This appropriation finances systems development and those research activities and studies concerned with planning, analysis, and information development needed to support the Secretary's responsibilities in the formulation of national transportation policies.

The program is carried out primarily through contracts with other Federal agencies, educational institutions, non-profit research organizations, and private firms.

Transportation policy and planning.—Activities support the development of transportation policy, coordination of national level transportation planning, and such issues as regulatory modernization, energy conservation, and environmental and safety impacts of transportation. These also enable departmental leadership on aviation economic policy and international transportation issues.

Systems Development.—This activity funds system development of department-wide management systems. In 2001, it includes resources to improve the Dockets management system.

The Federal Aviation Reauthorization Act of 1996 (P.L. 104–264) authorized the collection of user fees for services provided by the FAA to aircraft that neither take off nor land in the United States, commonly known as overflight fees. The Act permanently appropriated the first \$50 million of such fees for the Essential Air Service program and rural airport improvements. To the extent that fee collections fall below \$50 million, current law requires the difference to be covered by appropriated funds of the Federal Aviation Administration. The 2001 budget assumes the collection of \$22 million in overflight fees, with the balance of \$28 million to be paid from the FAA Airport improvement program.

The Transportation Administrative Service Center (TASC) finances common administrative services that are centrally performed in the interest of economy and efficiency in the Department. The fund is financed through negotiated agreements with Departmental operating administrations, and other governmental elements requiring the center's capabilities. The budget proposes that the National Oceanic and Atmospheric Administration's Office of Aeronautical Charting and Cartography be transferred to TASC in 2001.

Office of Small and Disadvantaged Business Utilization (OSDBU)/Minority Business Resource Center (MBRC).—Provides assistance in obtaining short-term working capital and bonding for minority, women-owned and other disadvantaged businesses and Small Business Administration 8(a) Firms.

As required by the Federal Credit Reform Act of 1990, this account records, for this program, the subsidy costs associated with the direct loans obligated in 1992 and beyond (including modifications of direct loans that resulted from obligations or commitments in any year), as well as administrative expenses of this program. In 2001, legislation will be proposed to convert this program from a direct loan program to a guaranteed loan program. The subsidy amounts are estimated on a present value basis; the administrative expenses are estimated on a cash basis.

To carry out its unique duties as a peacetime operating agency and one of the military services, the Coast Guard employs multipurpose vessels, aircraft, and shore units, strategically located along the coasts and inland waterways of the United States and in selected areas overseas. The 2001 request provides for the safety of the public, and the Coast Guard's work force, with a continued emphasis on critical national security and law enforcement missions. For example, the request includes \$565 million for drug interdiction activities. An additional \$48 million for drug interdiction capital expenses is requested in the Acquisition, Construction, and Improvements account. The Coast Guard will increase its drug interdiction efforts over 2000 levels by increasing vessel and aircraft operating hours, expanding the use of armed helicopters, and improving intelligence collection.

The request also addresses Coast Guard readiness concerns. It strengthens the workforce, improves recruiting and retention, adds critical search-and-rescue positions, and makes good health care more accessible for active duty dependents.

A supplemental request transmitted with this budget would authorize the Department of Defense to transfer \$18 million to the Coast Guard to cover the cost of medical care services for Coast Guard personnel, retirees, and their dependents. The costs of medical care provided through the Department of Defense TRICARE system and military treatment facilities have increased significantly in the past few years. The Coast guard did not have sufficient information to budget for these increased costs in their 2000 Budget. In order to ensure that the Coast Guard has the ability to finance the health care their beneficiaries obtain through the Department of Defense system, the Department of Defense will transfer \$18 million in 2000 to the Coast Guard.

Operating Expenses

(Legislative proposal, not subject to PAYGO)

Contingent upon the enactment of authorizing legislation, the Secretary shall establish and adjust user fees for Coast Guard navigation assistance services to commercial cargo and cruise vessels, and 55 percent of such user fees shall be deposited as offsetting collections to this appropriation, and 45 percent shall be deposited as offsetting collections to the "Acquisition, construction, and improvements" account, all such amounts to remain available until expended for the purpose of navigation assistance services: Provided further, That upon enactment of such authorizing legislation, the amount appropriated above from the General Fund shall be reduced by \$116,000,000 and the amount appropriated to the "Acquisition, construction, and improvements" account from the General Fund shall be reduced by \$96,000,000.

The Administration will propose legislation to authorize the collection and spending of a user fee for Coast Guard navigational assistance services to commercial cargo and cruise vessels, contingent upon the enactment of the appropriations proviso above. If the proposed authorizing legislation is enacted, the proviso will reduce the General Fund appropriation in two Coast Guard accounts by the amount of the estimated

General and special funds-Continued

OPERATING EXPENSES—Continued

user fee collections. This will allow total discretionary resources to not exceed the amount allowed under the discretionary spending caps. The proviso will allow the Coast Guard to spend whatever amounts of user fees are collected, possibly more or less than the estimates in the schedule or the specified reduction in the General Fund appropriation.

Coast Guard navigational assistance services include buoy placement and maintenance, vessel traffic services, radio and satellite navigation systems, and waterways regulation. The 2001 fee collections are estimated to be \$212 million, based on four months implementation of the charge. Of this amount, \$116 million will offset the Operating Expenses account and \$96 million will offset the Acquisition, construction, and improvements account. When fully implemented, fees are expected to recover \$636 million of the Coast Guard's costs annually.

ACQUISITION, CONSTRUCTION, AND IMPROVEMENTS

For necessary expenses of acquisition, construction, renovation, and improvement of aids to navigation, shore facilities, vessels, and aircraft, including equipment related thereto, [\$389,326,000] \$520,200,000, of which \$20,000,000 shall be derived from the Oil Spill Liability Trust Fund; of which [\$134,560,000] \$257,180,000 shall be available to acquire, repair, renovate or improve vessels, small boats and related equipment, to remain available until September 30, [2004; \$44,210,000] 2005; \$43,650,000 shall be available to acquire new aircraft and increase aviation capability, to remain available until September 30, [2002; \$51,626,000] 2003, \$60,313,000 shall be available for other equipment, to remain available until September 30, [2002; \$63,800,000] 2003; \$61,606,000 shall be available for shore facilities and aids to navigation facilities, to remain available until September 30, [2002; \$50,930,000] 2003; \$55,151,000 shall be available for personnel compensation and benefits and related costs, to remain available until September 30, [2001] 2002; and [\$44,200,000] \$42,300,000 for the Integrated Deepwater Systems program, to remain available until September 30, [2002] 2003: Provided, That the Commandant of the Coast Guard is authorized to dispose of surplus real property, by sale [at fair market value, all rights, title, and interest of any United States entity on behalf of the Coast Guard in HU-25 aircraft and Coast Guard property, and improvements thereto, in South Haven, Michigan; ESMT Manasquan, New Jersey; Petaluma, California; ESMT Portsmouth, New Hampshire; Station Clair Flats, Michigan; and Aids to Navigation Team Huron, Ohio: Provided further, That all] or lease, and the proceeds [from the sale of properties listed under this heading, and from the sale of HU-25 aircraft,] shall be credited to this appropriation as offsetting collections [and made available only for the Integrated Deepwater Systems program] of which not more than \$10,000,000, to remain available for obligation until September 30, [2002: Provided further, That obligations made pursuant to the provisions of this Act for the Integrated Deepwater Systems program may not exceed \$50,000,000 during fiscal year 2000: Provided further, That upon initial submission to the Congress of the fiscal year 2001 President's budget, the Secretary of Transportation shall transmit to the Congress a comprehensive capital investment plan for the United States Coast Guard which includes funding for each budget line item for fiscal years 2001 through 2005, with total funding for each year of the plan constrained to the funding targets for those years as estimated and approved by the Office of Management and Budget] 2003, shall be for purposes of this account: Provided further, That the amount herein appropriated from the General Fund shall be reduced by such amount: Provided further, That any such proceeds in excess of \$10,000,000 shall be retained and remain available until expended, but shall not be available for obligation until October 1, 2001. (Department of Transportation and Related Agencies Appropriations Act, 2000.)

The Acquisition, Construction, and Improvements (AC&I) appropriation provides for the acquisition, construction, and improvement of the vessels, aircraft, information management resources, shore facilities, and aids to navigation required to execute the Coast Guard's missions and achieve its performance goals.

The 2001 Budget proposes the establishment and collection of a cost based user fee on commercial cargo and cruise vessels for navigation assistance provided by the Coast Guard.

Vessels.—In 2001, the Coast Guard will acquire multi-mission platforms that use advanced technology to reduce life cycle operating costs. The seagoing buoy tender acquisition will continue with a one-time request for 3 ships. New projects include replacement of the Great Lakes heavy icebreaker and over-the-horizon cutter boats.

Deepwater.—The Deepwater capability replacement analysis continues. This analysis will identify the types of assets and technologies needed to perform basic Deepwater mission functions at minimum cost. Such information will advise future decisions on the scope of the Deepwater project.

Aircraft.—In 2001, the Coast Guard will acquire assets that ensure safety in the performance of missions. Improvements to the HH–65 helicopter and upgrade of the HU–25 sensors will continue. A new project is proposed to acquire 3 helicopters for operations with USCGC HEALY, a new polar icebreaker.

Other Equipment.—In 2001, the Coast Guard will invest in numerous management information and decision support systems that will result in increased efficiencies, future FTE reductions, and operating and maintenance savings. The Marine Information for Safety and Law Enforcement (MISLE), Fleet Logistics System (FLS), National Distress System (NDS), and Commercial Satellite Communications projects will continue.

Shore Facilities.—In 2001, the Coast Guard will invest in modern structures that are more energy-efficient, comply with regulatory codes, minimize follow-on maintenance requirements and replace existing dilapidated structures.

Personnel and Related Costs.—Personnel resources will be utilized to execute the AC&I projects described above.

This appropriation provides the Government's share of the costs for altering or removing bridges determined to be obstructions to navigation. Alteration of obstructive highway bridges is eligible for funding from the Federal-Aid Highways will reimburse the costs of alterations. The Coast Guard will continue to make the determinations as to whether any bridge presents an unreasonable obstruction to navigation, and to administer the program.

RETIRED PAY

For retired pay, including the payment of obligations therefor otherwise chargeable to lapsed appropriations for this purpose, and payments under the Retired Serviceman's Family Protection and Survivor Benefits Plans, and for payments for medical care of retired personnel and their dependents under the Dependents Medical Care Act (10 U.S.C. ch. 55), [\$730,327,000] \$778,000,000. (Department of Transportation and Related Agencies Appropriations Act, 2000.)

This program provides for retired pay of military personnel of the Coast Guard and Coast Guard Reserve, members of the former Lighthouse Service, and for annuities payable to beneficiaries of retired military personnel under the retired serviceman's family protection plan (10 U.S.C. 1431–46) and survivor benefits plans (10 U.S.C. 1447–55); and for payments for medical care of retired personnel and their dependents under the Dependents Medical Care Act (10 U.S.C., ch. 55). The following tabulation shows the average number of personnel on the rolls during 1999 compared with estimated numbers for 2000 and 2001:

AVERAGE NUMBER			
Category:	1999 actual	2000 est.	2001 est.
Commissioned officers	5,396	5,502	5,633
Warrant officers	4,365	4,425	4,512

The Coast Guard Reserve Forces provide qualified personnel and trained units for active duty in event of conflict, national emergency, or natural and man-made disasters. The reservists maintain their readiness through mobilization exercises, and duty alongside regular Coast Guard members during routine and emergency operations. Reservists will continue to serve as a cost effective surge force for response to human and natural disasters.

The Coast Guard's Research and Development program includes the development of techniques, methods, hardware, and systems which directly contribute to increasing the productivity and effectiveness of Coast Guard's operating missions. Priorities for 2001 include drug interdiction surveillance, fuel cell vessel propulsion, computerized search-andrescue tools, and more effective oil spill response techniques.

This account provides grants for the development and implementation of a coordinated national recreational boating safety program. Boating safety statistics reflect the success in meeting the program's objectives. No discretionary appropriation is requested for 2001 from the Boat safety account of the Aquatic resources trust fund. The Transportation Equity Act for the 21st Century (TEA-21) includes permanent appropriations from the Aquatic resources trust fund of \$64 million annually beginning in 1999. Of this total, \$59 million is provided for grants to States and \$5 million is available for Coast Guard coordination efforts.

AQUATIC RESOURCES TRUST FUND-Continued

The Internal Revenue Code of 1986, as amended by TEA-21, provides for the transfer of Highway Trust Fund revenue derived from the motor boat fuel tax and certain other taxes to the Aquatic Resources Trust Fund. Appropriations are authorized from this fund to meet expenditures for programs specified by law, including sport fish restoration and boat safety. Excise tax receipts for the trust fund include motorboat fuel tax receipts, plus receipts from taxes on sport fishing equipment, sonar and fish finders, and small engine fuel.

The Omnibus Budget Reconciliation Act of 1989, Public Law 101–239, triggered collection of a 5 cent tax on each barrel of oil produced domestically or imported to be deposited into the Oil Spill Liability Trust Fund. Resources from the Oil Spill Liability Trust Fund are used to finance oil pollution prevention and cleanup activities by various Federal agencies. In accordance with the provisions of the Act, the Fund may finance annually up to \$50 million of emergency resources and all valid claims from injured parties resulting from oil spills. For Coast Guard, this funds the following accounts: Trust fund share of expenses, Oil spill recovery, and Payment of claims. The authority to collect the oil barrel tax expired on December 31, 1994. Legislation will be proposed to reinstate the tax and place a \$5 billion cap on the Fund's balance.

This account provides resources from the Oil Spill Liability Trust Fund for costs associated with the cleanup of oil spills. These include emergency costs associated with oil spill cleanup, the Prince William Sound Oil Spill Recovery Institute, and the payment of claims to those who suffer harm from oil spills where the responsible party is not identifiable or is without resources. The program activities in this account will continue to be funded under separate permanent appropriations, and are being displayed in a consolidated format to enhance presentation.

The Coast Guard cadet fund is used by the Superintendent of the Coast Guard Academy to receive, plan, control, and expend funds for personal expenses and obligations of Coast Guard cadets.

The Coast Guard surcharge collections, sales of commissary stores fund is used to finance expenses incurred in connection with the operation of the Coast Guard commissary store in Kodiak, Alaska. Revenue is derived from a surcharge placed on sales (14 U.S.C. 487).

The Federal Aviation Reauthorization Act of 1996 (P.L. 104-264) authorized the collection of user fees for services provided by the FAA to aircraft that neither takeoff nor land in the United States, commonly known as overflight fees. In addition, the Act permanently appropriated the first \$50 million of such fees, or other FAA resources in the event fees are lower than \$50 million, to be used for the Essential Air Service (EAS) program and rural airport improvements. Amounts collected in excess of \$50 million are permanently appropriated for authorized expenses of the FAA. The Budget estimates that \$22 million in overflight fees will be collected in 2001, and transferred to the Essential Air Service and Rural Airport Improvement Fund. As collections are estimated to be below required EAS funding, the Budget proposes \$28 million in EAS financing will be provided from the Airport Improvement Program.

Public enterprise funds:

AVIATION INSURANCE REVOLVING FUND

The Secretary of Transportation is hereby authorized to make such expenditures and investments, within the limits of funds available pursuant to 49 U.S.C. 44307, and in accordance with section 104 of the Government Corporation Control Act, as amended (31 U.S.C. 9104), as may be necessary in carrying out the program for aviation insurance activities under chapter 443 of title 49, United States Code. (Department of Transportation and Related Agencies Appropriations Act, 2000.)

The fund provides direct support for the aviation insurance program (chapter 443 of title 49, U.S. Code). Authorization to issue new insurance coverage expired on August 6, 1999. Income to the fund is derived from premium deposits for premium insurance coverage issued, income from authorized investments, and binder fees for nonpremium coverage issued. The binders provide aviation insurance coverage for U.S. air carrier aircraft used in connection with certain Government contract operations by the Department of Defense and the Department of State. The Administration has proposed reauthorization of the program through 2004.

In 1997, the Federal Aviation Administration established a franchise fund to finance operations where the costs for goods and services provided are charged to the users on a reimbursable basis. The fund is expected to improve organizational efficiency and provide better support to FAA's internal and external customers. The activities included in this franchise fund are: training, accounting, payroll, travel, duplicating services, multi-media services, and information technology.

Intragovernmental accounts-Continued

Administrative Services Franchise Fund—Continued

In 2001, there will be a major expansion of the franchise fund, as the activities of the FAA depot at the Mike Monroney Aeronautical Center in Oklahoma City become a franchise fund activity. This expansion will increase the efficiency of the depot by instituting a more rational and economic basis for procuring and distributing replacement parts and spares.

Also added to the fund in 2001 will be aircraft maintenance activities at the Mike Monroney Aeronautical Center. As with other franchise fund activities, the inclusion of the aircraft maintenance function will allow the agency to achieve economies in performance by distributing fixed costs across a larger business base. This will, in time, lead to improved efficiency and reduced unit costs for the service provided.

Section 9502 of Title 26, U.S.C., as amended, provides for the receipts received in the Treasury from the passenger ticket tax and certain other taxes paid by airport and airway users to be transferred to the Airport and Airway Trust Fund. The Budget assumes that the current excise taxes will be reduced over time as more efficient, service-based charges are phased in beginning in 2001. Under this proposal, the amount collected each year from the new service-based charges and excise taxes combined would be equal to the total budget resources requested for the FAA in the succeeding year. The Administration has proposed legislation that creates the service-based charges and will apply the offset to discretionary spending.

