

Conservation Reserve Program

*Summary and
Enrollment Statistics
FY 2006*

May 2007

I am pleased to present this fiscal year 2006 edition of CRP's Summary and Enrollment Statistics. CRP is our nation's largest private lands conservation program. Since the first sign-up was held in 1986, 20 general sign-ups have been conducted, an average of nearly one per year. The continuous sign-up, which began in 1996, is now in its 11th year. CRP has changed significantly over the years. Now with over 30 practices CRP participants can choose from, CRP began with just 11 practices. We now have multiple initiatives within continuous CRP that seek to restore wetlands, establish bottomland hardwood and longleaf pine forests, and establish habitat for ducks, quail, and grassland birds.

Through this voluntary program, USDA's Farm Service Agency (FSA) establishes contracts with agricultural producers to retire highly erodible and other environmentally sensitive cropland and pastureland. During the 10 to 15 year CRP contract period, participants convert enrolled land to grass, trees, wildlife cover, and other conservation uses. CRP plantings and practices offer our nation vast environmental benefits, including improving surface and ground water quality, creating wildlife habitat, restoring wetlands, preserving soil productivity, sequestering carbon, and reducing offsite wind erosion damages.

To ensure that CRP's benefits continue without interruption, FSA in 2006 offered holders of contracts set to expire between 2007 and 2010 (28 million acres) the opportunity to re-enroll or extend their contracts, called REX. FSA divided expiring contracts into five categories (quintiles) based on environmental benefits index (EBI) scores of the land under contract. FSA offered the quintile with the highest EBI scores new 10- or 15-year contracts. The 2nd highest quintile were offered 5-year contract extensions, the 3rd highest were offered 4-year extensions, and so forth. This action will preserve farmers' ability to protect America's most sensitive agricultural lands. This

summary does not provide details of this effort because data are still being compiled. However, based on available information, we estimate that approximately 80% to 85% of expiring contracts will accept the REX offer and remain in the program.

Teresa C. Lasseter
Administrator, FSA

| A-22 | Environmental Benefits Index Components |

Data from Arizona, Hawaii, Nevada, and Rhode Island not reported because of confidentiality concerns (less than 4 contracts in State). Data from these States are included in the totals.

This report provides statistics for land under contract in the Conservation Reserve Program (CRP) as of the end of fiscal year 2006 (September 30, 2006). It includes land under contracts that expired September 30, 2006 and excludes land under contracts that did not begin until October 1, 2006. As such, they represent lands that were earning a CRP rental payment and were not available for cropping during fiscal year 2006, which began October 1, 2005 and ended September 30, 2006.

The report includes a summary of FY 2006 CRP related activities, FY 2006 CRP outlays by payment type, enrollment changes since FY 2005, continuous CRP enrollment activity, outlay and sign-up history, CRP practice and payment provisions, and environmental benefits index (EBI) history.

The enrollment tables are based on contract data developed and maintained in CRP data files by Farm Service Agency (FSA) county offices and are based on the physical location of the CRP contracted land.

The report was prepared by Alex Barbarika, Natural Resources Analysis Group, Economic and Policy Analysis Staff (EPAS), Farm Service Agency (FSA), U.S. Department of Agriculture. Assistance from FSA's Conservation and Environmental Programs and Budget Divisions, and others in EPAS are greatly appreciated.

Conservation Reserve Program

Enrollment Statistics and Program Summary

2006 Fiscal Year

ACTIVE CONTRACTS, END OF FY 2006

| <u>Sign-up Type</u> | <u>Contracts</u> | <u>Farms</u> | <u>Acres</u> | <u>Annual Rental Payments b/</u> (\$Million) | <u>(\$/Acre)</u> |
|-------------------------|------------------|-------------------|-------------------|---|------------------|
| General | 408,584 | 269,764 | 32,449,279 | \$1,416 | \$43.64 |
| Continuous | | | | | |
| Non-CREP | 273,286 | 167,189 | 2,568,655 | \$228 | \$88.69 |
| CREP | <u>49,231</u> | <u>32,891</u> | <u>831,577</u> | <u>\$100</u> | <u>\$120.47</u> |
| Subtotal | 322,517 | 195,186 a/ | 3,400,233 | \$327 | \$96.46 |
| Farmable Wetland | <u>9,950</u> | <u>7,957</u> | <u>153,788</u> | <u>\$18</u> | <u>\$119.13</u> |
| Total | 741,051 | 426,688 a/ | 36,003,300 | \$1,762 | \$48.95 |

a/ Number of farms not additive across sign-up types because a farm may participate in multiple sign-up types.

b/ Approximates FY 2007 payments, before adjustments for haying/grazing, non-compliance, terminations, and part-year contracts. Includes annual incentive and maintenance allowance, but not one-time up-front signing and practice incentive.

