

References to termination contained in the previous iteration of this provision were confusing to stakeholders. Accordingly, the Forest Service has deleted these references and has substantially revised provisions B8.34 and B8.36 to address, among other things, the Purchaser's right to terminate the contract under various circumstances. The revised version of this provision also clarifies that out-of-pocket expenses, in addition to a rate redetermination, shall be available to the Purchaser when a delay or suspension accompanies a contract modification. Additionally, the subsection addressing the provision's applicability has been revised to affirm the Purchaser's ability to exercise its rights under the Contract Disputes Act. Ambiguity in the previous iteration caused some stakeholders to believe that the Forest Service had attempted to eliminate these rights.

**6. B8.34 Contract Termination.** The Forest Service has divided the main provision governing contract termination into three separate parts to eliminate ambiguity that existed in the previous iteration, and, thereby, to remove stakeholders' uncertainty as to the Purchaser's rights and obligations. After the introductory part, separate parts address termination by the agency and termination by the Purchaser. In response to comments from stakeholders and after conducting its own analysis, the Forest Service has decided to make replacement timber volume and liquidated damages available as a remedy for termination and partial termination. The agency has qualified the availability of liquidated damages, allowing this remedy only if, after good faith negotiations, the parties cannot agree on the location or stumpage for the replacement volume. However, if replacement volume is less than the deleted volume, liquidated damages shall be applicable to the shortfall. The Forest Service believes that the availability of replacement volume and/or liquidated damages substantially improves the contracts' allocation of risk and ensures that the Purchaser shall be fairly compensated in instances of full or partial termination.

**7. B8.35 Out-of-Pocket Expenses.** The revision responds to comments from stakeholders that the list of out-of-pocket expenses was too limited. The provision now specifically includes expenses for road maintenance, dust abatement, and certain authorized improvements. Additionally, in order to foster consistent application, the provision specifically lists items that do not qualify as out-of-pocket expenses. These items are disallowed because they

are not directly related to the Purchaser's operations under the contract. To facilitate expeditious and accurate claims processing, the provision requires the Purchaser to submit documentation and supporting analysis for expenses that it has paid or that it has a legal obligation to pay.

**8. B8.36 Termination for Market Changes.** This revision provides another set of circumstances under which the Purchaser may terminate the contract for market change during a delay or interruption under B8.33.

**9. B9.13 Temporary Bond Reduction.** Consistent with the changes to B4.22 and B5.27, described above, the revision allows the Purchaser's performance bond to be temporarily reduced after 30 days during a delay or a suspension.

A side-by-side comparison of the specific differences between the existing contracts and the proposed revised contracts is available electronically and in paper copy as provided in the **ADDRESSES** section of this notice.

Dated: July 19, 2006.

Chief.

#### SUPPLEMENTARY INFORMATION:

##### Paperwork Reduction Act

Under the Paperwork Reduction Act, 44 U.S.C. 3501 *et seq.*, OMB must approve all "collections of information" by USDA Rural Development. The Act defines "collection of information" as a requirement for "answers to \* \* \* identical reporting or recordkeeping requirements imposed on ten or more persons \* \* \*." (44 U.S.C. 3502(3)(A)) Because the RFP will receive less than 10 respondents, the Paperwork Reduction Act does not apply.

### I. Funding Opportunity Description

This solicitation is issued pursuant to the Agriculture, Rural Development, Food and Drug Administration, and Related Agencies Appropriations Act, 2006 (Pub. L. 109–97), as amended by the Department of Defense Appropriations Act, 2006 (Pub. L. 109–148) directing funds “for a cooperative research agreement with a qualified academic institution to conduct research on the national economic impact of all types of cooperatives.” The Secretary of Agriculture has delegated the program’s administration to USDA Rural Development.

The primary objective of this cooperative research agreement program is to facilitate university research on the national economic impact of cooperatives. The research program will need to develop a methodology for collecting and assembling basic impact data on a periodic basis; apply the methodology to collect data and estimate economic impact of cooperatives; estimate cooperative specific community impact multipliers; and conduct other appropriate studies to examine the cumulative economic impact of cooperatives on their local communities.

The cooperative agreement proposal must address the following deliverables:

1. Development of a methodology for collection and assembly of basic impact data on a periodic basis. This methodology will need to account for cooperative organizational complexity, such as a single organization’s several local, regional, and national locations, as well as sector differences.