The status of the fund is as follows (in millions of dollars):

GRANTS-IN-AID FOR AIRPORTS

(LIQUIDATION OF CONTRACT AUTHORIZATION)

(AIRPORT AND AIRWAY TRUST FUND)

For liquidation of obligations incurred for grants-in-aid for airport planning and development, and noise compatibility planning and programs as authorized under subchapter I of chapter 471 and subchapter I of chapter 475 of title 49, United States Code, and under other law authorizing such obligations; for administration of such programs; for administration of programs under section 40117; and for inspection activities and administration of airport safety programs, including those related to airport operating certificates under section 44706 of title 49, United States Code, [\$1,750,000,000] \$1,960,000,000, to be derived from the Airport and Airway Trust Fund and to remain available until expended: Provided, That none of the funds under this heading shall be available for the planning or execution of programs the obligations for which are in excess of \$1,950,000,000 in fiscal year [2000] 2001, notwithstanding section 47117(h) of title 49, United States Code: Provided further, That notwithstanding any other provision of law, not more than [\$45,000,000] \$60,413,000 of funds limited under this heading shall be obligated for administration: Provided further, [That, notwithstanding any other provision of law, in the event of a lapse in authorization of the grants program under this heading, funding available under Federal Aviation Administration, "Operations" may be obligated for administration during the time period of the lapse in authorization, at the rate corresponding to the maximum annual obligation level of \$45,000,000: Provided further, That total obligations from all sources in fiscal year 2000 for administration may not exceed \$45,000,000] That not more than \$27,900,000 of funds under this heading shall be available to carry out the essential air service program under subchapter II of chapter 417 of title 49, United States Code, in partial satisfaction of the requirement of section 41742(a)of such title. (Department of Transportation and Related Agencies Appropriations Act, 2000.)

0200 Contract authority	2,322	1,896	1,688
0350 Unfunded balance expiring	330	-136	
0400 Appropriation to liquidate contract authority	1,600	-1,750	-1,960
0700 Balance, end of year		2,504	2,234

Subchapter I of chapter 471, title 49, U.S. Code (formerly the Airport and Airway Improvement Act of 1982, as amended) provides for airport improvement grants, including those emphasizing capacity development, safety and security needs, and chapter 475 provides for grants for aircraft noise mitigation and planning.

The 2000 appropriations act allows funding under this heading to be provided for administrative costs related to this program. For 2001, the Administration proposes that funds under this heading also be provided for the FAA's airport-related research and to make up for shortfalls in overflight fee collections to fund the Essential Air Service program, consistent with section 41742, title 49 of the U.S. Code.

FACILITIES AND EQUIPMENT

(AIRPORT AND AIRWAY TRUST FUND)

For necessary expenses, not otherwise provided for, for acquisition, establishment, and improvement by contract or purchase, and hire of air navigation and experimental facilities and equipment as authorized under part A of subtitle VII of title 49, United States Code, including initial acquisition of necessary sites by lease or grant; engineering and service testing, including construction of test facilities and acquisition of necessary sites by lease or grant; and construction and furnishing of quarters and related accommodations for officers and employees of the Federal Aviation Administration stationed at remote localities where such accommodations are not available; and the purchase, lease, or transfer of aircraft from funds available under this head; to be derived from the Airport and Airway Trust Fund, [\$2,075,000,000] \$2,495,000,000, of which [\$1,780,000,000] \$2,172,347,400 shall remain available until September 30, [2002] 2003, and of which [\$295,000,000] \$322,652,600 shall remain available until September 30, [2000] 2001: Provided, That there may be credited to this appropriation funds received from States, counties, municipalities, other public authorities, and private sources, for expenses incurred in the establishment and modernization of air navigation facilities [: Provided further, That upon initial submission to the Congress of the fiscal year 2001 President's budget, the Secretary of Transportation shall transmit to the Congress a comprehensive capital investment plan for the Federal Aviation Administration which includes funding for each budget line item for fiscal years 2001 through 2005, with total funding for each year of the plan constrained to the funding targets for those years as estimated and approved by the Office of Management and Budget: Provided further, That none of the funds in this Act may be used for the Federal Aviation Administration to enter into a capital lease agreement unless appropriations have been provided to fully cover the Federal Government's contingent liabilities at the time the lease agreement is signed].

In addition, for necessary expenses for capital cost acquisition or construction including alteration or modification costs, to be derived from the Airport and Airway Trust Fund, to become available on October 1 of the fiscal year specified and remain available until expended: fiscal year 2002, \$638,100,000; fiscal year 2003, \$590,200,000; fiscal year 2004, \$565,400,000; fiscal year 2005, \$537,300,000; fiscal year 2006, \$324,900,000; fiscal year 2007, \$168,600,000; and fiscal year 2008, \$119,600,000. (Department of Transportation and Related Agencies Appropriations Act, 2000.)

Note .-- Mission Support has an estimated contingent liability of \$79 million (present value) associated with the FAA's long-term lease of facilities at the Mike Monroney Aeronautical Center, Oklahoma City, Oklahoma. This contingent liability will be funded through this account.

The proposed funding sustains the current infrastructure and advances modernization and improvement of the National airspace system. In particular, funds would provide for significant progress in developing the enroute and terminal automation programs, designed to upgrade air traffic control technology, and in implementing Free flight programs.

The Administration supports full funding of multi-year fixed asset projects as part of an ongoing attempt to improve the cost and performance of agency procurements. To implement the Administration's full funding policy, advance appropriations are requested for the following multi-year projects or usable project segments: Aviation weather service improvements, Air traffic control beacon interrogator replacement, Terminal digital radar, Terminal automation (STARS), Wide area augmentation system for GPS, Weather and radar processor, Oceanic automation system, Aeronautical data link, and Operational and supportability implementation system (OASIS).

In 2000, the Department of Transportation will work with the Office of Management and Budget to improve the management of the FAA's modernization program. In 2001, the Department will work with the Department of Defense to ensure that the civilian requirements of the Global Positioning system are met. These activities are proposed to be funded within the Defense Department budget.

The 2001 budget proposes funding to conduct research, engineering and development programs to improve the national air traffic control system by increasing its safety, security, capacity, and productivity to meet the expected air traffic demands of the future. The agency also administers human factors research aimed at increasing the effectiveness of air traffic controller operations, airway facilities maintenance, aviation medical research aimed at increasing the safety of aircrew members, and environmental research aimed at mitigating aircraft noise and engine emissions.

For 2001, \$6,592 million is requested to finance the personnel and support costs of operating and maintaining the air traffic control system, and ensuring the safety and security of its operation. The request represents a 12 percent increase over the 2000 enacted level and will provide funding for additional staff in Airway facilities, regulation and certification, and Civil aviation security. The Budget also provides resources to cover the cost of bringing on-line new air traffic control systems designed to improve safety and efficiency. Other funds are provided to ensure information security and cover key personnel and financial initiatives, including implementing personnel reform and developing a cost-accounting system.

FEDERAL HIGHWAY ADMINISTRATION

The Transportation Equity Act for the 21st Century (TEA-21), enacted June 9, 1998, reauthorizes surface transportation programs through 2003. TEA-21 provides for increased transportation infrastructure investment, strengthens transportation safety programs and environmental programs, and continues core research activities. TEA-21, along with title 23, U.S.C. ("Highways") and other supporting legislation, provides authority for the various programs of the Federal Highway Administration designed to improve highways throughout the Nation.

On December 9, 1999, the Motor Carrier Safety Improvement Act of 1999 was signed into law, thereby creating the Federal Motor Carrier Safety Administration to oversee commercial motor vehicle, operator, and carrier safety. Accordingly, the schedules of the Federal Highway Administration have been revised to reflect the transfer of the activities to the new administration.

In 2001, the Federal Highway Administration continues major programs, including the Surface Transportation Program, the National Highway System, Interstate Maintenance, the Highway Bridge Replacement and Rehabilitation Program, and the Congestion Mitigation and Air Quality Improvement Program. New programs authorized by TEA-21 include Transportation Infrastructure Finance and Innovation and the National Corridor Planning and Border Infrastructure Programs.

In summary, the 2001 budget consists of \$34,051 million in new budget authority and \$27,850 million in outlays. The following table reflects program levels (obligations). Because project selection is determined by the States, the 2000 and 2001 program levels are estimates.

The Orange County Toll Road Demonstration Project consists of Federal financial assistance for two toll roads in Orange County, California: the San Joaquin Hills Transportation Corridor and the Foothill/Eastern Transportation Corridor Projects. Federal standby lines of credit were made available to the Transportation Corridor Agencies for these two projects. An appropriation of \$10 million in Federal funds for the San Joaquin Hills Corridor was appropriated in 1993 to cover the subsidy cost of a \$120 million line of credit. Similarly, \$8 million in Federal funds for the Foothills/Eastern Corridor was appropriated in 1995 appropriations to cover the subsidy cost of a \$120 million line of credit. Both of these credit lines are available for a 10-year period following substantial completion of the project. The San Joaquin Hills corridor was completed in 1996 and the Foothill/Eastern Corridor was completed in 1999. There have been no draws on either line of credit to date.

As required by the Federal Credit Reform Act of 1990, this account records for this program, the subsidy costs associated with the direct loans obligated in 1992 and later years (including modifications of direct loans, loan guarantees, or lines of credit that resulted from obligations or commitments in any year), as well as administrative expenses of this program. The subsidy amounts are estimated on a present value basis; the administrative expenses are estimated on a cash basis.

Future Federal credit enhancements for transportation infrastructure will be made under the Transportation Infrastructure Finance and Innovation Act Program.

The Federal-Aid Highway Act of 1968 authorized the establishment of a right-of-way revolving fund. This fund was used to make cash advances to States for the purpose of purchasing right-of-way parcels in advance of highway construction and thereby preventing the inflation of land prices from significantly increasing construction costs.

This program was terminated by TEA-21 but will continue to be shown for reporting purposes as loan balances remain outstanding. The purchase of right-of-way is an eligible expense of the Federal-aid program and therefore a separate program is unnecessary. No further obligations are proposed in 2001.

The Highway Revenue Act of 1956, as amended, provides for the transfer from the General Fund to the Highway Trust Fund of revenue from the motor fuel tax and certain other taxes paid by highway users. The Secretary of the Treasury estimates the amounts to be transferred. In turn, appropriations are authorized from this fund to meet expenditures for Federal-aid highways and other programs as specified by law.

This table shows the status of the resources of the Highway Trust Fund relative to the obligational authority that has been made available for programs financed by the trust fund. The encumbered balance indicates the degree to which the outstanding obligational authority exceeds the estimated cash balances of the fund each year. Under the laws governing the Highway Trust Fund, the amount of obligational authority available at any time cannot exceed the actual cash balances plus the amount of receipts estimated to be collected during the following two years; for most other trust funds obligational authority is limited to the actual receipts of the fund. Revenues in 1999 reflect delayed deposits from the prior year pursuant to the Taxpayer Relief Act of 1997, P.L. 105– 34.

The status of the fund is as follows:

Provided further, That, notwithstanding Public Law 105-178 as amended, funds authorized under section 110 of title 23, United States Code, for fiscal year 2000 shall be apportioned based on each State's percentage share of funding provided for under section 105 of title 23, United States Code, for fiscal year 2000, except that before such apportionments are made, \$90,000,000 shall be set aside for projects authorized under section 1602 of Public Law 105-178 as amended, and \$8,000,000 shall be set aside for the Woodrow Wilson Memorial Bridge project authorized by section 404 of the Woodrow Wilson Memorial Bridge Authority Act of 1995 as amended. Of the funds to be apportioned under section 110 for fiscal year 2000, the Secretary shall ensure that such funds are apportioned for the Interstate Maintenance program, the National Highway system program, the bridge program, the surface transportation program, and the congestion mitigation and air quality program in the same ratio that each State is apportioned funds for such program in fiscal year 2000 but for this section: Provided further, That, notwithstanding any other provision of law, the Secretary shall, at the request of the State of Nevada, transfer up to \$10,000,000 of Minimum Guarantee apportionments, and an equal amount of obligation authority, to the State of California for use on High Priority Project No. 829 "Widen I-15 in San Bernardino County", section 1602 of Public Law 105-178] of the funds for section 140(b) of title 23, U.S. Code, not less than \$1,200,000 shall be for training on reservations or training that would benefit Native Americans: Provided further, That within the obligation limitation, an additional \$25,000,000 shall be for the implementation of the Transportation and Community and System Preservation Pilot Program; an additional \$140,000,000 shall be for the implementation of the National Corridor Planning and Development and the Coordinated Border Infrastructure Programs; an additional \$221,500,000 shall be for the implementation of research programs under chapter 5 of title 23, U.S. Code; and \$398,000,000 shall be for implementation of an Emergency Relief Reserve Fund: Provided further, That the limitations on credit amounts provided in 23 U.S.C. 188(c) shall remain available until expended.

(LIQUIDATION OF CONTRACT AUTHORIZATION)

(HIGHWAY TRUST FUND)

For carrying out the provisions of title 23, United States Code, that are attributable to Federal-aid highways, including the National Scenic and Recreational Highway as authorized by 23 U.S.C. 148, not otherwise provided, including reimbursement for sums expended pursuant to the provisions of 23 U.S.C. 308, [\$26,000,000,000] \$28,000,000,000 or so much thereof as may be available in and derived from the Highway Trust Fund, to remain available until expended. (Department of Transportation and Related Agencies Appropriations Act, 2000.)

The Federal-Aid Highways (FAH) program is designed to aid in the development, operations and management of an intermodal transportation system that is economically efficient, environmentally sound, provides the foundation for the Nation to compete in the global economy, and moves people and goods safely.

All programs included within FAH are financed from the Highway Trust Fund and most are distributed via apportionments and allocations to States. Liquidating cash appropriations are subsequently requested to fund outlays resulting from obligations incurred under contract authority. The budget proposes to fund most programs from within the Federal-Aid Highway obligation limitation. Emergency Relief and a portion of the Minimum Guarantee program (\$639 million) will be exempt from the limitation. The budget also proposes to provide the Indian Reservation Roads (\$275 million), onthe-job training (\$10 million), transportation research programs, Transportation Community and System Preservation (\$50 million), and Borders and Corridors (\$280 million) 100 percent obligation authority under the Federal-aid limitation.

The FAH program is funded by contract authority found in the Transportation Equity Act for the 21st Century (TEA– 21), which authorizes surface transportation programs through 2003, as described below.

Surface Transportation Program (STP).—STP funds may be used by States and localities for any roads that are not classified as local or rural minor collector roads, bridge projects on any public road, transit capital projects, and intracity and intercity bus terminals and facilities. TEA-21 set aside 10% of STP funds for transportation enhancements and safety and also provides State sub-allocations including the special rule for areas less than 5,000 population. Prior to apportionment, funds are set aside for Railway-Highway Crossing Hazard Elimination in High Speed Rail Corridors and for Operation Lifesaver.

National highway program.—The National Highway System (NHS) Program provides funding for a designated National Highway System consisting of roads that are of primary Federal interest. The National Highway System consists of the current Interstate, other rural principal arterials, urban freeways and connecting urban principal arterials, and facilities on the Defense Department's designated Strategic Highway Network and roads connecting the NHS to intermodal facilities. Legislation designating the 161,000 mile system was enacted in 1995 and TEA–21 added to the system the highways and connections to transportation facilities identified in the May 24, 1996 report to Congress.

Interstate maintenance (IM).—The IM program finances projects to rehabilitate, restore, resurface and reconstruct the Interstate system. Reconstruction that increases capacity, other than HOV lanes, is not eligible for IM funds.

Emergency relief.—The Emergency Relief (ER) program provides funds for the repair or reconstruction of Federal-aid highways and bridges and Federally-owned roads and bridges which have suffered serious damage as the result of natural disasters or catastrophic failures. The ER program supplements the commitment of resources by States, their political subdivisions, or Federal agencies to help pay for unusually

heavy expenses resulting from extraordinary conditions. The mandatory portion of the ER program will be funded at \$100 million. The budget proposes that an additional \$398 million be made available to establish an Emergency Relief Reserve Fund, which is desperately needed to address the ER backlog. This reserve fund would be part of the Federal-aid obligation limitation program.

Bridge replacement and rehabilitation.—The bridge program enables States to respond to the problem of unsafe and inadequate bridges. The funds are available for use on all bridges, including those on roads functionally classified as rural minor collectors and as local. Highway bridges designated as a hazard to navigation by the U.S. Coast Guard will be funded under the bridge program.

Congestion mitigation and air quality improvement program (CMAQ).—The CMAQ program directs funds toward transportation projects and programs to help meet and maintain national ambient air quality standards for ozone, carbon monoxide, and particulate matter. A minimum $\frac{1}{2}$ percent of the apportionment is guaranteed to each State.

Federal lands.-This category includes Public Lands Highways, including Forest Highways; Park Roads and Parkways; Indian Reservation Roads; and Refuge Roads. Roads funded under this program are open to public travel. State and local roads (29,500 miles) that provide important access within the National Forest System are designated Forest Highways. These roads should not be confused with the Forest Development Roads, which are under the jurisdiction of the Forest Service. Park roads and Parkways (8,000 miles) are owned by the National Park Service and provide access within the National Park System. Indian Reservation Roads program consists of the Bureau of Indian Affairs (25,000 miles) and State and local roads (25,000 miles) that provide access within Indian lands. There are approximately 4,250 miles which are under the jurisdiction of the Fish and Wildlife Service. The new category of Refuge Roads consists of public roads that provide access to or within the National Wildlife Refuge System. The budget proposes that an additional \$75 million shall be set aside from the Revenue Aligned Budget Authority for the Indian Reservation Roads program.

Border planning and infrastructure program.—The border planning and infrastructure program provides funds to make grants to State and local governments and Federal inspection agencies to facilitate planning and construction of facilities to improve the flow of people and goods in corridors of national significance and at our Nation's borders. The budget proposes that an additional \$140 million be made available for the border planning and infrastructure program. This proposal doubles the funding available to this program.

Transportation infrastructure finance and innovation act (TIFIA) program.—The TIFIA program will provide funds to assist in the development of nationally-significant transportation projects. The goal is to encourage the development of large, capital-intensive infrastructure facilities through public-private partnerships consisting of State or local government and one or more private sector firms. It will encourage more private sector and non-Federal participation, and build on the public's willingness to pay user fees to receive the benefits and services of transportation infrastructure sooner than would be possible under traditional funding techniques. Loans, loan guarantees, and stand-by lines of credit may be used to secure junior lien debt or other obligations requiring credit enhancement. The Administration proposes to make the TIFIA credit levels in TEA-21 available until expended.

