This program provides grants to States, units of local government, Indian tribal governments, and other public and private entities to increase police presence, to expand cooperation between law enforcement agencies and members of the community, and to enhance public safety. The grants may be used for hiring new officers, rehiring officers laid off as a result of State and local budget cuts, procuring equipment and technology, and funding additional grant projects. Funding also supports training and technical assistance, evaluation and other studies in furtherance of these projects. The maxi-

mum Federal share per officer is \$75,000 for a three-year grant, and may not exceed 75 percent of the total project cost, unless a waiver is granted for severe fiscal distress. The funds requested will also provide resources for: the Police Recruitment Program, to recruit and retain applicants to police departments; the Police Corps Program, to increase the number of police with advanced education and training; and the Law Enforcement Scholarship Program, to provide scholarship grants to in-service law enforcement personnel and employment to students interested in undertaking a career in law enforcement.

The Federal Government is represented in each of the 94 judicial districts by a U.S. Marshal. The primary mission of the U.S. Marshals Service is responsibility for the protection of the Federal judiciary, protection of witnesses, execution of warrants and court orders, management of seized assets, and custody and transportation of unsentenced pris-

oners. It is the principal support force in the Federal judicial system and an integral part of the Federal law enforcement community.

**Reimbursable program.**—Federal funds in 1997 are derived primarily from the U.S. Air Force for the Intercontinental Ballistic Missile Program for transportation security services provided by the U.S. Marshals Service, as well as the Bureau of Prisons for the transportation of sentenced prisoners, the Department of State for security details at the United Nations, the Organized Crime Drug Enforcement appropriation for drug law enforcement and the Office of National Drug Control Policy for security services. Non-Federal funds are derived from State and local governments for witness protection and for the transportation of prisoners pursuant to State writs and from fees collected from service of civil process and sales associated with judicial orders.

This appropriation is used to pay fees and expenses to witnesses who appear on behalf of the Government in litigation in which the United States is a party. Factors over which

the Department of Justice has little control affect the costs incurred. The U.S. Attorneys, the U.S. Marshals, and the Department's six litigating divisions are served by this appropriation.

*Fees and expenses of witnesses.*—Pays the fees and expenses associated with the preparation and presentation of testimony on behalf of the United States for fact witnesses, who testify as to events or facts about which they have personal knowledge, and for expert witnesses, who provide technical or scientific testimony. This program also pays the fees of physicians and psychiatrists who examine accused persons upon order of the court to determine their mental competency.

*Protection of witnesses.*—Pays subsistence costs to ensure the safety of Government witnesses whose testimony on behalf of the United States places them or their families in jeopardy.

*Victim compensation fund.*—Pays restitution to any victim of a crime committed by a protected witness who causes or threatens death or serious bodily injury.

*Private counsel.*—Pays private counsel retained to represent Government employees who are sued for actions taken while performing their official duties.

*Superior Court Informant Protection.*—Pays for the short term protection and temporary relocation of informants for the District of Columbia Superior Court.

*Alternative Dispute Resolution.*—Pays for problem-solving and conflict management techniques including mediation, early neutral evaluation, arbitration and mini-trials.

*Reimbursable program.*—Receives reimbursement from States and localities to cover the costs of maintaining those State and local organized crime witnesses and their families who have been accepted into the witness protection program.

The Bankruptcy Judges, U.S. Trustees and Family Farmer Bankruptcy Act of 1986 (Public Law 99-554) expanded the pilot trustee program to a twenty-one region, nationwide program encompassing 88 judicial districts. The program is funded wholly by fees assessed against debtors and does not require any monies from the general fund of the Federal Government.

