

DEPARTMENT OF DEFENSE—CIVIL

CEMETERIAL EXPENSES, ARMY

Federal Funds

General and special funds:

SALARIES AND EXPENSES

For necessary expenses, as authorized by law, for maintenance, operation, and improvement of Arlington National Cemetery and Soldiers' and Airmen's Home National Cemetery, and not to exceed \$1,000 for official reception and representation expenses: \$11,600,000 to remain available until expended.

Note.—A regular 1996 appropriation for this account had not been enacted at the time this budget was prepared. The 1996 amounts included in this budget are based on the levels provided in three continuing resolutions: P.L. 104-91, P.L. 104-92, and P.L. 104-99.

GENERAL INVESTIGATIONS

For expenses necessary for the collection and study of basic information pertaining to river and harbor, flood control, shore protection, and related projects, restudy of authorized projects, miscellaneous investigations, and, when authorized by laws, surveys and detailed studies and plans and specifications of projects prior to construction, **[\$121,767,000] \$142,500,000**, to remain available until expended, of which funds are provided for the following projects in the amounts specified:

- Norco Bluffs, California, \$375,000;
- Ohio River Greenway, Indiana, \$500,000;
- Kentucky Lock and Dam, Kentucky, \$2,000,000;
- Mussers Dam, Middle Creek, Snyder County, Pennsylvania, \$300,000; and
- West Virginia Port Development, West Virginia, \$300,000:

Provided, That the Secretary of the Army, acting through the Chief of Engineers, is directed to undertake a study of water supply and associated needs in the vicinity of Hazard, Kentucky, using \$500,000 of the funds appropriated under this heading in Public Law 103-316 for Hazard, Kentucky. (*Energy and Water Development Appropriations Act, 1996.*)

Funds are requested to continue surveys, preconstruction engineering and design, data collection, interagency coordination and research activities to determine the need, engineer-

ing feasibility, economic justification, and the environmental and social suitability of solutions to water and related land resource problems.

Funds are requested for several new flood damage reduction studies. Projects starting preconstruction engineering and design (PED) in FY 1997 are included on the basis that non-federal sponsors will be required to provide up-front financing for 25 percent of PED costs. Funds are also requested for planning assistance to States and floodplain management services.

CONSTRUCTION, GENERAL, FULL COST OF FIXED ASSETS

(In millions of dollars)

Estimated Total Remaining Federal Cost of Ongoing Construction Projects	15,400
Estimated Total Federal Cost of Proposed 1997 Construction New Starts	360

The above table estimates the total remaining Federal costs of on-going and new start projects for the Army Corps of Engineers. The table is provided to inform the Congress and

the public of the Federal funding necessary to complete the projects included in the President's budget.

CONSTRUCTION, GENERAL

For the prosecution of river and harbor, flood control, shore protection, and related projects authorized by laws; and detailed studies, and plans and specifications, of projects (including those for development with participation or under consideration for participation by States, local governments, or private groups) authorized or made eligible for selection by law (but such studies shall not constitute a commitment of the Government to construction), **[\$804,573,000]** \$914,000,000, to remain available until expended, of which such sums as are necessary pursuant to Public Law 99-662 shall be derived from the Inland Waterways Trust Fund, for one-half of the costs of construction and rehabilitation of inland waterways projects, including *construction costs for Montgomery Point Lock and Dam, Arkansas, and rehabilitation costs for the Lock and Dam 25, Mississippi River, Illinois and Missouri, Lock and Dam 14, Mississippi River, Iowa, and Lock and Dam 24, Mississippi River, Illinois and Missouri, [and GWW-Brazos River Floodgates, Texas,]* projects, and of which **[funds are provided for the following projects in the amounts specified:**