Distribution of CRP by Sign-up Type

PROGRAM SUMMARY

Under the voluntary Conservation Reserve Program (CRP), the U. S. Department of Agriculture (USDA) establishes contracts with agricultural producers to retire highly erodible and other environmentally sensitive cropland and pasture. (The Farm Service Agency administers CRP on behalf of the USDA Commodity Credit Corporation.) During the 10- to 15-year CRP contract period, farmland is converted to grass, trees, wildlife cover, or other conservation uses providing environmental benefits, including improvement of surface water quality, creation of wildlife habitat, preservation of soil productivity, protection of groundwater quality, and reduction of offsite wind erosion damage. The program also assists farmers by providing a dependable source of income. The program was established by the Food Security Act of 1985, and was later amended by the Food, Agriculture, Conservation, and Trade Act of 1990, the Federal Agriculture Improvement and Reform Act of 1996, and the Farm Security and Rural Investment Act of 2002. While initially viewed as a supply control program targeted to highly erodible cropland, it has evolved in the intervening years to a primarily environmental program. As of February 2007, enrollment stands at 36.8 million acres.

The CRP is administered by USDA's Farm Service Agency with technical assistance from USDA's Natural Resources Conservation Service and Forest Service, and from other technical service providers. USDA provides participants with annual rental payments during the contract period and half the cost of establishing conservation covers. There are 2 primary ways for farmers and ranchers to participate in the CRP: general sign-up and continuous sign-up. Continuous sign-up includes the Conservation Reserve Enhancement Program (CREP) and the Farmable Wetlands Pilot Program.

General Sign-up. Landowners and operators with eligible lands compete nationally for acceptance based on an environmental benefits index (EBI) during specified enrollment periods. Producers may submit offers below soil-specific maximum rental rates to increase their EBI ranking.

Continuous (Non-CREP) Sign-up. Landowners and operators with eligible lands may enroll certain high priority conservation practices, such as filter strips and riparian buffers, at any time during the year without competition. In addition to annual soil rental payment and cost-share assistance, many practices are eligible for additional annual and one-time up-front financial incentives.

Conservation Reserve Enhancement Program (CREP). Under federal-state cooperative conservation efforts, landowners and operators implement projects designed to address specific environmental objectives through targeted CRP enrollments. Sign-up is held on a continuous basis, general sign-up practices may be included, and additional financial incentives are generally provided.

Farmable Wetland Program (FWP). Landowners and operators enroll small non-flood plain wetlands under modified continuous sign-up provisions.

LEGISLATIVE AND PROGRAMMATIC HISTORY

Title XII of the **Food Security Act of 1985** established the Conservation Reserve Program (CRP) to assist owners and operators in conserving and improving soil, water, and wildlife resources on their farms and ranches by converting highly erodible and other environmentally sensitive cropland and marginal pasture to long-term resource conserving covers. In exchange for annual rental payments and cost-share assistance of up to 50 percent of cover establishment costs, agricultural landowners and operators agree to establish and maintain an approved permanent cover on enrolled acreage for 10 to 15 years. The 1985 Act directed the Department of Agriculture to enroll 40 to 45 million acres by 1990 with a primary goal to reduce soil erosion on highly erodible cropland. Secondary objectives included protecting the Nation's long-run capability to produce food and fiber, reducing sedimentation, improving water quality, fostering wildlife habitat, curbing production of surplus commodities, and providing income support for farmers.