The Comprehensive Crime Control Act of 1984 established the Assets Forfeiture Fund, into which forfeited cash and the proceeds of sales of forfeited property are deposited. Authorities of the fund have been amended by various public laws enacted since 1984. Under current law, authority to use the fund for certain investigative expenses shall be specified in annual appropriation acts. Expenses necessary to seize, detain, inventory, safeguard, maintain, advertise or sell property under seizure are funded through a permanent, indefinite appropriation. In addition, beginning in 1993, other general expenses of managing and operating the asset forfeiture program are paid from the permanent, indefinite portion of the fund. Once all expenses are covered, and statutorily mandated transfers are accomplished, the balance is maintained to meet ongoing expenses of the program. Excess unobligated balances may also be allocated by the Attorney General in accordance with 28 U.S.C. 524(c)(9)(E).

The Interagency Crime and Drug Enforcement Task Force (ICDE) Program consists of 13 regional task forces which

consolidate the resources and expertise of 11 member Federal agencies, in cooperation with State and local investigators and prosecutors, to target and destroy major narcotic trafficking and money-laundering organizations. The task forces perform the following activities:

1. *Law Enforcement.*—This activity includes the resources for direct investigative and support activities of the task forces, focusing on the disruption of drug trafficking controlled by various organized crime enterprises. Organizations participating under the law enforcement function of the ICDE Program are the Drug Enforcement Administration, Federal Bureau of Investigation, U.S. Customs Service, Internal Revenue Service, Bureau of Alcohol, Tobacco and Firearms, U.S. Coast Guard, U.S. Marshals Service, and the Immigration and Naturalization Service.

2. *Drug Intelligence.*—This activity includes the resources to establish Regional Drug Intelligence Squads (RDIS) in ICDE Core Cities. The squads gather and disseminate raw data for strategic, operational and tactical intelligence purposes and provide regional intelligence linkage to the National Drug Intelligence Center (NDIC) and member agencies' headquarters.

3. *Prosecution.*—This activity includes the resources for the prosecution of cases generated through the investigative efforts of task force agents. Litigation efforts are targeted selectively on the criminal leadership involved in drug trafficking and are intended to dissolve organized illicit enterprises. This includes activities designed to secure the seizure and forfeiture of the assets of these enterprises. Participating agencies are the U.S. Attorneys, Criminal Division and Tax Division.

4. *Administrative Support.*—This activity includes the resources for a Washington-based administrative staff in the Criminal Division which provides policy guidance, central coordination, and administrative support to the headquarters of the 11 member Federal agencies and the 13 regional task forces. The administrative staff is also responsible for financial management, records management, and maintenance of the ICDE case management system.

Pursuant to the provisions of the Anti-Drug Abuse Act of 1988, a single appropriation for expenses relating to all Federal agencies participating in the ICDE Program was established in 1990.

The planned distribution of obligations for fiscal years 1996 and 1997 among the participating Federal agencies, as well as the actual distribution for fiscal year 1995, is as follows:

The overall objectives of the FBI are to uphold the law—to investigate violations of Federal criminal law, to protect the United States from foreign hostile intelligence efforts, to provide leadership and assistance to other Federal, State, local, and international law enforcement agencies, and to perform these responsibilities in a manner that is faithful to the Constitution and the laws of the United States.

These objectives result in the FBI being actively involved in a wide range of investigations, including traditional law enforcement investigations (bank robbery, kidnaping, fugitive, bank embezzlement, etc.), investigations involving more modern phenomena (organized crime, white-collar crime, drug investigations, gang violence, health care fraud, environmental crimes, civil rights violations, antitrust violations, etc.), and investigations of foreign intelligence activities within the United States. The FBI has concurrent jurisdiction with DEA over Federal drug violations.

The activities of the FBI are divided into the following general categories:

*Criminal, security, and other investigations.*—This activity includes all field investigations of the Federal Bureau of Investigation. These investigations are conducted by FBI Special Agents in 56 field offices and approximately 400 resident offices located throughout the United States and Puerto Rico. National priority investigations include white-collar crime, drugs, organized crime, counterterrorism and foreign counterintelligence, and investigations relating to violent crimes and major offenders. Other investigative areas are civil rights and security programs.