As required by the Federal Credit Reform Act of 1990, this account records, for this program, the subsidy costs associated with the direct loans obligated in 1992 and beyond (including modifications of direct loans or loan guarantees that resulted from obligations or commitments in any year), as well as administrative expenses of this program. The subsidy amounts are estimated on a present value basis; the administrative expenses are estimated on a cash basis.

Federal highway research and technology.—The research and technology program develops new transportation technology that can be applied nationwide. Activities include surface transportation research, technology deployment, training and education, University Transportation Research, and funding for State research, development, and technology implementation. The budget proposes that an additional \$222 million be made available for research activities.

Intelligent Transportation Systems (ITS).—The ITS program is a cooperative, public/private initiative to research, develop, test and evaluate advanced electronic and information systems that can improve the safety, operational efficiency, and productivity of the existing surface transportation infrastructure. It includes the ITS research and development program and the ITS deployment incentives program. The ITS research and development program supports the development of the next generation of ITS technologies, including the Intelligent Vehicle Initiative; the development and maintenance of the National ITS architecture and standards; and the deployment of integrated ITS systems through guidance documents, training, and technical assistance. The budget proposes an additional \$120 million for ITS deployment within the increase in research contract authority. The ITS deployment incentive program supports the integration of existing ITS systems in metropolitan areas, integration and infrastructure deployment in rural areas; and the deployment of the commercial vehicle information systems and networks (CVISN).

Revenue Aligned Budget Authority (RABA).-The budget authority and obligation limitation for Federal-aid highway programs funded from the Highway Account (HA) of the Highway Trust Fund (HTF) is adjusted to reflect changes in tax receipt estimates of the HA of the HTF. The budget proposes to provide \$3,058 million in RABA funds in 2001. Of these funds, \$70 million shall be set aside for the National Highway Traffic Safety Administration, \$48 million shall be set aside for the Mississippi Delta Initiative, \$20 million shall be set aside for the Internal Revenue Service, \$468 million shall be set aside for expanded intercity rail passenger service, \$10 million shall be set aside for the Federal Motor Carrier Safety Administration's Commercial Drivers License program, \$50 million shall be set aside for the Federal Transit Administration's Job Access and Reverse Commute program, and \$75 million shall be set aside for Indian Reservation Roads. RABA funds totaling \$2,317 million will be distributed among Federal-aid highway and highway safety construction programs.

Miscellaneous.—This category includes Scenic Byways, Highway Use Tax Evasion Projects, National Recreational Trails, Value Pricing, Ferry Boats, and Transportation and Community and System Preservation. The budget proposes that an additional \$25 million be made available for the Transportation and Community and System Preservation program. This proposal doubles the funding level for this program.

In addition, the Administration is seeking an additional \$600 million in contract authority for 2004–2007 for the financing of the Woodrow Wilson Bridge project.

Other highway programs	7	6	2
Field operations and resource centers	131	132	13
Total obligations	343	298	32
Financing:			
Reimbursable programs	- 12	- 4	
Unobligated balance available, start of year	-11	- 4	
Unobligated balance available, end of year	5		
Limitation	325	289	31
Relation of obligations to outlays:			
Total obligations	343	298	32
Obligated balance, start of year	517	403	32
Obligated balance, end of year	- 403	- 321	- 27
Outlays from limitation	457	380	36

This limitation provides for the salaries and expenses of the Federal Highway Administration. Resources are allocated from the Federal-aid highways program. The budget proposes to provide funds for the National Rural Development Partnership, the Garrett A. Morgan Program, Small and Disadvantaged Business, the Office of the Chief Information Officer, and the Working Better Together initiative from this account.

Program direction and coordination.—Provides overall management of the highway transportation program, including formulation of multi-year and long-range policy plans and goals for highway programs; safety programs that focus on high risk areas through technical assistance, research, training, analysis, and public information; development of data and analysis for current and long-range programming; administrative support services for all elements of the FHWA; and training opportunities for highway related personnel.

Highway programs.—Provides engineering guidance to Federal and State agencies and to foreign governments, and conducts a program to encourage use of modern traffic engineering procedures to increase the vehicle-carrying capacity of existing highways and urban streets; and finances construction skill training programs for disadvantaged workers hired by contractors on federally aided highway projects.

Field operations.—Provides staff advisory and support services in field offices of the Federal Highway Administration; and provides program and engineering supervision through division offices.

Miscellaneous Trust Funds contains the following programs financed out of the highway trust fund and reimbursed by the requesting parties.

Cooperative work, forest highways.—Contributions are received from States and counties in connection with cooperative engineering, survey, maintenance, and construction projects for forest highways.

Technical assistance, U.S. dollars advanced from foreign governments.—The Federal Highway Administration renders technical assistance and acts as agent for the purchase of equipment and materials for carrying out highway programs in foreign countries.

MISCELLANEOUS TRUST FUNDS-Continued

Contributions for highway research programs.—In association with the General Services Administration and the Department of Defense, tests of highway equipment are conducted for the purpose of establishing performance standards upon which to base specifications for use by the Government in purchasing such equipment.

Advances from State cooperating agencies.—Funds are contributed by the State highway departments or local subdivisions thereof for construction and/or maintenance of roads or bridges. The work is performed under the supervision of the Federal Highway Administration.

International highway transportation outreach.—Funds are collected to inform the domestic highway community of technological innovations, promote highway transportation expertise internationally, and increase transfers of transportation technology to foreign countries.

In 2001, \$187 million is requested for the motor carrier grants program. This includes \$10 million made available from the Federal Highway Administration as part of a reallocation of the increase resulting from revenue aligned budget authority. The \$10 million will be made available to states to enhance their driver record information systems. The National Motor Carrier Safety Program (NMCSP) will support a broad range of comprehensive commercial vehicle programs in each State and provide for improving information systems and analysis. Programs will integrate Federal and State activities through a performance-based approach to commercial vehicle safety nationwide, improve driver and vehicle inspections, traffic enforcement, safety performance data collection, analysis and reporting. NMCSP also will continue to support State-conducted compliance reviews, hazardous materials training and enforcement (including border programs), drug interdiction efforts, public education campaigns and a fully implemented SAFETYNET data collection and reporting system. Training of MCSAP officers will also continue.

OPERATIONS AND RESEARCH

(HIGHWAY TRUST FUND)

For expenses necessary to discharge the functions of the Secretary, with respect to traffic and highway safety under chapter 301 of title 49, United States Code, and part C of subtitle VI of title 49, United States Code, [\$87,400,000] \$142,475,000, of which [\$62,928,000] \$102,582,000 shall remain available until September 30, [2002: Provided, That none of the funds appropriated by this Act may be obligated or expended to plan, finalize, or implement any rulemaking to add to section 575.104 of title 49 of the Code of Federal Regulations any requirement pertaining to a grading standard that is different from the three grading standards (treadwear, traction, and temperature resistance) already in effect] 2003.

(LIQUIDATION OF CONTRACT AUTHORIZATION)

(LIMITATION ON OBLIGATIONS)

(HIGHWAY TRUST FUND)

For payment of obligations incurred in carrying out the provisions of 23 U.S.C. 403, to remain available until expended, [\$72,000,000] \$142,000,000, to be derived from the Highway Trust Fund, of which not less than \$1,000,000 shall be for Native American programs: Provided, That none of the funds in this Act shall be available for the planning or execution of programs the total obligations for which, in fiscal year [2000] 2001 are in excess of [\$72,000,000] \$142,000,000 for programs authorized under 23 U.S.C. 403. (Department of Transportation and Related Agencies Appropriations Act, 2000.)

Contract authority

A total of \$286 million is proposed for Operations and Research, of which \$70 million is transferred from Revenue Aligned Budget authority.

72

- 72

72

- 72

142

-142

Programs funded under the Operations and Research appropriation are described below.

Safety Performance Standards (Rulemaking) Programs.— Supports the promulgation of Federal motor vehicle safety standards for motor vehicles, and safety-related equipment; automotive fuel economy standards required by the Energy Policy and Conservation Act; international harmonization of vehicle standards; and consumer information on motor vehicle safety, including the New Car Assessment Program. New initiatives include data collection systems for documenting and understanding trunk entrapment and research on adapting vehicles for persons with disabilities.

Safety Assurance (Enforcement) Programs.—Provides support to ensure compliance with motor vehicle safety and automotive fuel economy standards, investigate safety-related motor vehicle defects, enforce federal odometer law and encourage enforcement of state odometer law, conduct safety recalls when warranted, and provide safety information via the Auto Safety Hotline. New initiatives for FY 2001 will include compliance testing for new/enhanced occupant protection standards. These include the advanced air bag compliance test program requiring extensive side and frontal crash testing and extensive testing of child restraints. Additionally, the program will conduct dynamic side impact pole tests for testing Free Motion Headform provisions of the upper interior head protection requirements.

Research and Analysis.-Provides motor vehicle safety research and development in support of all NHTSA programs, including the collection and analysis of crash data to identify safety problems, develop alternative solutions, and assess costs, benefits, and effectiveness. Research will continue to concentrate on improving vehicle crash worthiness and crash avoidance, with emphasis on smart air bag technology and on the National Transportation Biomechanics Research Center, which includes the Crash Injury Research and Engineering Network (CIREN). The 2001 budget includes funds to continue a national crash data collection program to identify specific traffic safety problems to aid in regulatory actions and for program evaluation activities. It also includes a new international research effort and supports the safety needs of the Administration's Partnership for a New Generation of Vehicles (PNGV) initiative and the Vehicle Research Test Center (VRTC), and supports NHTSA's crash avoidance research under the Intelligent Vehicle Initiative (IVI) program.

Highway Safety Programs.—Provides for research, demonstrations, technical assistance, and national leadership for highway safety programs conducted by state and local governments, the private sector, universities and research units, and various safety associations and organizations. This program emphasizes alcohol and drug countermeasures, vehicle occupant protection, traffic law enforcement, emergency medical and trauma care systems, traffic records and licensing, state and community evaluation, motorcycle riders, pedestrian and bicycle safety, pupil transportation, young and older driver safety programs, and development of improved accident investigation procedures. Special emphasis this year will be given to new initiatives and expanded programs for FY 2001 in the areas of target populations, safe mobility for an aging America, liveable communities, reducing high risk and aggressive driving, and safe passages for youth, applying technology to help solve highway safety problems, and making .08 the national legal limit. The Department has set a national goal to reduce alcohol-related traffic fatalities to no more than 11,000 by the year 2005. The President has established a goal of increasing safety belt use to 90 percent by 2005, and reducing child occupant fatalities (0-4 years) by 25 percent by 2005.

Section 405(b) 2003(b) Child Passenger Protection Education Grant Program.—A new program to encourage states to implement child passenger protection programs that will help states increase proper child safety seat use and reduce child occupant fatalities. States may qualify for grants by carrying out specific child passenger protection education and training activities.

(LIQUIDATION OF CONTRACT AUTHORIZATION)—Continued (HIGHWAY TRUST FUND)—Continued

General Administration.—Provides program evaluation, strategic planning, and economic analysis for agency programs. Objective quantitative information about NHTSA's regulatory and highway safety programs is gathered to measure their effectiveness in achieving objectives. This activity also funds development of methods to estimate economic consequences of motor vehicle injuries in forms suitable for agency use in problem identification, regulatory analysis, priority setting, and policy analysis.

NATIONAL DRIVER REGISTER

(HIGHWAY TRUST FUND)

For expenses necessary to discharge the functions of the Secretary with respect to the National Driver Register under chapter 303 of title 49, United States Code, \$2,000,000 to be derived from the Highway Trust Fund, and to remain available until expended. (Department of Transportation and Related Agencies Appropriations Act, 2000.)

National Driver Register.—Provides funding to implement and operate the Problem Driver Pointer System (PDPS) and improve traffic safety by assisting state motor vehicle administrators in communicating effectively and efficiently with other states to identify drivers whose licenses have been suspended or revoked for serious traffic offenses, such as driving under the influence of alcohol or other drugs.

HIGHWAY TRAFFIC SAFETY GRANTS

(LIQUIDATION OF CONTRACT AUTHORIZATION)

(LIMITATION ON OBLIGATIONS)

(HIGHWAY TRUST FUND)

Notwithstanding any other provision of law, for payment of obligations incurred in carrying out the provisions of 23 U.S.C. 402, 405, 410, and 411 to remain available until expended, [\$206,800,000] \$213,000,000, to be derived from the Highway Trust Fund: *Provided*, That none of the funds in this Act shall be available for the planning or execution of programs the total obligations for which, in fiscal

year [2000] 2001, are in excess of [\$206,800,000] \$213,000,000 for programs authorized under 23 U.S.C. 402, 405, 410, and 411, of which [\$152,800,000] \$155,000,000 shall be for "Highway Safety Programs" under 23 U.S.C. 402, [\$10,000,000] \$13,000,000 shall be for 'Occupant Protection Incentive Grants" under 23 U.S.C. 405, \$36,000,000 shall be for "Alcohol-Impaired Driving Countermeasures" Grants" under 23 U.S.C. 410, [\$8,000,000] \$9,000,000 shall be for the "State Highway Safety Data Grants" under 23 U.S.C. 411: Provided further, That none of these funds shall be used for construction, rehabilitation, or remodeling costs, or for office furnishings and fixtures for State, local, or private buildings or structures: Provided further, That not to exceed [\$7,640,000] \$7,098,000 of the funds made available for section 402, not to exceed [\$500,000] \$650,000 of the funds made available for section 405, not to exceed \$1,800,000 of the funds made available for section 410, and not to exceed [\$400,000] \$450,000 of the funds made available for section 411 shall be available to NHTSA for administering highway safety grants under chapter 4 of title 23, United States Code: Provided further, That not to exceed \$500,000 of the funds made available for section 410 "Alcohol-Impaired Driving Countermeasures Grants" shall be available for technical assistance to the States. (Department of Transportation and Related Agencies Appropriations Act, 2000.)

Section 402.—The Section 402 State and Community Grant Program is a performance-based program administered by NHTSA. Grant allocations are determined on the basis of a statutory formula. States use this funding to reduce traffic crashes, fatalities, and injuries. The grants are used to support State highway safety programs, within national priorities, implemented jointly with all members of the highway safety community. States develop safety goals, performance measures, and strategic plans to manage use of grants for programs to reduce deaths and injuries on the Nation's highways, such as programs associated with excessive speeds, failure to use occupant restraints, alcohol/drug impaired driving, and roadway safety.

Alcohol-Impaired Driving Incentive Grants.---A two-tiered basic and supplemental grant program to reward states that pass new laws and start more effective programs to attack drunk driving. This continues the Department's strong emphasis on impaired drivers that has been addressed by the Section 410 incentive grant program. States may qualify for basic grants by implementing criteria that include: administrative license revocation, stepped-up police enforcement coupled with publicity, and graduated licensing laws with nighttime driving restrictions and Zero Tolerance. States are also awarded basic grants for demonstrating consistently high performance in reducing alcohol-related fatalities. There are six supplemental grant criteria including self-sustaining drunk driving prevention programs, effective DWI tracking systems, and use of passive alcohol sensors by police.

Section 405 Occupant Protection Incentive Grants.—Targets specific laws and programs to help states increase seat belt and child safety seat use. States may qualify for grants by adopting or demonstrating specific laws and programs, such as primary safety belt use laws, minimum fines or penalty points, and special traffic enforcement programs. Grant funds may be used only to implement and enforce occupant protection programs.

Section 411 State Highway Safety Data Improvement Incentive Grants.-Encourages states to take effective actions to improve the timeliness, accuracy, completeness, uniformity, and accessibility of their highway safety data. States may qualify for grants based on the status of development of a multi-year highway safety data and traffic records strategic plan and establishment of a multi-disciplinary data coordinating committee. Grant funds may be used only to implement data improvement programs.

Outlays	79	108	25

The programs under this account are:

Salaries and expenses.—Provides support for FRA rail safety activities and all other administrative and operating activities related to FRA staff and programs.

Contract support.—Provides support for policy oriented economic, industry, and systems analysis.

Washington Union Station.—The Department of Transportation purchased Washington Union Station on November 1, 1988. Lease payments on the property are collected from the Union Station Redevelopment Corporation, credited to the Safety and operations account, and paid from this account to the deed holder. Receipts are estimated to cover the mortgage payments in 2000 and 2001. The deed is expected to be paid in full in 2001.

Alaska Railroad Liabilities.—Provides reimbursement to the Department of Labor for compensation payments to former Federal employees of the Alaska Railroad who were on the rolls during the period of Federal ownership and support for clean-up activities at hazardous waste sites located at properties once owned by the FRA. The 2001 request is for workers' compensation.

The Administration will propose legislation to authorize the collection and spending of a rail safety user fee. If the proposed authorizing legislation is enacted, the proviso for the rail safety user fee contained in the General Provisions will reduce the General Fund appropriation for Safety and Operations by \$77 million, the amount of the proposed user fee.

The Amtrak Reform Council was created by the Amtrak Reform and Accountability Act of 1997 (P.L. 105–134) to perform an independent assessment of Amtrak. The 1999 Department of Transportation and Related Agencies Appropriations Act expanded the Council's mandate to include identifying Amtrak routes which are candidates for closure or realignment. Almost \$1 million is requested for these activities. The Council is an independent entity and its funding is presented within the Federal Railroad Administration for display purposes only. As such, funding is requested in a General Provision.I79

The objective of the Railroad Research and Development (R&D) program is to provide science and technology support for rail safety rulemaking and enforcement and to stimulate technological advances in conventional and high-speed railroads. This activity is conducted with the cooperation of and some cost-sharing from private sector organizations.

Equipment, operations and hazardous materials research.— Provides for research in safety and performance improvements in train occupant protection, rolling stock safety assurance and performance, human factors, transportation of hazardous materials, and grade crossing safety.

Track and vehicle-track interaction.—Provides for research in safety and performance improvements to track structure, track components, railroad bridge and tunnel structures, signal and train control, and track-vehicle interaction.