- Homer Spit, Alaska, repair and extend project, \$3,800,000;
- McClellan-Kerr Arkansas River Navigation System, Arkansas, \$6,000,000: *Provided*, That \$4,900,000 of such amount shall be used for activities relating to Montgomery Point Lock and Dam, Arkansas;
- Red River Emergency Bank Protection, Arkansas and Louisiana, \$6,600,000;
- Sacramento River Flood Control Project (Glenn-Colusa Irrigation District), California, \$300,000;
- San Timoteo Creek (Santa Ana River Mainstem), California, \$5,000,000;
- Indiana Shoreline Erosion, Indiana, \$1,500,000;
- Arkansas City flood control project, Kansas, \$700,000, except that for the purposes of the project, section 902 of Public Law 99-662 is waived;
- Winfield, Kansas, \$670,000;
- Harlan (Levisa and Tug Forks of the Big Sandy River and Upper Cumberland River), Kentucky, \$12,000,000;
- Williamsburg (Levisa and Tug Forks of the Big Sandy River and Upper Cumberland River), Kentucky, \$4,100,000;
- Middlesboro (Levisa and Tug Forks of the Big Sandy River and Upper Cumberland River), Kentucky, \$1,600,000;
- Salyersville, Kentucky, \$500,000;
- Lake Pontchartrain and Vicinity (Hurricane Protection), Louisiana, \$13,348,000;
- Ouachita River Levees, Louisiana, \$2,300,000;
- Red River below Denison Dam Levee and Bank Stabilization, Louisiana, Arkansas, and Texas, \$2,500,000;
- Roughans Point, Massachusetts, \$710,000;
- Marshall, Minnesota, \$850,000;
- St. Genevieve, Missouri, \$1,000,000;
- Broad Top Region, Pennsylvania, \$4,100,000;
- Glen Foerd, Pennsylvania, \$200,000;
- South Central Pennsylvania Environmental Restoration, Pennsylvania, \$3,500,000;
- Wallisville Lake, Texas, \$5,000,000;
- Virginia Beach Erosion Control and Hurricane Protection, Virginia, \$1,100,000;
- Hatfield Bottom (Levisa and Tug Forks of the Big Sandy River and Upper Cumberland River), West Virginia, \$200,000; and
- Upper Mingo (Levisa and Tug Forks of the Big Sandy River and Upper Cumberland River), West Virginia, \$2,000,000: *Provided*, That the Secretary of the Army, acting through the Chief of Engineers, shall transfer \$1,120,000 of the Construction, General funds appropriated in this Act to the Secretary of the Interior and the Secretary of the Interior shall accept and expend such funds for performing operation and maintenance activities at the Columbia River Fishing Access Sites to be constructed by the Department of the Army at Cascade Locks, Oregon; Lone Pine, Oregon; Underwood, Washington; and the Bonneville Treaty Fishing Access Site, Washington:

Provided further, That using funds appropriated in Public Law 103-316 for the Sacramento River Flood Control Project (Deficiency Correction), California, project and funds appropriated herein for the Sacramento Urban Area Levee Reconstruction, California, project, the Secretary of the Army, acting through the Chief of Engineers, is

directed to acquire all or part of the Little Holland Tract, with any and all appurtenant water rights, for wetland and fish and wildlife activities pursuant to the authority of section 906 of Public Law 99-662 and conditioned on a determination made by the Secretary, pursuant to section 906, that acquisition is in the Federal interest. **] such sums as are necessary pursuant to Public Law 99-662 shall be derived from the Harbor Maintenance Trust Fund for the Federal share of construction costs for the Poplar Island Restoration Project, Maryland. (Energy and Water Development Appropriations Act, 1996.)**

Funds are requested for construction, rehabilitation and related activity for water resources development projects having navigation, flood control, water supply, hydroelectric, and other attendant benefits to the Nation. The major rehabilitation projects for inland and coastal waterways will derive one-half of the funding from the Inland Waterway Trust Fund.

Funding is included for new construction work under proposed legislation for flood damage reduction and under current law, as applicable for other new construction work.