2. Application of the developed methodology, by major sector, to collect data and estimate economic impact of cooperatives. Data items to be collected/measured must include:

- Number and location of cooperatives,
- Volume measures appropriate for each sector (revenues, dollar value, and other appropriate size indicators),

- Number of persons impacted by the cooperative (members, patrons, or investors), and

- Number of full-time equivalent jobs and other economic impact variables.

Sectors for which summary data should be prepared include:

- Housing,
- Health care,
- Daycare/elder care,
- Financial services,
- Grocery/consumer retail,
- Business-to-business (wholesaling, manufacturing),
- Agricultural marketing (including organic and conventional),
- Agricultural supplies and services,
- Public services (including transportation and education),
- Biofuels, and
- Utilities.

3. Creation and population of a database for individual cooperative and summary data collected. Database is to be delivered to USDA Rural Development.

4. Estimation of cooperative specific community impact multipliers for each of the following four categories or classes of cooperatives:

- i. Commercial sales or marketing—includes farm supply and marketing, grocery and consumer goods, business-to-business, emerging ethanol and biofuels related industry, and manufacturing.
- ii. Social and public services—includes housing, health care, day care/elder care, transportation, and educational services.
- iii. Financial services—includes credit unions, banks, and mutual insurance.
- iv. Utilities—includes electric, telephone, water, waste, and other regulated utilities.

5. Performance of subcontracting services, oversight, and financial controls for the overall project.

6. Submission of quarterly progress reports and quarterly financial reports to USDA Rural Development.

7. Preparation and submission of publishable quality written reports for Deliverables 2 and 4 to USDA Rural Development.

USDA Rural Development will competitively award one cooperative agreement to fund the collection and analysis of data to determine the national economic impact of cooperatives. An institution of higher education may subcontract or collaborate with others on the research and data collection. A formal consortium of academic institutions is allowed.

### Definitions

The definitions at 7 CFR 3019.2 are incorporated by reference.

#### II. Award Information

*Type of Award:* Cooperative Agreement.

*Approximate Number of Awards:* 1.

*Approximate Average Award:* \$495,000.

*Floor of Award Range:* None.

*Ceiling of Award Range:* \$495,000.

*Anticipated Award Date:* September 15, 2006.

*Budget Period Length:* 24 months.

*Project Period Length:* 24 months.

### III. Eligibility Information

#### A. Eligible Applicants

Applicants must be institutions of higher education. Proposals may be submitted by public or private colleges or universities, research foundations maintained by a college or university, or private nonprofit organizations funded by a group of colleges or universities. Under the Lobbying Disclosure Act of 1995, an organization described in section 501(c)(4) of the Internal Revenue Code of 1986 (26 U.S.C. 501(c)(4)) which engages in lobbying activities, is not eligible to apply.

#### B. Cost Sharing or Matching

Matching funds are not required but are highly encouraged. Applicants must verify in their applications that matching funds are available for the time period of the agreement if the matching funds are required to complete the project. Matching funds must be provided by either the applicant or by a third party in the form of cash or in-kind contributions. Matching funds must be spent on eligible expenses and must be from eligible sources.

#### C. Other Eligibility Requirements

*Indirect Cost Eligibility:* Public Law 109–97, Sec. 708 states “No funds appropriated by this Act may be used to pay negotiated indirect cost rates on cooperative agreements or similar arrangements between the United States Department of Agriculture and nonprofit institutions in excess of 10 percent of the total direct cost of the agreement when the purpose of such cooperative arrangements is to carry out programs of mutual interest between the two parties.” Indirect costs in excess of 10 percent of the direct cost, therefore, will be ineligible for funding.

*Activity Eligibility:* A cooperative agreement reflects a relationship between the United States Government

and an eligible recipient where the principal purpose of the relationship is the transfer of money, property, services, or anything of value to the eligible recipient to carry out the desired research; and substantial involvement is anticipated between USDA Rural Development acting for the United States Government and the eligible recipient during the performance of the research in the agreement. A cooperative agreement is not a grant. Therefore, the project proposed must include a description of USDA Rural Development's substantial participation. USDA Rural Development may subsequently negotiate its participation before the cooperative agreement is executed.

Applicants that propose budgets that include more than 10 percent of total project costs that are ineligible for the program will be ineligible, and the application will not be considered for funding. However, if an application with 10 percent or less of ineligible costs is selected for funding, all ineligible costs must be removed from the project and replaced with eligible activities or the amount of the award will be reduced accordingly.