Railroad systems safety.—Provides for research in the development of safety performance standards, high-speed rail safety (equipment performance, track performance, train control, systems operations, test equipment), and environmental issues related to new high-speed ground transportation systems.

R&D facilities and equipment.—Provides support for the Transportation Technology Center (TTC) near Pueblo, Colorado, which is a government-owned, contractor-operated facility. The Association of American Railroads (AAR) is the private operator under a contract for care, custody and control.

Other.—Provides support for the salaries and related administrative expenses of the Office of Research and Development. Beginning in 2000, funding for this function is included in the Safety and operations account.

Funds are used to redevelop the Pennsylvania Station in New York City, which involves renovating the James A. Farley Post Office building as a train station and commercial center, and basic upgrades to Pennsylvania Station. Funding for this project was included in the Grants to the National Railroad Passenger Corporation appropriation in 1995 through 1997, and the Northeast Corridor Improvement Program in 1998. In 2000 an advance appropriation of \$20 million was provided for 2001, 2002, and 2003.

RAILROAD REHABILITATION AND IMPROVEMENT PROGRAM

The Secretary of Transportation is authorized to issue to the Secretary of the Treasury notes or other obligations pursuant to section 512 of the Railroad Revitalization and Regulatory Reform Act of 1976 (Public Law 94-210), as amended, in such amounts and at such times as may be necessary to pay any amounts required pursuant to the guarantee of the principal amount of obligations under sections 511 through 513 of such Act, such authority to exist as long as any such guaranteed obligation is outstanding: Provided, That pursuant to section 502 of such Act, as amended, no new direct loans or loan guarantee commitments shall be made using Federal funds for the credit risk premium during fiscal year [2000] 2001. (Department of Transportation and Related Agencies Appropriations Act, 2000.)

RAILROAD REHABILITATION AND IMPROVEMENT PROGRAM-Continued

Included funds for the Railroad Rehabilitation and Improvement and Amtrak Corridor Improvement Loans program accounts. These accounts were funded under separate appropriations, and are displayed in a consolidated format. The two accounts are loan administration accounts. No funding is requested in 2001. No loans are proposed to be supported in 2001 with Federal funds.

TEA-21 expanded the Railroad Rehabilitation and Improvement program to permit non-Federal entities to provide the subsidy budget authority needed to support a loan through the payment of a credit risk premium. A notice of proposed rulemaking implementing the Railroad rehabilitation and improvement financing program was published on May 20, 1999, outlining the structure of the program.

ALASKA RAILROAD REHABILITATION

[To enable the Secretary of Transportation to make grants to the Alaska Railroad, \$10,000,000 shall be for capital rehabilitation and improvements benefiting its passenger operations, to remain available until expended.] (Department of Transportation and Related Agencies Appropriations Act, 2000.)

The National Railroad Passenger Corporation (Amtrak) was established in 1970 through the Rail Passenger Service Act. Amtrak is operated and managed as a for profit corporation with all Board members appointed by the Executive Branch of the Federal Government, with the advice and consent of the Senate. Amtrak is not an agency or instrumentality of the U.S. Government.

Funding provides support for Amtrak capital requirements, including Northeast Corridor improvements.

The Administration continues to provide Amtrak the same flexibility in spending its capital grant as provided to transit grantees. A capital project would include acquiring, constructing, supervising or inspecting equipment or facilities (and incidental expenses thereto); payments for the capital portion of trackage rights agreements; rehabilitating, remanufacturing or overhauling rail rolling stock; and preventive maintenance.

The Alameda Transportation Corridor is an intermodal project connecting the Ports of Los Angeles and Long Beach to downtown Los Angeles. The project replaces the current 20 miles of at-grade rail line with a high-speed, below-grade corridor, thereby eliminating over 200 grade crossings. It also widens and improves the adjacent major highway on this alignment and mitigates the impact of increased international traffic transferring through the San Pedro Ports. The loan has permitted construction to continue without interruption through the sale of debt obligations, the proceeds of which funded the majority of the project's costs.

The amount of subsidy budget authority originally provided for the Alameda Corridor Transportation project was \$59 million. The Alameda Corridor Transportation Authority (ACTA) has now completely drawn down the DOT loan proceeds totaling \$400 million. In January 1999, ACTA received investment grade ratings from three rating agencies on its debt obligations financing construction of the project. Given ACTA's successful financing of over \$1 billion through the capital markets and the investment grade ratings on its debt obligations, the DOT has reestimated the subsidy rate (credit risk) at .81 percent or just over \$3 million.

As required by the Federal Credit Reform Act of 1990, this account records, for this program, the subsidy costs associated with the direct loan obligated in 1997. The subsidy amounts are estimated on a present value basis. No funds are requested for this account in 2001, as all funds required to complete this project were provided in 1997.

The Administration proposes a new grant program to improve intercity passenger rail service nationwide. Under the proposed program, The Secretary of Transportation will award fifty percent matching grants to Amtrak and/or a partner State or State consortium to implement capital projects which enhance intercity rail service. Eligible projects must generate a positive financial contribution for Amtrak and public benefits in excess of public costs, making them sound investments both for the company and the taxpayer. Projects may be located on any current or potential future intercity rail corridor. This funding would go towards the acquisition of equipment, construction of infrastructure improvements including acquisition of right-of-way, and planning and design. Funds could only be used for capital as defined by Generally Accepted Accounting Principles (GAAP). The Federal Government would maintain a lien on the improvements made with these funds. A positive financial contribution shall be measured by Amtrak recovering from the project all variable and attributable fixed/overhead costs associated with the new service. This program will improve overall intercity passenger rail speeds and service, thereby reducing congestion on the nation's highways and improving air quality. This program will be used to improve passenger rail service, including improvements necessary for high speed rail service and other increases in average speeds through rail infrastructure improvements.

This account is funded from higher than anticipated receipts in the Highway trust fund under revenue aligned budget authority.

This account provided funds for research, development, and demonstrations to support the advancement of high-speed rail technology. These activities are now supported through the Next Generation High-Speed Rail general fund account.

FEDERAL TRANSIT ADMINISTRATION

The Federal Transit Administration (FTA) provides funding to transit operators, State and local governments and other recipients for the construction of facilities; the purchase of vehicles and equipment; the improvement of technology, service techniques, and methods; the support of regionwide transportation planning; and transit operations. In addition to improving general mobility, FTA provides financial assistance to help implement other national goals relating to mobility for the elderly, people with disabilities, and economically disadvantaged individuals.

The Transportation Equity Act for the 21st Century reauthorized transit programs through FY 2003, and created the new discretionary Mass Transit Budget Category. The General Fund and Highway Trust Fund funding contained in the mass transit category is referred to as "guaranteed" funding. Approximately 80 percent of transit funding in 2001 is derived from the mass transit account of the Highway Trust Fund.

In 2001, \$6,321 million is proposed for transit programs, including \$50 million to be made available from the Federal Highway Administration as part of a reallocation of the increase resulting from the revenue aligned budget authority under the highway program.

The following tables show the funding for the Federal Transit Administration programs.

Notes .--- 2000 obligation limitation reflects a reduction of \$18 million pursuant to sec. 301, P.L. 106--- 113. 2001 Trust fund share of expenses, total budget authority reflects restoration of contract authority of \$22 million pursuant to sec. 304, P.L. 106–113. Table does not reflect rescissions of unobligated balances.

Federal Funds

General and special funds:

Administrative Expenses

For necessary administrative expenses of the Federal Transit Administration's programs authorized by chapter 53 of title 49, United States Code, [\$12,000,000] \$12,800,000: Provided, That no more than [\$60,000,000] \$64,000,000 of budget authority shall be available for these purposes: Provided further, That the Federal Transit Administration will reimburse the Department of Transportation Inspector General [\$1,500,000] \$1,000,000 for costs associated with the audit and review of new fixed guideway systems. (Department of Transportation and Related Agencies Appropriations Act, 2000.)

For 2001, \$64 million is requested, the guaranteed amount in TEA-21, to fund the personnel and other support costs associated with management and direction of FTA programs. This includes \$1.0 million to be reimbursed to the Inspector General for transit-related audits. FTA has been a forerunner in expanding automated systems to provide better access to customers. The Transportation Electronic Award and Management (TEAM) system provides on-line access to grantees for grant awards and disbursements.

The National Capital Transportation Amendments of 1979 (Stark-Harris) authorized \$1.7 billion in Federal funds to support the construction of the Washington Metrorail system. In addition, the National Capital Transportation Amendments of 1990 authorized another \$1.3 billion in Federal capital assistance to complete construction of the planned 103-mile system. The Federal commitment to complete the 103-mile system was fully funded in 1999. No new budget authority is proposed.

FORMULA GRANTS

For necessary expenses to carry out 49 U.S.C. 5307, 5308, 5310, 5311, 5327, and section 3038 of Public Law 105–178, [\$619,600,000] \$669,000,000, to remain available until expended: *Provided*, That no more than [\$3,098,000,000] \$3,345,000,000 of budget authority shall be available for these purposes: [*Provided further*, That notwith-standing section 3008 of Public Law 105–178, the \$50,000,000 to carry out 49 U.S.C. 5308 shall be transferred to and merged with funding provided for the replacement, rehabilitation, and purchase of buses and related equipment and the construction of bus-related facilities under "Federal Transit Administration, Capital investment grants"]. (*Department of Transportation and Related Agencies Appropriations Act*, 2000.)

Offsets:

Formula grants is requested at \$3,345 million in 2001, the guarantee level in TEA–21. The Formula Grant funds can be used for all transit purposes including planning, bus and railcar purchases, facility repair and construction, maintenance and where eligible, operating expenses. Increased investment levels help transit succeed in alleviating congestion, ensuring basic mobility, promoting more livable communities and helping meet additional needs required as a result of the Americans with Disabilities Act (ADA) and the Clean Air Act (CAA).

In 2001, FTA requests \$4.85 million for the Alaska Railroad and \$50 million for the Clean Fuels Formula program consistent with the Transportation Equity Act for the 21st Century, TEA–21. A total of \$4.7 million for the Rural Transportation Accessibility Incentive Program, commonly referred to as the Over-the-Road Bus Accessibility Program is requested.

Clean Fuels Formula Program.—\$50 million will finance the purchase or lease of clean fuel buses and facilities and the improvement of existing facilities to accommodate clean fuel buses.

Over-the-Road Bus Accessibility Program.—\$4.7 million for the Rural Transportation Accessibility Incentive Program established in TEA-21 will assist operators of over-the-road buses to finance the incremental capital and training costs of complying with the Department of Transportation's final rule regarding accessibility of over-the-road buses required by the ADA.

Urbanized Area Formula.—\$2,997 million in funds will be apportioned to areas with populations of 50,000 or more. Funds may be used for any transit capital purpose, including preventive maintenance for these capital assets, in urban areas over 200,000 in population. Also, in urbanized areas under 200,000 both capital and operating costs are eligible expenditures. This funding will assist public transit agencies in meeting the requirements of the Clean Air Act Amendments and the Americans with Disabilities Act. These funds are critical to preserving mobility in our cities and supporting welfare reform by providing an affordable commute for people making the transition to work.

Nonurbanized Area Formula.—\$209 million will be apportioned according to a legislative formula based on each State's nonurban population to areas with populations of less than 50,000. Available funding may be used to support intercity bus service as well as to help meet rural and small urban areas' transit needs.

Formula Grants for Elderly and Individuals with Disabilities.—\$79 million will be apportioned to each State according to a legislatively required formula to assist in providing transportation to the elderly and individuals with disabilities. Grants are made for the purchase of vehicles and equipment and for transportation services under a contract, lease or similar arrangement.

For 2001, \$6 million is proposed for the University Transportation Research program. This program provides continued support for research, education and technology transfer activities aimed at addressing regional and national transportation problems. These funds are matched with support from non-Federal sources. This program also receives funding from the Federal Highway Administration.

TRANSIT PLANNING AND RESEARCH

For necessary expenses to carry out 49 U.S.C. 5303, 5304, 5305, 5311(b)(2), 5312, 5313(a), 5314, 5315, and 5322, [\$21,000,000] \$22,200,000, to remain available until expended: *Provided*, That no more than [\$107,000,000] \$110,000,000 of budget authority shall be available for these purposes: *Provided further*, That \$5,250,000 is available to provide rural transportation assistance (49 U.S.C. 5311(b)(2)); \$4,000,000 oi savailable to carry out programs under the National Transit Institute (49 U.S.C. 5315); \$8,250,000 is available to carry out transit cooperative research programs (49 U.S.C. 5313(a)); [\$49,632,000] \$52,113,600 is available for metropolitan planning (49 U.S.C. 5303, 5304, and 5305); [\$10,368,000] \$10,886,400 is available for the national planning and research program (49 U.S.C. 5314)[: *Provided further*, That of the total budget authority made available for the national planning and research program, the Federal Transit Administration shall provide the following amounts for the projects and activities listed below:

Zinc-air battery bus technology demonstration, \$1,000,000;

Electric vehicle information sharing and technology transfer program, \$750,000; Portland, Maine independent transportation network, \$500,000;

Wheeling, West Virginia mobility study, \$250,000; Project ACTION, \$3,000,000;

In 2001, a total of \$110 million is requested for the transit planning and research activities, including \$47 million for research and technology and \$63 million for Metropolitan and Statewide Planning.

In 2001, \$47 million is requested for a variety of research activities. The National Research and Technology program is funded at \$30 million. These funds will be used to cover costs for FTA's essential safety and transit operations data bases including the National Transit Database—\$8 million is for Transit Cooperative Research, \$4 million for the National Transit Institute, \$5 million for the Rural Transit Assistance Program.

Under the national component of the program, the FTA is a catalyst in the research, development and deployment of transportation methods and technologies which address such issues as accessibility for the disabled, air quality, traffic congestion, and transit service and operational improvements. The National Research Program supports the development of innovative transit technologies, such as hybrid electric buses, fuel cells, and battery powered propulsion systems.

For support of metropolitan and statewide planning activities \$63 million, the guaranteed level in TEA-21, is requested in 2001. Of this amount, \$52 million will be apportioned to States for Metropolitan planning, and \$11 million for statewide planning and research activities. These funds support the transportation planning activities that will enable these regional planning agencies to continue to plan for the transportation investments that best meet the needs of the communities they serve, and to comply with Federal statutes.

In 2001, \$150 million is requested for the Job Access and Reverse Commute Grants Program. This amount includes \$50 million made available from the Federal Highway Administration as part of a reallocation of the increase resulting from the revenue aligned budget authority under the highway program. Through grants to states, local governments, and nonprofit organizations, this program is intended to provide transportation services in urban, suburban and rural areas to assist welfare recipients and low income individuals to access employment opportunities. Federal transit funds would provide 50 percent of the project costs, with grant recipients supplying the remaining 50 percent from local or Federal sources other than the Department of Transportation.

CAPITAL INVESTMENT GRANTS

(INCLUDING TRANSFER OF FUNDS)

For necessary expenses to carry out 49 U.S.C. 5308, 5309, 5318, and 5327, [\$490,200,000] \$529,200,000, to remain available until expended: *Provided*, That no more than [\$2,451,000,000] \$2,646,000,000 of budget authority shall be available for these purposes: *Provided further*, That notwithstanding any other provision of law, there shall be available for fixed guideway modernization, [\$980,400,000] \$1,058,400,000; there shall be available for the replacement, rehabilitation, and purchase of buses and related equipment and the construction of bus-related facilities, [\$490,200,000, together with \$50,000,000 transferred from "Federal Transit Administration, Formula grants", to be available for the following projects in amounts specified below:

and] \$529,200,000, of which \$50,000,000 will be available for the Los Angeles County Metropolitan Transportation Authority, not to exceed \$35,000,000 for Salt Lake City Winter Olympic Games, \$15,000,000 for transit service benefiting the Mississippi Delta Region. In addition, there shall be available for new fixed guideway systems [\$980,400,000, to be available as follows:

\$10,400,000 for Alaska or Hawaii ferry projects;

\$45,142,000 for the Atlanta, Georgia, North line extension project;

\$1,000,000 for the Austin, Texas capital metro northwest/north central corridor project;

\$4,750,000 for the Baltimore central LRT double track project; \$3,000,000 for the Birmingham, Alabama transit corridor;

\$1,000,000 for the Boston Urban Ring project;

\$500,000 for the Calais, Maine branch rail line regional transit program;

\$2,500,000 for the Canton-Akron-Cleveland commuter rail project;

\$2,500,000 for the Charleston, South Carolina Monobeam corridor project;

\$4,000,000 for the Charlotte, North Carolina, north-south corridor transitway project;

\$25,000,000 for the Chicago METRA commuter rail project;

\$3,500,000 for the Chicago Transit Authority Douglas branch line project;

\$3,500,000 for the Chicago Transit Authority Ravenswood branch line project;

\$1,000,000 for the Cincinnati northeast/northern Kentucky corridor project;

\$3,500,000 for the Clark County, Nevada, fixed guideway project, together with unobligated funds provided in Public Law 103–331 for the "Burlington to Gloucester, New Jersey line";

\$1,000,000 for the Cleveland Euclid corridor improvement project; \$1,000,000 for the Colorado Roaring Fork Valley project;

\$50,000,000 for the Dallas north central light rail extension project;

\$1,000,000 for the Dayton, Ohio, light rail study;

\$3,000,000 for the Denver Southeast corridor project;

\$35,000,000 for the Denver Southwest corridor project;

\$25,000,000 for the Dulles corridor project;

\$10,000,000 for the Fort Lauderdale, Florida Tri-County commuter rail project;

\$1,500,000 for the Galveston, Texas rail trolley extension project; \$10,000,000 for the Girdwood, Alaska commuter rail project;

\$7,000,000 for the Greater Albuquerque mass transit project;

\$500,000 for the Harrisburg-Lancaster capital area transit corridor 1 commuter rail project;

\$3,000,000 for the Houston advanced transit program;

\$52,770,000 for the Houston regional bus project;

\$1,000,000 for the Indianapolis, Indiana Northeast Downtown corridor project;

\$1,000,000 for the Johnson County, Kansas, I–35 commuter rail project;