The FBI is reimbursed by other Federal agencies for certain investigative activities such as pre-employment background inquiries, fingerprint and name checks. Another primary re-

The Communications Assistance for Law Enforcement Act of 1994 authorizes the Attorney General to pay telecommunications carriers for costs directly associated with modifying equipment to allow law enforcement to perform court-authorized wiretaps. Activities eligible for reimbursement include modifications performed by carriers in connection with equipment, facilities, and services installed or deployed to comply with the Act. In particular, telecommunications carriers are required to expeditiously isolate and enable intercept of all wire and electronic communications, provide access to call-identifying information that is reasonably available to the carrier, deliver the intercepts and call-identifying information to the government, and provide these services unobtrusively so as to minimize interference to subscriber services.

A portion of this funding will finance continuing research and development efforts to produce the equipment necessary to perform court ordered wiretaps within a digital telephony environment. This funding will also be used to develop an interoperable wireless communication network for the law enforcement and public safety community, and for development and operation of DRUGFIRE, a computerized system for matching images of discharged ammunition casing and bullets. Funds will finance the continued development of the Combined DNA Index System (CODIS), as well as finance the purchase of CODIS systems for State and local forensic laboratories. Funding will also be used for the establishment of DNA quality-assurance and proficiency-testing standards, and to modernize FBI laboratory equipment. Funding will support improved training and technical automation for State, Indian Tribal, and local law enforcement agencies. Funding will finance lease payments for antenna sites used in visual and voice communication, provide overtime payments for non-Federal participants in the Safe Streets Task Force program, and improve FBI aviation support. This funding will also be used to finance a national namecheck system for all handgun purchases, as prescribed by the Brady Handgun Violence Prevention Act, and for establishment of both a violent gang/terrorist criminal file and hostage/barricade database. Investigative support for Senior Citizens Against Marketing Scams is also provided by this funding.

The mission of the DEA is to control abuse of narcotics and dangerous drugs by restricting the aggregate supply of those drugs. At the Federal level, DEA is the lead drug law enforcement agency. DEA accomplishes its objectives through coordination with State, local, and other Federal officials in drug enforcement activities, development and maintenance of drug intelligence systems, regulation of legitimate controlled substances activities, and enforcement coordination and intelligence-gathering activities with foreign government agencies.

Cooperation among Federal law enforcement agencies is extensive, especially within the 13 Interagency Crime and Drug Enforcement (ICDE) task forces. DEA's involvement is integral to this nationwide coordinated enforcement strategy. With the ICDE program and the expansion of other agency cooperative efforts, overall drug enforcement capabilities have been significantly strengthened in recent years.

The activities of the DEA are divided into the following general categories:

**ENFORCEMENT**

**Domestic enforcement.**—This activity encompasses DEA's general efforts to eliminate or immobilize major drug trafficking organizations and thereby reduce the domestic supply of illicit drugs.

Domestic Enforcement includes the majority of the activities encompassed within DEA's 21 domestic field divisions. These activities include efforts to reduce the availability of illicit drugs by immobilizing targeted organizations that are substantially responsible for importation and distribution of drugs and by focusing enforcement operations on specific drug trafficking problems.

**State and local task forces.**—This activity encompasses efforts to reduce drug availability and immobilize major drug trafficking organizations through intergovernmental cooperation with State and local law enforcement agencies. There are currently 89 program-funded and 36 provisional State and Local Task Forces participating in the program. This program is funded in DEA's Violent Crime Reduction Programs appropriation in 1997.

The measures below reflect the level of activity performed by this program.