The **Food, Agriculture, Conservation, and Trade Act of 1990** extended CRP through 1995 and expanded the types of land eligible for enrollment to include lands that could reduce on-site or off-site threats to water quality if removed from production, and marginal pasture in riparian areas. Following 1990 Act passage, USDA's Farm Service Agency adopted new rental payment caps based on soil-specific productivity-based rental rates, and developed an environmental benefits index (EBI) to rank offers.

The **Federal Agriculture Improvement and Reform Act of 1996** re-authorized CRP enrollment through 2002 and set a maximum enrollment of 36.4 million acres at any one time. The EBI was revised to explicitly include a wildlife benefits component, which was given equal weight with soil erosion and water quality benefits.

Also in 1996, **FSA initiated** enrollment of selected practices, such as filter strips and riparian buffers, on a continuous basis without competition. An annual incentive payment equal to 20 percent of the annual rental rate was provided for many of these practices. In 1997, FSA created the Conservation Reserve Enhancement Program (CREP), further advancing CRP's environmental targeting. CREP authorizes State-Federal conservation partnerships that address specific State and nationally significant water quality, soil erosion, and wildlife habitat concerns related to agriculture. CREP enrollment is held on a continuous basis, enrollment may include both general and continuous sign-up practices, and additional financial incentives are generally provided. In 2000, up-front signing and practice incentives were established to further enhance continuous enrollment, including CREP. The Appendix contains descriptions of practices and corresponding payment provisions.

The **FY 2001 Agriculture Appropriations Act** established the Farmable Wetland Program (FWP), which provided for non-competitive enrollment under continuous sign-up provisions and incentives for up to 500,000 acres of small non-flood plain wetlands and adjacent upland in 6 States (Nebraska, Iowa, Minnesota, North Dakota, South Dakota, and Montana).

Farm Security and Rural Investment Act of 2002 extended CRP enrollment authority through 2007 and increased the enrollment cap by 2.8 million acres to 39.2 million acres. Basic cropland eligibility was re-defined to be land that has been cropped or considered cropped in at least 4 of the 6 years preceding enactment of the farm bill. Previously, basic cropland eligibility required cropping in at least

2 of the 5 year preceding sign-up. In addition, the 2002 Act permits managed harvesting of forage (subject to the requirement that environmental benefits be maintained or enhanced), and requires equal consideration be given for soil erosion, water quality, and wildlife in accepting lands into the program. Practices eligible under marginal pasture criteria, which have no cropping requirement, are expanded to permit appropriate vegetative covers, rather than requiring the land be planted only to trees.

Other changes included extending eligibility to field remnants made infeasible to farm where buffer practices are enrolled, cropland where enrollment would provide water conservation benefits, and land subject to expiring CRP contracts. The 2002 Act also expanded FWP from the original six States to all States and raised the enrollment cap to 1,000,000 acres, while keeping the 100,000 acre State maximum. While maximum wetland size is increased to 10 acres, only 5 acres are eligible to receive rental payments. The per-State 100,000 acre limit may be raised to 150,000 acres after review.

Re-enrollment and extension of 2007- to 2010-expiring contracts (REX). To ensure that CRP's benefits continue without interruption, FSA in 2006 offered holders of general sign-up contracts set to expire between 2007 and 2010 (27.8 million acres) the opportunity to re-enroll or extend their contracts. FSA divided expiring contracts into five categories (quintiles) based on environmental benefits index (EBI) scores of the land under contract. FSA offered the quintile with the highest EBI scores new 10- or 15-year contracts. The 2nd highest quintile was offered 5-year contract extensions, the 3rd highest was offered 4-year extensions, and so forth. This action will preserve farmers' ability to protect America's most sensitive agricultural lands. This summary does not provide details of this effort because data are still being compiled. However based on available information, we estimate that approximately 80% to 85% of the expiring acres will remain in the program.