\$1,000,000 for the Kenosha-Racine-Milwaukee rail extension project;

\$500,000 for the Knoxville-Memphis commuter rail feasibility study;

\$2,000,000 for the Long Island Railroad East Side access project; \$1,000,000 for the Los Angeles-San Diego LOSSAN corridor project;

\$4,000,000 for the Los Angeles Mid-City and East Side corridors projects;

\$50,000,000 for the Los Angeles North Hollywood extension project;

\$1,000,000 for the Lowell, Massachusetts-Nashua, New Hampshire commuter rail project;

\$703,000 for the MARC commuter rail project;

\$1,500,000 for MARC expansion projects—Silver Spring intermodal and Penn-Camden rail connection;

\$1,000,000 for the Massachusetts North Shore corridor project; \$2,500,000 for the Memphis, Tennessee, Medical Center rail extension project;

\$1,500,000 for the Miami-Dade Transit east-west multimodal corridor project;

\$1,000,000 for the Nashville, Tennessee, commuter rail project; \$99,000,000 for the New Jersey Hudson Bergen project;

\$5,000,000 for the New Jersey/New York Trans-Hudson Midtown corridor;

\$1,000,000 for the New Orleans Canal Street corridor project; \$12,000,000 for the Newark rail link MOS-1 project;

\$1,000,000 for the Norfolk-Virginia Beach corridor project;

\$4,000,000 for the Northern Indiana south shore commuter rail project;

\$2,000,000 for the Oceanside-Escondido, California light rail system;

\$10,000,000 for temporary and permanent Olympic transportation infrastructure investments: *Provided*, That these funds shall be allocated by the Secretary based on the approved transportation management plan for the Salt Lake City 2002 Winter Olympic Games: *Provided further*, That none of these funds shall be available for rail extensions;

\$1,000,000 for the Orange County, California, transitway project; \$5,000,000 for the Orlando Lynx light rail project (phase 1);

CAPITAL INVESTMENT GRANTS-Continued

(INCLUDING TRANSFER OF FUNDS)-Continued

\$500,000 for the Palm Beach, Broward and Miami-Dade counties rail corridor:

- \$4,000,000 for the Philadelphia-Reading SETPA Schuylkill Valley metro project;
- \$1,000,000 for the Philadelphia SEPTA cross-county metro;
- \$5,000,000 for the Phoenix metropolitan area transit project;

\$2,500,000 for the Pinellas County, Florida, mobility initiative

project;

- \$10,000,000 for the Pittsburgh North Shore-central business district corridor project;
 - \$8,000,000 for the Pittsburgh stage II light rail project;
- \$11,062,000 for the Portland Westside light rail transit project; \$25,000,000 for the Puget Sound RTA Link light rail project;
- \$5,000,000 for the Puget Sound RTA Sounder commuter rail project:
- \$8,000,000 for the Raleigh-Durham-Chapel Hill Triangle transit project:
 - \$25,000,000 for the Sacramento south corridor LRT project;
- \$37,928,000 for the Utah north/south light rail project;
- \$1,000,000 for the San Bernardino, California Metrolink project; \$5,000,000 for the San Diego Mid Coast corridor project;
- \$20,000,000 for the San Diego Mission Valley East light rail transit project;
- \$65,000,000 for the San Francisco BART extension to the airport project;
- \$20,000,000 for the San Jose Tasman West light rail project; \$32,000,000 for the San Juan Tren Urbano project;
- \$3,000,000 for the Santa Fe/El Dorado, New Mexico rail link; \$53.895,000 for the South Boston piers transitway;
- \$1,000,000 for the South Dekalb-Lindbergh, Georgia, corridor project:
- \$2,000,000 for the Spokane, Washington, South Valley corridor light rail project;
- \$2,500,000 for the St. Louis, Missouri, MetroLink cross county corridor project;
- \$50,000,000 for the St. Louis-St. Clair County MetroLink light rail (phase II) extension project;
- \$1,000,000 for the Stamford, Connecticut fixed guideway connector:
- \$1,000,000 for the Stockton, California Altamont commuter rail project;
- \$1,000,000 for the Tampa Bay regional rail project;

\$3,000,000 for the Twin Cities Transitways projects;

- \$42,800,000 for the Twin Cities Transitways-Hiawatha corridor project;
- \$2,200,000 for the Virginia Railway Express commuter rail project;
- \$4,750,000 for the Washington Metro-Blue Line extension-Addison Road (Largo) project;
- \$1,000,000 for the West Trenton, New Jersey, rail project;
- \$2,000,000 for the Whitehall ferry terminal reconstruction project;
- \$1,000,000 for the Wilmington, Delaware downtown transit connector: and
- \$500,000 for the Wilsonville to Washington County, Oregon connection to Westside] \$1,058,400,000, to be available as follows: \$10,322,000 for the Alaska or Hawaii ferry projects;
- \$25,000,000 for Atlanta—North Spring project;
- \$10,000,000 for Baltimore-Central LRT Double Tracking project; \$35,969,249 for Boston-South Boston Piers Transitway project;
- \$17,000,000 for Chicago—Douglas Branch Reconstruction project; \$10,000,000 for Chicago-Metra Southwest Corridor Commuter
- Rail project; \$70,000,000 for Dallas—North Central LRT Extension project;
- \$20,203,485 for Denver-Southwest Corridor LRT project;
- \$20,000,000 for Denver—Southeast Corridor LRT project;
- \$30,000,000 for Fort Lauderdale-Tri-Rail Commuter Rail Upgrade project;
- \$10,744,873 for Houston-Regional Bus project;
- \$50,000,000 for Los Angeles-North Hollywood project;
- \$14,174,990 for Memphis—Medical Center Extension project;

\$20,000,000 for Minneapolis—Hiawatha Corridor LRT project;

- \$10,000,000 for Newark Rail Link MOS-1 project;
- \$121,000,000 for New Jersey Urban Core—Hudson-Bergen project;

\$20,000,000 for Pittsburgh—Stage II LRT Reconstruction project; \$40,000,000 for Portland—Interstate MAX LRT Extension project; \$209,232 for Portland—Westside / Hillsboro project; \$35,199,450 for Sacramento-LRT Extension project;

\$15,000,000 for Salt Lake City—CBD to University LRT project;

\$718,006 for Salt Lake City—North-South LRT project;

\$60,000,000 for St. Louis—Metrolink St. Clair Extension project; \$65,000,000 for San Diego-Mission Valley East LRT Extension project;

\$80,000,000 for San Francisco-BART Extension to the Airport project;

\$12,248,715 for San Jose—Tasman West LRT project;

\$118,000,000 for San Juan—Tren Urbano project;

\$35,000,000 for Seattle—Central Link LRT project;

\$10,000,000 for Washington, DC/MD-Largo Extension project; \$84,672,000 for activities other than final design and construction as specified in 49 U.S.C. 5309(m)(2); and

\$7,938,000 for activities authorized by 49 U.S.C. 5327. (Department of Transportation and Related Agencies Appropriations Act, 2000.)

For 2001, a total of \$2,646 million, the guaranteed level in TEA-21, is requested for Capital Investment Grants. The \$2,646 million will be allocated among the following activities:

Bus and bus-related facilities.—\$529.2 million for the replacement, rehabilitation and purchase of buses and related equipment and the construction of bus-related facilities. This funding will assist public transit authorities in meeting the requirements of the Clean Air Act Amendments and the Americans with Disabilities Act. For 2001, FTA's goal is to continue in its efforts to make the national fixed-route bus system 80 percent accessible to individuals with disabilities.

Within the bus funding level, \$50 million will be provided for the Clean Fuels Formula Grants program, as authorized by TEA-21. The Clean Fuels Formula Program will finance the purchase or lease of clean fuel buses and facilities and the improvement of existing facilities to accommodate clean fuel buses. In addition, FTA will fund \$50 million in extraordinary costs associated with the Masters decision in Los Angeles County Metropolitan Transportation Authority and \$35 million for cost associated with the 2002 Winter Olympic and paralympic games in Salt Lake City, Utah. FTA will provide \$15 million for transit service benefiting the Mississippi Delta Region.

Fixed guideway modernization.—\$1,058 million for the acquisition, reconstruction and improvement of facilities and equipment for use on fixed guideways including heavy and light rail, commuter rail, and ferryboat operations. Funding for this program will ensure the fixed guideway modernization activity remains the stabilization and restoration factor for remedying the conditions of the Nation's older fixed guideway systems.

New Starts.—\$1,058 million for the construction of new fixed guideway systems and extensions to existing fixed guideway systems. This will fund all projects currently under Full Funding Grant Agreements (FFGA) or expected to be under FFGA during 2001. Within the \$1,058 million total, FTA is requesting that 8 percent or, \$85 million, be provided for preliminary engineering.

The Saint Lawrence Seaway Development Corporation (SLSDC) is a wholly owned Government Corporation responsible for the operation, maintenance and development of the United States portion of the St. Lawrence Seaway between Montreal and Lake Erie. Major priorities are to control Seaway Corporation costs and to encourage increased use of the Seaway system.

.....

.....

SLSDC is proposed as a performance-based organization (PBO) for 2001–2005. The PBO will focus on four key performance goals: safety, long and short term reliability, trade development, and management accountability including customer service, fiscal performance and cost effectiveness. No appropriation is requested as financing is proposed to be derived from an automatic annual payment from the Harbor services fund, based on five-year average tonnage through the Seaway.

The Research and Special Programs Administration serves as a research, analytical, and technical development arm of the Department for multimodal research and development, as well as special programs. Particular emphasis is given to transportation of hazardous cargo by all modes of transportation. In 2001, resources are requested for hazardous materials safety programs, including emergency preparedness activities. Funding is also provided for the management and execution of the Office of Emergency Transportation; the Office of Innovation Research and Education; the Transportation Safety Institute; and the Volpe National Transportation Systems Center (VNTSC). The 2001 Budget proposes to increase hazardous materials registration fees to finance hazardous materials safety activities previously financed by general fund appropriations to this account. This proposal is described in the following section.

Beginning late in 2001, hazardous materials safety activities previously financed by general fund appropriations to this account are proposed to be financed instead by offsetting collections of hazardous materials registration fees. Authorizing legislation will be proposed to increase the fees paid by shippers and carriers of hazardous materials by an estimated \$19 million in 2001 to fund these safety activities. Due to the timing of these collections, a general fund appropriation of \$14 million is requested to fund the hazardous materials safety program for the first three quarters of 2001. Beginning in the fourth quarter of 2001, this program would become 100 percent fee-financed. Of the \$19 million in new fees collected, \$5 million would be obligated in 2001. The remainder would be carried over into 2002 to finance the

RESEARCH AND SPECIAL PROGRAMS-Continued

hazardous materials safety program until the 2002 fee collections are received.

The collection and expenditure of this increase in hazardous materials fees would be contingent on appropriations action. The additional proviso to be included in appropriation language is being proposed in anticipation of the enactment of authorizing legislation. If the authorizing legislation is enacted, the proviso will reduce the amount of the general fund appropriation provided in the body of the language by \$5 million, the amount necessary to fund these activities in the last quarter of 2001, so that total resources for this account will not exceed the amount allowed under the discretionary spending caps.

The Federal Hazardous Materials Transportation law (Federal hazmat law), 49 U.S.C. 5101 *et seq.*, establishes a national registration program of shippers and carriers of hazardous materials. The registrants finance, through fees, emergency preparedness planning and training grants programs, a training curriculum for emergency responders, and monitoring and technical assistance to States, political subdivi-

RESEARCH AND SPECIAL PROGRAMS ADMINISTRATION—Continued Federal Funds—Continued 799

sions, and Indian tribes. In the Federal hazmat law, there are permanent appropriations for the planning and training grants, monitoring and technical assistance, and for administrative expenses. As enacted for 2000, the Budget proposes to limit 2001 activities to those authorized for the Department of Transportation. Appropriations are requested for the training curriculum.

The Research and Special Programs Administration (RSPA) has proposed a rulemaking to increase the annual level of funding for the Emergency Preparedness Grants program to approximately \$14.3 million prior to 2001.

The Working Capital Fund finances multidisciplinary research, evaluation, analytical and related activities undertaken at the Volpe National Transportation Systems Center (VNTSC) in Cambridge, MA. The fund is financed through negotiated agreements with the Office of the Secretary, Departmental operating administrations, and other governmental elements requiring the Center's capabilities. These agreements also define the activities undertaken at VNTSC.

The Oil Pollution Act of 1990 requires the preparation of oil spill response plans by pipeline operators to minimize the environmental impact of oil spills and to improve public and private sector response capabilities. The Office of Pipeline Safety is responsible for the review, approval and testing of these plans, and to ensure that the public and environment is provided with an adequate level of protection from such spills through data analysis, spill monitoring, pipeline mapping, environmental indexing, and advancing technologies to detect and prevent leaks.

OFFICE OF INSPECTOR GENERAL

Federal Funds

General and special funds:

SALARIES AND EXPENSES

For necessary expenses of the Office of Inspector General to carry out the provisions of the Inspector General Act of 1978, as amended, [\$44,840,000] \$48,050,000[: Provided, That the Inspector General shall have all necessary authority, in carrying out the duties specified in the Inspector General Act, as amended (5 U.S.C. App. 3) to investigate allegations of fraud, including false statements to the Government (18 U.S.C. 1001), by any person or entity that is subject to regulation by the Department: Provided further, That the funds made available under this heading shall be used to investigate pursuant to section 41712 of title 49, United States Code, relating to unfair or deceptive practices and unfair methods of competition by domestic and foreign air carriers and ticket agents: Provided further, That it is the sense of the Senate, that for purposes of the preceding proviso, the terms "unfair or deceptive practices" and "unfair methods of competition" include the failure to disclose to a passenger or a ticket agent whether the flight on which the passenger is ticketed or has requested to purchase a ticket is overbooked, unless the Secretary certifies such disclosure by a carrier is technologically infeasible: Provided further. That the funds made available under this heading shall be used: (1) to investigate pursuant to section 41712 of title 49, United States Code, relating to unfair or deceptive practices and unfair methods of competition by air carriers and foreign air carriers; (2) for monitoring by the Inspector General of the compliance of domestic and foreign air carriers with respect to paragraph (1) of this proviso; and (3) for the submission to the appropriate committees of Congress by the Inspector General, not later than July 15, 2000, of a report on the extent to which actual or potential barriers exist to consumer access to comparative price and service information from independent sources on the purchase of passenger air transportation: Provided further, That it is the sense of the Senate, that for purposes of the preceding proviso, the terms "unfair or deceptive practices" and "unfair methods of competition" mean the offering for sale to the public for any route, class, and time of service through any technology or means of communication a fare that is different than that offered through other technology or means of communication: Provided further. That it is the sense of the Senate that funds made available under this heading shall be used for the submission to the appropriate committees of Congress by the Inspector General a report on the extent to which air carriers and foreign air carriers deny travel to airline consumers with nonrefundable tickets from one carrier to another]. (Department of Transportation and Related Agencies Appropriations Act, 2000.)

The Surface Transportation Board was created on January 1, 1996, by P.L. 104–88, the ICC Termination Act of 1995 (ICCTA). The Board is specifically responsible for the regulation of the rail and pipeline industries and certain non-licensing regulation of motor carriers and water carriers.

Rail Carriers.—This regulatory oversight encompasses the regulation of rates, mergers, and acquisitions, construction, and abandonment of railroad lines, as well as the planning, analysis and policy development associated with these activities. Staff ensure compliance with railroad regulations in order to protect the public interest.

Other Surface Transportation Carriers.—This regulatory oversight includes certain regulation of the intercity bus industry and surface pipeline carriers as well as the rate regulation of water transportation in the non-contiguous domestic trade, household good carriers, and collectively determined motor rates and the processing of truck undercharge matters.

2001 Program Request.—A total of \$17.954 million is requested to implement rulemakings and adjudicate the ongoing caseload within the directives and deadlines set forth by the ICCTA. The total program request amount is proposed to be derived from user fees collected from the beneficiaries of the Board's activities. This fee financing proposal stems from a proposal put forward by the Board's predecessor, the Interstate Commerce Commission (ICC). That proposal suggested ways of financing the ICC solely with fees and/or industry assessments. Fee financing will relieve the general taxpayer of the burden of supporting the Board. Further, fee financing will emphasize the accountability of the Board as to the value of the activities it provides to its customers. The following paragraph is presented in compliance with Section 703 of the ICCTA. It is presented without change or correction.

The Board's Request to OMB.-The Board had submitted to the Secretary of Transportation and the Office of Management and Budget a 2001 appropriation request of \$17.054 million and a request for \$0.9 million from reimbursements from the offsetting collection of user fees. This funding request supports the required staffing, which mirrors the Board's 2000 budgetary authority granted to date, and is necessary for continued expeditious processing of the Board's caseload. The appropriation request included \$17.0 million, the current level of funding provided by the 2000 Department of Transportation Appropriations Act, plus \$0.954 million for annual pay and non-pay adjustments. The \$0.9 million request from the offsetting collection of user fees is commensurate with the Board's projection for fee-related activities. The offsetting collection of user fees is based on the costs incurred by the Board for fee-related activities and is commensurate with the costs of processing parties' submissions. In past fiscal years, the Board received both an appropriation and authorization for offsetting collections to be made available to the appropriation for the Board's expenses. In light of Congressional action on the enacted FY 2000 appropriation act, the FY 2001 request reflects offsetting collections as a credit to the appropriation received, to the extent that they are collected.

This level of funding is necessary to implement rulemakings and adjudicate the ongoing caseload within the deadlines imposed by the ICCTA. The Board requires adequate resources to perform key functions under the ICCTA, including rail rate reasonableness oversight; the processing of rail consolidations, abandonments and other restructuring proposals; and the resolution of motor carrier undercharge matters.

SALARIES AND EXPENSES

(Legislative proposal, not subject to PAYGO)

Contingent upon the enactment of authorizing legislation, the Chairman of the Surface Transportation Board (STB) shall charge additional user fees for services provided by the STB, and such fees shall be deposited as an offsetting collection to this appropriation, to remain available until expended: Provided further, That upon the enactment of such authorizing legislation, the amount appropriated above from the General Fund shall be reduced by \$17,054,000.