Funding is included to mitigate environmental losses caused by the construction of two completed projects. Funding is also included for the restoration of the Kissimmee River in Florida. The budget also includes continued funding for juvenile fish mitigation in the Columbia River Basin including funding of passage facilities at six Corps of Engineers hydroelectric dams on the mainstem Columbia and Snake Rivers and funding to support Corps activities in response to the determination that certain Snake River Salmon species are threatened and endangered. Funding is also proposed for wetland and other aquatic habitat creation, including the Poplar Island Restoration, Maryland, project, under authority of section 204 of the Water Resources Development Act of 1992 and for environmental restoration at completed projects under the authority of section 1135 of the Water Resources Development Act of 1986, as amended. Under Public Law 101-512, the Department of the Interior's National Park Service will transfer funds to the Corps of Engineers for work it accomplishes under authority of the Everglades National Park Protection and Expansion Act. The Administration will propose

legislation for the Poplar Island Restoration project that would exempt the project from the Section 204 appropriations cap.

Funding is provided for the Continuing Authorities Program (projects which do not require specific legislation) which includes flood control (Section 205) projects, emergency streambank and shoreline protection (Section 14) projects, beach erosion control (Section 103) projects, mitigation of shore damages (Section 111) projects, navigation (Section 107) projects, and snagging and clearing (Section 208) projects.

¹ This amount is to be reimbursed to this account upon enactment of emergency supplemental appropriations for the Flood Control and Coastal Emergencies account.

OPERATION AND MAINTENANCE, GENERAL

For expenses necessary for the preservation, operation, maintenance, and care of existing river and harbor, flood control, and related works, including such sums as may be necessary for the maintenance

of harbor channels provided by a State, municipality or other public agency, outside of harbor lines, and serving essential needs of general commerce and navigation; surveys and charting of northern and northwestern lakes and connecting waters; clearing and straightening channels; and removal of obstructions to navigation, **[\$1,703,697,000]** \$1,663,000,000, to remain available until expended, of which such sums as become available in the Harbor Maintenance Trust Fund, pursuant to Public Law 99-662, may be derived from that fund, and of which such sums as become available from the special account established by the Land and Water Conservation Act of 1965, as amended (16 U.S.C. 460l), may be derived from that fund for construction, operation, and maintenance of outdoor recreation facilities: *Provided*, That not to exceed \$5,000,000 shall be available for obligation for national emergency preparedness programs: *Provided further*, That \$5,926,000 of the funds appropriated herein are provided for the Raystown Lake, Pennsylvania, project: *Provided further*, That the Secretary of the Army is directed during fiscal year 1996 to maintain a minimum conservation pool level of 475.5 at Wister Lake in Oklahoma]. (*Energy and Water Development Appropriations Act, 1996.*)

90.00	Outlays	1,213	1,194

Funds are requested for operation, maintenance, and related activities of the Corps of Engineers at the navigation, flood control and multiple purpose projects for which it is responsible. Work to be accomplished consists of dredging, repair, and operation of structures and other facilities, including recreation facilities, all as authorized in the various Rivers and Harbors and Flood Control Acts. Related activities include aquatic plant control, monitoring of completed coastal projects, removal of sunken vessels, and the collection of domestic waterborne commerce statistics. This request also includes funds for National Emergency Preparedness as directed in Executive Order 11490. Funds to be derived from the Harbor Maintenance Trust Fund (HMTF) will be applied to cover up to 100 percent of eligible harbor maintenance costs in accordance with Public Law 99-662, plus up to \$1 million for payment of all expenses of administration incurred by the Army Corps of Engineers related to HMTF consistent with section 683 of Public Law 103-182, the North American Free Trade Agreement.

This appropriation provides for salaries and related costs to administer laws pertaining to regulation of activities affecting navigable waters and wetlands, in accordance with the Rivers and Harbors Act of 1899, the Clean Water Act of 1977, and the Marine Protection, Research and Sanctuaries Act of 1972.

The proposed 1997 program builds on the President's 1993 Wetlands Plan. The program includes a comprehensive package of improvements to the Federal wetlands program, including adoption of: (a) an administrative appeals process for Corps permit decisions and wetland determinations, (b) an intensive effort to increase state responsibility for wetlands regulation, (c) continuation of special studies and other efforts focusing on wetlands, including the Wetlands Certification Program to train and certify individuals to delineate wetlands, and (d) maintenance of an effective enforcement program at the FY 1996 level of effort.