DEA initiated arrests .....	4,215	4,614	4,722
Other Federal referral arrests .....	1,149	1,258	1,288

DEA-wide assets seized (\$ thousands) .....	\$720,083,000	\$750,000,000	\$750,000,000

**Foreign cooperative investigations.**—This activity encompasses efforts to (1) disrupt, as close to the source as possible, production of opium, heroin, cocaine, marijuana, and illicitly produced and diverted legitimate dangerous drugs destined for the United States, and (2) collect and disseminate intel-

**Diversion control.**—This activity seeks to reduce the diversion of legitimately produced controlled chemicals into illicit channels at all levels of distribution and to provide leadership and support to ensure that State and local agencies and the chemical industry establish and maintain programs and policies to control diversion. The Drug Diversion Control activities are funded from the Drug Diversion Control Fee Account.

The measure below reflects the level of activity performed by this program.

INVESTIGATIVE SUPPORT

**Intelligence.**—This activity encompasses the collection, analysis, and dissemination of drug intelligence in support of the enforcement operations of DEA and other Federal, State and local agencies.

**DEA laboratory services.**—This activity encompasses laboratory analysis of evidence and expert testimony in support of the investigation and prosecution of drug traffickers. The measure below reflects the level of activity performed by this program.

**DEA training.**—This activity encompasses entry level training for all special agents, diversion investigators, and intelligence analysts; advanced, in-service and specialized training for investigative and other personnel; executive, mid-level management, and supervisory training for appropriate agency officials; and foreign language training for DEA personnel assigned to overseas and border offices as needed. In 1997, training will focus on basic agent, in-service and specialized training activities. The measures below reflect a portion of the level of activity performed by this program.

**Research, engineering, and technical operations.**—This activity encompasses providing high quality and timely radio communications capability, technical and investigative equipment assistance support, maintenance and operation of an aircraft fleet, and research programs directly related to the DEA law enforcement and intelligence functions.

**ADP and telecommunications.**—This activity encompasses automated data processing and telecommunication support on a nationwide and worldwide basis.

**Records management.**—This activity encompasses effective and efficient records management, Freedom of Information/Privacy Act, and library support.

PROGRAM DIRECTION

**Management and Administration.**—This activity encompasses the overall management, contracting, and direction of DEA to include personnel, general services, and Equal Employment Opportunity functions.

REIMBURSABLE PROGRAM

**Reimbursable program.**—The primary reimbursements to DEA are for the Interagency Crime and Drug Enforcement

Task Force program, the training of foreign drug law enforcement officials (funded by the Department of State), and the expenses incurred in managing seized assets and other purposes for which DEA is reimbursed from the Department of Justice Assets Forfeiture Fund.

The Immigration and Naturalization Service is responsible for administering laws relating to the admission, exclusion, deportation, and naturalization of aliens. Specifically, the Service inspects aliens to determine their admissibility into the United States; adjudicates requests of aliens for benefits under the law; prevents illegal entry into the United States; investigates, apprehends, and removes aliens in this country in violation of the law; and examines alien applicants wishing to become citizens.

**Immigration Initiative.**—This budget builds upon the efforts of the last three years to strengthen the Immigration and Naturalization Service and implement a strategic immigration initiative that secures the Nation's borders as it reduces the effect of illegal immigration. This strategic immigration initiative will focus on border facilitation and control, repair and restoration of infrastructure, removal of criminal and deportable aliens, and reducing incentives for unauthorized employment and benefits. This budget will provide resources to improve both traffic facilitation and law enforcement along the border and at ports of entry. Over 1,600 new immigration agents, officers, and support staff will perform a strategic mix of activities to best achieve the "prevention through deterrence" goal of the Border Control Strategy. New border staffing will be deployed along the border and in domestic and overseas anti-smuggling investigative units. This initiative also includes resources for: automated enforcement system technology; a comprehensive plan for detention and removal of deportable aliens; expansion of the employer sanctions program; and the employment verification information system.

**Enforcement.**—This activity contains resources for preventing illegal entry into the United States and facilitating the entry of qualified persons. This includes inspection of applicants for admission, patrol of the border, and the location of illegal aliens who are in the United States following illegal entry or violation of status after legal entry. Apprehensions are made through the inspection of places of employment,

by the investigation of information about the location of undocumented aliens, and through investigative case work. Also included are the resources for the Service's nationwide anti-smuggling program and for the detention and deportation of illegal aliens.