The Administration proposed legislation during the first session of the 106th Congress to authorize the collection and spending of a user fee for Surface Transportation Board services. If the proposed authorizing legislation is enacted, the proviso will reduce the General Fund appropriation by \$17.054 million, the amount of the proposed user fee.

BUREAU OF TRANSPORTATION STATISTICS

The Bureau's mission is to lead in developing transportation data and information of high quality, and to advance their use in both public and private transportation decision making.

The Bureau of Transportation Statistics (BTS) compiles, analyzes and publishes transportation statistics. BTS maintains the National Transportation Library and the National Transportation Atlas Data Base. It collects financial and operating statistics on airlines and motor carriers, and a variety of data on personal travel and freight transportation through national surveys. BTS is developing the Intermodal Transportation Data Base, to include information on the volume and patterns of movement of people and goods, the location and connectivity of transportation facilities and services, and a national accounting of expenditures and capital stocks for transportation.

Financing of the Bureau's operations is authorized as contract authority from the Highway Trust Fund and is included within the overall limitation on obligations for the Federalaid program. The 2001 funding level is \$31 million. Funds are transferred to BTS from Federal-aid Highways, where all obligations and outlays are counted.

MARITIME ADMINISTRATION

The Maritime Administration (MARAD) is responsible for programs authorized by the Merchant Marine Act, 1936, as amended, and other related acts, to promote a strong U.S. Merchant Marine. Emphasis is placed on increasing the competitiveness and productivity of the U.S. maritime industries as well as ensuring adequate seafaring manpower for peacetime and national emergencies. Programs include: providing operating aid to U.S.-flag operators; administering the Maritime Guaranteed Loan (Title XI) portfolio; reimbursing the Commodity Credit Corporation for the expanded cargo preference requirement in the Food Security Act of 1985; preserving and maintaining merchant ships retained in the National Defense Reserve Fleet including the Ready Reserve Force; emergency planning and coordination; promoting port and intermodal development; and conducting Federal technology assessment projects.

The following table shows the funding for the Maritime Administration programs:

The Operating-Differential Subsidies (ODS) account helps to maintain a U.S.-flag merchant fleet to serve both the commercial and national security needs of the U.S. by providing operating subsides to U.S.-flag ship operators to offset certain differences between U.S. and foreign operating costs. Appropriations are provided to liquidate contract authority. This program has been replaced by the Maritime Security Program. Existing liquidating cash on hand is expected to be sufficient to honor existing contracts. No new ODS contracts will be entered into and no existing contracts will be modified.

MARITIME SECURITY PROGRAM

For necessary expenses to maintain and preserve a U.S.-flag merchant fleet to serve the national security needs of the United States, [96,200,000] 98,700,000, to remain available until expended. (Departments of Commerce, Justice, and State, the Judiciary and Related Agencies Appropriations Act, 2000, as enacted by section 1000(a)(1)of the Consolidated Appropriations Act, 2000 (P.L. 106-113).)

The Maritime Security Program provides resources to maintain a U.S.-flag merchant fleet crewed by U.S. citizens to serve both the commercial and national security needs of the United States. The program provides direct payments to U.S.-flag ship operators engaged in U.S.-foreign trade. Participating operators are required to keep the vessels in active commercial service and are required to provide intermodal sealift support to the Department of Defense in times of war or national emergency.

Public Law 99–198 amended section 901 of the Merchant Marine Act to increase from 50 to 75 percent the amount of agricultural commodities under specified programs that must be carried on U.S.-flag vessels. The increased cost associated with this expanded U.S.-flag shipping requirement stems from higher rates charged by U.S.-flag carriers compared with foreign-flag carriers. The Maritime Administration is required to reimburse the Department of Agriculture for ocean freight differential costs for the added tonnage above 50 percent. These reimbursements are funded through borrowings from the Treasury. This account has a permanent, indefinite appropriation to liquidate debt provided in Public Law 100–202 to cover these costs.

The Maritime Administration's ocean freight differential costs are one portion of the government's cargo preference program. The ocean transportation subsidy costs related to cargo preference for all relevant agencies are presented in the following schedule.

Funding for the Ready Reserve Force (RRF) account is included in appropriations for the Department of Defense. Management of the RRF remains with MARAD. Reimbursements from the Department of Defense for the RRF account are reflected in MARAD's Vessel Operations Revolving Fund account. Obligations shown above are the spendout of funding appropriated directly to MARAD prior to 1996 for the RRF.

The RRF is comprised of Government-owned, U.S.-flag merchant ships laid up in the National Defense Reserve Fleet (NDRF). The RRF is maintained in an advanced state of readiness to meet surge shipping requirements during a national emergency.

The Maritime Administration is authorized to reactivate, operate, deactivate, and charter merchant vessels. These operations are financed through the Vessel Operations Revolving Fund with reimbursements from sponsoring agencies. In addition, the fund is available to finance the necessary expenses to protect, maintain, preserve, acquire, and use vessels involved in mortgage foreclosure or forfeiture proceedings instituted by the United States other than those financed by the Federal Ship Financing Fund or the Maritime Guaranteed Loan (Title XI) Financing Account; and to process advances received from Federal agencies. Also the acquisition and disposal of ships under the trade-in/scrap-out program is financed through this account.

Reimbursements from other Federal agencies also pay for various DOD/Navy-sponsored activities, such as the operation of activated RRF vessels, installation of sealift enhancement features and other special projects. The Vessel Operations Revolving Fund account includes DOD/Navy reimbursements for the RRF account. DOD/Navy funding for RRF provides for additional RRF vessels, RRF ship activations and deactivations, maintaining RRF ships in an advanced state of readiness, berthing costs, capital improvements at fleet sites, and other RRF support costs.

This program provides for guaranteed loans for purchasers of ships from the U.S. shipbuilding industry and for modernization of U.S. shipyards.

As required by the Federal Credit Reform Act of 1990, this account includes the subsidy costs associated with the loan guarantee commitments made in 1992 and beyond (including modifications of direct loans or loan guarantees that resulted from obligations or commitments in any year), as well as administrative expenses of this program. The subsidy amounts are estimated on a present value basis, the administrative expenses are estimated on a cash basis.

Funds for administrative expenses for the Title XI program are appropriated to this account, then transferred by reimbursement to the Operations and Training account to be obligated and outlayed. The schedule above shows the post-transfer amounts for 1999. For 2000 and 2001, the schedule displays pre-transfer amounts in order to comply with the Federal Credit Reform Act of 1990.

Administrative Provisions-Maritime Administration

Notwithstanding any other provision of this Act, the Maritime Administration is authorized to furnish utilities and services and make necessary repairs in connection with any lease, contract, or occupancy involving Government property under control of the Maritime Administration, and payments received therefore shall be credited to the appropriation charged with the cost thereof: *Provided*, That rental payments under any such lease, contract, or occupancy for items other than such utilities, services, or repairs shall be covered into the Treasury as miscellaneous receipts.

No obligations shall be incurred during the current fiscal year from the construction fund established by the Merchant Marine Act, 1936, or otherwise, in excess of the appropriations and limitations contained in this Act or in any prior appropriation Act. TITLE III—GENERAL PROVISIONS

(INCLUDING TRANSFERS OF FUNDS)

SEC. 301. During the current fiscal year applicable appropriations to the Department of Transportation shall be available for maintenance and operation of aircraft; hire of passenger motor vehicles and aircraft; purchase of liability insurance for motor vehicles operating in foreign countries on official department business; and uniforms, or allowances therefor, as authorized by law (5 U.S.C. 5901–5902).

SEC. 302. Such sums as may be necessary for fiscal year [2000] 2001 pay raises for programs funded in this Act shall be absorbed within the levels appropriated in this Act or previous appropriations Acts.

SEC. 303. Funds appropriated under this Act for expenditures by the Federal Aviation Administration shall be available: (1) except as otherwise authorized by title VIII of the Elementary and Secondary Education Act of 1965 (20 U.S.C. 7701 et seq.), for expenses of primary and secondary schooling for dependents of Federal Aviation Administration personnel stationed outside the continental United States at costs for any given area not in excess of those of the Department of Defense for the same area, when it is determined by the Secretary that the schools, if any, available in the locality are unable to provide adequately for the education of such dependents; and (2) for transportation of said dependents between schools serving the area that they attend and their places of residence when the Secretary, under such regulations as may be prescribed, determines that such schools are not accessible by public means of transportation on a regular basis.

SEC. 304. Appropriations contained in this Act for the Department of Transportation shall be available for services as authorized by 5 U.S.C. 3109, but at rates for individuals not to exceed the per diem rate equivalent to the rate for an Executive Level IV.

SEC. 305. None of the funds in this Act shall be available for salaries and expenses of more than [100] 113 political and Presidential appointees in the Department of Transportation[: *Provided*, That none of the personnel covered by this provision may be assigned on temporary detail outside the Department of Transportation].

SEC. 306. None of the funds in this Act shall be used for the planning or execution of any program to pay the expenses of, or otherwise compensate, non-Federal parties intervening in regulatory or adjudicatory proceedings funded in this Act.

SEC. 307. None of the funds appropriated in this Act shall remain available for obligation beyond the current fiscal year, nor may any be transferred to other appropriations, unless expressly so provided herein.

[SEC. 308. The Secretary of Transportation may enter into grants, cooperative agreements, and other transactions with any person, agency, or instrumentality of the United States, any unit of State or local government, any educational institution, and any other entity in execution of the Technology Reinvestment Project authorized under the Defense Conversion, Reinvestment and Transition Assistance Act of 1992 and related legislation: *Provided*, That the authority provided in this section may be exercised without regard to section 3324 of title 31, United States Code.]

SEC. [309] 308. The expenditure of any appropriation under this Act for any consulting service through procurement contract pursuant to section 3109 of title 5, United States Code, shall be limited to those contracts where such expenditures are a matter of public record and available for public inspection, except where otherwise provided under existing law, or under existing Executive order issued pursuant to existing law.

SEC. [310] 309. (a) For fiscal year [2000] 2001, the Secretary of Transportation shall—

(1) [not distribute] set aside from the obligation limitation for Federal-aid Highways amounts authorized for administrative expenses and programs funded from the administrative takedown authorized by section 104(a) of title 23, United States Code, for the highway use tax evasion program, for highway research programs under chapter 5 of title 23, U.S.C., for sections 1116, 1101(a)(8)(A), 1101(a)(9) and 1221 of Public Law 105-178, \$10,000,000 for section 140(b) of title 23, U.S.C., and amounts provided under section 110 of title 23, United States Code (excluding \$128,752,000 pursuant to subsection (e) of section 110), as amended, and for the Bureau of Transportation Statistics;

(2) [not distribute] set aside an amount from the obligation limitation for Federal-aid Highways that is equal to the unobligated balance of amounts made available from the Highway Trust Fund (other than the Mass Transit Account) for Federal-aid highways and highway safety programs for the previous fiscal year the funds for which are allocated by the Secretary;

(3) determine the ratio that—

(A) the obligation limitation for Federal-aid Highways less the aggregate of amounts [not distributed] *set aside* under paragraphs (1) and (2), bears to

(B) the total of the sums authorized to be appropriated for Federal-aid highways and highway safety construction programs (other than sums authorized to be appropriated for sections set forth in paragraphs (1) through (7) of subsection (b) and sums authorized to be appropriated for section 105 of title 23, United States Code, equal to the amount referred to in subsection (b)(8)) for such fiscal year less the aggregate of the amounts [not distributed] set aside under paragraph (1) of this subsection;

(4) distribute the obligation limitation for Federal-aid Highways less the aggregate amounts [not distributed] set aside under paragraphs (1) and (2) of section 117 of title 23, United States Code (relating to high priority projects program), section 201 of the Appalachian Regional Development Act of 1965, the Woodrow Wilson Memorial Bridge Authority Act of 1995, and \$2,000,000,000 for such fiscal year under section 105 of title 23, United States Code (relating to minimum guarantee) so that the amount of obligation authority available for each of such sections is equal to the amount determined by multiplying the ratio determined under paragraph (3) by the sums authorized to be appropriated for such section (except in the case of section 105, \$2,000,000,000) for such fiscal year;

(5) distribute the obligation limitation provided for Federal-aid Highways less the aggregate amounts [not distributed] set aside under paragraphs (1) and (2) and amounts distributed under paragraph (4) for each of the programs that are allocated by the Secretary under title 23, United States Code (other than activities to which paragraph (1) applies and programs to which paragraph (4) applies) by multiplying the ratio determined under paragraph (3) by the sums authorized to be appropriated for such program for such fiscal year; and (6) distribute the obligation limitation provided for Federal-aid Highways less the aggregate amounts [not distributed] set aside under paragraphs (1) and (2) and amounts distributed under paragraphs (4) and (5) for Federal-aid highways and highway safety construction programs (other than the minimum guarantee program, but only to the extent that amounts apportioned for the minimum guarantee program for such fiscal year exceed \$2,639,000,000, and the Appalachian development highway system program) that are apportioned by the Secretary under title 23, United States Code, in the ratio that—

(A) sums authorized to be appropriated for such programs that are apportioned to each State for such fiscal year, bear to

(B) the total of the sums authorized to be appropriated for such programs that are apportioned to all States for such fiscal year.

(b) EXCEPTIONS FROM OBLIGATION LIMITATION.—The obligation limitation for Federal-aid Highways shall not apply to obligations: (1) under section 125 of title 23, United States Code; (2) under section 147 of the Surface Transportation Assistance Act of 1978; (3) under section 9 of the Federal-Aid Highway Act of 1981; (4) under sections 131(b) and 131(j) of the Surface Transportation Assistance Act of 1982; (5) under sections 149(b) and 149(c) of the Surface Transportation and Uniform Relocation Assistance Act of 1987; (6) under sections 1103 through 1108 of the Intermodal Surface Transportation Efficiency Act of 1991; (7) under section 157 of title 23, United States Code, as in effect on the day before the date of the enactment of the Transportation Equity Act for the 21st Century; and (8) under section 105 of title 23, United States Code (but, only in an amount equal to \$639,000,000 for such fiscal year).

(c) REDISTRIBUTION OF UNUSED OBLIGATION AUTHORITY.—Notwithstanding subsection (a), the Secretary shall after August 1 for such fiscal year revise a distribution of the obligation limitation made available under subsection (a) if a State will not obligate the amount distributed during that fiscal year and redistribute sufficient amounts to those States able to obligate amounts in addition to those previously distributed during that fiscal year giving priority to those States having large unobligated balances of funds apportioned under sections 104 and 144 of title 23, United States Code, section 160 (as in effect on the day before the enactment of the Transportation Equity Act for the 21st Century) of title 23, United States Code, and under section 1015 of the Intermodal Surface Transportation Act of 1991 (105 Stat. 1943–1945).

(d) APPLICABILITY OF OBLIGATION LIMITATIONS TO TRANSPORTATION RESEARCH PROGRAMS.—The obligation limitation shall apply to transportation research programs carried out under chapter 5 of title 23, United States Code, except that obligation authority made available for such programs under such limitation shall remain available for a period of 3 fiscal years.

(e) REDISTRIBUTION OF CERTAIN AUTHORIZED FUNDS.—Not later than 30 days after the date of the distribution of obligation limitation under subsection (a), the Secretary shall distribute to the States any funds: (1) that are authorized to be appropriated for such fiscal year for Federal-aid highways programs (other than the program under section 160 of title 23, United States Code) and for carrying out subchapter I of chapter 311 of title 49, United States Code, and highway-related programs under chapter 4 of title 23, United States Code; and (2) that the Secretary determines will not be allocated to the States, and will not be available for obligation, in such fiscal year due to the imposition of any obligation limitation for such fiscal year. Such distribution to the States shall be made in the same ratio as the distribution of obligation authority under subsection (a)(6). The funds so distributed shall be available for any purposes described in section 133(b) of title 23, United States Code.

(f) SPECIAL RULE.—Obligation limitation distributed for a fiscal year under subsection (a)(4) of this section for a section set forth in subsection (a)(4) shall remain available until used and shall be in addition to the amount of any limitation imposed on obligations for Federal-aid highway and highway safety construction programs for future fiscal years.

(g) Notwithstanding Public Law 105–178, as amended, of the funds authorized under 23 U.S.C. 110, as amended, for fiscal year 2001: \$70,000,000 shall be transferred to "Operations and Research," National Highway Traffic Safety Administration; \$48,000,000 shall be to carry out the Federal Highway Administration's Delta Initiative; \$20,000,000 shall be to carry out the Federal Highway Administration's Highway Use Tax Evasion Projects; \$468,000,000 shall be transferred to "Expanded Intercity Rail Passenger Service Fund," Federal Railroad Administration; \$10,000,000 shall be transferred to "National Motor Carrier Safety Program," Federal Motor Carrier Safety Administration; \$50,000,000 shall be transferred to "Job Access and Reverse Commute Program," Federal Transit Administration; and \$75,000,000 shall be to carry out the Federal Highway Administration's Indian Reservation Roads Program.

SEC. [311] 310. The limitations on obligations for the programs of the Federal Transit Administration shall not apply to any authority under 49 U.S.C. 5338, previously made available for obligation, or to any other authority previously made available for obligation.

SEC. [312] 311. None of the funds in this Act shall be used to implement section 404 of title 23, United States Code.

SEC. [313] 312. None of the funds in this Act shall be available to plan, finalize, or implement regulations that would establish a vessel traffic safety fairway less than five miles wide between the Santa Barbara Traffic Separation Scheme and the San Francisco Traffic Separation Scheme.

SEC. [314] 313. Notwithstanding any other provision of law, airports may transfer, without consideration, to the Federal Aviation Administration (FAA) instrument landing systems (along with associated approach lighting equipment and runway visual range equipment) which conform to FAA design and performance specifications, the purchase of which was assisted by a Federal airport-aid program, airport development aid program or airport improvement program grant. The Federal Aviation Administration shall accept such equipment, which shall thereafter be operated and maintained by FAA in accordance with agency criteria.

