Table cell entries are % reporting pneumococcal vaccination ever, ± the 95% confidence interval half-width (SE), with the unweighted sample size (n)
 An asterisk (*) indicates the estimate was unreliable due to the n being less than 30 or the SE relative to the estimate was greater than 0.3 (n<30 or RSE>0.3)
 N/A (not available) indicates the years when the characteristic was not included in the survey.