Conservation Reserve Program Outlays (\$1,000) 1/

| Payment Category | FY 2002 | FY 2003 | FY 2004 | FY 2005 | FY 2006 |
|-------------------------------|--------------------|--------------------|--------------------|--------------------|--------------------|
| Annual Rental Payments | \$1,529,774 | \$1,572,601 | \$1,598,276 | \$1,630,585 | \$1,647,875 |
| Signing Incentive Payments | \$45,160 | \$39,612 | \$27,996 | \$25,304 | \$32,577 |
| Practice Incentive Payments | \$68,636 | \$60,369 | \$55,368 | \$49,238 | \$49,106 |
| Haying/Grazing Adjustments | (\$10,634) | \$2,001 | (\$10,465) | (\$11,316) | n.a. |
| Wetland Restoration Incentive | \$1,070 | \$989 | \$1,363 | \$1,289 | \$1,104 |
| Total Rental Payments | \$1,634,006 | \$1,675,572 | \$1,672,538 | \$1,695,100 | \$1,730,662 |
| Cost-Share Payments | \$143,460 | \$98,951 | \$116,966 | \$93,234 | \$99,702 |
| Total | \$1,777,467 | \$1,774,523 | \$1,789,504 | \$1,788,334 | \$1,830,364 |

1/ Not including technical assistance.

CRP BENEFITS

Reducing Soil Erosion

- Reduces soil erosion by an estimated 450 million tons per year, compared with pre-CRP erosion rates.
- Protects 25 million acres of highly erodible cropland from erosion, including 10 million acres of cropland with an erodibility index greater than 15.
- Protects 2 million acres from wind erosion in Texas and Washington air quality priority areas.
- Enrollment includes 122,000 acres of grassed waterways, stopping gully formation and preventing sediment and nutrients from impairing surface waters.

Enhancing Water Quality

- Protects surface waters from sediment and nutrient enrichment with enrollment of 1.8 million acres of streamside grass and forested buffers.
- Protects ground water quality by reducing nutrient levels in percolate. Enrollment includes 166,000 acres of cropland within State- or EPA-approved wellhead protection areas.
- Includes 1.1 million acres enrolled in the Chesapeake Bay watershed and Great Lakes basin National conservation priority areas, and 3.0 million acres enrolled in State-designated water quality priority areas.
- Includes 2.0 million acres of specific wetland restoration practices.

Expanding and Improving Wildlife Habitat

- The best measure of a program's effect on wildlife habitat is the response of key wildlife populations to the improved habitat. Four studies of CRP impacts on wildlife populations documented that:
 - In prime pheasant habitat, a 4 percent increase in CRP grassland acres was associated with a 22 percent increase in pheasant counts.
 - In Eastern Washington, sage grouse nesting was increasing in CRP sites as cover matured, and CRP enrollments were positively related to sage grouse populations.
 - Bobwhite quail were positively related to CRP, particularly for new enrollments in areas with high concentrations of grass.
 - CRP in the prairie pothole region greatly benefits duck populations, providing approximately 2 million additional ducks each year.
 - Each of the four studies found CRP had positive effects on most bird species.
- All 36 million enrolled acres provide wildlife and wildlife habitat benefits. Converting cropland to long-term conservation uses, including grass and tree plantings, wetland restorations, and conservation buffer installations, provide wildlife with feed sources, nesting and brood-rearing opportunities, as well as resting, lay-over, and winter cover.
- Includes 2.0 million acres of specific wetland restoration practices, plus another 1.2 million acres of cropland bordering and protecting cropped and non-cropped wetland.
- Significant wildlife enhancement practices also include:
 - 2.5 million acres of permanent wildlife habitat plantings. Seed mixtures provide multiple seasonal requirements for wildlife of local or regional concern.

- 1.8 million acres of riparian area grass and forested buffers.
- 985,000 acres of rare and declining habitat.
- 52,000 acres of shallow water areas for wildlife.
- 82,000 acres of wildlife food plots.
- 118,000 acres of upland bird habitat buffers under the Northern Bobwhite Quail Initiative.
- 210,000 acres of longleaf pine forests.
- 25,000 acres of bottomland hardwood tree plantings.
- Includes 8.3 million acres enrolled in the Prairie Pothole region providing habitat important for migratory waterfowl, grassland birds, and dependent species.
- Includes 4.5 million acres enrolled in State-designated wildlife habitat priority areas.

Sequestering Carbon

- Sequesters 50 million metric tons of carbon dioxide annually in soils and vegetation on enrolled lands.