[SEC. 315. None of the funds in this Act shall be available to award a multiyear contract for production end items that: (1) includes economic order quantity or long lead time material procurement in excess of 10,000,000 in any 1 year of the contract; (2) includes a cancellation charge greater than 10,000,000 which at the time of obligation has not been appropriated to the limits of the Government's liability; or (3) includes a requirement that permits performance under the contract during the second and subsequent years of the contract without conditioning such performance upon the appropriation of funds: *Provided*, That this limitation does not apply to a contract in which the Federal Government incurs no financial liability from not buying additional systems, subsystems, or components beyond the basic contract requirements].

SEC. [316] 314. Notwithstanding any other provision of law, and except for fixed guideway modernization projects, funds made available by this Act under "Federal Transit Administration, Capital investment grants" for projects specified in this Act or identified in reports accompanying this Act not obligated by September 30, [2002] 2003, and other recoveries, shall be made available for other projects under 49 U.S.C. 5309.

SEC. [317] 315. Notwithstanding any other provision of law, any funds appropriated before October 1, [1999] 2000, under any section of chapter 53 of title 49, United States Code, that remain available for expenditure may be transferred to and administered under the most recent appropriation heading for any such section.

[SEC. 318. None of the funds in this Act may be used to compensate in excess of 320 technical staff-years under the federally funded research and development center contract between the Federal Aviation Administration and the Center for Advanced Aviation Systems Development during fiscal year 2000.]

[SEC. 319. Funds provided in this Act for the Transportation Administrative Service Center (TASC) shall be reduced by \$15,000,000, which limits fiscal year 2000 TASC obligational authority for elements of the Department of Transportation funded in this Act to no more than \$133,673,000: *Provided*, That such reductions from the budget request shall be allocated by the Department of Transportation to each appropriations account in proportion to the amount included in each account for the Transportation Administrative Service Center.]

SEC. [320] 316. Funds received by the Federal Highway Administration, Federal Transit Administration, and Federal Railroad Administration from States, counties, municipalities, other public authorities, and private sources for expenses incurred for training may be credited respectively to the Federal Highway Administration's "Federal-Aid Highways" account, the Federal Transit Administration's "Transit Planning and Research" account, and to the Federal Railroad Administration's "Safety and Operations" account, except for State rail safety inspectors participating in training pursuant to 49 U.S.C. 20105.

[SEC. 321. None of the funds in this Act shall be available to prepare, propose, or promulgate any regulations pursuant to title (INCLUDING TRANSFERS OF FUNDS)-Continued

V of the Motor Vehicle Information and Cost Savings Act (49 U.S.C. 32901 et seq.) prescribing corporate average fuel economy standards for automobiles, as defined in such title, in any model year that differs from standards promulgated for such automobiles prior to the enactment of this section.]

SEC. [322] 317. TEMPORARY AIR SERVICE INTERRUPTIONS. (a) AVAILABILITY OF FUNDS.—Funds appropriated or otherwise made available by this Act to carry out section 47114(c)(1) of title 49, United States Code, may be available for apportionment to an airport sponsor described in subsection (b) in fiscal year [2000] 2001 in an amount equal to the amount apportioned to that sponsor in fiscal year [1999] 2000.

(b) COVERED AIRPORT SPONSORS.—An airport sponsor referred to in subsection (a) is an airport sponsor with respect to whose primary airport the Secretary of Transportation found that—

(1) passenger boardings at the airport fell below 10,000 in the calendar year used to calculate the apportionment;

(2) the airport had at least 10,000 passenger boardings in the calendar year prior to the calendar year used to calculate apportionments to airport sponsors in a fiscal year; and

(3) the cause of the shortfall in passenger boardings was a temporary but significant interruption in service by an air carrier to that airport due to an employment action, natural disaster, or other event unrelated to the demand for air transportation at the affected airport.

[SEC. 323. Section 3021 of Public Law 105–178 is amended in subsection (a)—

(1) in the first sentence, by striking "single-State"; and

(2) in the second sentence, by striking "Any" and all that follows through "United States Code" and inserting "The funds made available to the State of Oklahoma and the State of Vermont to carry out sections 5307 and 5311 of title 49, United States Code".]

SEC. [324] 318. [Notwithstanding] Hereafter, not withstanding 31 U.S.C. 3302, funds received by the Bureau of Transportation Statistics from the sale of data products, for necessary expenses incurred pursuant to 49 U.S.C. 111 may be credited to the Federal-aid highways account for the purpose of reimbursing the Bureau for such expenses: *Provided*, That such funds shall *not* be subject to the obligation limitation for Federal-aid highways and highway safety construction.

[SEC. 325. None of the funds in this Act may be obligated or expended for employee training which: (a) does not meet identified needs for knowledge, skills and abilities bearing directly upon the performance of official duties; (b) contains elements likely to induce high levels of emotional response or psychological stress in some participants; (c) does not require prior employee notification of the content and methods to be used in the training and written end of course evaluations; (d) contains any methods or content associated with religious or quasi-religious belief systems or "new age" belief systems as defined in Equal Employment Opportunity Commission Notice N-915.022, dated September 2, 1988; (e) is offensive to, or designed to change, participants' personal values or lifestyle outside the workplace; or (f) includes content related to human immunodeficiency virus/acquired immune deficiency syndrome (HIV/AIDS) other than that necessary to make employees more aware of the medical ramifications of HIV/AIDS and the workplace rights of HIVpositive employees.]

[SEC. 326. None of the funds in this Act shall, in the absence of express authorization by Congress, be used directly or indirectly to pay for any personal service, advertisement, telegraph, telephone, letter, printed or written material, radio, television, video presentation, electronic communications, or other device, intended or designed to influence in any manner a Member of Congress or of a State legislature to favor or oppose by vote or otherwise, any legislation or appropriation by Congress or a State legislature after the introduction of any bill or resolution in Congress proposing such legislation or appropriation, or after the introduction of any bill or resolution in a State legislature proposing such legislation or appropriation: Provided, That this shall not prevent officers or employees of the Department of Transportation or related agencies funded in this Act from communicating to Members of Congress or to Congress, on the request of any Member, or to members of State legislature, or to a State legislature, through the proper official channels, requests for legislation or appropriations which they deem necessary for the efficient conduct of business.]

[SEC. 327. (a) IN GENERAL.—None of the funds made available in this Act may be expended by an entity unless the entity agrees that in expending the funds the entity will comply with the Buy American Act (41 U.S.C. 10a–10c).

(b) SENSE OF THE CONGRESS; REQUIREMENT REGARDING NOTICE.-

(1) PURCHASE OF AMERICAN-MADE EQUIPMENT AND PRODUCTS.— In the case of any equipment or product that may be authorized to be purchased with financial assistance provided using funds made available in this Act, it is the sense of the Congress that entities receiving the assistance should, in expending the assistance, purchase only American-made equipment and products to the greatest extent practicable.

(2) NOTICE TO RECIPIENTS OF ASSISTANCE.—In providing financial assistance using funds made available in this Act, the head of each Federal agency shall provide to each recipient of the assistance a notice describing the statement made in paragraph (1) by the Congress.

(c) PROHIBITION OF CONTRACTS WITH PERSONS FALSELY LABELING PRODUCTS AS MADE IN AMERICA.—If it has been finally determined by a court or Federal agency that any person intentionally affixed a label bearing a "Made in America" inscription, or any inscription with the same meaning, to any product sold in or shipped to the United States that is not made in the United States, the person shall be ineligible to receive any contract or subcontract made with funds made available in this Act, pursuant to the debarment, suspension, and ineligibility procedures described in sections 9.400 through 9.409 of title 48, Code of Federal Regulations.]

[SEC. 328. Not to exceed \$1,000,000 of the funds provided in this Act for the Department of Transportation shall be available for the necessary expenses of advisory committees: *Provided*, That this limitation shall not apply to advisory committees established for the purpose of conducting negotiated rulemaking in accordance with the Negotiated Rulemaking Act, 5 U.S.C. 561–570a, or the Coast Guard's advisory council on roles and missions.]

[SEC. 329. Hereafter, notwithstanding any other provision of law, receipts, in amounts determined by the Secretary, collected from users of fitness centers operated by or for the Department of Transportation shall be available to support the operation and maintenance of those facilities.]

[SEC. 330. None of the funds in this Act shall be available to implement or enforce regulations that would result in the withdrawal of a slot from an air carrier at O'Hare International Airport under section 93.223 of title 14 of the Code of Federal Regulations in excess of the total slots withdrawn from that air carrier as of October 31, 1993 if such additional slot is to be allocated to an air carrier or foreign air carrier under section 93.217 of title 14 of the Code of Federal Regulations.]

[SEC. 331. Notwithstanding any other provision of law, funds made available under this Act, and any prior year unobligated funds, for the Charleston, South Carolina Monobeam Corridor Project shall be transferred to and administered under the Transit Planning and Research account, subject to such terms and conditions as the Secretary deems appropriate.]

[SEC. 332. Hereafter, notwithstanding 49 U.S.C. 41742, no essential air service subsidies shall be provided to communities in the 48 contiguous States that are located fewer than 70 highway miles from the nearest large or medium hub airport, or that require a rate of subsidy per passenger in excess of \$200 unless such point is greater than 210 miles from the nearest large or medium hub airport.]

SEC. [333. Rebates] 319. Hereafter, rebates, refunds, incentive payments, minor fees and other funds received by the Department from travel management centers, charge card programs, the subleasing of building space, and miscellaneous sources are to be credited to appropriations of the Department and allocated to elements of the Department using fair and equitable criteria and such funds shall be available until [December 31, 2000] expended.

SEC. [334] 320. Notwithstanding any other provision of law, rule or regulation, the Secretary of Transportation is authorized to allow the issuer of any preferred stock heretofore sold to the Department to redeem or repurchase such stock upon the payment to the Department of an amount determined by the Secretary.

SEC. [335] 321. For necessary expenses of the Amtrak Reform Council authorized under section 203 of Public Law 105-134, [\$750,000] \$980,000, to remain available until September 30, [2001: *Provided*, That the duties of the Amtrak Reform Council described in section 203(g)(1) of Public Law 105-134 shall include the identification of Amtrak routes which are candidates for closure or realignment, based on performance rankings developed by Amtrak which incorporate information on each route's fully allocated costs and ridership on core intercity passenger service, and which assume, for purposes of closure or realignment candidate identification, that Federal subsidies for Amtrak will decline over the 4-year period from fiscal year 1999 to fiscal year 2002: *Provided further*, That these closure or realignment recommendations shall be included in the Amtrak Reform Council's annual report to the Congress required by section 203(h) of Public Law 105–134] 2002.

[SEC. 336. The Secretary of Transportation is authorized to transfer funds appropriated for any office of the Office of the Secretary to any other office of the Office of the Secretary: *Provided*, That no appropriation shall be increased or decreased by more than 12 percent by all such transfers: *Provided further*, That any such transfer shall be submitted for approval to the House and Senate Committees on Appropriations.]

SEC. [337] 322. None of the funds in this Act shall be available for activities under the Aircraft Purchase Loan Guarantee Program during fiscal year [2000] 2001.

[SEC. 338. None of the funds appropriated or limited in this Act may be used to carry out the functions and operations of the Office of Motor Carriers within the Federal Highway Administration: *Provided*, That funds available to the Federal Highway Administration shall be transferred with the functions and operations of the Office of Motor Carriers should any of the functions and operations of that office be delegated by the Secretary outside of the Federal Highway Administration: *Provided further*, That notwithstanding section 104(c)(2) of title 49, United States Code, the Federal Highway Administrator shall not carry out the duties and functions vested in the Secretary under 49 U.S.C. 521(b)(5).]

[SEC. 339. Section 3027 of the Transportation Equity Act for the 21st Century (49 U.S.C. 5307 note; 112 Stat. 336) is amended by adding at the end the following:

"(e) GOVERNMENT SHARE FOR OPERATING ASSISTANCE TO CERTAIN SMALLER URBANIZED AREAS.—Notwithstanding 49 U.S.C. 5307(e), a grant of the Government for operating expenses of a project under 49 U.S.C. 5307(b) in fiscal years 1999 and 2000 to any recipient that is providing transit services in an urbanized area with a population between 128,000 and 128,200, as determined in the 1990 census, and that had adopted a 5-year transit plan before September 1, 1998, may not be more than 80 percent of the net project cost.".]

[SEC. 340. Funds provided in Public Law 104–205 for the Griffin light rail project shall be available for alternative analysis and environmental impact studies for other transit alternatives in the Griffin corridor from Hartford to Bradley International Airport.]

[SEC. 341. Section 3030(c)(1)(A)(v) of the Transportation Equity Act for the 21st Century (Public Law 105–178) is amended by striking "Light Rail".]

[SEC. 342. Notwithstanding any other provision of law, the Federal share of projects funded under section 3038(g)(1)(B) of Public Law 105–178 shall not exceed 90 percent of the project cost.]

[SEC. 343. Of the funds made available to the Coast Guard in this Act under "Acquisition, construction, and improvements", \$10,000,000 is only for necessary expenses to support a portion of the acquisition costs, currently estimated at \$128,000,000, of a multimission vessel to replace the Mackinaw icebreaker in the Great Lakes, to remain available until September 30, 2005.]

[SEC. 344. None of the funds made available in this Act may be obligated or expended to extend a single hull tank vessel's double hull compliance date under the Oil Pollution Act of 1990 due to conversion of the vessel's single hull design by adding a double bottom or double side after August 18, 1990, unless specifically authorized by 46 U.S.C. 3703a(e).]

[SEC. 345. None of the funds in this Act may be used for the planning or development of the California State Route 710 Freeway extension project through South Pasadena, California (as approved in the Record of Decision on State Route 710 Freeway, issued by the United States Department of Transportation, Federal Highway Administration, on April 13, 1998).]

[SEC. 346. Hereafter, none of the funds made available under this Act or any other Act, may be used to implement, carry out, or enforce any regulation issued under section 41705 of title 49, United States Code, including any regulation contained in part 382 of title 14, Code of Federal Regulations, or any other provision of law (including any Act of Congress, regulation, or Executive order or any official guidance or correspondence thereto), that requires or encourages an air carrier (as that term is defined in section 40102 of title 49, United States Code) to, on intrastate or interstate air transportation (as those terms are defined in section 40102 of title 49, United States Code)—

 $\left(1\right)$ provide a peanut-free buffer zone or any other related peanut-restricted area; or

(2) restrict the distribution of peanuts,

until 90 days after submission to the Congress and the Secretary of a peer-reviewed scientific study that determines that there are severe reactions by passengers to peanuts as a result of contact with very small airborne peanut particles of the kind that passengers might encounter in an aircraft.]

[SEC. 347. Section 5309(g)(1)(B) of title 49, United States Code, is amended by inserting after "Committee on Banking, Housing, and Urban Affairs of the Senate" the following: "and the House and Senate Committees on Appropriations".]

[SEC. 348. Section 1212(g) of the Transportation Equity Act for the 21st Century (Public Law 105–178), as amended, is amended—

(1) in the subsection heading, by inserting "and New Jersey" after "Minnesota"; and

(2) by inserting "or the State of New Jersey" after "Minnesota".] [SEC. 349. (a) REQUIREMENT TO CONVEY.—The Commandant of the Coast Guard shall convey, without consideration, to the University of New Hampshire (in this section referred to as the "University") all right, title, and interest of the United States in and to a parcel of real property (including any improvements thereon) located in New Castle, New Hampshire, consisting of approximately five acres and including a pier.

(b) IDENTIFICATION OF PROPERTY.—The Commandant shall determine, identify, and describe the property to be conveyed under this section.

(c) EASEMENTS, RIGHTS-OF-WAY, AND RIGHTS.—(1) The Commandant shall, in connection with the conveyance required by subsection (a), grant to the University such easements and rights-of-way as the Commandant considers necessary to permit access to the property conveyed under that subsection.

(2) The Commandant shall, in connection with such conveyance, reserve in favor of the United States such easements and rights as the Commandant considers necessary to protect the interests of the United States, including easements or rights regarding access to property and utilities.

(d) CONDITIONS OF CONVEYANCE.—The conveyance required by subsection (a) shall be subject to the following conditions:

(1) That the University not convey, assign, exchange, or encumber the property conveyed, or any part thereof, unless such conveyance, assignment, exchange, or encumbrance—

(A) is made without consideration; or

(B) is otherwise approved by the Commandant.

(2) That the University not interfere or allow interference in any manner with the maintenance or operation of Coast Guard Station Portsmouth Harbor, New Hampshire, without the express written permission of the Commandant.

(3) That the University use the property for educational, research, or other public purposes.

(e) MAINTENANCE OF PROPERTY.—The University, or any subsequent owner of the property conveyed under subsection (a) pursuant to a conveyance, assignment, or exchange referred to in subsection (d)(1), shall maintain the property in a proper, substantial, and workmanlike manner, and in accordance with any conditions established by the Commandant, pursuant to the National Historic Preservation Act of 1966 (16 U.S.C. 470 et seq.), and other applicable laws.

(f) REVERSIONARY INTEREST.—All right, title, and interest in and to the property conveyed under this section (including any improvements thereon) shall revert to the United States, and the United States shall have the right of immediate entry thereon, if—

(1) the property, or any part thereof, ceases to be used for educational, research, or other public purposes by the University;

(2) the University conveys, assigns, exchanges, or encumbers the property conveyed, or part thereof, for consideration or without the approval of the Commandant;

(3) the Commandant notifies the owner of the property that the property is needed for national security purposes and a period of 30 days elapses after such notice; or

(4) any other term or condition established by the Commandant under this section with respect to the property is violated.]

[SEC. 350. (a) No recipient of funds made available in this Act shall disseminate driver's license personal information as defined in 18 U.S.C. 2725(3) except as provided in subsection (b) of this section

(INCLUDING TRANSFERS OF FUNDS)-Continued

or motor vehicle records as defined in 18 U.S.C. 2725(1) for any use not permitted under 18 U.S.C. 2721.

