INTERROGATION RECORDS PREPARED FOR
WAR CRIMES PROCEEDINGS AT NUERNBERG
1945-1947

On the 31 rolls of this microfilm publication are reproduced interrogation records of the Office of the U.S. Chief of Counsel for the Prosecution of Axis Criminality (OCCPAC). The first 22 rolls reproduce the English-language pretrial interrogation transcripts as well as summaries and other pertinent records for nearly 200 individuals who were questioned by the Interrogation Division of the OCCPAC. On the remaining rolls are filmed reports from other war crimes investigative units that were received and used either by the OCCPAC or the OCCWC (see next paragraph).

The Interrogation Division conducted its interrogations for the benefit of the U.S. prosecution staff at Nuernberg, particularly the International Military Tribunal staff. The persons questioned included not only defendants before the Tribunal but also friendly and unfriendly witnesses. The records were later used by the Office of the Chief of Counsel for War Crimes (OCCWC) in preparing the prosecution before the 12 subsequent U.S. Military Tribunals at Nuernberg from 1946 to 1949 and by other agencies prosecuting or trying war criminals. In addition to the records microfilmed in this publication, those produced by the OCCWC Interrogation Branch from 1946 to 1949 may be found in Microfilm Publication M1019.

The reports of other war crimes investigative units of a number of U.S. or Allied agencies, such as the U.S. 7th Army or Field Intelligence Agency, Technical (FIAT), are filmed on rolls 23-31. The reports pertain to the interrogation of individuals or to the investigation of groups, organizations, and subjects related to the prosecution of war criminals. These reports were also used later by the OCCWC.

The interrogation records in this microfilm publication are part of Record Group 238, National Archives Collection of World War II War Crimes Records. The inclusive dates of the records are 1945-1947 with the bulk concentrated in 1945 and 1946.

Background

Jurisdictions and Cases

In Europe, the United States participated in war crimes trials under three jurisdictions: that of the International

Military Tribunal (IMT), that of the U.S. military tribunals at Nuernberg, and that of the U.S. Army courts. General authority for the proceedings of all three jurisdictions derived from the Declaration of German Atrocities (Moscow Declaration), released November 1, 1943, which expressed Allied determination to arrest and bring to justice Axis war criminals.

International Military Tribunal

The IMT tried 24 major Nazi war criminals and a number of organizations in 1945 and 1946. Specific authority for U.S. participation in the IMT is found in Executive Order 9547 of May 2, 1945, which authorized Supreme Court Justice Robert H. Jackson to represent the United States in war crimes matters and to act as Chief of Counsel; the London Agreement of August 8, 1945 (as amended by the Berlin Protocol of October 6, 1945), in which the United States, France, the United Kingdom, and the Soviet Union agreed to hold the IMT; and the IMT Charter (an annex to the London Agreement), which outlined the rights and obligations of defendants, judges, and prosecutors.

U.S. Military Tribunals at Nuernberg

From 1946 to 1949, U.S. military tribunals at Nuernberg tried 185 individuals in 12 separate proceedings grouped according to type of crime or organization. Specific authority for the U.S. tribunals, which tried these 12 cases, is found in Allied Control Council Law 10 of December 20, 1945, which outlined trial procedures patterned after those of the IMT; Executive Order 9679 of January 16, 1946, which authorized the establishment of U.S. military tribunals; Office of Military Government for Germany (U.S.) (OMGUS) Ordinances 7 and 11 of October 18, 1946, and February 17, 1947, respectively, which spelled out details of trial procedures outlined by Allied Control Council Law 10; and United States Forces, European Theater (USFET), General Order 301 of October 24, 1946, which appointed Brig. Gen. Telford Taylor as Chief Counsel for War Crimes for the 12 U.S. military tribunals at Nuernberg.

U.S. Army Courts

From 1945 to 1948, U.S. Army courts (military commissions and special or general military courts) tried 1,672 individuals in 489 proceedings. Specific authority for these proceedings is found in Joint Chiefs of Staff Directive 1023/10 of July 8, 1945, which placed responsibility for certain war crimes trials in Germany on the Commander, USFET. The Commander, in turn, empowered the commanding general of the Western Military District (territory occupied by the U.S. 3d Army (Bavaria)) to appoint military courts, predominantly at the site of the former concentration camp Dachau, for the trial of war criminals not heard at Nuernberg. This was done in a letter on the subject

of "Trial of War Crimes and Related Cases" of July 16, 1945. The commanding general of the Eastern Military District (territory occupied by the U.S. 7th Army (Hesse, Baden-Wuerttemberg, and Bremen)) was similarly authorized to commence war crimes trials, mainly at Ludwigsburg. In order to streamline operations, the Commander, USFET, revoked this division of authority in a letter of October 14, 1946, and assigned responsibility to prosecute war criminals to the Deputy Judge Advocate for War Crimes, USFET. Henceforth, all cases were tried at the site of the former concentration camp Dachau because centralization of war crimes activities appeared necessary in view of the large body of cases and investigations.

The 489 cases tried by the U.S. Army in Germany can be divided roughly into four categories: main concentration camp cases, subsequent concentration camp cases, flier cases, and miscellaneous cases. The first category comprises 6 cases with about 200 defendants, mainly staff members and guards at Dachau, Buchenwald, Flossenbürg, Mauthausen, Nordhausen, and Muehldorf concentration camps. The second category includes about 250 proceedings against approximately 800 guards and staff members of the outcamps and branch camps of the major camps. The third category encompasses more than 200 cases in which about 600 persons, mostly German civilians, were prosecuted for the killing of some 1,200 U.S. nationals, mostly airmen. The fourth category consists of a few cases, including the Malmedy Massacre Case, in which 73 SS men were tried for murdering large groups of surrendered U.S. prisoners of war; the Hadamar Case, in which a number of Hadamar Asylum staff members stood trial for the killing of about 400 Russian and Polish nationals; and the Skorzeny Case, in which some members of the German Armed Forces were charged with wearing U.S. Army uniforms while participating in the Ardennes offensive.

Justice Jackson appointed Col. John H. Amen Chief of the Interrogation Division of OCCPAC. Amen's staff, few of whom spoke German, conducted interrogations with the aid of interpreters. The transcripts of the interrogations thus contain the questions posed by the interrogators in English and the answers of the interrogated as translated by interpreters.

Interrogations conducted by this IMT interrogation unit represent only a minute fraction of those carried out by various U.S. organizations in Germany and elsewhere in Europe during the period of the war crimes trials. Many of the records of these activities are now in various record groups in the National Archives of the United States.

Records Description

The interrogation records filmed on rolls 1-22 are arranged alphabetically by surname of the interrogated. Interrogation

transcripts are generally identified by surname of interrogated, place of interrogation (usually Nuernberg), date, time of day, name of interrogator, and names of any other individuals present. The transcripts are frequently signed by the interrogator, the interpreter, and the court reporter.

The transcripts normally record the swearing-in of interpreter and interrogated. This is followed by further identification and biographical data on the interrogated and the actual interrogation. Most of the interrogation transcripts are preceded by summaries of their content. The interrogation summaries also provide additional biographical information and often list persons or organizations named in the testimony. A few of the transcripts are accompanied by further papers containing notes of interrogated or interrogators and questions by counsel or interpreter.

The reports filmed on rolls 23-30 were compiled from transcripts or other records of about 750 individuals, mostly officials of the Third Reich. About 125 of these reports pertain to Albert Speer, the Reichminister of Armament and War Production. These individual reports contain the name of the interrogated and interrogation unit, the date and type of the report, biographical information on the interrogated, and the interrogation report. The reports are arranged alphabetically by surname of the interrogated, except that the interrogation reports for Albert Speer appear last and are arranged chronologically for the most part.

Filed on roll 31 are 69 consolidated reports pertaining to groups, organizations, or subjects such as intelligence, the Security Service, the Gestapo, or the Russian campaign. These consolidated reports are grouped by investigating agency.

The reports were produced by a number of agencies. The majority came from the 3d Army Interrogation Center and the Field Intelligence Agency, Technical (FIAT). Other reports were sent to Nuernberg by the following agencies:

AIC	Allied Intelligence Committee (London)
BDIC	Berlin District Interrogation Center
CCPWE	Continental Central Prisoner of War Enclosure

SHAEF	Supreme Headquarters Allied Expeditionary Forces
TIC	Triumph Interrogation Center

There are 11 types of these reports:

Filed at the beginning of roll one are key documents from which the tribunals derived their jurisdiction: the Moscow Declaration, U.S. Executive Orders 9547 and 9679, the London Agreement, the Berlin Protocol, the IMT Charter, Control Council Law 10, U.S. Military Government Ordinances Nos. 7 and 11, and U.S. Forces, European Theater General Order 301. Affidavits by the chiefs of the respective documentation divisions of OCCPAC and OCCWC, Major Coogan and Fred Niebergall, which certify the authenticity of the documents, are filmed immediately after them. This material is followed by an alphabetical list of individuals interrogated by the OCCPAC, an alphabetical list of individuals interrogated by other agencies, and an unarranged list of groups, organizations, and subjects investigated by other agencies.
