

## CSREES National Facilitation of Volunteer Monitoring Efforts Additional Resources

### Equipment Suppliers:

*Two builders of monitoring equipment--Tom Lawrence of Lawrence Enterprises and Will Young of Aquatic Research Instruments--have earned especially high praise from volunteer monitoring groups.*

*"These suppliers really have the needs of volunteer monitors in mind," says Jeff Schloss, coordinator of New Hampshire Lakes Lay Monitoring Program. "They both have a lot of experience with volunteer groups, and they're willing to modify equipment to meet a group's needs."*
