CHAPTER 49

SURVIVOR BENEFIT PLAN (SBP) - COST-OF-LIVING ADJUSTMENT4901 BASE AMOUNTS

All SBP base amounts are increased by cost-of-living adjustments. The adjustment to the base amount is made at the same time and by the same total percentage that retired or retainer pay is increased. If a member before retirement elects a base amount that is less than full gross pay, the elected base amount is established as the initial base amount regardless of the cost-of-living adjustment that apply to the initial computation of retired pay, excluding Reserve Component Survivor Benefit Plan elections effective July 1, 1986.

4902 THRESHOLD AND PREMIUMS FOR COVERAGE

490201. Before March 1, 1986, initial SBP cost was computed on a standard formula of 2.5 percent of the first \$300 of the base amount and 10 percent of the base amount in excess of \$300. When retired pay increased by a cost-of-living adjustment under Title 10, United States Code (U.S.C.), section 1401a (reference (c)), the SBP premium was recomputed under the standard cost formula. Effective December 1, 1980, and beginning with the March 1981 cost-of-living adjustment, the percentage increase applies directly to the premium.

490202. Beginning March 1, 1986, members who elect SBP and have retired pay computed on active duty basic pay rates in effect October 1, 1985, or later, will have initial SBP premium computed using the standard formula described in paragraph 490201, above, except that the \$300 threshold amount is indexed by active duty basic pay rates effective October 1, 1985, or later. For example: A member retires on May 1, 1986. Active duty basic pay rates increased by 3 percent effective October 1, 1985. The initial SBP premium is computed on 2.5 percent of the first \$309 (\$300 threshold x 1.03 increase October 1985), plus 10 percent of the base amount in excess of \$309. If the member's initial computation of retired pay includes a cost-of-living adjustment effective October 1, 1985, or later, the threshold amount will be adjusted by the same cost-of-living adjustment percentage. After retirement, cost increases on cost-of-living adjustments as in paragraph 490201, above. See Table 49-1 for SBP threshold amounts.

490203. On March 1, 1990, the formula for spouse and former spouse coverage changed to a flat-rate reduction of 6.5 percent of the base amount. An individual who entered a Uniformed Service before March 1, 1990, or a member who is entitled to retired pay under 10 U.S.C., chapter 61 (disability) or chapter 1223 (non-Regular service retirement) (reference (c)) is entitled to use whichever formula is more favorable to the member.

490204. The Supplemental Survivor Benefit Plan (SSBP) premium is a percentage of the base amount. SSBP premiums increase in the same manner as SBP premiums. The member elects SSBP coverage in increments of 5, 10, 15, or 20 percent, and the SSBP premium is computed by multiplying the SSBP premium factor (factor rates are for each 5 percent of SSBP coverage) based on member's age at election by 1, 2, 3, or 4, respectively. The SSBP premium rates are shown in Table 45-5.

490205. Members who elect spouse or former spouse coverage, or who increase the base amount of spouse or former spouse coverage during the open enrollment period April 1, 1992, through March 31, 1993, are subject to a premium addition as shown on Table 45-6. The additional premium is based on the number of years the member had been retired. The premium addition does not apply to any member making an open season election who currently is paying Retired Serviceman's Family Protection Plan premiums for spouse coverage or who is electing SBP coverage for spouse and previously participated in SBP but later withdrew from participation under the provision for totally disabled members.

4903 ANNUITIES

490301. Normally, SBP and SSBP annuities increase under 10 U.S.C. 1401a (reference (c)) at the same time and by the same percentage that retired pay increases by cost-of-living adjustment. EXCEPTION: When the payment of increased retired pay due to a cost-of-living adjustment is delayed by law, the increased annuity due to a cost-of-living adjustment is not delayed.

A. The cost-of-living adjustment applies to the monthly gross annuity amount (before any reductions such as Dependency and Indemnity Compensation).

B. Annuities that initially were effective on the same day as the cost-of-living adjustment before December 1, 1980, were not entitled to the adjustment as the law required that an annuity be payable on the day before the effective date of the adjustment. Effective December 1, 1980, annuities were recomputed to include the previously denied cost-of-living adjustment; however, no retroactive payment was made for the period before December 1, 1980.

C. In April 1983, costs that normally would have increased by the full cost-of-living adjustment were increased by 3.3 percent (one-half of an assumed cost-of-living adjustment) for members under age 62 effective March 1, 1983. Costs increased by 3.9 percent for members age 62 or older on March 1, 1983, or any age if retired for disability. All base amounts for computing SBP annuity increased by 3.9 percent. See paragraph 080454 of this volume.

490302. See paragraph 510202 of this volume regarding cost-of-living adjustments for Minimum Income Widow annuities.

NOTE: * The Pre-September 8, 1980 member is a member who first entered a Uniformed Service before September 8, 1980, and that member is entitled to the retired pay base as prescribed by 10 U.S.C. 1406 using a single basic pay rate. The Pre-August 1986 member is a member who first entered a Uniformed Service on or after September 8, 1980, but before August 1, 1986, and that member is entitled to the retired pay base as prescribed by 10 U.S.C. 1407 using a high 36-month average. The Post-August 1986 member is a member who first entered a Uniformed Service on or after August 1, 1986, and that member is entitled to the retired pay base as prescribed by 10 U.S.C. 1407 using a high 36-month average.