Restoring and Protecting Wetlands

- Over 3.2 million acres of wetland and associated cropland under contract includes:
 - 2.0 million acres of specific wetland restoration practices.
 - 1.2 million acres of cropland bordering and protecting cropped and non-cropped wetland.
 - 1.6 million acres of restored wetland and adjacent upland enrolled under general sign-up provisions prior to 2002.
 - 91,000 acres of flood plain wetland restorations and 21,000 acres on non-flood plain and playa lakes restorations.
 - 154,000 acres of small non-flood plain wetlands enrolled in the Farmable Wetland Program.
 - 25,000 acres of bottomland hardwood tree plantings.

1/ Contracts that were in effect at end of FY.

For CRP, program year is same as fiscal year, and runs from October 1 to September 30.

Continuous CRP Enrollment Over Time

CRP ACTIVITIES, FY 2006

October

- Secretary Johanns announces CRP payments of \$1.83 billion in FY 2006 for lands enrolled as of September 30, 2005.

January

- Secretary Johanns announces early re-enrollment and extension (REX) opportunity to holders of 2007-2010 expiring contracts. Also announces a general sign-up will be held in the spring.
- FSA establishes website commemorating CRP's 20th anniversary.

March

- Secretary Johanns announces CRP lands in Oklahoma and Texas to be opened for haying and grazing in response to wildfires. Cost-share will be provided for re-establishing CRP lands damaged by wildfires.
- Secretaries Norton and Johanns report showing net gain of 191,800 acres of wetlands between 1998 and 2004. Wetlands restored and enhanced in CRP help America reverse wetland losses and achieve net gain.

April

- Secretary Johanns announces two new CREP agreements with Colorado: the 35,000-acre Republican River CREP and 30,000-acre High Plains CREP.

May

- Secretary Johanns announces 100,000-acre Idaho Snake River CREP agreement.
- Secretary Johanns announces soil erosion on U.S. cropland declined 43 percent between 1982 and 2003. Enrollment of highly erodible lands in CRP has significantly contributed to the 43-percent decline.

June

- Secretary Johanns announces sign-up for Emergency Forestry Conservation Reserve Program, established to assist landowners and operators in restoring and replanting forestland damaged by hurricanes that occurred in 2005.
- USDA announces holders of 16 million acres under 2007-expiring contracts have indicated intentions to re-enroll or extend contracts on 13 million acres.
- USDA announces results of general sign-up 33:
 - Received 22,990 offers on 1.4 million acres.
 - 1.0 million acres accepted. Contracts begin October 1, 2006 (FY 2007).

July

- USDA announces expansion of eligibility for emergency haying and grazing to States affected by drought, and that the 25 percent rental payment reduction would be reduced to 10 percent.

August

- FSA announces Duck Nesting Habitat Initiative to restore 100,000 acres of wetland and surrounding upland nesting habitat in the Prairie Pothole region.

September

- Secretary Johanns announces expansion of emergency haying and grazing eligibility to 30 States, and extension of approvable grazing dates.
- FSA announces addition of practices eligible for the 67,000-acre Ohio Lake Erie Water Quality CREP agreement.

| 1999 | 29.8 | \$1,320 | \$115 | \$0 | \$1,435 | \$56 | \$1,491 |
| 2000 | 31.4 | \$1,332 | \$133 | \$10 | \$1,476 | \$35 | \$1,511 |
| 2001 | 33.6 | \$1,396 | \$150 | \$78 | \$1,625 | \$32 | \$1,657 |
| 2002 | 34.0 | \$1,519 | \$143 | \$114 | \$1,776 | \$20 | \$1,796 |
| 2003 | 34.1 | \$1,575 | \$99 | \$100 | \$1,774 | \$55 | \$1,829 |
| 2004 | 34.7 | \$1,588 | \$117 | \$83 | \$1,788 | \$60 | \$1,848 |
| 2005 | 34.9 | \$1,620 | \$93 | \$75 | \$1,788 | \$75 | \$1,863 |
| 2006 | 36.0 | \$1,648 | \$100 | \$82 | \$1,830 | \$80 | \$1,910 |
| Total | -- | \$28,937 | \$2,012 | \$542 | \$31,491 | \$747 | \$32,238 |

1/ Rental payments in a fiscal year apply to acres under contract in the previous fiscal year. Includes miscellaneous adjustments and adjustments for haying/grazing usage.

