of the Southern New England/Mid-Atlantic seasonal area closure in reducing fishing mortality and enhancing spawning opportunities for yellowtail flounder: an historical assessment. [Nat. Mar. Fish. Serv., Northe. Fish. Ctr.,] Woods Hole Lab. Ref. Doc. No. 87-04. 28 pp.
92. TERCEIRO, M. 1987. Status of Atlantic coast bluefish--1987. [Nat. Mar. Fish. Serv., Northe. Fish. Ctr.,] Woods Hole Lab. Ref. Doc. No. 87-10. 54 pp.
93. TERCEIRO, M. 1987. Using the marine recreational fishery statistics survey (MRFSS) in stock assessments. [Nat. Mar. Fish. Serv., Northe. Fish. Ctr.,] Woods Hole Lab. Ref. Doc. No. 87-11. 15 pp.

4. SUBJECT INDEX

Because of the relatively few entries in the bibliography, the accompanying index is relatively small. Consequently, the index has been designed as a limited-entry, non-hierarchical index with no cross-referencing. In the "Organisms" subindex, individual species are listed primarily by common name. For species covered by Robins et al. (1980)*, the common name follows Robins et al., and no scientific name is given. For all other species, the common name--if one exists--is followed by a scientific name. Those species without a common name ("n.c.n.") have only the scientific name, followed by an identifying family or order name.

4.1 Organisms

Acadian redfish (<u>Sebastes fasciatus</u>)	8,15
alewife	15
American lobster (<u>Homarus americanus</u>)	15,33,46
American oyster (<u>Crassostrea virginica</u>)	31
American plaice	15,35,81
American shad	15
anchovies	35,68,69
Atlantic cod	8,15,27,35,43
Atlantic croaker	35
Atlantic herring	15,35,80
Atlantic mackerel	10,15,35,41,80,81
Atlantic menhaden	35
Atlantic wolffish	15
barndoor skate	15
bay scallop (<u>Argopecten irradians</u>)	52
benthos	6,7,15,21,25,28,30,31,33,34,46,48-50,52,58-62,80,86,90
<u>Benthoosema glaciale</u> (Myctophidae), n.c.n.	35
billfishes	12
bivalve mollusks	15,25,28,30,31,34,48-50,52,57,59,73,80,85,86,90
black sea bass	15,80
bloodworm (<u>Glycera dibranchiata</u>)	60
blueback herring	15
bluefish	15,35,80,81,92
brier skate	15
butterfish	8,15,35,81

<u>Ceratascopelus maderensis</u> (Myctophidae), n.c.n.	35
cunner.	35
cusk.	15
decapod crustaceans	15,24,33,40,46,66,67,80
dinoflagellates	87
fourspot flounder8
freshwater mussels.	86
geoduck clam (<u>Panope abrupta</u>)	25
groundfish.	1,8,10,15,19,27,35,39,41,43,70,71,80-83,91
Gulf Stream flounder.	35
<u>Gyrodinium aureolum</u> (Dinoflagellida), n.c.n..	87
haddock	8,10,15,35,39,81
hakes (<u>Urophycis</u> spp.)	3,8,15,35,41
halfbeaks (<u>Zenarchopterus</u> spp.)	20
hard clam (<u>Mercenaria mercenaria</u>)	48
<u>Herklotsichthys collettei</u> (Clupeidae), n.c.n.	68
horseshoe crab (<u>Limulus polyphemus</u>)6,7
ichthyoplankton	53
leopard skate	15
little skate.	8,15
long-finned squid (<u>Loligo pealei</u>)15,81
longhorn sculpin.8
moorish idol (<u>Zanclus cornutus</u>)	23
northern shrimp (<u>Pandalus borealis</u>)15,80
ocean pout.	8,15
ocean quahog (<u>Arctica islandica</u>).15,49,50,80
offshore hake (<u>Merluccius albidus</u>).	35
phytoplankton38,87
plankton.53,59,61,87
pollock8,15,35
<u>Pseudaristeus crassipes</u> (Penaeoidea), n.c.n..	40
