

# WEB PAGE SAMPLES

The following 6 Web pages were printed from *GPO Access* to provide samples of its new format, applications, and other selected features. Note the standardized elements, such as the identifying *GPO Access* seal and text logo, the navigational toolbar and buttons, and the footer, on many of the new Web pages.

- *GPO Access* home page
- Site search
- Online Bookstore
- Finding aids
- Federal Bulletin Board entrance page
- GPO Form 3868

In addition, a printout of the specialized search page for the *Congressional Record* is included to give a sample of a Web page that has not been redesigned and to demonstrate the continued use of WAIS databases for the majority of the information content on *GPO Access*.