2/ Cost-share payments are made after cover establishment work is done. For contracts beginning in a given year, payments can occur over several years.

3/ Signing and Practice Incentive payments for continuous sign-up enrollment.

4/ Technical assistance outlays are generally paid to NRCS and FS in the year sign-ups are held. About 90-95 percent of outlays have gone to NRCS and about 5-10 percent to FS.

* Contracts in effect September 30, 2006.

1/ Farmable Wetland enrollment not included.

2/ State in which land is located.

3/ Approximates FY 2007 payments, before adjustments for haying/grazing, non-compliance, terminations, part-year contracts. Includes annual incentive and maintenance allowance payments, but not one-time up-front signing and practice incentive payments.

Note: Data from Arizona, Hawaii, Nevada, and Rhode Island not reported because of confidentiality concerns. Data from these states are included in the totals.

* All general and continuous sign-up contracts in effect September 30, 2006.

1/ Erodibility is just one eligibility category and erosion reduction is one of three primary purposes. Other eligibility criteria include location within conservation priority areas, continuous/CREP practices, and wetland restoration practices. Other primary purposes include water quality improvement and protection and wildlife habitat enhancement.

Note: Data from Arizona, Hawaii, Nevada, and Rhode Island not reported because of confidentiality concerns. Data from these states are included in the totals.

Eligibility Criteria Met

By Erodibility Index Level *

CPA = conservation priority area

HEL = highly erodible land

* Percentage of CRP acreage in category (lands under contracts in effect as of September 30, 2006).

| 27 | Continuous | May 6, 2003 - September 30, 2003 | L, P, R | 184,660 |
| 28 | Continuous | October 1, 2003 - September 30, 2004 | L, P, R, S | 255,571 |
| 29 | General | August 30, 2004 - September 24, 2004 | K, N, Q | 1,102,877 |
| 30 | Continuous | October 1, 2004 - September 30, 2005 | L, P, R, S, T, U | 400,675 |
| 31 | Continuous | October 1, 2005- September 30, 2006 | L, P, R, S, T, U | 332,481 |
| 32 | 3/ | April 2006, June 2006 | Expiring Contracts | n.a. |
| 33 | General | March 22, 2006 - April 28, 2006 | K, N, Q | 926,699 |

1/ See attached eligibility criteria description.

2/ Acreage for sign-ups 1-13 based on initially approved contracts. Acreage for sign-ups 14-33 based on active contracts, as of December 2006.

3/ Re-enrollment of 2007-2010 expiring contracts.

Eligibility Criteria:

- A Land capability classes 6 - 8
- B Land capability classes 2 - 5 with predicted average annual erosion rate greater than 3T
- C Land capability classes 2 - 5 with predicted average annual erosion rate greater than 2T and with gully erosion
- D Land with EI \geq 8 and predicted average annual erosion rate greater than T
- E Land for filter strips alongside wetlands, streams, or other water bodies
- F Land for tree planting-eligible when 1/3 of field meets criteria A or Class 2-5 soil with predicted average annual erosion rate greater than 2T
- G Land having evidence of scour erosion caused by out-of-bank water flows
- H Wetland as follows:
 - cropped wetland of at least 6 acres
 - a field of which 1/3 or more is cropped wetland
 - a field of 6 to 9 acres on which wetlands are present
- I Land in designated national conservation priority areas
 - Chesapeake Bay Region
 - Great Lakes Region
 - Long Island Sound Region
- Land in designated State water quality priority areas
 - Public wellhead protection area established by EPA
 - Hydrologic Unit Areas approved by the Secretary
 - Land located in areas designated as Clean Water Act "319" priority areas
- J Lands to be established in specified eligible practices, including filter strips, riparian buffers, windbreaks, grass waterways, and salt tolerant grasses
wetland eligibility suspended
- K Land with an EI \geq 8, regardless of the predicted annual erosion rate relative to T
- L Eligible for continuous sign-up beginning with sign-up 14:
 - Land identified as suitable for field windbreaks, grass waterways, shallow water areas for wildlife, contour grass strips, shelterbelts, living snow fences, salt tolerant vegetation, filter strips, or riparian buffers
 - Marginal pasture land suitable for riparian buffers devoted to trees.
 - Land within a wellhead protection area established by EPA
- M Land classified as highly erodible land (HEL) according to conservation compliance provisions.
- N Land in designated national conservation priority areas
 - Chesapeake Bay Region
 - Great Lakes Region
 - Long Island Sound Region
 - Prairie Pothole Region
- O Land in designated State water, air, or wildlife quality priority areas
Wetlands, including associated acreage, expiring Water Bank lands, and land serving as buffers for non-cropped wetlands
- P Land suitable for cross wind trap strips
- Q Land in the Long Leaf Pine national conservation priority area
- R Wetland and buffer acreage according to Farmable Wetland Program provisions
- S Restoration of flood plain wetland, including bottomland hardwood tree plantings
- T Establishment of upland bird habitat buffers
- U Restoration of non-flood plain wetland and playa lakes

