grant funds, to required cost-sharing or matching funds, or to other program income. Costs of that kind may be deducted from the gross income in order to determine how much must be treated as program income.

(b) The provisions of the grant award govern the disposition of income subject to this section. If the provisions of the grant award do not treat this kind of income, there are no USDA requirements governing its disposition. A recipient is not prohibited from imposing requirements of its own on the disposition of this kind of income which is earned by its subrecipients provided those requirements are in addition to, and not inconsistent with, any requirements imposed by the provisions of the grant award.

§ 3015.44 Royalties or equivalent income earned from patents or from inventions.

Disposition of royalties or equivalent income earned on patents or inventions arising out of activities assisted by a grant or subgrant shall be governed by the provisions of the grant or subgrant agreement. If the agreement does not provide for the disposition of the royalties or equivalent income, the disposition shall be in accordance with the recipient's own policies.

§ 3015.45 Other program income.

(a) This section applies to program income not treated elsewhere in this part which subsequently results from an activity supported by a grant or subgrant but which does not accrue until after the period of grant or subgrant support. An example is proceeds from the sale or rental of a residual inventory of merchandise created or purchased by a grant-supported workshop during the period of support.

(b) The provisions of the grant award govern the disposition of income subject to this section. If the provisions do not treat this kind of income, there are no USDA requirements governing its disposition. A recipient may impose requirements of its own on the disposition of this kind of income which is earned by its subrecipients provided those requirements are in addition to and not inconsistent with any require-

ments imposed by the provisions of the grant award.

§ 3015.46 Interest earned on advances of grant funds.

(a) Except when exempted by Federal statute (see paragraph (b) of this section for the principal exemption), recipients shall remit to the Federal government any interest or other investment income earned on advances of USDA grant funds. This includes any interest or investment income earned by subrecipients and cost-type contractors on advances to them that result from advances of USDA grant funds to the recipient. Unless the recipient receives other instructions from the responsible USDA awarding agency, the recipient shall remit the amount due by check or money order payable to the awarding agency. This requirement may not be administratively waived.

(b) In accordance with the Intergovernmental Cooperation Act of 1968 (42 U.S.C. 4213), States, as defined in the Act, shall not be accountable to the Federal government for interest or investment income earned by the State itself, or by its subrecipients, where this income is attributable to grants-in-aid, as defined in the Act.¹

(c) Recipients are cautioned that they are subject to the provisions of Subpart L for minimizing the time between the transfer of advances and their disbursement. Those provisions apply even if there is no accountability to the Federal government for interest or other investment income earned on the advances.