**Cooperative Agreement Period Eligibility:** Applications that have a timeframe of more than 24 months will be considered ineligible and will not be considered for funding. Applications that request funds for a time period ending after September 30, 2008, will not be considered for funding.

**Completeness Eligibility:** Applications without sufficient information to determine eligibility will not be considered for funding. Applications that are missing any required elements (in whole or in part) will not be considered for funding.

Other information requested on the form may be applicable, but the above-listed information is required for an application to be considered complete.

The DUNS number is a nine-digit identification number, which uniquely identifies business entities. Applicants can receive a DUNS number at no cost by accessing <http://www.dnb.com/us/> or calling (866) 705-5711.

2. Form SF-424A, "Budget Information—Non-Construction Programs." In order for this form to be considered complete, the applicant must fill out Sections A, B, C, and D. The applicant must include both Federal and any matching funds to be included.

3. Form SF-424B, "Assurances—Non-Construction Programs." In order for this form to be considered complete, the form must be signed by an authorized official and include the title, name of applicant, and date.

4. Title Page. The title page must include the title of the project as well as any other relevant identifying information. The length should not exceed one page.

5. Table of Contents. For ease of locating information, each proposal must contain a detailed Table of Contents immediately following the title page.

6. Executive Summary. A summary of the proposal, not to exceed one page, must briefly describe the project, including goals, tasks to be completed, and other relevant information that provides a general overview of the project. In the event an applicant submits more than one page for this element, only the first page submitted will be considered.

7. Eligibility Discussion. A detailed discussion, not to exceed four pages, will describe how the applicant meets the eligibility requirements. In the event that more than four pages are submitted, only the first four pages will be considered.

i. Applicant Eligibility. The applicant must first describe how it meets the definition of an institution of higher education.

ii. Purpose Eligibility. The applicant must describe how the project purpose is eligible for funding. The project purpose is comprised of two components. First, the applicant must describe how the proposed project consists of activities needed to determine the national economic impact of all types of cooperatives. Second, the applicant must demonstrate that the combined activities are sufficient to estimate the national economic impact of all types of cooperatives.

8. Proposal Narrative. The narrative must include the following information:

i. Project Title. The title of the proposed project must be brief, not to exceed 75 characters, yet describe the essentials of the project. It should match the project title submitted on the SF-424. The project title does not need to appear on a separate page. It can be included on the title page and/or on the information sheet.

ii. Information Sheet. A separate one-page information sheet listing each of the evaluation criteria referenced in this funding announcement followed by the page numbers of all relevant material contained in the proposal that address or support each criterion.

iii. Goals of the Project. A clear statement of the ultimate goals of the project must be included. There must be an explanation of how economic benefit will be measured.

iv. Workplan. The narrative must contain a description of the project and

set forth the tasks involved in reasonable detail. The description should specify the activity, who will perform the activity, during what timeframe the activity will take place, and the cost of the activity. Please note that one of the proposal evaluation criteria evaluates the workplan and budget. Applicants should only submit the workplan and budget once, either in this section or as part of the workplan/budget evaluation criterion discussion.

v. Proposal Evaluation Criteria. Each of the proposal evaluation criteria referenced in this funding announcement must be addressed, specifically and individually, in narrative form.

#### 9. Certification of Judgment.

Applicants must certify that the United States has not obtained a judgment against them. No Federal funds shall be used to pay a judgment obtained by the United States. It is suggested that applicants use the following language for the certification. “[INSERT NAME OF APPLICANT] certifies that the United States has not obtained a judgment against it.” A separate signature is not required.

10. Verification of Matching Funds. Applicants must provide a budget to support the workplan showing all sources and uses of funds during the project period. Applicants will be required to verify any and all matching funds, both cash and in-kind. All proposed matching funds must be specifically documented in the application. If the matching funds are to be provided by an in-kind contribution from the applicant, the application must include a signed letter from an authorized representative of the applicant verifying the goods or services to be donated, when the goods and services will be donated, and the value of the goods or services. Applicants should note that only goods or services for which no expenditure is made can be considered in-kind. If the applicant is paying for goods and services as part of the matching funds contribution, the expenditure is considered a cash match, and should be verified as such. If the matching funds are to be provided by a third party in cash, the application must include a signed letter from that third party verifying how much cash will be donated and when it will be donated. Verification for funds donated outside the proposed time period of the cooperative agreement will not be accepted. If the matching funds are to be provided by a third party in-kind donation, the application must include a signed letter from the third party verifying the goods or services to be donated, when the goods and services

will be donated, and the value of the goods or services. Verification for in-kind contributions donated outside the proposed time period of the cooperative agreement will not be accepted. Verification for in-kind contributions that are over-valued will not be accepted. The valuation process for the in-kind funds does not need to be included in the application, especially if it is lengthy, but the applicant must be able to demonstrate how the valuation was achieved at the time of notification of tentative selection for the award. If the applicant cannot satisfactorily demonstrate how the valuation was determined, the award may not be made.