90.00 Outlays	71	82	41

This activity provides for preparedness activities for all natural and technological disasters, flood fighting and rescue operations, and repair of flood control and Federal hurricane or shore protection works. It also provides for emergency supplies of clean water where the source has been contaminated and, in drought distressed areas, adequate supplies of water for human and livestock consumption. A transfer of \$55,500,000 from other accounts was approved by the Secretary of the Army, under the authority of Public Law 84-99, to fund emergency repair and rehabilitation work in FY 1996. The Administration is proposing an emergency supplemental appropriation to replenish the emergency fund and repay the accounts from which the funds were transferred.

Executive direction and management.—The Office, Chief of Engineers, and 11 division offices supervise work in 36 district offices.

Engineering Strategic Studies Center.—This center provides analytical support for the civil works mission by conducting interdisciplinary studies of engineering management functions.

Coastal Engineering Research Board.—The Board provides policy guidance, reviews and plans requirements for conducting coastal engineering research and development, and recommends research project priorities.

Humphreys Engineer Center Support Activity.—This support center provides administrative services for the Office, Chief of Engineers and other separate field operating activities to include personnel, logistics, and finance and accounting.

Water Resources Support Center.—This support center performs studies and analyses for meeting national objectives. It develops planning techniques for comprehensive management and development of the Nation's water resources.

The Army Corps of Engineers has two major restructuring initiatives to be implemented in FY 1997: (1) fully implement the Division Office Organizational Task Force Report, approved in March 1995; and (2) reduce the number of division offices, as directed by Public Law 104-46. These initiatives, together with the Federal workforce reductions through FY 1999, will reduce executive direction and management staffing by 19 percent from the FY 1995 level and 32 percent from the FY 1989 level.

Funds are requested for planning, construction, and operation and maintenance activities associated with the Mississippi River and Tributaries water resources development project located in the Lower Mississippi Valley from Cape Girardeau, Missouri, to the Gulf of Mexico.

No funding is requested for new reconnaissance studies. Funding is included for one new start construction project under proposed legislation for flood damage reduction.

Funds are also requested to continue the Yazoo Basin Study reformulation report, which will identify alternative plans for achieving greater levels of environmental and urban-flood protection.

Hydraulic mining in California, debris fund.—Fees paid by mine operators in the Sacramento and San Joaquin river basins for depositing mine debris in restraining works are used for maintaining the works (33 U.S.C. 683).

Maintenance and operation of dams and other improvements of navigable waters.—License fees are levied by the Department of Energy for private construction, operation and maintenance of dams, conduits, and reservoirs. Half of the fees collected are used for maintenance and operation of Federal dams and other navigation structures, and for improvement of navigable waters (16 U.S.C. 810(a)). License fees are also levied by the Department of Energy for benefits accruing directly as the result of headwater improvements by Federal

projects. One hundred percent of these fees collected are used for maintenance and operation of Federal dams and other navigation structures, and for improvement of navigable waters (16 U.S.C. 803(e)).

Payments to States.—Three-fourths of the money received from lease of Federal lands acquired for flood control, navigation, and allied purposes is paid to the State in which such property is situated for public schools, roads, or other expenses of county government (33 U.S.C. 701c-3).

The Inland Waterways Trust Fund was established in accordance with the Inland Waterways Revenue Act of 1978, Public Law 95-502, and amended by the Water Resources Development Act of 1986, Public Law 99-662. Revenue is derived from taxes imposed on fuel in vessels engaged in commercial waterway transportation and is used for one half of the construction and rehabilitation costs of specified inland waterway projects. See "Construction, General" for appropriations language.

The Harbor Maintenance Trust Fund is established in accordance with the Harbor Maintenance Revenue Act of 1986 (Public Law 99-662, Title XIV, as amended). Under law, revenue is derived from receipts from a 0.125 percent *ad valorem* user fee imposed upon commercial users of specified U.S. ports.