Most reimbursements received by the Service are from the inspections, legalization, examination, and land border fee programs. Also included are reimbursements for retrofitting conveyances for drug law enforcement purposes and for managing and operating the vehicle seizure program. These resources are from the Department of Justice Assets Forfeiture Fund. Resources are also received for participation in the Organized Crime Drug Enforcement Program.

The Immigration Emergency Fund, established by the Immigration Reform and Control Act and funded by Public Law 101-162, provides funds for possible increases in border patrol and other enforcement activities, and for reimbursement to States and localities for assistance in meeting an immigration emergency. The Immigration Act of 1990, however, amended these provisions and allows for reimbursement to States and localities at the discretion of the Attorney General, in the event that asylum applications in a district exceed a certain amount during a given quarter, or if lives, property, safety or welfare of the residents of a State or locality are endangered, or in other circumstances as determined by the Attorney General.

VIOLENT CRIME REDUCTION PROGRAMS

L. 103-322), as amended, \$458,168,000, to be derived from the Violent Crime Reduction Trust Fund and remain available until expended, of which (1) \$3,325,000 shall be for establishing and operating a Criminal Alien Tracking Center, (2) \$95,784,000 shall be for expeditious deportation of denied asylum applicants, (3) \$287,857,000 shall be for improving border controls, and (4) \$71,202,000 shall be for expanding special deportation proceedings: Provided, That amounts not required for asylum processing provided under the expeditious deportation of denied asylum applicants shall also be available for other deportation program activities.

Federal Prison Industries, Inc., was created by Congress in 1934 and is a wholly-owned Government corporation. Its mission is to employ and train Federal inmates through a diversified program providing products and services to other Federal agencies. These operations are conducted in such a manner as to offer a minimum of competition to private industry and labor. Employment provides inmates with work, occupational knowledge and skills, plus money for personal expenses and family assistance.

The Corporation has been expanding its operations to provide additional industrial employment opportunities at existing and planned institutions.

*Budget program.*—Federal Prison Industries, Inc., is entirely self-sustaining. No appropriations are required. The amounts used by the Corporation for administrative expenses are subject to a congressional limitation. Information regarding this limitation is provided separately following this account.

*Financing program.*—Revenues are derived entirely from the sale of products and services to other Federal agencies. Operating expenses are applied against these revenues, resulting in operating income or loss. Earnings surplus to the needs of the manufacturing operations, capital improvements and cash reserves are used to pay accident compensation.

*Operating results.*—To date, Federal Prison Industries, Inc., has returned to the Treasury a total of \$82 million of retained income excess to the Corporation's needs. No contributions from budget authority have been made to offset deficits for non-revenue producing outlays since the inception of the fund.

The Office of Justice Programs (OJP) carries out policy coordination and general management responsibilities for the Bureau of Justice Assistance, Bureau of Justice Statistics, National Institute of Justice, Office of Juvenile Justice and Delinquency Prevention, the Office for Victims of Crime, and four (4) program offices. The following OJP programs are funded through the Justice Assistance account.

**Research, evaluation, and demonstration programs.**—Funds provide for and encourage the development of basic and applied research for the improvement of Federal, State, and local criminal, civil, and juvenile justice systems; new methods for the prevention and reduction of crime and the detection, apprehension, and rehabilitation of criminals; and the dissemination of the results of such research efforts.

**Criminal justice statistical programs.**—Funds provide for the collection and analysis of statistical information concerning crime, victims, offenders, criminal justice processes, juvenile delinquency, and civil disputes in support of public and private policy and decisionmaking about society's response to crime; planning, coordination, implementation and provision of technical assistance to States to initiate innovative applications of communications and information systems technology for State and local criminal justice systems; and assurance of conformance with privacy and security regulations.