See attached footnotes

- 1/ Practices enrolled under CREP may be eligible for additional incentives.
- 2/ General sign-up practices may be enrolled under certain CREP agreements and may be eligible for additional financial incentives.
- 3/ Soil rental rates (SRR) are soil-specific maximum rental payment rates for predominant soils (up to 3) for the land offered. Beginning with general sign-up 16, producers offering land for general sign-up enrollment requesting rental payments below the maximum receive higher EBI scores. Participants in continuous sign-up receive the maximum allowable rate. Annual incentives of 20% and 10% of annual rental rate are provided as indicated. Practices enrolled under CREP may be eligible for additional incentives.
- 4/ For general sign-up practices, up to \$4/acre are allowed. For continuous practices, grass plantings are allowed up to \$4/acre, tree plantings are allowed up to \$7/acre. For CP21 and CP22, if livestock exclusion practices (alternative water sources or fencing) are implemented, up to \$9/acre is allowed, and if livestock exclusion is accompanied by tree plantings, up to \$10/acre is allowed.
- 5/ Signing incentive payments (SIP) implemented in June 2000 are up-front bonus payments of \$100 to \$150 per acre (\$10 per acre times contract length in years).
- 6/ Practice incentive payments (PIP) implemented in June 2000 equal 40-percent of practice installation cost.
- 7/ For marginal pasture, a county-specific flat rate is used.
- 8/ Acreage within EPA-designated wellhead protection area. Various practices may be used.

| Rental payment amount 1/ = a*(1-(Bid amount/b)) | a=190 b=165 | a=125 b=165 | a=125 b=165 | a=125 b=165 | a=125 b=185 | a=125 b=185 | a=125 b=204 |
| Cost-share | 10 | 10 | 10 | 10 | 10 | 10 | 10 |
| Amount below maximum rent | n.a. | 15 | 15 | 15 | 15 | 15 | 15 |
| Total | 200 | 150 | 150 | 150 | 150 | 150 | 150 |
| Total EBI Points | | | | | | | |
| Environmental components | 400 | 410 | 410 | 410 | 395 | 395 | 395 |
| Environmental+cost components | 600 | 560 | 560 | 560 | 545 | 545 | 545 |
| EBI cut-off for acceptance | 259 | 247 | 245 | 246 | 269 | 248 | 242 |

1/ a = points for cost
b = maximum bid allowed

For more information about this summary, contact Alex Barbarika at 202-720-7093 or at Alexander.Barbarika@wdc.usda.gov. Additional information on the Conservation Reserve Program is available on FSA's CRP website.

The U.S. Department of Agriculture (USDA) prohibits discrimination in all its programs and activities on the basis of race, color, national origin, sex, religion, age, disability, political beliefs, sexual orientation, and marital or family status. (Not all prohibited bases apply to all programs.) Persons with disabilities who require alternative means for communication of program information (Braille, large print audiotape, etc.) should contact USDA's TARGET Center at (202) 720-2600 (voice and TDD).

To file a complaint of discrimination, write USDA, Director, Office of Civil Rights, Room 326-W, Whitten Office Building, 14th and Independence Ave., SW, Washington, D.C. 20250-9410 or call (202) 720-5964 (voice or TDD). USDA is an equal opportunity provider and employer.
