1. Summary

This DIRECTIVE covers the temporary assignment of employees between ARS and States, local governments, institutions of higher education, Indian Tribal governments, or other organizations under Title IV of the Intergovernmental Personnel Act of 1970, as amended.

Intergovernmental Personnel Act assignments are intended to facilitate Federal-State-local cooperation through the temporary assignment of skilled personnel. These assignments permit ARS employees to serve with eligible organizations for up to 2 years without loss of employee rights and benefits. Intergovernmental Personnel Act assignments similarly permit employees of eligible organizations to serve with ARS.

5. Policy

ARS policy is to take full advantage of the IPA authority to foster work force diversity. Assignments, in addition to providing needed expertise, should be viewed as opportunities for the selected individuals to enhance their credentials. In particular, managers are encouraged to seek ways of using the IPA authority to strengthen relationships with the 1890 Land Grant Institutions, and other historically Black Colleges and Universities, those institutions in partnership with the Department under the Agriculture-Hispanic Association of Colleges and Universities Memorandum of Understanding, and Indian tribal governments.

6. Delegations

The Administrator has the authority to sign the OF-69 (Exhibit 1). However, under the following circumstances, Departmental clearance must be obtained prior to implementation of the IPA:

- An assignment longer than 2 years is initially anticipated or an extension beyond 2 years is later requested;
- ARS is paying more than 50 percent of the allowable costs (except under the conditions outlined in Section 8, Reimbursement); or
- The assignment involves a Senior Executive or Senior Level position.

7. Responsibilities

The Administrator signs all initial agreements, modifications or extensions.

The Director, PD ensures that a program is established for managing IPAs according to FPM and DPM requirements and approves major changes to the program.

NSB, PD provides advice and guidance for IPA, as well as coordinating the approval process.

Agency Managers make the initial determination of common interest with the eligible organization and the individual considered for IPA assignment and negotiate the details of the agreement.

ABFO (for field organizations) or the BFSB, FMD (for headquarters organizations)

reviews the assignment cost arrangements and billings from the non-Federal entity and approves payment.

8. IPA Provisions

Assignments

- IPA assignments are management initiated, either by ARS or by the non-Federal entity. However, such assignments are voluntary and must be agreed to by the employee.
- Each assignment must be made for purposes determined to be of mutual concern and benefit to ARS and the eligible organization. An assignment should be examined to ensure that it is for sound public purposes and furthers the goals and objectives of the participating organizations.
- Assignments may involve program areas, as well as administrative functions. However, the DPM prohibits assignments to and from positions performing routine work.

Reimbursements

- Cost-sharing arrangements for IPAs are negotiable between ARS and the non-Federal entity.
- OPM and DPM guidelines state that cost-sharing arrangements should be based on the extent to which the participating organizations benefit from the assignment. However, ARS may pay up to 100 per cent of the assignment costs when:
 - The assignment contributes to work force diversity goals, including institution building efforts, and
 - The non-Federal entity has inadequate resources to pay its proportional share.

Selection of Assignees

• Identification and/or selection of assignees may occur at anytime during the process of

building an agreement, including preliminary discussions. There are no requirements for competition.

• Notwithstanding Section 8, Selection of Assignees, ARS is responsible to make positive efforts to ensure the pool of candidates from which IPA assignees are selected includes persons from underrepresented groups. Therefore, ARS managers are required to provide an explanation in writing on what recruiting efforts were undertaken and how these efforts support work force diversity. If no recruiting efforts were undertaken, the reasons why such efforts were not made should be cited.

Summary of Provisions

Summaries of the basic provisions of IPA assignments are included as Exhibits 2 and 3.