The Harbor Maintenance Revenue Act also authorized expenditures from the Trust Fund to finance up to 100 percent of Corps of Engineers' harbor operation and maintenance (O&M) costs, including O&M costs associated with Great Lakes navigational projects, and fully finance the operation and maintenance of the Saint Lawrence Seaway Development Corporation.

The North American Free Trade Agreement Implementation Act, Sec. 683 (Public Law 103-182), authorized payment of administrative expenses incurred by the Department of the Treasury, the Army Corps of Engineers, and the Department of Commerce related to administration of the harbor maintenance fee, but not to exceed \$5,000,000 for any fiscal year. The Corps of Engineers has budgeted \$1,000,000 for anticipated expenses associated with administration of the harbor maintenance fee.

The Administration will propose legislation to expand the allowable uses for Harbor Maintenance Trust Fund revenues. These uses would be in association with dredging of Federal navigation projects for commercial navigation.

A summary judgment issued October 25, 1995, by the United States Court of International Trade in the case United States Shoe Corp. v. United States (Court No. 94-11-00668), found the Harbor Maintenance fee unconstitutional under the Export Clause of the Constitution (Article I, section 9, clause 5), and enjoined the Customs Service from collecting the tax. However, a motion to stay the execution of the judgment pending appeal was granted. Until a decision is rendered in the appellate process, the fee collections and expenditures from the Trust Fund will continue as usual.

For appropriation language, see the following accounts: Army Corps of Engineers, Civil "Operation and Maintenance, General"; "Construction, General"; St. Lawrence Seaway Development Corporation "Operations and Maintenance"; Department of Transportation "Rental Payments" and Department of the Treasury "Administration of Harbor Maintenance Trust Fund".

In 1990, the Coastal Wetlands Planning, Protection and Restoration Act (Public Law 101-646) authorized transfer of 18 percent of each annual appropriation from the Sport Fish Restoration Account for coastal wetlands activities; 70 percent of this amount is allocated to the Corps of Engineers for use by the Louisiana Coastal Wetlands Conservation and Res-

toration Task Force, chaired by the Secretary of the Army, to provide for the long-term conservation, protection, and restoration of coastal wetlands in the State of Louisiana. The Coastal Wetlands Restoration Trust Fund is established to receive these funds and finance the appropriate activities.

Title VII of the Oil Pollution Act of 1990 authorizes use of the Oil Spill Liability Trust Fund to perform oil pollution research. The focus of the Army Corps of Engineers effort is on the development of advanced displays, maps, and data management systems utilizing satellite and/or aircraft imaging data. These management tools will be "near real-time", accurate, and focused for the on-scene spill coordinator's use for optimal allocation of resources and timely response to the specific oil spill situation.

ADMINISTRATIVE PROVISIONS

Appropriations in this title shall be available for official reception and representation expenses (not to exceed \$5,000); and during the

ADMINISTRATIVE PROVISIONS—Continued

current fiscal year the revolving fund, Corps of Engineers, shall be available for purchase (not to exceed 100 for replacement only) and hire of passenger motor vehicles. (*Energy and Water Development Appropriations Act, 1996.*)

GENERAL PROVISIONS

[SEC. 101. (a) In fiscal year 1996, the Secretary of the Army shall advertise for competitive bid at least 7,500,000 cubic yards of the hopper dredge volume accomplished with government owned dredges in fiscal year 1992.

(b) Notwithstanding the provisions of this section, the Secretary is authorized to use the dredge fleet of the Corps of Engineers to undertake projects when industry does not perform as required by the contract specifications or when the bids are more than 25 percent in excess of what the Secretary determines to be a fair and reasonable estimated cost of a well equipped contractor doing the work or to respond to emergency requirements.

(c) None of the funds appropriated herein or otherwise made available to the Army Corps of Engineers, including amounts contained in the Revolving Fund of the Army Corps of Engineers, may be used to study, design or undertake improvements or major repair of the Federal vessel, McFARLAND, except for normal maintenance and repair necessary to maintain the vessel McFARLAND's current operational condition.

