 Regulatory

14 May 2004

Notice of Permit and Enforcement Actions

1. Section 10 of the Rivers and Harbor Act, approved 3 March 1899, (33 USC 403) prohibits the unauthorized obstruction or alteration of any navigable water of the United State. The construction of any structure in or over any navigable water of the United States, the excavation of material in such waters, or the accomplishment of any other work affecting the course, location, condition, or capacity of such waters and all activities under the purview of Section 404 of the Clean Water Act, which regulates the placing or discharge of dredged or fill material in any water of the United States, are unlawful unless the work has been recommended by the Chief of Engineers and authorized by the Secretary of the Army.

2. During the period 01-APR-2004 to 30-APR-2004 and under the provisions of the above-referenced acts, the following permit and enforcement actions were taken by the St. Paul District, Corps of Engineers.

3. Nationwide permits for certain activities, including discharges of dredged or fill material into waters of the United States, became effective on February 11, 1997. During the period covered by this public notice, 29 projects of which this office became aware were authorized under the provisions of nationwide permits.

4. The comprehensive social, economic and environmental documentation upon which these actions were based is available for review at the District office, or can be requested in writing and upon payment of administrative fees, if required.

Robert Whiting
 Chief, Regulatory Branch
 Construction Operations Division