**Emergency assistance.**—Funds are used to provide emergency assistance to a State or locality after the Attorney General has determined that a law enforcement emergency exists. A law enforcement emergency is a situation wherein the capacity of local resources has been exceeded. No funds are requested in 1997.

**Missing children.**—Funds for this program will be used to reduce the incidence of crimes against children, particularly kidnaping and sexual exploitation, by assisting families, citizen groups, law enforcement agencies and government institutions in a national effort to insure the safety and protection of children.

**Crime control programs.**—This activity provides for expenditures from programs that were authorized by preceding legislative authority but are not continued under existing legislation.

**Regional information sharing system.**—This is a program to aid State and local law enforcement agencies in the exchange of intelligence information.

**National White Collar Crime Center.**—This activity provides assistance to State and local law enforcement and regulatory agencies in addressing multi-jurisdictional white collar crimes.

Violent Crime Reduction Trust Fund (VCRTF) resources support a wide range of programs to assist State and local governments with crime and drug control efforts. Funding is provided for prevention, law enforcement, and corrections assistance and support the following programs and activities.

**Criminal records upgrade program.**—Expands the program established in 1995 under the Brady Handgun Violence Prevention Act and the National Child Protection Act of 1993. The program provides financial and technical assistance to all States to improve their ability to identify criminal histories of felons and other persons ineligible to purchase firearms or hold positions involving children, the elderly, or the disabled.

**Incarceration of undocumented aliens program.**—Funds provide for a program to reimburse States and political subdivisions of states for a portion of the costs incurred for the imprisonment of criminal aliens.

**Correctional facilities grants.**—Funds provide assistance to States to provide adequate space to incarcerate violent offenders and to implement truth-in-sentencing by ensuring that convicted violent offenders serve a specific percentage of their sentences behind bars.

**General and special funds—Continued**

*VIOLENT CRIME REDUCTION PROGRAMS—Continued*

*State prison drug treatment.*—Funds provide assistance to States to establish residential substance abuse treatment programs in State prisons and local correctional and detention facilities, aimed at reducing recidivism by ensuring that offenders are held accountable for their actions by addressing the myriad problems associated with the lifestyle of drug use and addiction.

*Byrne formula grants.*—Funds provide assistance to States to develop programs to fight drugs, violence, and gangs in a coordinated manner throughout a State.

*Drug courts.*—Funds provide assistance to States and local units of government to develop and implement programs for non-violent offenders with substance abuse problems. These programs use the power of the courts and continuing supervision to coerce abstinence through graduated sanctions and the integrated administration of other services such as drug testing and drug treatment.

*Violence against women.*—Funds provide assistance to States, local units of government and to other public or private entities to develop and strengthen effective law enforcement and prosecution strategies to combat violence against women, to implement proarrest programs, to establish and expand cooperative efforts to address domestic violence and child abuse in rural areas, and to provide victim services.

Among new programs requested in 1997 are the Youth-At-Risk-program, public awareness programs regarding scams against the elderly, a study to gather data regarding sexual assaults on college campuses, programs providing assistance to courts, prosecutors, public defenders, probation and parole agencies and others to deal with youth violence and various miscellaneous crime control programs.

The Violent Crime Reduction Trust Fund was established by the Violent Crime Control and Law Enforcement Act of 1994, Public Law 103-322. The VCRTF is supported by savings realized from the implementation of section 5 of the Federal Workforce Restructuring Act of 1994, Public Law 103-226. By law, VCRTF monies may be used only for activities authorized by the Violent Crime Control Act of 1994 and shall be expended in amounts for both budget authority and outlays specified for each of fiscal years 1995 through 2000.

For 1997 a total of \$5 billion is proposed to be transferred to specific Crime Control Program accounts in departmental budgets for programs authorized by Public Law 103-322. The following table indicates amounts appropriated for fiscal years 1995 and 1996 and requested for 1997:
