A. Mission Description and Budget Item Justification: (U) Defense Experimental Program to Stimulate Competitive Research (DEPSCoR). The DEPSCoR is a legislated program that helps build national infrastructure for research and education by funding research activities in science and engineering fields important to national defense. Participation in this program is limited to states that meet eligibility criteria as set forth in the authorizing language. The program is intended to improve the capabilities of institutions of higher education (IHE) to develop, plan and execute science and engineering research that is competitive under the peer-review system. IHEs in eligible states are invited, through their NSF State EPSCoR Committee, to compete for research/infrastructure awards in areas identified by the department in broad agency announcements regularly published by the Services.

PROJECT

0601114D8Z - Defense Experimental Program to Stimulate Competitive P114

| Research | (DEPSCOR) |
|----------|-----------|
|----------|-----------|

| | Cost (\$ in Millions) | FY 2005 | FY 2006 | FY 2007 | FY 2008 | FY 2009 | FY 2010 | FY 2011 |
|------|---|---------|---------|---------|---------|---------|---------|---------|
| P114 | Defense Experimental Program to Stimulate Competitive Research (DEPSCOR) | 13.821 | 12.365 | 9.532 | 9.839 | 9.874 | 10.202 | 10.317 |

A. Mission Description and Project Justification: (U) Defense Experimental Program to Stimulate Competitive Research (DEPSCoR). The DEPSCoR is a legislated program that helps build national infrastructure for research and education by funding research activities in science and engineering fields important to national defense. Participation in this program is limited to states that meet eligibility criteria as set forth in the authorizing language. The program is intended to improve the capabilities of institutions of higher education (IHE) to develop, plan and execute science and engineering research that is competitive under the peer review system. IHEs in eligible states are invited, through their NSF State EPSCoR Committee, to compete for research/infrastructure awards in areas identified by the department in broad agency announcements regularly published by the Services. Through FY 2000 DEPSCoR was funded within the University Research Initiative Program (PE 0601103D8Z).

B. Accomplishments/Planned Program:

| Accomplishment/Planned Program Title | FY 2005 | FY 2006 | FY 2007 |
|--------------------------------------|---------|---------|---------|
| | 13.821 | 12.365 | 9.532 |

FY 2005 Accomplishments: The Department of Defense (DoD) awarded 27 separate grants for ressearch/infrastructure support to 20 academic institutions in 16 states to perform research in science and engineering fields important to national defense. Proposals were competitively selected by the Air Force Office of Scientific Research, the Army Research Office and the Office of Naval Research to receive an average of \$422,000 each over the three year grant period. The DEPSCoR is designed to expand research opportunities in states that traditionally received the least funding in federal support for university research.

FY 2006/FY 2007 Plans: This is a congressionally mandated program that will continue to be conducted in a manner that is consistent with the goals established in the authorizing legislation and at a level of performance directly proportional to the funding that is annually adjusted by Congress. Research proposals from eligible states will be competitively selected for funding.

C. Other Program Funding Summary: Not Applicable.

D. Acquisition Strategy: Not Applicable.