If matching funds are in cash, they must be spent on goods and services that are eligible expenditures for this cooperative agreement program. If matching funds are in-kind contributions, the donated goods or services must be considered eligible expenditures for this program. The matching funds must be spent or donated during the agreement period. Some examples of acceptable uses for matching funds are: labor performing work required for the proposed project, office supplies, and travel expenses. Some examples of unacceptable uses of matching funds are: land, fixed equipment, buildings, vehicles, political activities, costs of preparing the application, and costs incurred prior to the effective date of the cooperative agreement. (See 7 CFR parts 3015 and 3019 for funds use eligibility rules.)

If acceptable verification for all proposed matching funds is missing from the application by the application deadline, the application will receive zero points for the Funding Match part of the evaluation criteria.

#### C. Submission Dates and Times

*Application Deadline Date:* August 30, 2006.

*Explanation of Deadlines:* Paper applications must be postmarked by the deadline date (see Section IV.F. for the address). Final electronic applications must be received by <http://www.grants.gov> by the deadline date. If your application does not meet the deadline above, it will not be considered for funding. You will be notified whether or not your application was received on time.

#### D. Intergovernmental Review of Applications

Executive Order (EO) 12372, Intergovernmental Review of Federal Programs, does not apply to this program.

#### V. Application Review Information

##### A. Criteria

All eligible and complete applications will be evaluated based on the following criteria and maximum point allowances. Failure to address any one of the following criteria by the application

- Definition of clear and objective measures of impact;
- Definition of specific measurement strategies for obtaining impact measures from each major cooperative sector and each category of persons impacted by cooperatives;
- Description of sound data collection and analysis methodology; and

2. Quality of Workplan (30 points). The quality evaluations will be based on whether the proposal outlines a sound plan of work that will meet the objectives in a timely and cost-efficient manner. Factors to be weighed by evaluators in scoring a proposal's workplan will include:

- How well the steps for carrying out the work are defined;
- The logic of the sequence of proposed steps and the likelihood they will achieve their intended result;
- The establishment of clear benchmarks and timetables to measure progress of the project;
- The detail, accuracy, and reasonableness of the project's proposed budget; and

3. Quality of personnel and management plan (20 points). The quality of the management plan and the personnel involved in carrying out the proposed project will be evaluated in terms of the capabilities of individuals and institutions to carry out assigned roles in an effective manner. Factors to be weighed by evaluators in scoring a proposal's personnel and management plan will include:

- Experience of project leaders and the lead institution in managing complex research projects;
- Clear understanding of business models and general economic development
- Evidence of management controls, progress measurements, and reporting systems within a structured project management plan; and

percentage match provided by the applicant and the level of support for the proposal from the cooperative community as evidenced by contribution of resources to the match and other indications of support.

- Up to 20 points will be awarded for matching funds provided by or arranged for by the applicant. Two points will be awarded for each 5 percent match, up to a maximum of 20 points for a 50 percent match.

- SF-424.
- SF-424A.
- SF-424B.
- Title Page.
- Table of Contents.
- Executive Summary.
- Applicant Eligibility Discussion.
- Purpose Eligibility Discussion.

All eligible and complete proposals will be evaluated by a team of at least three reviewers based on criteria 1 through 4 described in paragraph A of this section. Reviewers will represent the Rural Development broad mission area, and will include at least three employees of USDA.

Once the scores for criteria 1 through 4 have been independently completed by the three reviewers, the scores will be used to rank the proposals. If the three reviewers rank the best proposal differently then, with the aid of a facilitator, the three reviewers will develop a consensus ranking. If the three reviewers cannot reach a consensus, two additional reviewers will review the proposals and be added to the rankings. A final ranking will be obtained based on the consensus rankings of the three member review panel, or the average of the five reviewers' rankings. Final award recommendation will be sent to the Under Secretary for Rural Development for final selection concurrence.
