## INTRODUCTION

The roadless area petition from the State of Colorado that was used for developing the Colorado Roadless Area Rule proposed that “the Colorado roadless rulemaking process should use the most updated inventoried roadless area boundaries available”. Thus, a concerted effort was made to use the best available and current roadless area boundaries for the analysis in this EIS. Since the 2001 Roadless Rule was released, forests have updated roadless area boundaries as part of the forest plan revision process. In Colorado, the Grand Mesa, Uncompahgre, and Gunnison National Forests; the Manti-La Sal National Forest; the Pike and San Isabel National Forests; and the San Juan National Forest are currently revising their forest plans. The Colorado roadless area boundaries reflect the inventories these forests have done during their revision processes. Where forests have completed their revisions, (the Arapaho and Roosevelt National Forests, the Rio Grande National Forest, the Routt National Forest, and the White River National Forest), mapping errors or updated GIS technology have identified boundaries to be changed to be accurate with conditions on the land. All updates provided by the forests have been incorporated into the CRAs.

The purpose of this appendix is to disclose differences between the Colorado roadless areas (CRAs) analyzed in alternative 2 in this EIS and the inventoried roadless area (IRAs) boundaries analyzed in alternatives 1 and 3. In chapter 2, the sections titled Roadless Area Designation under each alternative discuss the reasons behind the acreage analyzed under the particular alternative. This appendix outlines the differences in the acreage between IRAs and CRAs. Maps reflecting the differences in the boundaries can be found in the map packet.

## EXPLANATION OF ROADLESS AREA TABLES

### **Table A-1. Net change in roadless acreage by forest—from inventoried roadless area acres to Colorado roadless area acres**

This table illustrates, by forest, the iterative change in acres from those analyzed under the 2001 Roadless Rule alternative (alternative 1) and the Forest Plans alternative (alternative 3) to those being analyzed under the Colorado Rule alternative (alternative 2):

- There were 4.433 million acres analyzed in the 2001 Roadless Rule (column 1).
- Subtracted from this total, for analysis in this EIS, are 184,000 acres of congressionally designated lands that are managed under the laws that established them rather than any roadless rule. The 184,000 congressionally designated acres are not analyzed as part of the IRA or CRA acreage under any of the alternatives (column 2). See chapter 2 discussion.
- Column 4 shows the acres not included within CRAs that are within the IRAs. This category includes adjustments made to CRAs due to mapping errors, updated GIS technology, land exchanges, removal of ski areas, or areas that have been substantially altered by road building or tree-cutting.

- Column 5 shows unroaded acres added into the CRAs that are not currently included as roadless areas within IRAs. Mapping errors, acquired lands, or updated GIS technology have identified these additional roadless acres to include in CRAs.
- Column 6 displays the total CRA acres analyzed under alternative 2 and proposed for the rule.
- Column 7 displays the net change by forest between IRAs and CRAs.

The map packet includes a map showing the acreage and boundary differences, titled Inventoried Roadless Areas Compared to the Colorado Roadless Areas.

### **Table A-2. Inventoried roadless area names and acreage**

This table lists, by forest, the names and number of acres in each inventoried roadless area. The map packet includes a map with the Inventoried Roadless Areas, titled Inventoried Roadless Areas.

### **Table A-3. Colorado roadless area names and acreage**

This table lists, by forest, the names and number of acres in each Colorado Roadless Area. The map packet includes a map with the Inventoried Roadless Areas, titled Colorado Roadless Areas.

### **Table A-4. Crosswalk for IRA names to CRA names**

Three of the forests currently undergoing forest plan revisions have changed the names for some of the roadless areas during their most recent inventory process. On some forests, adjustments to roadless area boundaries resulted in multiple roadless areas. This table A-4 provides a crosswalk for these three forests where many IRA names differ from some CRAs names – the Grand Mesa, Uncompahgre, and Gunnison National Forest; the Pike and San Isabel National Forests; and the San Juan National Forest.

The table also shows the changes on the Rio Grande National Forest where two IRAs were combined into one CRA, and the change on one IRA on the Arapaho and Roosevelt National Forest.