(b) No recipient of funds made available in this Act shall disseminate a person's driver's license photograph, social security number, and medical or disability information from a motor vehicle record as defined in 18 U.S.C. 2725(1) without the express consent of the person to whom such information pertains, except for uses permitted under 18 U.S.C. 2721(1), 2721(4), 2721(6), and 2721(9): Provided, That subsection (b) shall not in any way affect the use of organ donation information on an individual's driver's license or affect the administration of organ donation initiatives in the States.

(c) 18 U.S.C. 2721(b)(11) is amended by striking all after "records" and inserting the following: "if the State has obtained the express consent of the person to whom such personal information pertains.".

(d) 18 U.S.C. 2721(b)(12) is amended by striking all after "solicitations" and inserting the following: "if the State has obtained the express consent of the person to whom such personal information pertains."

(e) No State may condition or burden in any way the issuance of a motor vehicle record as defined in 18 U.S.C. 2725(1) upon the receipt of consent described in paragraphs (b) and (c).

(f) Notwithstanding subsections (a) and (b), the Secretary shall not withhold funds provided in this Act for any grantee if a State is in noncompliance with this provision.

(g) EFFECTIVE DATES.

(1) Subsections (a) and (e) shall be effective upon the date of the enactment of this Act, excluding the States of Wisconsin, South Carolina, and Oklahoma that shall be in compliance with this subsection within 90 days after the United States Supreme Court has issued a final decision on Reno vs. Condon;

(2) Subsections (b), (c), and (d) shall be effective on June 1, 2000, excluding the States of Arkansas, Montana, Nevada, North Dakota, Oregon, and Texas that shall be in compliance with subsections (b), (c), and (d) within 90 days of the next convening of the State legislature and excluding the States of Wisconsin, South Carolina, and Oklahoma that shall be in compliance within 90 days following the day of issuance of a final decision on Reno vs. Condon by the United States Supreme Court if the State legislature is in session, or within 90 days of the next convening of the State legislature following the issuance of such final decision if the State legislature is not in session.]

[SEC. 351. Notwithstanding any other provision of law, within the funds provided in this Act for the Federal Highway Administration and the National Highway Traffic Safety Administration, \$10,000,000 may be made available for completion of the National Advanced Driving Simulator (NADS): Provided, That such funds shall be subject to reprogramming guidelines.]

[SEC. 352. Notwithstanding any other provision of law, section 1107(b) of Public Law 102-240 is amended by striking "Construction of a replacement bridge at Watervale Bridge #63, Harford County, MD" and inserting the following: "For improvements to Bottom Road Bridge, Vinegar Hill Road Bridge and Southampton Road Bridge, Harford County, MD".]

[SEC. 353. (a) FINDINGS.—The Senate makes the following findings: (1) The survival of American culture is dependent upon the survival of the sacred institution of marriage.

(2) The decennial census is required by section 2 of article 1 of the Constitution of the United States, and has been conducted in every decade since 1790.

(3) The decennial census has included marital status among the information sought from every American household since 1880.

(4) The 2000 decennial census will mark the first decennial census since 1880 in which marital status will not be a question included on the census questionnaire distributed to the majority of American households.

(5) The United States Census Bureau has removed marital status from the short form census questionnaire to be distributed to the majority of American households in the 2000 decennial census and placed that category of information on the long form census questionnaire to be distributed only to a sample of the population in that decennial census.

(6) Every year more than \$100,000,000,000 in Federal funds are allocated based on the data collected by the Census Bureau.

(7) Recorded data on marital status provides a basic foundation for the development of Federal policy.

(8) Census data showing an exact account of the numbers of persons who are married, single, or divorced provides critical infor-

mation which serves as an indicator on the prevalence of marriage in society.

(b) SENSE OF THE SENATE.-It is the sense of the Senate that the United States Census Bureau-

(1) has wrongfully decided not to include marital status on the census questionnaire to be distributed to the majority of Americans for the 2000 decennial census; and

(2) should include marital status on the short form census questionnaire to be distributed to the majority of American households for the 2000 decennial census]

[SEC. 354. It is the sense of the Senate that the Secretary should expeditiously amend title 14, chapter II, part 250, Code of Federal Regulations, so as to double the applicable penalties for involuntary denied boardings and allow those passengers that are involuntarily denied boarding the option of obtaining a prompt cash refund for the full value of their airline ticket.]

[SEC. 355. Section 656(b) of division C of the Omnibus Consolidated Appropriations Act of 1997 is repealed.]

[SEC. 356. Notwithstanding any other provision of law, the amount made available pursuant to Public Law 105-277 for the Pittsburgh North Shore central business district transit options MIS project may be used to fund any aspect of preliminary engineering, costs associated with an environmental impact statement, or a major investment study for that project.]

[SEC. 357. (a) Notwithstanding the January 4, 1977, decision of the Secretary of Transportation that approved construction of Interstate Highway 66 between the Capital Beltway and Rosslyn, Virginia, the Commonwealth of Virginia, in accordance with existing Federal and State law, shall hereafter have authority for operation, maintenance, and construction of Interstate Route 66 between Rosslyn and the Capital Beltway, except as noted in paragraph (b).

(b) The conditions in the Secretary's January 4, 1997 decision, that exclude heavy duty trucks and permit use by vehicles bound to or from Washington Dulles International Airport in the peak direction during peak hours, shall remain in effect.]

[SEC. 358. NOISE BARRIERS, GEORGIA. Notwithstanding any other provision of law, the Secretary of Transportation shall approve the use of funds apportioned under paragraphs (1) and (3) of section 104(b) of title 23, United States Code, for construction of Type II noise barriers at the locations identified in section 1215(h) and items 540 and 967 of the table contained in section 1602 of the Transportation Equity Act for the 21st Century (112 Stat. 211, 292), and at the following locations: On the east side of I-285 extending from Northlake Parkway to Chamblee Tucker Road in Dekalb County, Georgia; and on the east side of I-185 between Macon Road and Airport Thruway.]

[SEC. 359. Item 44 of the table contained in section 1602 of the Transportation Equity Act for the 21st Century (112 Stat. 258) is amended by striking "Saratoga" and inserting "North Creek".]

[SEC. 360. Funds made available for Alaska or Hawaii ferry boats or ferry terminal facilities pursuant to 49 U.S.C. 5309(m)(2)(B) may be used to construct new vessels and facilities or to improve existing vessels and facilities, including both the passenger and vehicle-related elements of such vessels and facilities, and for repair facilities.]

[SEC. 361. HIGH PRIORITY PROJECTS. (a) PROJECT AUTHORIZA-TIONS.—The table contained in section 1602 of the Transportation Equity Act for the 21st Century (112 Stat. 257-323) is amended-

(1) in item 174 by striking "5.375" and inserting "5.25";

- (2) in item 478 by striking "2.375" and inserting "2.25";
- (3) in item 948 by striking "5.375" and inserting "5.25";

(4) in item 1008 by striking "3.875" and inserting "3.75"; (5) in item 1210 by striking "6.875" and inserting "6.75";

(6) by striking item 1289 and inserting the following:

"1289. Arkansas Improve Highway 167 from Fordyce, Arkansas, to Saline County line 1.0";

(7) in item 1319 by striking "0.875" and inserting "0.75";

(8) in item 1420-

(A) by inserting "and development" after "Conduct planning"; and

(B) by striking "0.875" and inserting "0.75"; and

(9) by adding at the end the following new item:

"1851.	Arkansas	 Construction of and im-	
		provements to highway	
		projects in the corridor	
		designated by section	
		1105(c)(18)(C)(ii) of the	
		Intermodal Surface	
		Transportation Effi-	
		ciency Act of 1991	5.25

(b) HIGH PRIORITY CORRIDORS.—Section 1105(c)(18)(C)(ii) of the Intermodal Surface Transportation Efficiency Act of 1991 (112 Stat. 190) is amended by striking "in the vicinity of" and inserting "east of Wilmar, Arkansas, and west of".]

[SEC. 362. Section 3030(d)(3) of the Transportation Equity Act for the 21st Century (Public Law 105–178) is amended by adding at the end the following:

"(D) Bethlehem, Pennsylvania intermodal facility.".]

[SEC. 363. Section 3030(b) of the Transportation Equity Act for the 21st Century (112 Stat. 373–375) is amended by adding at the end the following:

"(71) Dane Čounty Corridor—East-West Madison Metropolitan Area.".]

[SEC. 364. Notwithstanding the provisions of 49 U.S.C. 5309(e)(6), funds appropriated under this Act for the Douglas Branch project may be used for any purpose except construction: *Provided*, That in evaluating the Douglas Branch project under 5309(e), the Federal Transit Administration shall use a "no-build" alternative that assumes the current Douglas Branch has been closed due to poor condition, and a "TSM" alternative which assumes the Douglas Branch has been closed due to poor condition and enhanced bus service is provided.]

ÉSEC. 365. (a) The Administrator of the Environmental Protection Agency (in this section referred to as the "Administrator") shall make a grant for the purpose of conducting a study for the following purposes:

(1) To develop and evaluate methods for calculating reductions in emissions of precursors of ground level ozone that are achieved within a geographic area as a result of reduced vehicle-miles-traveled in the geographic area.

(2) To develop a design for the following proposal for a pilot program:

(A) For the purpose of reducing such emissions, employers electing to participate in the pilot program would authorize and encourage telecommuting by their employees. Pursuant to methods developed and evaluated under paragraph (1), credits would be issued to the participating employers reflecting the amount of reductions in such emissions achieved through reduced vehicle-miles-traveled by their telecommuting employees.

(B) For purposes of compliance with the Clean Air Act, entities that are regulated under such Act with respect to such emissions would obtain the credits through a commercial trading and exchange forum (established for such purpose) and through direct trades and exchanges with participating employers and other persons who hold the credits.

(3) To determine whether, if the proposed pilot program were to be carried out, the program—

(A) could provide significant incentives for increasing the use of telecommuting, thereby reducing vehicle-miles-traveled and improving air quality; and

(B) could have positive effects on national, State, and local transportation and infrastructure policies, and on energy conservation and consumption.

(b) The Administrator shall ensure that the design developed under subsection (a)(2) includes recommendations for carrying out the proposed pilot program described in such subsection in each of the following geographic areas (which recommendations for an area shall be developed in consultation with State and local governments and business leaders and organizations in the designated areas): (1) The greater metropolitan region of the District of Columbia (including areas in the State of Maryland and the Commonwealth of Virginia). (2) The greater metropolitan region of Los Angeles, in the State of California. (3) The greater metropolitan region of Philadelphia, in the Commonwealth of Pennsylvania (including areas in the State of New Jersey). (4) Two additional areas to be selected by the grantee under subsection (a), after consultation with the Administrator (or the designee of the Administrator). (c) The grant under subsection (a) shall be made to the National Environmental Policy Institute (a nonprofit private entity incorporated under the laws of and located in the District of Columbia). The grant may not be made in an amount exceeding \$500,000.

(d) The Administrator shall make the grant under subsection (a) not later than 45 days after the date of the enactment of this Act. The Administrator shall require that, not later than 180 days after receiving the first payment under the grant, the grantee under subsection (a) complete the study under such subsection and submit to the Administrator a report describing the methods developed and evaluated under paragraph (1) of such subsection, and containing the design required in paragraph (2) of such subsection.

(e) The Administrator shall carry out this section (including subsection (b)(3)) in collaboration with the Secretary of Transportation and the Secretary of Energy.

(f) To carry out this section, \$500,000 is hereby appropriated to the Department of Transportation, "Office of the Assistant Secretary for Policy", to be transferred to and administered by the Environmental Protection Agency, to be available until expended.]

[SEC. 366. Notwithstanding the Federal Airport Act (as in effect on April 3, 1956) or sections 47125 and 47153 of title 49, United States Code, and subject to subsection (b), the Secretary of Transportation may waive any term contained in the deed of conveyance dated April 3, 1956, by which the United States conveyed lands to the City of Safford, Arizona, for use by the city for airport purposes: *Provided*, That no waiver may be made under subsection (a) if the waiver would result in the closure of an airport.]

[SEC. 367. None of the funds in this Act may be used to make a grant unless the Secretary of Transportation notifies the House and Senate Committees on Appropriations not less than three full business days before any discretionary grant award, letter of intent, or full funding grant agreement totaling \$1,000,000 or more is announced by the department or its modal administrations from: (1) any discretionary grant program of the Federal Highway Administration other than the emergency relief program; (2) the airport improvement program of the Federal Aviation Administration; or (3) any program of the Federal Transit Administration programs: *Provided*, That no notification shall involve funds that are not available for obligation.]

[SEC. 368. Funds provided in the Department of Transportation and Related Agencies Appropriations Acts for fiscal years 1998 and 1999 for an intermodal facility in Eureka, California, shall be available for the expansion and rehabilitation of a bus maintenance facility in Humboldt County, California.]

[SEC. 369. Notwithstanding any other provision of law, funds previously expended by the City of Moorhead and Moorhead Township on studies related to the 34th Street Corridor Project in Moorhead, Minnesota, shall be considered as the non-Federal match for obligation of funds available under section 1602, item 1404 of the Transportation Equity Act for the 21st Century, as amended, associated with a study of alternatives to rail relocation.]

SEC. 323. Contingent upon enactment of authorizing legislation, the Secretary of Transportation shall charge user fees for services provided by the Federal Railroad Administration in carrying out chapter 51 of title 49, U.S.C., and subtitle V, part A of title 49, U.S.C. Such sums shall be deposited as offsetting collections to the Federal Railroad Administration's "Safety and Operations" account and "Railroad Research and Development" account, respectively, to remain available until expended: Provided further, That upon enactment of such authorizing legislation, the amount appropriated from the General fund for such accounts shall be reduced by \$77,300,000 for "Safety and Operations" and \$25,500,000 for "Research and Development".

SEC. 324. Section 3037(b)(4) of the Transportation Equity Act for the 21st Century (Public Law 105–178) is amended by deleting the final word "and" of subparagraph 3037(b)(4)(A), and adding the following new subparagraph at the end: "(C) A tribal government.".

SEC. 325. Section 5338(d)(2) of title 49 U.S.C., is amended by adding at the end the following new paragraph: "(D) The Secretary may use not more than ten percent of the amounts made available under subsection (d)(2)(c)(iv) of this section to provide technical direction and documentation of research and technology projects under sections 5312 and 5314.".

SEC. 326. In addition to the authority provided in section 636 of the Treasury, Postal Service, and General Government Appropriations Act, 1997, as included in Public Law 104–208, title I, section 101(f), (INCLUDING TRANSFERS OF FUNDS)-Continued

as amended, beginning in fiscal year 2001 and thereafter, amounts appropriated for salaries and expenses for the Department of Transportation may be used to reimburse an employee whose position is that of safety inspector for not to exceed one-half the costs incurred by such employee for professional liability insurance. Any payment under this section shall be contingent upon the submission of such information or documentation as the Department may require.

SEC. 327. (a) Section 4109(b)(2) of title 15, United States Code, is amended by striking everything after "research".

(b) Section 2441 of title 16, United States Code, is amended by striking subsection (c).

(Department of Transportation and Related Agencies Appropriations Act, 2000.)

[SEC. 225. In addition to amounts otherwise made available in Public Law 106–69 (Department of Transportation and Related Agencies Appropriations Act, 2000) to carry out 49 United States Code, 5309(m)(1)(C), \$1,750,000 is made available from the Mass Transit Account of the Highway Trust Fund for Twin Cities, Minnesota metropolitan buses and bus facilities; \$750,000 is made available from the Mass Transit Account of the Highway Trust Fund for Santa

Provided further, That Public Law 105–277, 112 Stat. 2681–458, item number 243 shall be amended by inserting after the word "buses" the following: "and bus facilities".]

[SEC. 226. No funds made available in Public Law 106–69 or any other Act shall be used to decommission or otherwise reduce operations of U.S. Coast Guard WYTL harbor tug boats.]

[SEC. 227. Section 351 of Public Law 106–69 is amended by striking "provided" and inserting "appropriated or limited".]

[SEC. 228. For purposes of section 5117(b)(5) of the Transportation Equity Act for the 21st Century, for fiscal years 1998, 1999 and 2000 the cost-sharing provision of section 5001(b) shall not apply.]

[SEC. 229. Section 366 of the Department of Transportation and Related Agencies Appropriations Act, 2000 (Public Law 106-69) is amended—

(1) by striking "and subject to subsection (b),"; and

Clarita, California bus maintenance facility; \$1,000,000 is made available from the Mass Transit Account of the Highway Trust Fund for a Lincoln, Nebraska bus maintenance facility; and \$2,500,000 is made available from the Mass Transit Account of the Highway Trust Fund for Anchorage, Alaska 2001 Special Olympics Winter Games buses and bus facilities: Provided, That notwithstanding any other provision of law, \$2,000,000 of the funds available in fiscal year 2000 under section 1101(a)(9) of Public Law 105-178, as amended, for the National corridor planning and development and coordinated border infrastructure programs shall be made available for the planning and design of a highway corridor between Dothan, Alabama and Panama City, Florida: Provided further, That under "Capital Investment Grants" in Public Law 106-69, item number 66 shall be amended by striking "Colorado Association of Transit Agencies" and inserting "Colorado buses and bus facilities", item number 107 shall be amended by striking "Kansas Public Transit Association buses and bus facilities" and inserting "Kansas buses and bus facilities", the figure in item number 92 shall be amended to read "3,340,000", item number 251 shall be amended by inserting after "buses" the following: "and bus facilities", and there shall be inserted after item number 279 under "Capital Investment Grants" the following:

(2) by striking "under subsection (a)" and inserting "under this section".]

[SEC. 232. In addition to amounts provided to the Federal Railroad Administration in Public Law 106–69, for necessary expenses for engineering, design and construction activities to enable the James A. Farley Post Office in New York City to be used as a train station and commercial center, to become available on October 1 of the fiscal year specified and to remain available until expended: fiscal year 2001, \$20,000,000; fiscal year 2002, \$20,000,000; fiscal year 2003, \$20,000,000.]

(Miscellaneous Appropriations, 2000, as enacted by section 1000(a)(5) of the Consolidated Appropriations Act, 2000 (P.L. 106–113).)