(d) If any of the four Corps of Engineers hopper dredges is removed from normal service for repair or rehabilitation and such repair prevents the dredge from accomplishing its volume of work regularly carried out in each of the past three years, the Secretary shall not significantly alter the operating schedules of the remaining Federal hopper dredges established in accordance with the requirements of subsection (a) above.]

[SEC. 102. (a) SAND AND STONE CAP IN NAVIGATION PROJECT AT MANISTIQUE HARBOR, MICHIGAN.—The project for navigation, Manistique Harbor, Schoolcraft County, Michigan, authorized by the first section of the Act entitled "An Act making appropriations for the construction, repair, and preservation of certain public works on rivers and harbors, and for other purposes", approved March 3, 1905 (33 Stat. 1136), is modified to permit installation of a sand and stone cap over sediments affected by polychlorinated biphenyls in accordance with an administrative order of the Environmental Protection Agency.

(b) PROJECT DEPTH.—The project described in subsection (a) is modified to provide for an authorized depth of 12.5 feet.

(c) NAVIGATION CHANNEL (MODIFIED).—The reauthorized project navigation channel shall be defined by the following coordinates: 2911N-2239E, 3240N-2504E, 3964N-2874E, 4182N-2891E, 4469N-2808E, 4692N-2720E, 4879N-2615E, 4952N-2778E, 4438N-2980E, 4227N-3097E, 3720N-3068E, 3076N-2798E, 2996N-2706E, 2783N-2450E.

(d) HARBOR OF REFUGE.—The project described in subsection (a), including the breakwalls, pier and authorized depth of the project (as modified by subsection (b)), shall continue to be maintained as a harbor of refuge.]

[SEC. 103. With the exception of the use of funds to process any required Department of the Army permits, none of the funds appropriated herein or otherwise available to the Army Corps of Engineers may be used to assist, guide, coordinate, administer, prepare for occupancy of, or acquire furnishings for or in preparation of a movement to the Southeast Federal Center.]

[SEC. 104. The project for flood control for Petersburg, West Virginia, authorized by section 101(a)(26) of the Water Resources Development Act of 1990 (Public Law 101-640, 104 Stat. 4611) is modified to authorize the Secretary of the Army to construct the project at a total cost not to exceed \$26,600,000, with an estimated first Federal cost of \$19,195,000 and an estimated first non-Federal cost of \$7,405,000.]

[SEC. 105. (a) The Secretary of the Army is authorized to accept from a non-Federal sponsor an amount of additional lands not to exceed 300 acres which are contiguous to the Cooper Lake and Channels Project, Texas, authorized by the River and Harbor Act of 1965 and the Water Resources Development Act of 1986, and which provide habitat value at least equal to that provided by the lands authorized to be redesignated in subsection (b).

(b) Upon the completion of subsection (a), the Secretary is further authorized to redesignate an amount of mitigation land not to exceed 300 acres to recreation purposes.

(c) The cost of all work to be undertaken pursuant to this section, including but not limited to real estate appraisals, cultural and environmental surveys, and all development necessary to avoid net mitigation losses, to the extent such actions are required, shall be borne by the donating sponsor.]

[SEC. 106. Using \$2,000,000 of the funds appropriated herein, the Secretary of the Army, acting through the Chief of Engineers, is authorized to undertake the Indianapolis, Indiana, project, authorized in section 5 of Public Law 74-738, as amended, and as modified to include certain riverfront alterations as described in the Central Indianapolis Waterfront Concept Master Plan, dated February, 1994, at a total cost of \$65,975,000 with an estimated first Federal cost of \$39,975,000 and an estimated first non-Federal cost of \$26,000,000.]

[SEC. 107. SOUTH CENTRAL PENNSYLVANIA.