**Appendix A – Comparison of Colorado Roadless Area Boundaries  
with Inventoried Roadless Area Boundaries**

**Table A-1. Net change in roadless acreage by forest—from inventoried roadless area acres to Colorado roadless area acres**

	<b>2001 Rule total IRA acres (inventory date)<sup>1</sup></b>	<b>Congressionally designated as wilderness or special areas<sup>2</sup> not included in IRAs or CRAs</b>	<b>Total IRA acres without congressionally designated acres<sup>3</sup></b>	<b>IRA acres not included within CRAs<sup>4</sup></b>	<b>Unroaded acres added to CRAs</b>	<b>Total roadless acres in CRAs<sup>5</sup></b>	<b>Net change between IRA and CRA acres</b>
<b>National forest</b>	<b>Column 1</b>	<b>Column 2</b>	<b>Column 3 = column 1-2</b>	<b>Column 4</b>	<b>Column 5</b>	<b>Column 6 = column 3- 4 + 5</b>	<b>Column 7 = column 6-3</b>
Arapaho and Roosevelt	391,000 (1997)	(37,000)	354,000	(5,000)	1,000	350,000	(4,000)
Grand Mesa, Uncompahgre, and Gunnison	1,127,000 (1979)	(67,000)	1,060,000	(329,000)	120,000	853,000 (2005 draft)	(207,000)
Pike and San Isabel	688,000 (1979)	(19,000)	669,000	(77,000)	82,000	674,000 (2006 draft)	5,000

Routt	442,000 (1998)	-	442,000	(10,000)	2,000	434,000	(8,000)
San Juan	604,000 (1979)	(60,000)	544,000	(84,000)	99,000	558,000 (2006 draft)	14,000
White River	640,000 (2002)	-	640,000	(5,000)	1,000	636,000	(4,000)
Manti-La Sal in Colorado	11,000 (1979)	-	11,000	(4,000)	500	8,000 (2006 draft)	(3,000)
<b>TOTAL, Colorado</b>	<b>4,433,000</b>	<b>(184,000)</b>	<b>4,249,000</b>	<b>(529,000)</b>	<b>309,000</b>	<b>4,031,000</b>	<b>(218,000)</b>

*Acres may not add due to rounding*

<sup>1</sup> The 2001 Roadless Rule used the inventoried roadless areas from the forest plan that was in effect at the time the 2001 Rule was developed, or a roadless inventory that had undergone public involvement. The date of each forest's inventory used for the 2001 Rule is shown here. Acreages are from the 2001 Roadless Rule final EIS.

<sup>2</sup> This column includes acres for the James Peak and Spanish Peak Wildernesses and additions to the Indian Peaks Wilderness, as well as Bowen Gulch and James Peak Protection Areas, Roubideau and Tabeguache Special Areas, Fossil Ridge Recreation Management Area, and the Piedra Special Management Unit, all designated by Congress but not excluded from the 2001 Roadless Area Conservation Rule inventory.

<sup>3</sup> The acres to be used for the rulemaking analysis differ from the acres reported in the RACR final EIS because some wilderness and special areas (see point 2) were included in the 2001 roadless inventory. They will not be included in this rulemaking analysis as acres to be managed under the 2001 Rule or the Colorado Rule because Congress has already set out specific management to be followed for those acres.

<sup>4</sup> Acres not included are those identified as substantially altered, mapping errors, updated GIS technology, land exchanges, and ski area acres.

<sup>5</sup> When the Colorado Roadless Rule is published, all Colorado inventoried roadless areas are superseded by Colorado roadless areas. The Colorado roadless areas will take effect when the Colorado Rule is signed. Acres that were within the 2001 IRAs but are not included in the CRAs (column 4) will be managed according to their respective forest plans.

**Table A-2. Inventoried roadless area names and acreage**

Roadless area number	Roadless area name	IRA acres*
<b>Arapaho and Roosevelt National Forests</b>		
1	Bard Creek	25,400
2	Byers Peak	10,100
