SUPPLEMENTARY INFORMATION:

Species Covered in This Notice

The following listed species (evolutionarily significant units) are covered in this notice:

Lower Columbia River (LCR) coho salmon (*Oncorhynchus kisutch*)
LCR steelhead (*O. mykiss*)
LCR Chinook salmon (*O. tshawytscha*).

Authority

Scientific research permits are issued in accordance with section 10(a)(1)(A) of the ESA (16 U.S.C. 1531 et. seq) and regulations governing listed fish and wildlife permits (50 CFR 222-226). NMFS issues permits based on findings that such permits: (1) are applied for in good faith; (2) if granted and exercised, would not operate to the disadvantage of the listed species that are the subject of the permit; and (3) are consistent with the purposes and policy of section 2 of the ESA. The authority to take listed species is subject to conditions set forth in the permits.

Anyone requesting a hearing on an application listed in this notice should set out the specific reasons why a hearing on that application would be appropriate (see **ADDRESSES**). Such hearings are held at the discretion of the Assistant Administrator for Fisheries, NMFS.

Applications Received

Permit 1550

The U.S. Fish and Wildlife Service (FWS) is asking for a 5-year research permit to take LCR coho salmon and LCR Chinook salmon in Abernathy Creek, Washington a tributary to the Lower Columbia River. The research is designed to determine the natural reproductive success and mean relative fitness of hatchery-origin and natural-origin steelhead and assess the overall demographic effects of hatchery fish supplementation in Abernathy Creek relative to two adjacent control streams, Germany and Mill Creeks. The study will benefit listed coho salmon by providing information on abundance and distribution that could be used over the long-term to protect important

habitat. The FWS proposes to capture using backpack electrofishing equipment handle, and release listed salmonids. The FWS does not intend to kill any fish being captured but some may die as an unintentional result of the research activities.

Modification Requests Received

For permits 1252, 1290, 1318, 1322, 1338, 1379, 1386, 1410, 1421, 1427, 1461, 1478, 1479, 1484, 1487, 1519, and 1525, the activities would only be modified to include take of LCR coho salmon; no other changes are proposed. Further information on the actions covered by these permits may be obtained from previous notices and on the web site <http://www.nwr.noaa.gov/1salmon/salmesa/permit.htm>.

Permit 1330 currently authorizes the Weyerhaeuser Company to take juvenile LCR steelhead in the Toutle River Basin, Washington. They are asking to modify their permit to add LCR coho salmon take and increase the annual number of LCR steelhead taken in the research. The purpose of the research is to increase understanding of the relationship between aquatic organisms and their habitat, determine how forest management and restoration influence the aquatic ecosystem, and produce data to help develop forest management practices that better protect aquatic resources. The research would benefit listed salmonids by producing data on their natural habitat recovery processes and by identifying the effects that various stressors have on listed species. Weyerhaeuser proposes to observe (during snorkeling surveys), capture (using backpack electrofishing), anesthetize, identify, measure, weigh, and release the fish. Weyerhaeuser does not intend to kill any fish being captured but some may die as an unintentional result of the research activities.

This notice is provided pursuant to section 10(c) of the ESA. NMFS will evaluate the application, associated documents, and comments submitted to determine whether the application meets the requirements of section 10(a) of the ESA and Federal regulations. The final permit decisions will not be made until after the end of the 30-day comment period. NMFS will publish notice of its final action in the **Federal Register**.

Thereafter, the Commission streamlined the regulatory and paperwork burdens in order to increase the utility of agricultural trade options while maintaining basic customer protections. 64 FR 68011 (Dec. 6, 1999). Office of the Secretary

Nationwide TRICARE Demonstration Project

AGENCY: Office of the Secretary of Defense for Health Affairs/TRICARE Management Activity, DoD.

ACTION: Notice extending deadline for Demonstration Project.

SUMMARY: On November 5, 2001, the Department of Defense (DoD) published a notice of a Nationwide TRICARE Demonstration Project (66 FR 55928-55930). On October 1, 2004, the Department of Defense (DoD) published a notice (69 FR 58895) to extend the Demonstration through October 31, 2005. The Demonstration is also referred to as the Operation Noble Eagle/Enduring Freedom Reservist and National Guard Benefits Demonstration. This notice is to advise interested parties of the continuation of the Demonstration in which the DoD Military Health System addresses unreasonable impediments to the continuity of healthcare encountered by certain family members of Reservists and National Guardsmen called to

active duty in support of a Federal/contingency operation. The Demonstration scheduled to end on October 31, 2005, is now extended through October 31, 2007.

FOR FURTHER INFORMATION CONTACT: Office of the Assistance Secretary of Defense for Health Affairs, TRICARE Management Activity, TRICARE Operations Directorate at (703) 681-0039.

SUPPLEMENTARY INFORMATION: Continuing levels of about 170,000 Reserve Component members activated in support of Noble Eagle/Operation Enduring Freedom and Operation Iraqi Freedom in FY 2005 warrants the continuation of the Demonstration to support the healthcare needs and morale of family members of activated reservists and guardsmen. The National Defense Authorization Act of 2005 amended existing statutes that will enable the Secretary of Defense to provide these benefits permanently by regulation. The Demonstration needs to be extended to provide sufficient time for the rule-making process to establish the new regulation. The impact if the Demonstration is not extended, before permanent regulation is promulgated, includes higher out-of-pocket costs and potential inability to continue to use the same provider for ongoing care. There are three separate components to the demonstration. First, those who participate in TRICARE Standard will not be responsible for paying the TRICARE Standard deductible. By law, the TRICARE Standard deductible for active duty dependents is \$150 per individual, \$300 per family (\$50/\$150 for E-4's and below). The second

component extends TRICARE payments up to 115 percent of the TRICARE maximum allowable charge, less the applicable patient co-payment, for care received from a provider that does not participate (accept assignment) under TRICARE to the extent necessary to ensure timely access to care and clinically appropriate continuity of care. Third, the Demonstration authorizes a waiver of the non-availability statement requirement of non-emergency inpatient care. This Demonstration project is being conducted under the authority of 10 U.S.C. 1092. This Demonstration is extended through October 31, 2007.

Dated: October 5, 2005.