(a) IN GENERAL.—Section 313 of the Water Resources Development Act of 1992 (106 Stat. 4845-4847) is amended—

(1) in the heading to subsection (c) by striking "With SARCD COUNCIL";

(2) in subsection (c) by inserting "with State, regional, and local officials, including, where applicable," after "consult";

(3) in subsection (d)(2)(A) by inserting " , where applicable," after "Council";

(4) in subsection (g)(1) by striking "\$17,000,000" and inserting "\$50,000,000"; and

(5) in subsection (h)(2) by striking "Bedford, Blair, Cambria, Fulton, Huntingdon, and Somerset" and inserting "Armstrong, Bedford, Blair, Cambria, Clearfield, Fayette, Franklin, Fulton, Huntingdon, Indiana, Juniata, Mifflin, Somerset, Snyder, and Westmoreland".

(b) COST SHARING.—Section 313(d)(3) of the Water Resources Development Act of 1992 (106 Stat. 4846) is amended to read as follows:

"(3) COST SHARING.—

"(A) IN GENERAL.—Total project costs under each local cooperation agreement entered into under this subsection shall be shared at 75 percent Federal and 25 percent non-Federal. The non-Federal interest shall receive credit for the reasonable costs of design work completed by such interest prior to entering into a local cooperation agreement with the Secretary for a project. The Federal share may in the form of grants or reimbursements of project costs.

"(B) INTEREST.—In the event of delays in reimbursement of the non-Federal share of a project, the non-Federal interest shall receive credit for reasonable interest to provide the non-Federal share of a project's cost.

"(C) LANDS, EASEMENTS, AND RIGHTS-OF-WAY CREDIT.—The non-Federal interest shall receive credit for lands, easements, rights-of-way, and relocations toward its share of project costs, including direct costs associated with obtaining permits necessary for the placement of such project on public owned or controlled lands, but not to exceed 25 percent of total project costs.

"(D) OPERATION AND MAINTENANCE CREDIT.—Operation and maintenance costs for projects constructed with assistance provided under this section shall be 100 percent non-Federal.".]

[SEC. 108. Using \$2,000,000 of the funds appropriated herein, the Secretary of the Army, acting through the Chief of Engineers, is authorized and directed to proceed with engineering, design, and construction of projects to provide for flood control and improvements to rainfall drainage systems in Jefferson, Orleans, and St. Tammany Parishes, Louisiana, in accordance with the following reports of the New Orleans District Engineer: Jefferson and Orleans Parishes, Louisiana, Urban Flood Control and Water Quality Management, July 1992; Tangipahoa, Techefuncte and Tickfaw Rivers, Louisiana, June 1991; and Schneider Canal, Slidell, Louisiana, Hurricane Protection, May 1990. There is authorized to be appropriated \$25,000,000 for the initiation and partial accomplishment of projects described in these reports. The cost of any work performed by the non-Federal interests subsequent to the above cited reports, as determined by the Secretary of the Army to be a compatible and integral part of the projects, shall be credited toward the non-Federal share of the projects.]

[SEC. 109. (a) IN GENERAL.—Subject to the provisions of this section, the Secretary of the Army shall convey to the City of Prestonsburg, Kentucky, all right, title, and interest of the United States, in and to the land described in the Supplemental Agreement—

Modification No. 2 to the Department of the Army lease #DACW69-1-76-0186, executed by and between the Department of the Army and the Commonwealth of Kentucky, together with any improvements thereon.

(b) CONDITIONS.—The conveyance authorized by this section is subject to the following conditions:

(1) The City shall ensure that the land conveyed by this section will be used for public use recreational purposes and to further the regional economic development.

(2) The City shall use all proceeds derived from the sale or lease of any mineral rights conveyed pursuant to this section for the development, operation, and maintenance of recreational facilities on the lands conveyed in accordance with this section.

(3) The City shall accept the property in its condition at the time of the conveyance. The Secretary shall not be required to make any improvements in the property's condition, and the City shall hold and save the United States free from any claims or damages arising from any activities on the conveyed land either on the date of the conveyance or any subsequent date.

(4) If the City uses the land conveyed under this section for any purpose other than those specified in this paragraph, the Secretary shall notify the City of such failure. If the City does not correct such nonconforming use during the 1-year period beginning on the date of such notification, the Secretary shall have a right of reverter to reclaim possession and title to the land conveyed under this section.]

[SEC. 110. Using funds appropriated herein the Secretary of the Army, acting through the Chief of Engineers, is authorized to undertake the Coos Bay, Oregon project in accordance with the Report of the Chief of Engineers, dated June 30, 1994, at a total cost of \$14,541,000, with an estimated Federal cost of \$10,777,000 and an estimated non-Federal cost of \$3,764,000.] (*Energy and Water Development Appropriations Act, 1996.*)

The 1997 payment to the military retirement fund includes funds for the amortization of the unfunded liability for all retirement benefits earned by military personnel for service prior to 1985. The amortization schedule for the unfunded liability is determined by the Department of Defense Retirement Board of Actuaries. Included in the unfunded liability are the consolidated requirements of the military departments to cover retired officers and enlisted personnel of the Army, Navy, Marine Corps, and Air Force, retainer pay of enlisted personnel of the Fleet Reserve of the Navy and Marine Corps, and survivors benefits.

Public Law 98-94 provided for accrual funding of the military retirement system and for the establishment of a Department of Defense Military Retirement Fund in 1985. The fund is financed through Federal contributions for retired pay and retirement pay of military personnel on the retired lists of the Army, Navy, Marine Corps, and Air Force, including the reserve components thereof, and retainer pay for personnel of the Inactive Fleet Reserve, Government contributions consisting of a normal cost accrual percentage applied to basic pay amounts contained in the military personnel appropriations, and interest on investments.

The status of the fund is as follows:

The 1985 Defense Authorization Bill, Public Law 98-525, provided for the accrual funding of certain education benefits to be provided to active duty military personnel under the authority of Chapter 30, Title 38 U.S.C., and to Selected Reserve personnel under the authority of Chapter 1606, Title 10 U.S.C. Public Law 100-48 made this program permanent. The fund is financed through actuarially-determined Government contributions from the Department of Defense military personnel appropriations and interest on investments. Funds are transferred to the Department of Veterans Affairs to make benefit payments to eligible personnel. The status of the fund is as follows:

ARMED FORCES RETIREMENT HOME

Trust Funds

ARMED FORCES RETIREMENT HOME

For expenses necessary for the Armed Forces Retirement Home to operate and maintain the United States Soldiers' and Airmen's Home and the United States Naval Home, to be paid from funds available in the Armed Forces Retirement Home Trust Fund, \$55,772,000, of which \$432,000 shall remain available until expended for the construction and renovation of the physical plants at such Homes: Provided, That this appropriation shall not be available for the payment of hospitalization of members of the Soldiers' and Airmen's Homes in United States Army hospitals at rates in excess of those prescribed by the Secretary of the Army upon recommendation of the Board of Commissioners and the Surgeon General of the Army.

Note.—A regular 1996 appropriation for this account had not been enacted at the time this budget was prepared. The 1996 amounts included in this budget are based on the levels provided in three continuing resolutions: P.L. 104-91, P.L. 104-92, and P.L. 104-99.

The 1991 Defense Authorization Act, Public Law 101-510, created an Armed Forces Retirement Home Trust Fund to finance the United States Soldiers' and Airmen's Home and the United States Naval Home. The homes, which are currently in operation, are financed by appropriations drawn from the trust fund. The homes are administered by directors appointed by the Secretary of Defense with oversight provided by the Armed Forces Retirement Home Board.

The Armed Forces Retirement Home provides medical and domiciliary care and other authorized benefits for the relief and support of certain retired military personnel of the Armed Forces.

The average number of members receiving domiciliary and hospital care are shown below:

	1995 actual	1996 est.	1997 est.
Domiciliary care	1,782	2,045	2,045
Hospital care	406	255	255
Total members	2,188	2,300	2,300

These appropriations provide for development and conservation of fish and wildlife and recreational facilities on military installations. Proceeds from the sale of fishing and hunting permits are used for these programs on the 51 Army, 20 Navy and Marine Corps, and 32 Air Force bases charging such user fees. These programs are carried out through cooperative plans agreed upon by the local representatives of the Secretary of Defense, the Secretary of the Interior, and the appropriate agency of the State in which the installation is located.
